

# SHEETROCK® Brand Patching Plaster

<b>Surface Preparation</b>	Surface should be free of all foreign material, dust, dirt and grease. Use a screwdriver to open narrow cracks to at least 1/4" wide. Dampen surface using sponge.
<b>Mixing</b>	Use clean water and equipment. Mix approximately two parts powder into one part water. Stir thoroughly; do not overthin. Mix only as much material as you can use within 60 minutes.
<b>Application</b>	Pack patching plaster into crack or damaged area. Finish flush with surface.  For cracks over 1/4" wide or 1/4" deep, apply a first coat to within 1/4" of surface. Allow to set 30 minutes. Apply additional material until patch is flush with surface. Texture to match surrounding area. Allow patch to dry completely before decorating.  Sand area using fine-grade sandpaper. You may now decorate repaired area.
<b>Decorating</b>	Interior walls may be painted or wallpapered as desired.
<b>Cleanup</b>	Clean tools and containers with soap and water immediately after use.
