

Renovating a room is now quicker! Get in, get out, and return the area to a functional revenue-generating space with Flip™ Spray Adhesive.

Armstrong, the world leader in flooring, is adding Flip™ Spray Adhesive to its vast portfolio of flooring and installation products. The same confidence in quality and performance you've come to expect from Armstrong products continues with this new adhesive, specially developed for use with Luxury Vinyl Tile (LVT), Vinyl Sheet and Vinyl Composition Tile (VCT).

Once the contractor completes your installation, the durable performance of the adhesive allows you to immediately return to the space. Using Armstrong flooring and Flip Spray Adhesive together provides an innovative solution for quick turns, fully backed by the Armstrong Guaranteed Installation System.

Flip Spray Adhesive was developed to maximize the beauty of Armstrong flooring, especially in the presence of heavy foot traffic and rolling loads. The adhesive's heavy-duty performance provides you peace of mind with each installation.

Employees, visitors, and customers reap the rewards of this environmentally friendly product through immediate use of the space with no unpleasant odors. It meets environmental standards for indoor air quality and is FloorScore® third-party certified.

Combining Armstrong flooring with Flip Spray Adhesive provides a quick solution in the most demanding conditions. Ask your contractor today about Flip Spray Adhesive, the newest flooring transformation solution for your revenue-producing spaces.

Beautiful spaces are finished quickly.

Durable in high traffic areas. Perfect for healthcare and retail environments.
