## Because Experience Makes the Difference

For the past 40 years, LSI Industries has distinguished itself as a provider of IMAGE-enhancing interior & exterior lighting fixtures, lighting controls and graphic solutions that leverage its advanced technology, design and manufacturing capabilities. LSI is truly a leading company that has demonstrated its dedication to quality, commitment to service excellence, product ingenuity, and overall strength - time and again, every step of the way.

For approximately 15 years, LSI Industries has offered downlight programs in traditional lighting technology options, however, the contents of this brochure represent an exciting new chapter for LSI as we proudly introduce our new LSI Origin™ brand LED Downlights & Track Lights.

LSI Corporate Headquarters in Blue Ash, OH and Assembly Facility in Los Angeles, CA

12,000 sq ft

## Retrofits & Residential

LSI's Origin™ brand Downlights are the perfect choice for upgrading existing incandescent, fluorescent, or metal halide recessed fixtures to energy-saving, modern and attractive LED technology. Glass pendants are available to match any décor.

# 6" LED One-piece Recessed Retrofit Kit

RETROFIT KITS

White Baffle (WB)

## PDL6K DESCRIPTION

A 6" Retrofit LED module & trim kit with E26 medium screw base for 6" IC/Airtight and Non-IC incandescent recessed downlights. Optional GU24 adapter for CFL housing. Designed for remodeling compatible 6" housings classified by ETL. High efficacy 120V DOB (Driver On Board) Module. Suitable for wet locations.

LED Quantity	1EA(DOB)
Input Voltage	120V, 220V-230V AC
Wattage	13.8W
Lumen	830
Efficacy LPW	60
Beam Angle°	100°
Color	2700K, 3000K, 4000K
CRI	80
Dimming	Triac
Lamp Life	Rated for 50,000 hrs at 70% lumen maintenance

Optical Unit

Housing (order separately)

# 6" LED One-piece Recessed Retrofit Kit

## PDL6K Features & Benefits

### LED Module

- Durable die-cast aluminum extrusion heat sink integrated with DOB LED module.
- Inner reflector provides more light and beam distribution.

### Lens

- Impact-resistant plastic.
- High lumen transmission and diffusing for even illumination.

### Mounting

- Precise formed steel torsion spring bracket adjustable for position to fit 6" housings.
- Torsion spring fit compatible housing with torsion spring mounting tabs.
- Easier trim installation by snap-on fit clip.

### Housing Compatibility

- All 6" aperture housings from Halo, Juno, Capril, Lithonia, Thomas, Prescolite.
- (brand names are trademarks of respective companies).

### Electrical Connection

- E26 medium screw-base Edison connector provides easy retrofit of incandescent housing.
- Also available: GU24 base twist-lock adaptor for compact fluorescent housing. (Optional)
- 120V LED Power Supply on-bed with customized IC chip.
- 10-100% Triac dimmable for most leading and trailing edge incandescent and low voltage dimmer switches.
- Driving circuit to prevent inrush current.
- Recommended for use max. 45 fixtures per run of a dimmer switch 600W loaded and max. 23 fixtures per a dimmer switch 300W loaded.

### Warranty

- LSI LED Fixtures carry a limited 5-year warranty.

# 6" LED Recessed Retrofit-Kit With E26 and GU24 Base Adapter

## PDL6KADJ Features & Benefits

### LED Module

- Aluminum extruded heat sink facilitates heat dissipation for maintaining constant light output, color and life of solid state components.
- Adjustable lamp direction in 358° rotation and 0~30° tilt.

### Lens

- Impact-resistant plastic.
- High lumen transmission and diffusing for even illumination.

### Mounting

- Precise formed steel torsion spring bracket.
- Torsion spring fit compatible housing with torsion spring mounting tabs.

### Electrical Connection

- E26 medium screw-base Edison connector provides easy retrofit of incandescent housing.
- Also available GU24 base twist-lock adaptor for compact fluorescent housing. (Optional)

### LED Power Supply Driver

- 10-100% dimmable for 120V electronic low voltage dimmer switches.
- Power factor >.90, THD <20% and has integral thermal protection.
- Driver mounts externally to the module, allowing future replacement, if needed.

### Warranty

- LSI LED Fixtures carry a limited 5-year warranty.

# 4" LED Residential New Construction Recessed

## LRD4 Features & Benefits

### Housing

- Galvanized steel housing, painted black.
- Housing can be adjusted for ceiling thickness up to 1-1/4".

### Junction Box

- Listed for through-branch circuit wiring. (Max.8) No 12 AWG 90°C branch-circuit conductors.
- (5)1/2" knockouts with true pry-out slots and (4) knockouts with Romex cable clamp.
- Ground wire provided on J-box.
- Provided listed quick connectors for easy snap-on wires. (Optional)

### Bar Hangers

- 24" Bar Hangers provide stability and support on joists and T-Bar Grid ceilings.
- Housing can be positioned at any point within 24" joist span.
- Score lines allow shortening for 12" joists without tools.

### Trims

- Available with baffle trims in white or black painted and haze clear reflectors.
- Available in the (2) different upper reflectors for each be MED (Medium spot beam): 30°, WFL(Wide flood spot beam): 45°.

### Optics

- Glass Lens: Textured fine surface of tempered glass providing high lumen transmission and diffuser for even illumination.

### LED Engine

- Heat sink and aluminum board for low heat operation.
- Uniform color temperature within 3 SDCM.

### LED Power Supply Driver

- 120-277V input high efficacy drivers with dimming by 0-10V dimmer switches.
- Power factor >.90, THD <20% with integral thermal protection.
- Emergency battery back-up: In-mounted to fixture or remote options available (consult factory).
- Driver mounts external to the module, allowing future replacement, if needed.
- Consult factory for optional Triac dimmable driver.

### Warranty

- LSI LED Fixtures carry a limited 5-year warranty.

# 4" LED Residential New Construction Recessed

## LRD4 Features & Benefits

### Housing

- Galvanized steel housing, painted black.
- Housing can be adjusted for ceiling thickness up to 1-1/4".

### Junction Box

- Listed for through-branch circuit wiring. (Max.8) No 12 AWG 90°C branch-circuit conductors.
- (5)1/2" knockouts with true pry-out slots and (4) knockouts with Romex cable clamp.
- Ground wire provided on J-box.
- Provided listed quick connectors for easy snap-on wires. (Optional)

### Bar Hangers

- 24" Bar Hangers provide stability and support on joists and T-Bar Grid ceilings.
- Housing can be positioned at any point within 24" joist span.
- Score lines allow shortening for 12" joists without tools.

### Trims

- Available with baffle trims in white or black painted and haze clear reflectors.
- Available in the (2) different upper reflectors for each be MED (Medium spot beam): 30°, WFL(Wide flood spot beam): 45°.

### Optics

- Glass Lens: Textured fine surface of tempered glass providing high lumen transmission and diffuser for even illumination.

### LED Engine

- Heat sink and aluminum board for low heat operation.
- Uniform color temperature within 3 SDCM.

### LED Power Supply Driver

- 120-277V input high efficacy drivers with dimming by 0-10V dimmer switches.
- Power factor >.90, THD <20% with integral thermal protection.
- Emergency battery back-up: In-mounted to fixture or remote options available (consult factory).
- Driver mounts external to the module, allowing future replacement, if needed.
- Consult factory for optional Triac dimmable driver.

### Warranty

- LSI LED Fixtures carry a limited 5-year warranty.

# 6" Architectural Grade Kit: New Construction Housing with LED Trim

## LAD6 Features & Benefits

### Mounting Ring

- 20-gauge CRS mounting ring, painted black. 1-5/8" deep collar for use with ceiling materials of various thicknesses.

### LED Module & Trim

- Aluminum extruded heat sink facilitates heat dissipation for maintaining constant light output, color and life of solid state components.
- Module construction includes LED, heat sink and lens.
- Heavy gauge aluminum reflector anodized in clear, haze, gold, champagne and pewter color finish. Reflectors with black and white milled groove baffle collar.
- Uniform color temperature within 3 SDCM.

### Junction Box

- Listed for through-branch circuit wiring. (Max.8) No 12 AWG 90 branch-circuit conductors. (4 in, 4 out)
- (5)1/2" knockouts with true pry-out slots and (4) knockouts with Romex cable clamp.
- Ground wire provided on J-box.

### Mounting Channel Bracket

- Butterfly Brackets provide up to 5" vertical adjustment which accommodates 1/2" EMT conduit (by others). Optional 27", 52" C-Channels, nailer bars, and suspended ceiling kit available. See accessories.

### LED Power Supply Driver

- 120-277V input high efficacy drivers
- Compatible with Triac (forward-phase or leading edge) / ELV (reverse-phase or trailing edge) and 0-10V dimmers
- Triac dimming only at 120 Vac.
- Deep dimming from 100% down to 1%
- Power factor > .90, THD < 20% and has integral thermal protection.
- Emergency battery back-up : Available in mounted to fixture or remote adjacent to luminaire (consult factory for exact application).
- Driver mounts externally to the module, allowing future replacement, if needed.

### Warranty

- LSI LED Fixtures carry a limited 5-year warranty.

Regressed lens trims are wet location listed.

Ceiling Cut-out: 8-1/8"

## LCD8 DESCRIPTION

8" commercial frame-in kits are (with LED module and integral reflector) are designed for use in non-insulated ceilings. Insulation material must be kept a minimum of 3" from fixture. High efficacy LED with dimmable driver and special optical diffuser allows high lumen transmission and light uniformity.

# 8" Commercial Frame-in Kit

## LCD8 Features & Benefits

### Mounting Frame

- Galvanized steel construction.
- Housing adjusts for ceilings up to 1-1/4" thick.

### LED Module & Trim

- Aluminum extruded heat sink facilitates heat dissipation for maintaining constant light output, color and life of solid state components.
- Module construction includes LED, heat sink and lens.
- Heavy gauge aluminum reflector anodized in clear, haze, gold, champagne and pewter color finish. Reflectors provided with black and white milled groove baffle collar.
- Uniform color temperature within 3 SDCM.

### Junction Box

- Listed for through branch circuit wiring. (Max .8 No 12 AWG 90 branch circuit conductors. [4 in, 4 out])
- (5) 1/2" knockouts with true pry-out slots and (4) knockouts with Romex cable clamp.
- Ground wire provided on J-box.

### Bar Hangers

- 24" Bar Hangers provide stability and support on joists and T-Bar Grid ceilings.
- Housing can be positioned at any point within 24" joist span.
- Score lines allow shortening for 12" joists without tools.

## Photometrics (Contact factory for IES file)

### LED Power Supply Driver

- 120-277V input high efficacy drivers
- Compatible with Triac (forward-phase or leading edge) / ELV (reverse-phase or trailing edge) and 0-10V dimmers
- Triac dimming only at 120 Vac
- Deep dimming from 100% down to 1%
- Power factor >.90, THD <20% with integral thermal protection.
- Emergency battery back-up: Available in mounted to fixture or remote adjacent to luminaire (consult factory for exact application).
- Driver mounts externally to the module, allowing future replacement, if needed

### Warranty

- LSI LED Fixtures carry a limited 5-year warranty.

### Listings

- cETLus Listed • State of California Title 24 • ENERGY STAR® Certified

### Quick-connect Case

In anticipation of rapidly-changing LED technological advancements, this product includes a special light engine quick-disconnect feature. This enables easy upgrades, as well as changes to the heatsink, chip and driver without any tooling.

## LCD5SQ Features & Benefits

### Junction Box

- Listed for through-branch circuit wiring. (Max. 8 No 12 AWG 90°C branch circuit conductors.)
- (5) 1/2" knockouts with true pry-out slots and (4) knockouts with Romex cable clamp.
- Ground wire provided on J-box.
- Provided listed quick connectors for easy snap-on wires. (Optional)

### Mounting Channel Bracket

- Commercial mounting kit provides up to 5" vertical adjustment. Accommodates 1/2" EMT conduit, optional HBC-24 bar hanger or lathing channels for T-bar grid or concealed spline ceiling.

### Heat Sink

- Aluminum extruded Heat sink facilitates heat dissipation for maintaining constant light output, color and life of solid state components.

### Optics

- Precisely designed Cell-Inner-Reflectors directly attached to individual LED source provides precise beam control and reduces glare.
- Glass Lens: Textured fine surface of tempered glass provides high lumen transmission and diffusion for even illumination.

### LED Engine

- COB (Chip on board) LED package.
- Heat sink designed by computer simulation and aluminum board for low heat operation.
- Electrical (No tools required).
- Uniform color temperature to 3SDCM

### LED Power Supply Driver

- 120~277V input high efficacy driver with dimming.
- Power factor >.90, THD <20% and has integral thermal protection.
- Driver mounts externally to the module, allowing future replacement, if needed.
- Consult factory for optional Triac dimmable driver.

### Warranty

- LSI LED Fixtures carry a limited 5-year warranty.

# 5" Square Architectural Downlight

## LAD5SQ Features & Benefits

- 20 gauge CRS black painted 5"X 5" square aperture housing adjusts for ceiling up to 1-1/4" thick.
- 120-277 input high efficiency drivers with capability to dim by;
  - 1) a TRIAC 120V electronic dimmer switch
  - 2) 0-10V dimmer switches.
- Semi-matte diffuser lower reflectors under the upper reflector.
- 60° cut-off to light source.
- Uniform color temperature to 3SDCM.
- Trims for straight downlight with flood lens.
- Light engine and driver can be replaceable through aperture below ceiling.
- Provided listed Jbox and adjustable height and mounting channel brackets.

### Quick-connect Case

In anticipation of rapidly-changing LED technological advancements, this product includes a special light engine quick-disconnect feature. This enables easy upgrades, as well as changes to the heatsink, chip and driver without any tooling.

### Triac Approved Dimmers

- Lutron: S-603PG, DVELV-303P, CT-103P, SELV-300P, DVCL-153P, DV-600P, MAELV-600, FAELV-500, TGCL-153P, TG-600P, S-600P, LG-600P, IPI06-1LZ, 6631-2, 6683-1W, IPE04, 6161, 6633-P, VPE06

# 6" COB LED Cylinder Wide Beam Reflector

CYLINDERS

## CYL6 Features & Benefits

### LED Module

- Durable aluminium extrusion heat sink integrated with COB (chip on board).
- Inner reflector provides more light and beam distribution.
- Uniform color temperature to 3SDCM.

### Reflector

- Anodized haze clear, gold, champagne, pewter color finished full reflectors. Also available: anodized reflectors with black.

### Housing

- Round seamless .060 thick spun aluminum, housing available in semi-matte white, black or silver finish.

### Heat Sink

- Aluminum extruded heat sink facilitates heat dissipation for maintaining constant light output, color and life of solid state components.

### LED Power Supply Driver

- 120-277V input high efficacy driver with dimming
- Compatible with Triac (forward-phase or leading edge) / ELV (reverse-phase or trailing edge) and 0-10V dimmers
- TRIAC dimming only at 120 Vac.
- Deep dimming from 100% down to 1%
- Power factor >.90, THD <20% has integral thermal protection.
- Driver mounts externally to the module, allowing future replacement, if needed.

### Wall Bracket

- Aluminum casted bracket secured to housing cross-bar by set screws.

### Warranty

- LSI LED Fixtures carry a limited 5-year warranty.

## MCAL DESCRIPTION

The Multiple Cluster LED Recessed Downlight is designed with higher advanced LED technology. Offered in new construction with 1 to 4 lamp version. Equivalent to PAR20 / MR16 size housing.

LED Quantity	1EA (COB)		
Input Voltage	120-277V AC		
Wattage	15W	20W	30W
Lumen	1067	1997	2755
Efficacy LPW	71	88.4	79.2
Beam Angle	28°	28°	28°
Color	3000K, 3500k, 4000K		
CRI	80 (standard), 90 (optional)		
Dimming	0-10V Standard, Triac Optional		
Lamp Life	Rated for 50,000 hrs at 70% lumen maintenance

# Multiple Cluster LED Recessed Downlight

MULTIPLE CLUSTER

## MCAL Features & Benefits

### Housing

- Non-IC rated new construction housing available from 2 lamp through 4 lamp models.
- Easy accessible from below ceiling.

### Junction Box

- Listed, through-branch circuit wiring. (max. 8) No 12AWG 90°C Branch circuit conductors. (4in, 4out)

### Trim

- Die casting powder coated trim and 0.75" overlap trim flange around the ceiling opening.

### Trimless

- Adjustable perforated mesh on trimless muddy frames in drywall/plaster ceilings, allowing the ceiling's mudding component to be applied.

### LED engine

- 1,2,3 or 4 -15W, 20W and 30W LED heads in 2700K~5000K color temp. Mounted on heat sink and adjustable lampholder up to 45 length x 45 width, and lock in position for the spot light into multiple directions. Color rendering index of 80 with color consistency over time.
- Uniform color temperature to 3 SDCM.

### Thermal Protector

- Dedicated Self resetting thermal detector for each 120V and 277V option on J-box deactivates fixture if overheating occurs due to improper lamping or mis-applied insulation.

### LED Power Supply Driver

- High efficiency driver more than 90% power factor for universal 120V~277V 60Hz 0~10V dimmable driver. Installed on junction box door for easy access below ceiling. Meets UL class 2, FCC47CFR class B compliant.

### Mounting

- Channel bracket kit provides 5" vertical adjustment accommodates 1/2" EMT conduit, optional HB-24 or HBC-24 bar hanger or lathing channels for T-bar grid or concealed with spline ceiling.

### Warranty

- LSI LED Fixtures carry a limited 5-year warranty.

### Listing

- cCSA-us Certificated

# LSI Industries Limited Warranty

## LIMITED WARRANTY - LED Light Fixtures:

**LSI Lighting Solutions warrants cataloged LED Light Fixtures and LED components manufactured by LSI against defects in materials and workmanship for a maximum period of 5 years from date of original shipment from LSI as follows:**

• **Year 1** - LSI will replace, reimburse or credit 100% of the original purchase price of the defective components or light fixtures. LSI will pay directly or reimburse established labor costs or will utilize our network of certified contractors involved with the replacement or repair of defective LED components or complete light fixtures.

• **Year 2-5** - LSI will replace, reimburse or credit 100% of the original purchase price of the defective components or light fixtures. LSI will not reimburse or pay labor costs associated with replacement or repair of defective LED components and light fixtures.

At LSI's option, any product proven to be defective within the warranty periods described above will either be repaired, replaced, or credited. LSI reserves the right to replace defective fixtures or components utilizing the same or functionally similar products that are new, repaired or reconditioned. LSI WILL NOT HONOR ANY WARRANTY CLAIM WITHIN THE 5 YEAR WARRANTY PERIOD WITHOUT PRIOR WRITTEN APPROVAL. Contact our field service department at 1-800-436-7800 (ext. 3300) in order to obtain approval.

This warranty only covers items manufactured by LSI. This includes LED luminaires, Power Supplies and Modules. The above warranty does not include components or fixtures not manufactured by LSI. These items carry the warranty of their respective manufacturers. The paint finish warranty on LED light fixtures is listed below.

**LED MODULES** - Failure is defined as having 10% or more LEDs not illuminated in a light fixture. LEDs that fail within the manufacturer's warranty period will be exchanged. LSI will not honor a cash reimbursement claim to cover material charges for replacement material outside the first year from date of shipment. No charges for rental of equipment, travel time or labor will be accepted. LED modules are warranted for a period of 5 years; however the Warranty does not cover failures due to abnormal conditions. These abnormal conditions include, but are not limited to, under/over voltage, under/over current, excessive switching and excessive ambient temperatures. LSI reserves the right to determine what conditions are considered abnormal as a result of product failure.

## LIMITED WARRANTY - HID and Fluorescent Light Fixtures and Poles:

LSI Lighting Solutions warrants cataloged HID and Fluorescent Light Fixtures and Poles manufactured by LSI against defects in materials and workmanship for a period of 2 years from date of shipment. LSI will replace, reimburse or credit 100% of the original purchase price of the defective HID and Fluorescent light fixtures or poles. At LSI's option, any product proven to be defective within the 2 year warranty period will either be repaired or replaced utilizing the same or functionally similar product that is new, repaired or reconditioned. Replacement part warranty starts from the original order ship date. LSI will not reimburse or pay labor costs associated with replacing or repairing defective HID or Fluorescent light fixtures or poles.

**BALLASTS** - Ballasts, capacitors, and ignitors are warranted by the ballast manufacturers. Please check the manufacturer's published warranty for the ballast in question. Ballasts that fail within the manufacturer's warranty period will be exchanged by the local ballast manufacturers' authorized distributor or by LSI, acting as their agent. The ballast manufacturer or its agents will honor a cash reimbursement claim to cover material charges for replacement ballasts, capacitors, or ignitors.

**LAMPS** - Lamps are not manufactured by LSI and are specifically excluded from this warranty. No claims for replacement of defective lamps or labor associated with such replacement will be accepted. Contact the lamp manufacturer for warranty assistance.

**POLES** - All LSI poles are guaranteed to meet the EPA requirements listed. LSI is not responsible if a pole order has a lower EPA rating than the indicated wind-loading zone where the poles will be located. EPA ratings are for locations 100 miles away from hurricane ocean lines. Note: Hurricane ocean lines are the Atlantic and Gulf of Mexico coastal areas. For locations within the Hurricane zone, or areas outside the United States contact LSI for the pole EPA for your location. This warranty does not apply to fatigue damage or failure resulting from induced vibration and/or harmonic vibration caused by the movement of air currents around the product or by any other local condition.

BANNERS, FLAGS, STREAMERS, SIGNS AND OTHER EXTRANEEOUS ITEMS ATTACHED TO POLES VOIDS ALL POLE WARRANTIES AND MAY CREATE SEVERELY HAZARDOUS CONDITIONS. LSI accepts no responsibility for harm or damage caused in these situations.

## LIMITED WARRANTY - Light Fixture and Pole Paint Finishes

**POLE FINISHES** - LSI poles feature the Dura Grip® baked-on polyester-powder finishing process. The Pole finish is warranted for 5 years from date of shipment against cracking, peeling, chalking or fading. Dura Grip® Plus coated poles are warranted for a period of 7 years from the date of shipment.

**OUTDOOR FIXTURE FINISHES** - LSI fixtures feature the Dura Grip® baked-on polyester-powder finishing process. The fixture finish is warranted for a period of 5 years from date of shipment against cracking, peeling, chalking or fading.

**INDOOR FIXTURE FINISH** - The indoor fixture finish is warranted for normal indoor use for a period of 2 years from date of shipment. **COMPOSITE FIXTURES** - Composite fixtures are warranted for a period of 5 year from date of shipment against corrosion.

**CAUSTIC OR CORROSIVE ENVIRONMENTS** - Fixtures and Poles manufactured and painted by LSI may be damaged by highly caustic or corrosive environments. Such environments may include, but are not limited to, seashore and marine applications, chemical processing facilities, highly watered or fertilized environments and car washes. While many of LSI's products can be safely applied in these locations, their useful life, including the painted surfaces, may be reduced due to the conditions found in these harsh environments. LSI cannot warrant its products against these severe conditions.

**FIXTURE AND POLE PAINT FINISH WARRANTY CLAIMS** - If during the warranty period the exterior coating shows signs of failure, the Buyer must notify LSI in writing and furnish proof of purchase within 60 days of such failure or deterioration becoming evident. Components will be repaired or replaced at the discretion of LSI. LSI will, at its option, reimburse the customer for the cost to repair the components or will make replacement components available from LSI's factory. Transportation, removal, and installation costs are not included in the replacement.

## TERMS AND CONDITION OF LIMITED WARRANTY:

**PROPER INSTALLATION** - LSI will warrant Light fixtures, components or poles provided products are properly installed following the directions in the product's installation instructions, in their intended application and used in compliance with all applicable local, state and national safety regulations and codes. LSI will not warrant products damaged due to installer connections and/or assembly errors.

**EXCLUDED FROM LSI LIMITED WARRANTY:** Both limited warranties only cover items manufactured by LSI. The above limited warranties also do not include equipment and components not manufactured by LSI (See above limited warranties). These items carry the warranty of their respective manufacturers. The Limited Warranty also excludes damage or failure caused by acts of God, falling objects, explosion, fire, misuse or abuse in application (see product spec sheets for application guidelines), or any other such occurrences beyond LSI's control are also not warranted. No charges for rental of equipment, travel time or labor will be accepted.

**ELIGIBILITY-** The limited warranty may be transferred to subsequent purchasers of the product, provided that the product is resold in new condition and in its original packaging.

**MAINTENANCE** - Poles and Light Fixtures must be inspected and maintained at least annually. Repair of the finish along with structural and electrical components must be conducted on a regular basis to ensure a safe and attractive product.

**PROPER HANDLING AND STORAGE** - LSI shall claim the warranty to be null and void if the coating fails due to circumstances beyond its control including damage during shipping, handling, unpacking, or installation; damage caused by moisture or other contaminants entrapped between protective packaging materials and coated surface, thus constituting improper storage, prior to placement in service; damage or failure caused by acts of God, falling objects, external forces, explosion, fire, misuse or abuse in application, or any other such occurrences beyond LSI's control.

**RIGHT TO EXAMINE** - LSI Industries reserves the right to examine all products and/or any associated component to determine the cause of failure and pattern of usage. LSI may require the material be returned to LSI, as part of the evaluation process. LSI Industries reserves the right to be the sole judge as to whether any items and components are defective and or covered under this warranty.

**CHANGES** - LSI reserves the right to make modifications or changes to any of its products, pricing, Limited Warranty and Terms and Conditions without prior notice.

This warranty is exclusive in lieu of all other warranties whether written, oral, expressed or implied and shall constitute the sole and exclusive remedy of Buyer and liability of LSI. LSI is not liable nor warrants the installers and their installation. LSI's products are not sold as a "consumer product" under 15U.S.C. 2301.
