

## HARPUR SLED

Harput Sled is a modern dining chair with a comfortable upholstered seat and backrest on a chrome plated steel base. Each leg is tipped with a plastic glide screwed into the foot. The seat has a steel structure with "S" shape springs for extra flexibility and strength. This steel frame is molded by an injecting polyurethane foam. Its sturdiness sled base that moves very smoothly on carpets has the chair especially preferred for lounge, restaurants, and other public areas.
