

SHEETROCK™ Latex Additive for Textures

A latex-emulsion additive that improves overall performance of SHEETROCK® Spray Textures

- Adds more adhesion of texture finish to substrate.
- Improves durability and surface hardness of texture finish.
- Strengthens bond of the aggregate.

Description	SHEETROCK™ Latex Additive is for use when additional adhesion of a SHEETROCK texture finish to substrate is desired. Additive also improves the durability and hardness of the finish, and increases the bond of the aggregate.	
Directions	Mixing	Follow mixing instructions on texture bag. SHEETROCK Latex Additive may be added to the texture wet-mix at a rate of 1 to 2 pints per 25, 32, 40, and 50 lb. bag of finish. The more latex additive used (up to 2 pints), the greater the bond and hardness of the dried surface. Adjust water quantity to account for the amount of additive used based on 1:1 replacement ratio. Surface priming recommendations on the texture bag still apply.
	Cleanup	For cleanup, follow directions on texture bag.
	Storage	Do not store outside. Protect from freezing.
	Packaging	Available in 5 gal. (18.9 L) pail.
	Coating VOC	5 g/L. Coating less water.

WARNING

Spraying mist or vapor created from product may cause eye, skin, nose, throat, or upper respiratory irritation. Avoid exposure to mist or vapors. Wear a NIOSH/MSHA-approved respirator when misty or if spray applying. Use in a well ventilated area. Keep container closed when not in use. Avoid contact with eyes and skin. Wear eye and skin protection. If eye contact occurs, immediately flush thoroughly with water for 15 minutes. If irritation persists, call physician. Prolonged or repeated contact with skin can cause irritation. Wear waterproof gloves and protective work clothing for skin protection. If skin contact occurs, wash thoroughly with soap and water. If irritation persists, call physician. Do not ingest. If ingested, call physician immediately. Product safety information: (800) 507-8899. KEEP OUT OF REACH OF CHILDREN.
