**Akira**  
conference + classroom tables

**Steelcase**

# Multi-use designed for ease of use.

Designed for multi-purpose, Akira® is a high-performance table that meets the changing needs of active spaces. Efficient features enable one person to set up, configure, take down and store with ease. Folded tables nest, enabling low density storage and creating minimal footprint.

STATEMENT OF LINE

adjustable tables have an inner  
column that is always matte black  
anodized, regardless of base finish  
specified. Wings on flipping tables  
are always silver powder coat.

Colors are representative and may vary slightly  
from actual material. For further options, visit us online.

SUSTAINABILITY

At its heart, sustainability at Steelcase is about people. It's about  
creating and supporting the economic, environmental and social  
conditions that allow people and communities to reach their full potential.

Research and insights direct our path.

It's not only about creating goods, it's about creating good. It's not  
only about creating value, it's about living our values. It's not just about  
reducing our footprint, it's about expanding our reach. It's about  
creating lasting and meaningful change to enable the long-term  
wellbeing of current and future generations.

Innovative products and solutions result.

In the development of our products, we work to consider each stage  
of the life cycle: from materials extraction, production, transport,  
use and reuse, until the end of its life. We demonstrate performance  
through third-party verified certifications and voluntary product declarations.

Steelcase's sustainability promises, actions, and results are  
communicated in an annual Corporate Sustainability Report.
