

DESCRIPTION

The Shade-in-Shade Drum is a 2-tiered fabric shade using an outer transparent Organza for a light and airy appearance. Alternate outer shade fabrics may be selected for custom orders. The integrated LED light sources, available in 827, 830, 835 and 840 color choices, evenly illuminate the shade and bottom lens. Shaper's Fabrique Collection is known for its high quality hand-tucked fabrics, heavy gauge steel frame, laminated styrene backing and minimal internal structure. 3 sizes of shade allow this design to be used in a range of applications.

SPECIFICATION FEATURES
