

# Folding Grab Bars - Vinyl Coated

## Installation Instructions

Please read all instructions before installing products.

FIG.1

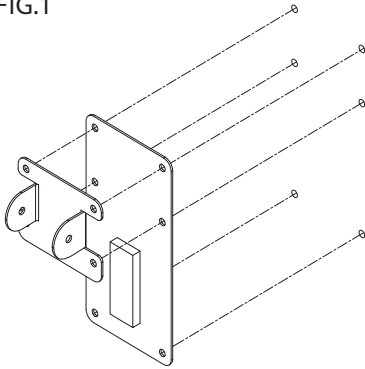

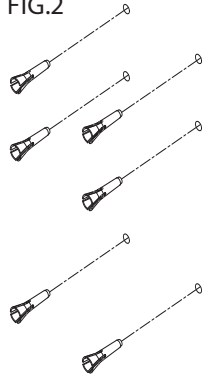

FIG.2

**Note:**

- Install grab bars into solid wall sub-structure or backing plates.

1. Use the base plate and pivot plate as a template for marking the mounting hole locations. *See Figure 1.*
2. Drill holes for the proper fasteners. If attaching to concrete substrate install plastic anchors as shown in *Figure 2.*
3. Attach pivot plate and base plate to the wall with the appropriate fastener. *See Figure 3.*
4. Position the cover on the grab bar as shown. *See Figure 4.*
5. Connect grab bar with hex head bolt, washers and nut to pivot plate. *See Figure 4.*
6. Tighten hex bolt and nut. *See Figure 5.*
7. Rotate the cover to align with the base plate, then snap cover into place. *See Figure 5.*

**Caution:** Avoid placing hands at pinch points.
