DESCRIPTION

The ASYX 2.0 second generation of asymmetric lighting is designed for general ambient illumination and accenting architectural features. The luminaire allows for both forward and wide distributions as well four different color temperatures to accommodate any space. The ASYX 2.0 utilizes the patented and highly efficient AccuLED Optics™ system for industry leading performance. IP66 rated and optional natatorium finish.

SPECIFICATION FEATURES

Construction
Heavy-wall die cast aluminum end caps with extruded aluminum housing. Housing fins allow for air flow and thermal management. Fixture is rated to 40˚C. Weight: 42 lbs/ fixture head (Includes housing and knuckle. Pendant stem weight varies)

Electrical
Standard drivers feature electronic universal voltage (120-277V/ 50-60 Hz), greater than 0.9 power factor, less than 20% harmonic distortion, and ambient temperature range of 40˚C (104˚F) to minimum starting temp of -30˚C (-22˚F). 0-10V dimming standard with DALI option available. Max amp draw @120V is 1.5 Amps.

LED Optics
ASYX 2.0 luminaire utilizes patented, high efficiency AccuLED Optics with specific optical distributions. Each lens is injection molded for precision, arranged and sealed onto a board substrate. LEDs are industry leading high output with standard product at 93% lumen maintenance at 60,000 hours. Offered in 80+ CRI for 2700K, 3000K, and 3500K CCT, and 70+ CRI for 4000K CCT. The ASYX 2.0 also offers +/- 90˚, or 180˚ rotated optics.

Mounting
Die cast adjustable knuckle, bolts to housing. Fixture mounts to recessed junction box (by others) using wall plate, or surface mount box with conduit entry option. See installation instructions for mounting conditions to ensure adequate support. Fixture has continuous adjustability, 20˚ up to 20˚ down with locking mechanism, as well as upward facing or downward facing.

Finish
Fixture housing is coated using electrostatically charged polyester powder coat paint for superior protection against fade and wear. Mounting plate and all accessories to match specified color of luminaire housing. Standard colors include white, silver, black, bronze, and custom RAL color match available.

Compliance
Components are UL recognized and luminaires are cULus listed for 40˚C ambient environments, wet location listed, and RoHS compliant. IP66 Rated.

Environment
Suited for indoor, outdoor (wet location listed, IP66 rated)

Natatorium
Construction consists of specialized protective coating on all metal components, stainless steel hardware, and sealed LEDs. 80% lumen maintenance at 60,000 hours. Salt Fog testing per ASTM B117-73.

Control
Standard offering is 0-10V dimming and energy saving integral sensor device available. 0-10V dimming current draw is 0.2 mA per driver. Digital Addressable Lighting Interface (DALI) driver option can be used with Fifth Light Technology.

Life and Warranty
Standard five-year limited warranty on all parts.

[43.13 mm]

0.95″
[24.36 mm]
**SV -** The integral sensor is a fully integrated sensor with no additional wiring or special installation required. Passive infrared occupancy detection is the technology used and the light sensor uses a closed-loop daylight harvester with day, twilight and night settings. Energy Saver setting dims to a lower light level when unoccupied. An infrared receiver is used for programming with a remote control. Indicator light is used for occupancy status and programming confirmation. Integral sensor only controls one fixture unit.
ISHH-01-A - Programming Remote for Integrated Sensor
**ISHH-02-A -** Personal Control Remote for Integrated Sensor

AIMING

The ASYX 2.0 features +/-20˚ adjustable aiming as standard

+20˚
-20˚

RM - Optional rigid knuckle mount for downward facing, fixed applications. Available in standard optic orientation only.

47.53″
[1208 mm]
FM - Optional flush mount option for minimized affect. FM option is not adjustable.

47.53″
[1208 mm]

TECHNICAL NOTES

1. Integral Sensor cannot be selected in "D", downlight orientation. Integral sensor available in single circuit option only and is not available with DALI option. Integral sensor optimum coverage height: 8ft for SL/S1/S2 and 40ft for S3/S4/L3/L4/L5/L6. Integral sensor color is white for "White" finish selection and brown for "silver, bronze, or black" finish selections.
2. See "Control" section for explanation.
