

DESCRIPTION

Boca 696 is a compact 6-1/4" diameter by 9-1/4" deep in-ground LED luminaire. The adjustable lamp assembly provides +/- 22° vertical tilt and 360° horizontal rotation for precision uplighting, wall washing or general illumination in constricted areas. Designed for recessed mounting in concrete, brick, stone or dirt, it is suitable for drive-over applications. Fixture is also suitable for recessed mounting in indoor or outdoor wood flooring. A surface mount trim option is also available. Various lenses, louvers and color or dichroic filters can be combined – up to three at once – to create multiple lighting effects.

SPECIFICATION FEATURES

Construction

Recessed housing is constructed from corrosion-resistant, glass reinforced polyester BMC molding compound and includes two 1/2-14 NPSM conduit fittings for through wiring. Recessed housing and trim ring are sealed with a high temperature silicone molded gasket to prevent water intrusion. The painted trim ring is precision machined from corrosion resistant 6061-T6 aluminum. The trim ring is also available in machined C360 brass, C932 bronze*, C10 copper or 303/304 stainless steel, brass, bronze* or machined copper.

Finish

The painted trim is double protected by a ROHS* compliant chemical film undercoating and polyester powder coat finish. A variety of standard colors are available or RAL and custom color matches are available upon request. Trims constructed from brass, bronze*, copper and

stainless steel are left unpainted to reveal the natural beauty of the material. Brass, bronze* and copper will patina naturally over time.

Lens

Minimum 1/4" thick tempered glass lens, factory sealed with high temperature adhesive to prevent water intrusion. Suitable for drive-over applications up to 5000 pounds.

Hardware

Stainless steel hardware is standard to provide maximum corrosion-resistance.

Electrical

When ordered as a line voltage fixture, an integral 12V magnetic transformer is included for connection to 120V, 230V, 240V, or 277V line voltage (specify). When ordered as a low voltage fixture, a remote 12V transformer is required (not included). Dimming only available for 120V option. See technical notes for compatible dimmer switches.

LED Modules

LED modules are included and are available in four color temperatures (2700,3000,4000,5700) or Amber (585-595nm) and three distributions (spot, narrow, and flood). Both color temperature and distribution must be specified when ordering. Module has a L70 / 60,000 hour rating.

Warranty

Lumière warrants its fixtures against defects in materials & workmanship for three (3) years. Auxiliary equipment such as transformers carry the original manufacturer's warranty.

Recessed Housing

Recessed housing is available to ship in advance of complete fixture for rough-in purposes. Specify option -LBB and order separately the accompanying recessed housing from below.

TECHNICAL INFORMATION

- When selecting integral transformer option, dimming is only possible at 120V using a magnetic dimmer switch. There are two compatible magnetic dimming switches: Lutron Ariadni AVL-600P and Lutron Diva DVLV-600P
- When selecting low voltage option dimming is dependant on remote transformer compatibility with LED module.
- IMPORTANT:** For the low voltage option - when sizing the transformer use 9 watts for 6LED or 15 watts for 10LED option fixture. Nominal power draw after start up is 6 watts or 10 watts accordingly. The LED module is designed to operate between 10 and 13 volts. Any less or more voltage can cause premature failures.
- IMPORTANT:** Apply gray duct sealing compound (not included) to completely seal the wires inside the bottom male conduit nipple. Completely seal the bottom of the fixture. The gray duct sealing compound by itself cannot seal the hubs. We recommend using re-enterable potting seal material such as 3M High Gel 4442 re-enterable encapsulant (not included) to completely seal the bottom of the fixture and the conduit lines.
- Suitable for installation in combustible materials such as wood decking.
