CertainTeed
SAINT-GOBAIN

Welcome to the 2018 CertainTeed Siding Collection

Higher Standards

Higher Standards and Greater Rewards are about the many

This starts with a comprehensive array of exterior products that allow your customers to express their unique personal style. CertainTeed products deliver higher standards in selection, beauty and performance.

In fact, CertainTeed offers the broadest selection of exterior products, styles and colors to achieve a full range of design options. No other company can match CertainTeed's portfolio of products. With all our products we offer freedom of choice for your customers to experiment with style, color and texture... the freedom to be creative, to mix and match and think beyond just four walls. Your customers will appreciate that you are providing them with the products and expertise to achieve their vision – no matter what their vision may be.

For you, higher standards mean focusing our extensive industry experience to help you navigate the challenging construction market. We pledge to support you with educational opportunities, contractor certification, rebate programs and comprehensive marketing tools that empower you with the knowledge and confidence to outpace your competition. Look to CertainTeed as your trusted partner for making a positive and lasting impression on every customer you meet.

Greater Rewards

ways CertainTeed helps you differentiate yourself to grow your business.

Earn greater rewards through more opportunities to grow your business by helping customers discover the finest roofing, siding, trim, fence, decking and railing that will transform the appearance of their homes.

Moreover, CertainTeed offers the 5-Star Contractor Program, the premier contractor program in the industry. 5-Star contractors are truly treated as partners. CertainTeed offers industry leading training programs, as well as sales, marketing and business-building tools, to provide contractors with the professional credentials necessary to stand out in today's marketplace. Plus, we make it easy for homeowners to find knowledgeable, skilled and trustworthy professionals through our robust "Find a Pro" website tool. No other program is as extensive or more focused on partnering with contractors for success.

At CertainTeed, we understand that our success is tied directly to your success.

Why CertainTeed?

Quality

Professionals agree, CertainTeed still leads the Vinyl and Polymer Siding industry

For the 21st year in a row, builders and contractors named CertainTeed Vinyl Siding Number One in the categories: Brand Familiarity; Brands Used in the Past Two Years; Brands Used Most and Highest Quality Brand in the 2017 Hanley-Wood Brand Use Study.

CertainTeed offers an industry-leading spectrum of colors including unique darker shades and semi-transparent stained colors for virtually unlimited design possibilities.

Utilizing the newest technology and state-of-the-art formulations, CertainTeed backs their vinyl siding with PermaColor Lifetime Fade Protection.

Warranty

Simply put, if our product fails due to a manufacturing defect, we will stand behind it. To obtain a copy of our complete warranty go to www.certainteed.com

Service

Local Manufacturing

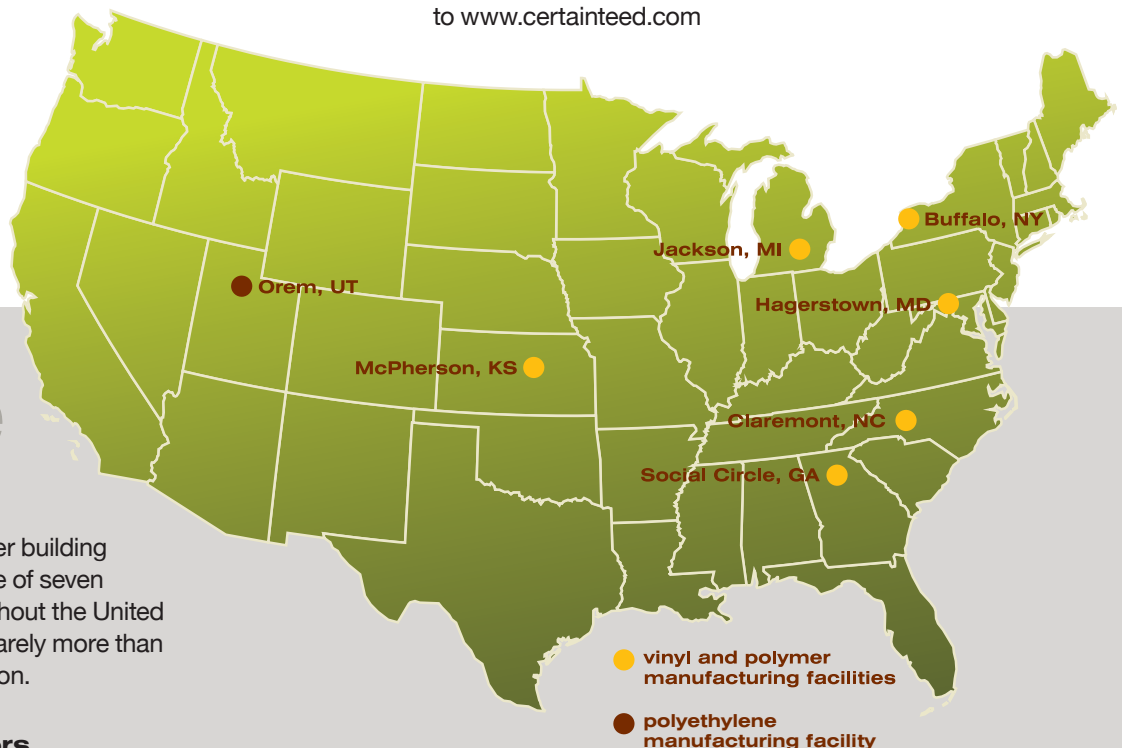

CertainTeed's vinyl and polymer building products are shipped from one of seven manufacturing facilities throughout the United States, ensuring that you are rarely more than 500 miles from a factory location.

Professional Distributors

Our strong network of local distributors enables you to rest easy knowing that you will have complete access to CertainTeed's full line of exterior products.

Experienced Territory Managers

With over 250 territory managers across North America, it is easy to find a CertainTeed representative who can assist you in growing your business.

Expert Training and Education

Each year CertainTeed travels across North America putting on over 200 local training programs designed to help you increase your skills, capabilities and profit potential.

Mix & Match

Benefit from the power to mix & match products, styles and colors

CertainTeed's complete selection of exterior product options are tailor-made to take creative advantage of the exciting mix-and-match approach to exterior home design – combining various products, styles and colors to create truly unique exterior designs.

Using combinations of horizontal and vertical siding plus shakes and shingles together makes a bold statement. Adding soffit and trim delivers just the right accent. All choices coordinate perfectly with roofing, fence, decking, and railing options for a complete package. The collection allows your customers to rely on a single, trusted source for virtually every exterior product they need – and gives you more opportunities to cross-sell.

Why CertainTeed?

Color Leadership

Together, siding, trim and roofing color selection has a profound impact on the overall look of a home's exterior. Siding and trim colors cover the exterior walls for curb appeal, but this also extends to the roofline, on what one architect calls a home's "fifth façade."

CertainTeed's color alignment simplifies the task of combining siding and roofing with other facets of the overall design, like decking, railing and fence, to create a cohesive look. From warm and inviting to cool and fresh, there are color palettes to satisfy every preference. All our products deliver the craftsmanship, durability and virtually maintenance-free performance your customers expect from CertainTeed.

CurbAppeal™ is an app for the iPad® that helps users select and review colors, styles and textures for all of our exterior products. Or browse our gallery of homes for ideas that inspire.

ColorCoach™ is a simple web-based tool that acts as a virtual color swatchbook for consumers. It also helps contractors and builders recommend CertainTeed roofing, siding, and trim color combinations that look great together.

ColorView® offers users the ability to mix and match colors and styles on a wide variety of pre-populated home styles to get design ideas.

EverView® The easy mix-and-match EverNew® railing Tool. Try out railing and baluster combinations by choosing from an industry leading palette of colors and products, then finish it off beautifully with your choice of caps and lights.

ColorView DIY lets users who are short on time begin designing today – upload a project picture and in just a few minutes you can mix and match colors and styles on your own project.

ColorView Pro gives users the opportunity to have a photo of their home professionally masked in just a few days for them to use in ColorView Online.

iDreambook™ Free interactive reference tool. This interactive book will help you visualize your new home exterior and outdoor living spaces with CertainTeed's broad selection of exterior products, to achieve a full range of design options that no other company can match.

Innovation

CedarLife™ Color Blends

The beautiful colors and shades of Cedar Impressions CedarLife Color Blends are an integral component of the siding. Unlike competitive products that have color applied only on the surface, CertainTeed's proprietary, patent-pending manufacturing process results in blended color through the entire shingle. The result is an authentic, blended-wood look. (See page 10-13 for more info.)

COOLBACK™ COLOR TECHNOLOGY

CertainTeed continues to lead the industry by introducing CoolBack™ Color Technology for all CertainTeed vinyl siding and soffit panels. CoolBack's proprietary formula reduces overall panel heat build-up and decreases the risk of thermal distortion while enhancing the quality and performance of darker colors.

INhanced® TRIM LINE

INspired designs that enhance aesthetics. INnovative engineering that improves performance. INtegral components that speed installation. That's the power and promise of the INhanced™ Trim Line from Restoration Millwork.

TrueTexture™

CertainTeed was the first to produce siding utilizing a direct transfer system from real cedar boards, shingles and shakes to create natural TrueTexture finishes. The look of true wood craftsmanship can be created when combined with CertainTeed's Vinyl Carpentry® and Restoration Millwork®.

Installation Features

Many engineering innovations including the PanelThermometer, HammerTapper and StudFinder make CertainTeed Siding the industry leader.

Cedar Impressions patented **PanelThermometer™** and temperature lines are designed to ensure precise installation.

HammerTapper™

Enables lateral adjustment for easier siding panel installation.

STUDfinder™

Designed to help ensure a safe, precise installation for maximum siding performance.

Choosing the right products for your project.

Curb Appeal That Lasts

CertainTeed offers an industry-leading selection of low-maintenance products that create beautiful, timeless looks that last.

Authentic from the curb or close up

From historic to modern to timeless, each project has its own unique design challenges. CertainTeed's wide variety of styles and textures empower you to select the product that will deliver the architectural accuracy and beauty required to meet every project's needs.

For examples visit pages 22-37, 42-55, 60-65, 86-87, 98-99

Industry leading color palette

CertainTeed's color palette simplifies the task of combining siding and roofing with other facets of the overall design, like decking and fence, to create a cohesive look. From warm and inviting to cool and fresh, there are color palettes to satisfy every preference. Backed by PermaColor™ Lifetime Fade Protection, all of our products deliver the virtually maintenance-free performance your customers expect.

For examples visit pages 22-37, 56-59, 76-77, 82-83

Details create the personality

The personality of a home is reflected in the unique details of the project. CertainTeed offers a complete selection of virtually maintenance-free accent and decorative trim accessories designed to complement any project.

For examples visit pages 76-89, 94-99

Increased Outdoor Living Spaces™

The comforts of home are no longer defined by four walls. Outside spaces are “in” as porches, yards and gardens are transformed into beautiful open-air rooms. If you are longing for the joys of fresh air living, CertainTeed can help.

Create a great outdoor room

Use CertainTeed's innovative exterior products to transform unused areas into new Living Spaces™. Adding a great outdoor room that is full of rich details creates new areas for entertaining or leisure.

For examples visit pages 80-83, 86-87, 92-99

Define outdoor spaces with natural textures

Fence, decking and railing products help define new outdoor living spaces. CertainTeed's selection of authentic textures and colors act as a part of the landscaping to create a beautiful aesthetic in any yard.

For more information on CertainTeed outdoor living products visit www.CertainTeed.com

25 Years of *Impressive* Innovations

Generation 2

Introduced multiple new features, including:

- TrueTexture™ realistic woodgrain look from real wood cedar shingles
- PanelThermometer™ to indicate the correct panel temperature for precise installation
- Texture added to the butt section of panel
- Hangers and locks were increased to allow for better expansion and contraction
- Improved function of the side tabs for locking
- More styles: Half-Rounds, Triple 5", Rough-Split Shakes in Double 7" and 9"
- Multiple darker colors
- Accessories – outside corners, inside corners, bay corners

1992 – 2003

2004 – 2015

Mitered corners

Generation 1

- National launch in 1992
- Double 7" Perfection Shingle, available in 4 colors
- Initially produced as a vacuum-formed product
- First injection molded, vertical woodgrain product for precise duplication of real wood texture

Cedar Impressions®

Polymer Shake & Shingle Siding

Offset corner

HammerTapper™

2016 – current

Generation 3

- Introduced Triple 5" Sawmill Shingles
- Also introduced Individual 5" Sawmill Shingles and Single 7" Perfection Shingles featuring CedarLife™ color technology color blended throughout the shingle

- Created offset corner accessories for a more natural installation

Added the following Engineering Enhancements:

- HammerTapper™ – allows easier positioning of the panel – tap to left and tap to right
- More natural-looking tapered shingle gaps
- Continuous nail hem (installation friendly – makes it impossible to miss a tab)
- Nail stop – indentation in nail hem area to prevent driving nails too tight
- Tape measure on continuous nail hem to help make proper cuts easier

CedarLife™ Color Blends

2018 Highlights: New Product and Color Releases

Siding: LedgeStone in pocono autumn and Cedar Impressions
Double 7" Straight Edge Perfection Shingles and
Monogram Double 5" in sandstone beige.
Trim: LedgeStone Sill, Corner and Light Box.
Roof: Landmark® in pewter.

STONEfaçade™

STONEfaçade is the affordable alternative to traditional masonry work, a luxurious exterior upgrade that will work within any of your customers' budgets. It's a panelized system that takes less time and material to install vs. custom masonry installation. A great fit for today's exterior mix-and-match trend, STONEfaçade gives you the opportunity to grab a piece of the lucrative stone masonry business without a major investment. With a little training you'll be ready to rock.

Page 42

Panelized system.

Install our innovative design

Stone veneer panels for easy installation

Your siding contractor will install it quickly and cleanly, saving time and money on your installation. The STONEfaçade system includes components that are designed to work together seamlessly, integrating with new or existing exterior cladding for a beautiful finished appearance.

3 panel widths are randomly pre-mixed in a carton to optimize panel's appearance.

Panelized

Note: STONEfaçade is suitable for use in two-story exterior applications up to 30' high.

Designed for years of worry-free performance, STONEfaçade requires no sealing, coating or mortar. And unlike actual individual stone and other manufactured stone cladding products, STONEfaçade is an easy-to-install panelized system.

No Mortar

Moisture management to protect your home

CertainTeed STONEfaçade™ features the industry's only **fully-integrated rainscreen**, providing additional structural support and ample drainage from top to bottom for outstanding moisture management and protection of your most important investment. Our rainscreen helps prevent potential structural damage and mold, a common occurrence when masonry products are installed without a well-defined drainage space.

Rainscreen

2018 Highlights: New Product and Color Releases

ICONTM Composite Siding

With the beauty of authentic cedar planks and the durability that goes beyond natural wood and fiber cement boards, ICON adds performance that withstands the elements, harsh conditions and the test of time. ICON is a revolutionary new product that offers unmatched speed and ease of installation, helping you create structures that stand throughout the years.

Page 46

Strength and Durability

ICON can withstand winds in excess of 130mph.

Dimensional Stability

ICON's moisture-resistance means minimal expansion and contraction.

Moisture-Resistance

Claddings like wood, stucco, fiber cement and brick retain moisture, particularly in humid weather. Because ICON is moisture-resistant, its planks can be butted tightly together with no need for flashing*, for a more attractive exterior. Lack of moisture absorption means that ICON will not rot.

MOISTURE ABSORPTION COMPARISON

In a 7-day study, ICON absorbed significantly less water than the competition. See [certainteed.com](https://www.certainteed.com) for more details.

* Refer to your local building codes.

Safe and Secure Installation

STUDfinder™

STUDfinder Patented design feature helps ensure a safe, precise installation for maximum siding performance.

Stack Lock

For ease and accuracy of installation, ICON's stack lock design is self-aligning after the first plank. This gives ICON its superior ability to withstand high windloads.

2018 Highlights: New Product and Color Releases

Introducing four new colors

NEW
COLORS

NEW dramatic colors have been added to Monogram, Restoration Classic, Board & Batten and Universal Triple 4" Soffit.

espresso

midnight blue

castle stone

Siding: Restoration Classic Double 4" Select Cedar Clapboard in espresso.
Trim: Vinyl Carpentry® & Restoration Millwork®.
Roof: Landmark® Shingles in cinder black.

Northwoods®

Single 7" Perfection Shingle Siding

Northwoods Single 7" Perfection Shingles feature random shingle widths, tapered gaps, a 3/4" deep panel projection, and clean, crisp edges that deliver a beautiful, distinct look. Northwoods outperforms the competition, withstanding wind loads up to 200mph, and with a Class A flame spread and durable .060" thickness, Northwoods is built to be professional grade.

Page 38

Restoration Millwork®

WP4 Board

Always expanding the design options, Restoration Millwork now offers reversible panels pre-cut with a WP4 groove on one side and a 1/4 in. Nickel Gap on the other to help create the desired look for your project. The new profiles were developed with the TightLap™ design to provide a larger nailing area and easier installation.

Page 87

Reversible pattern allowing for a WP4 groove or a 1/4 in. Nickel Gap in one board.

Repeating WP4 groove

Infographic Guide

Below you will find an explanation of each icon used for easy reference to identify and compare the many product features, benefits and specifications of the siding products offered by CertainTeed.

Aesthetics

CedarLife™:

CertainTeed's innovative CedarLife Color Blends capture the appearance of natural Eastern White Cedar and Western Red Cedar at various life stages. CedarLife enables the selection of unique, random color patterns for one-of-a-kind exterior designs.

Colors:

Shows the number of different colors available within each product line. The CertainTeed Siding Collection features solid colors that replicate the look of freshly painted cedar and variegated blends which provide the appearance of semi-transparent stained finish.

Extended Lengths:

Indicates products that are available in extended lengths, including 16', 20' and 25'. Longer length siding significantly reduces the number of seams when panels overlap horizontally, increasing the overall aesthetics of the wall.

Panel Projection:

Identifies the full depth of a siding panel as measured from the back of the panel to the tip of the front of the panel. Deeper panel projections add rigidity to siding products while providing wider shadow lines that enhance aesthetics. This measurement is also used for proper sizing of accessories necessary to install the siding.

Profiles:

Lists the number of different profiles available within each product line. A profile is the contour or outline of a panel as viewed from the side or end. Product profiles, such as ledgerstone, clapboard and dutchlap, are designed to mimic the different architectural styles of wood or stone cladding products.

Texture:

Indicates available textures within each product line. Whether you are seeking the smooth appearance of milled cedar, authentic stone look, or one of the many TrueTexture™ woodgrains molded from real cedar boards, CertainTeed offers a wide array of architecturally authentic product textures to choose from.

Installation

Fastener Indicator:

CertainTeed is the only siding engineered to include an integral fastener placement guide on each panel. The Patented STUDfinder™ Installation System and Cedar Impressions® fastener indicators are designed to help ensure a safe, precise installation for maximum siding performance.

Lock:

Designates the panel lock design of the product. CertainTeed Siding Products feature proprietary locking designs created to optimize the alignment and installation for each specific product. The special features of CertiLock™ and DuraLock® ensure that every siding panel goes on the wall straight and secure.

No Caulking or Sealants required:

Product allows minimal expansion and contraction, which means it can be butted tightly together and does not require caulking.

No Mortar:

Product does not require mortar - making installation clean, quick and easy. A no mortar installation also means special masonry skills are not required.

Panelized:

Each panel features a stainless steel insert that functions as both rainscreen and reinforcement. Perimeter edges are beveled to hide the substrate for a more attractive appearance.

Score and Snap:

Can be scored and snapped for easy installation.

Performance

Dimensionally Stable:

Product will have little to no expansion or contraction thus reducing stress on the planks and preventing cracking and buckling. This also allows product to be butted tightly together with no gaps.

Drainability / Moisture Resistance:

Product technology eliminates the common problem of moisture accumulation in wall cavities through the use of innovative materials, rainscreens, weep holes or open designs.

Fade Protection:

CertainTeed offers an industry-leading spectrum of colors including unique, darker shades and semi-transparent stained blends for virtually unlimited design possibilities. Utilizing the unique PermaColor™ System – a blend of our own Certavin™ resin, superior micro-ingredients and state-of-the-art pigment chemistry – CertainTeed guarantees Lifetime Fade Protection on our vinyl siding.

Fastening Hem Design:

Identifies the type of fastening hem design on a cladding product. Rollovers and / or reinforcing ribs are used to stiffen the nail hem of a siding panel, giving it a straighter appearance on the wall while contributing to the wind load resistance of the product.

Flame Spread Rating:

Indicates products that are Class A Flame Spread Classified, meaning that the material is highly resistant to fire and does not spread flames quickly and/or is self-extinguishing.

Low Maintenance:

Unlike other cladding products that require regular repainting, recaulking, tuckpointing, and sealing to maintain their aesthetics, CertainTeed cladding products can be kept beautiful using a soft bristle brush and a bucket of soapy water.

Panel Thickness:

Defines the average thickness or gauge of a siding panel which is an important element of siding quality. Thicker panels look straighter on the wall, are more durable, and hold up against impacts and high winds. CertainTeed siding products are regularly audited by Architectural Testing, Inc. to ensure they meet or exceed ASTM standards for vinyl siding.

Warranty:

CertainTeed shakes, shingles, insulated, horizontal, soffit and vertical products are covered by a Lifetime Limited Warranty. STONEfaçade products are covered by a 20-Year Limited Warranty. ICON is covered by a 30-year Limited Warranty.

Wind Load:

This is the rating for the maximum wind pressure that a siding product can withstand. All CertainTeed Siding products are rigorously tested by Architectural Testing Inc. to meet or exceed ASTM standards for resistance to negative wind load pressures.

Colors shown throughout this brochure are as accurate as printing methods will permit. Please see product samples before making final selection.

Features of Cedar Impressions Individual Shingles Siding

There are seven different shingle sizes with widths varying from 4" to 8" widths. Shingles are engraved within the staple zone. Shingles are 12" long and require 5" exposure. Installation is made simpler with these easily identifiable features marked on the front each shingle.

Shingle Gap Zone

Overlapping shingle gap must fall between upper vertical marks and Fastener Target Zones (1-1/2" minimum from shingle edge)

Starter 1/2" Offset

Align with top of first course shingles.

Course Hash Marks

Align marks to top of prior course to assure 5" exposure.

Pre-formed Holes

For hand nailing application

Note: with two shingles lapped panel projection is 1" and requires a 1" pocket accessory.

Fastener Target Zone

Fastener must be applied within the recessed area. 2 fasteners per shingle are required.

Moisture management & ease of installation

Moisture that accumulates in the wall cavity can lead to mold growth and even structural damage. The patented fully-integrated rainscreen provides STONEfaçade additional structural support and superior drainage and will prevent moisture from accumulating in the wall cavity. The rainscreen insert also incorporates a fastening flange that allows STONEfaçade to be screwed to the substrate. The mortarless install makes this product easy to install.

Easy-to-install stone veneer panels

Triple 3-1/3"

Soffit & Vertical Siding

- InvisiVent® and solid styles.
- The only vinyl soffit to provide more than 10 inches of net-free intake area.
- Concealed intake vents provide a smooth appearance.
- Matte finish looks like freshly painted wood.
- Deep 3/4" panel projection creates sharp definition.
- 13 low-gloss colors.
- Heavy-duty .044" thickness for rigidity.

Perimeter™ Triple 3-1/3"

Soffit & Vertical Siding

- Solid and hidden vent styles.
- 14 low-gloss colors.
- .040" thickness.
- Hidden vent style provides up to 9.65" of net-free intake area.

Beaded Triple 2"

Soffit & Vertical Siding

- Wainscot style in solid and invisibly vented.
- Designed for vertical siding, porch ceiling and soffit applications.
- Smooth finish of professionally applied paint.
- Extra-long slip-lock design helps provide secure installation.
- 8 low-gloss colors.
- .039" thickness.
- 1.6" of net-free air per sq. ft. - invisibly vented.

Triple 3-1/3" InvisiVent

Standard vented soffit

Hidden vents provide a smooth, flat non-perforated surface versus most vented soffits with unsightly perforations.

Triple 3-1/3" InvisiVent offers at least 50% more ventilation than most standard vinyl soffit, providing more than 10" of net-free intake area. This means that not only will InvisiVent provide a balanced ventilation system, but will do so with an overhang as short as 10".

Proper Ventilation is Critical

Protection against damage to the roofing materials and structure increase comfort inside the home and energy savings.

Soffit Vents (intake)

Ridge Vents (exhaust)

The Air Balance System
Experts agree that the most effective system is a balance of air intake and exhaust that creates a uniform flow of air through the attic.

This system creates a condition in which the roof temperature is equalized from top to bottom, supplying a uniform air flow along the entire underside of the roof deck.

Beaded Triple 2" in colonial white.

Beaded Triple 2" in natural clay.

Ironmax™ Double 5" Soffit & Vertical Siding

- Solid and fully vented styles.
- Extra-thick .046" construction for optimum strength and flat face appearance.
- Designed for vertical siding, porch ceiling and soffit applications.
- Unique post-formed lock design helps ensure secure installation.
- 21 low-gloss woodgrain colors (sable brown for soffit applications only).
- 6.4" of net-free air per sq. ft. - fully vented.

Universal Triple 4" Soffit & Vertical Siding

- Solid, fully vented and center vented styles. (Dimensions shown are nominal).
- Designed for vertical siding, porch ceiling and soffit applications.
- Matte finish.
- Post-formed lock design helps provide secure installation.
- 38 low-gloss colors (center vented: colonial white and snow only).
- .040" thickness.
- 5.9" of net-free air per sq.ft. - fully vented.
- 2" of net-free air per sq. ft. - center vented.

Universal Double 5" Soffit

- Solid and fully vented styles (soffit use only).
- Designed for soffit applications.
- Woodgrain finish.
- 13 low-gloss colors
- .040" thickness.
- RigidForm technology provides strengthened nail hem for rigidity to perform under high wind conditions.
- 6.4" of net-free air per sq.ft. - fully vented.

Vinyl Carpentry®

Decorative Trim

Vinyl Carpentry®

Vinyl Carpentry trim offers you a wide array of decorative design possibilities to accent your home's exterior. Replicate the look of real wood with a wonderful assortment of styles and colors – and they never need painting.

- Designed to add distinction to windows, doors, corners, gables and frieze boards.
- Authentic painted wood look.
- New construction and remodeling installation flexibility.
- Wide variety of colors to coordinate with siding.
- Color-clear-through construction means scratches won't show.
- Virtually maintenance free, never needs painting.

Create the look of true wood craftsmanship with a complete line of decorative accents and trim pieces for both new construction and remodeling.

Restoration Millwork®

Exterior Trim

The Ultimate Finish!

- Superior quality and excellent dimensional accuracy.
- Low-maintenance and long-lasting UV-resistant material.
- Natural white and ready to install.
- Can be painted* to complement with exterior colors.
- Cuts and mills with traditional woodworking tools.
- Class A (Class 1) Flame Spread Classification.
- Meets ICC and CCMC code requirements.
- Made in U.S.A.
- GreenCircle Certified - contains recycled content.
- 25-year limited warranty.

*See Installation Guidelines RM003 for painting instructions.

InvisiPro® Hidden Fastening System

Trimboards feature grooved millwork that precision-fits to flanges secured directly to the wall, working together with both nail hem flange and starter flange for a secure fit. The flanges are concealed, leaving only a face nail-free installation with no nail holes to fill.

INhanced® TRIM LINE

INspired designs that enhance aesthetics. INnovative engineering that improves performance. INtegral components that speed installation. This collection of decorative components delivers extraordinary advantages from the inside out. Hidden flanges, built-in J-pockets, pre-assembled column wraps and one-piece corners enable easy installation, while authentic finishes create an incredible natural wood appearance.

Look for the IN to identify CertainTeed's INhanced products.

One-Piece Corner and Nail Hem Flange

Corners are now designed to be installed with or without a nailing flange. As part of the InvisiPro Hidden Fastening System, a nailing flange is a quick and easy way of securing corners – avoiding any face nailing of the corner.

- Hidden attachment points.
- Secures tightly to wall with screws.
- Installs before siding.
- Corners can still be used without flange.

Specialty Profiles

Column Wraps

**Slides On, Swings Closed
for Fast, Easy Installation**

A three-sided wrap with a swinging door on the fourth side, Column Wraps are pre-cut and pre-mitered, to slide around existing wood load-bearing 4 in. x 4 in. or 6 in. x 6 in. porch posts.

Simple and versatile, with 2 column sizes: 8 in. x 8 in. and 10 in. x 10 in. square.

J-Pockets and Cut-Outs

Restoration Millwork trimboards with built-in J-pocket eases installation of corner trim and the cut-out allows the trimboard to lie flush with the siding around windows and doors with built-in nail flanges.

Fascia Trimboard

Fascia trimboard with built-in return leg is designed to work with a wide range of soffit materials. Available in TrueTexture™ and smooth finish.

Skirtboard with DualStart® Design

Engineered with DualStart Design (patent-pending) cuts installation time while providing the 6 in. ground clearance required by U.S. building codes for fiber cement siding.

Beadboard with TightLap™

Whether you choose 2TL or 3TL, Beadboard with TightLap is designed to have a larger nailing area with the security of tongue and groove.

Sheets

Available in a full selection of custom and standard sizes and shapes, sheets can be used to create distinctive, one-of-a-kind exterior elements that are as beautiful as they are durable.

CustomCraft™

Restoration Millwork CustomCraft boards and sheets for custom fabrication feature extra thickness, so they reduce time and labor costs related to laminating and creating custom designs. CustomCraft Sheets are available in 1-1/2 in. x 4 ft. x 8 ft.

CertaWrap™

Weather Resistant Barrier

CertaTape™

available in 1-7/8" x 165'

CertaWrap Accessories

For maximum effectiveness, it's critical to finish your CertaWrap installation with tight sealing methods. CertaWrap accessories offer everything needed to get the job done right. Use them to seal window and door openings, cracks, seams and penetrations prior to applying exterior cladding.

CertaWrap Weather Resistant Barriers, in premium or standard grade, provide an added layer of protection against air and moisture damage. It's part of the complete CertaWall Weather Deterrence System™.

- The best defense against mold, mildew and water damage.
- Superior air holdout for better energy efficiency.
- Optimal Permeance Rating of 11.7 (Premium)
Optimal Permeance Rating of 12-15 (Standard)
- Outstanding UV performance.
- Excellent surfactant resistance.
- Double-strength tear resistance.
- Easy handling and installation with STUDfinder™.
- Class 1(A) fire rating
- Lifetime limited warranty.
- Available co-branded with your logo!

CertaWall Technology

Beauty is more than skin deep. That's especially true when it comes to building or improving a home. Protection from the elements, energy efficiency and long-term performance are just as important as aesthetics. The CertaWall Weather Deterrence System delivers those advantages. As a key component in the system, CertaWrap Weather Resistant Barrier helps assure long-term satisfaction.

The CertaWall Weather Deterrence System

Superior Breathability, Water Resistance and Vapor Transmission

Mold, mildew and water damage are a home's worst enemies. An effective weather barrier system defends against these problems by resisting moisture penetration and air infiltration while allowing water vapor to dissipate. CertainTeed CertaWrap offers the industry's best combination of all of these properties, helping you defend against moisture and the elements during construction, and preventing moisture buildup – from inside and outside the home – after cladding is applied.

CertaWrap is available in the following roll dimensions:

Premium	Standard
3' x 100'	9' x 100'
3' x 165'	
4.5' x 200'	
5' x 200'	
9' x 100'	
9' x 150'	

CertaWrap Standard Housewrap

CertaWrap Standard Housewrap is a coated poly woven fabric for use in housewrap applications that controls airflow through the wall and protects against outside water from penetrating the exterior of a home. It is engineered to resist water while allowing water vapor to pass through and is stabilized to resist degradation.

UnderShield®

Water Diversion System

UnderShield® turns an unsightly deck underside into a dry, beautiful ceiling, creating limitless options for new exterior living spaces.

New Possibilities for the Home

A beautiful deck is easy to love, from the top. Now, you can love your deck from underneath as well, with the beautiful possibilities of UnderShield.

A unique, vinyl shield and ceiling system designed to respond to the needs of building professionals and homeowners, UnderShield is easy to install to new or existing decks, and will maintain unobstructed air flow when properly installed. Panels can run parallel or perpendicular to the home, and an easy-to-use clip creates the desired pitch.

Savannah Wicker

B

Clip System comes with all stainless steel hardware (not shown)

C

Vinyl Grid System

UnderShield is available in beaded or chamfer panels (A). System also includes clips (B), grid system (C), fascia panels and stainless steel hardware (not shown).

A

- Low maintenance water diversion system.
- Easy to install adjustable grid system.
- Concealed clip system.
- Stainless steel hardware provides security and lasting performance.
- High quality vinyl panels available in 6" x 16'.
- Choice of 2 panel styles and 3 colors.
- Panel hook system creates a tight and secure panel lock.
- Suitable for one and two-story residential applications.
- Installs under the deck joist - no need to worry if the framing is 12" or 16" on center.
- Helps maintain the required ventilation under the deck for most composite deck boards.
- Since it installs under the framing, there is no need to worry about any bracing that may have been installed between joists.
- Class A Flame Spread rating.
- Lifetime limited warranty.

The UnderShield product is designed as a water diversion system under normal weather and rain conditions; however it is not a waterproof roof system. Proper cleaning and flushing of debris by the property owner is important to allow the rain water to flow unobstructed to the exit point and to not create excess weight buildup on the surface of UnderShield. The system can temporarily experience minor drips. Occasional droplets on the underside also could result from normal condensation. Having a qualified professional install and follow the installation instructions carefully is necessary for best performance.

Dry by Design™

UnderShield is dry by design, incorporating a special shield with channels that discreetly collect and drain precipitation away from under your deck, leaving the space beneath dry and comfortable.

As precipitation drips between deck boards it is collected directly below by UnderShield and diverted away leaving a dry space under your deck. (Gutter sold separately. Not a CertainTeed product.)

Water drips on the panel surface may appear for various reasons including, but not limited to, dirt/debris build up and normal condensation.

Use only outdoor rated/approved ceiling fans, lights and accessories with the Undershield System.

EverNew®

Oxford & Kingston Vinyl Railing Systems

Extend your living space with railings that offer both design aesthetics and performance.

Railing: Kingston with square balusters in black.

Details Matter

Aluminum reinforced rails, precision-fit components and a wide variety of finishing accessories offers beautiful options and unmatched performance.

Kingston & Oxford BRACKETED Systems

Aluminum rail mount brackets provide a safe and secure metal-to-metal, rail-to-post connection for greater strength and longevity.

Kingston

- Classic bread-loaf rail design for both top and bottom rails.
- Available in two heights and three lengths.
- Independent tested as designated in report CCRR-0211. (white, almond and clay)
- Suitable for one- and two-family dwellings and townhouses not more than three stories high.
- Lifetime limited warranty with 5-year SureStart™ protection.

Oxford

- "T"-rail top and 2x4 bottom rail system.
- Available in two heights and three lengths.

EverNew®

Panorama® Composite Railing System

Panorama with square balusters in black.

True Architectural Detail

Solid construction, precision-drilled components and a wide variety of baluster options combine for an outstanding PVC capped composite system.

Panorama®

The Panorama capped composite railing system features a classic painted wood railing design with handcrafted authenticity and true architectural details you won't find on any other composite railing. Panorama's concealed, corrosion-resistant stainless steel hardware provides years of worry-free performance.

- Classic painted wood style with true architectural details.
- Available in two heights and two lengths.
- Available in three colors: white, almond and black.
- Choice of two baluster styles: square composite and decorative steel in antique bronze and oil-rubbed bronze.
- Powder-coated, hot-dipped galvanized steel decorative balusters create a rustic yet customizable system approach for both flat and stair applications.
- Suitable for one- and two-family dwellings/townhouses not more than three stories high, as determined by an independent testing agency (CCRR-0115) (white and almond).
- 25-year limited warranty with 2-year SureStart™ protection.
- Green Approved product by the NGBS.

Square Composite Balusters, available in White, Almond and Black.

Decorative Steel Balusters in Antique Bronze and Oil-Rubbed Bronze.

Panorama with square balusters in white.
