Integrated Solution PARTNERS

Inspiring Great Spaces®

Armstrong® CEILING SOLUTIONS

PERFECT
Integration

We take great pride in **creating time** for our customers through pre-engineered solutions and integrated partnerships. The result – a wide range of compatible fixtures that include sound masking, lighting, heating, cooling, air diffusers, sprinklers, and shades from our partners. These solutions have been pre-qualified for fit and finish. There is no need to research fixture compatibility for your ceiling layout – we have already done the work for you.

SOUND MANAGEMENT

The world leader in sound masking solutions designed to protect speech privacy, reduce noise distractions, and improve workplace comfort.

- Achieve any specification with advanced direct-field and in-plenum sound masking technology
- Low impact installation, scalable, uniform coverage, and voted # 1 by end users and integrators
- Over 600 professionally trained and certified sound masking installers worldwide
- Reduce construction schedules to allow for rapid building occupancy

RADIANT
ELECTRIC HEAT

Up to 73% lower operating costs than other conventional heating systems (electric, oil, and gas).

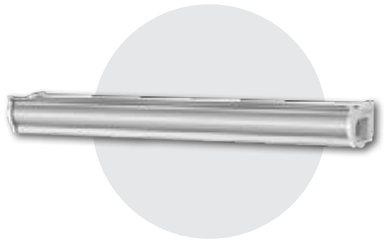
- Eliminate hard-to-heat areas in minutes
- Fast and easy lay-in installation
- No pipes, ducts, furnace, or chimney

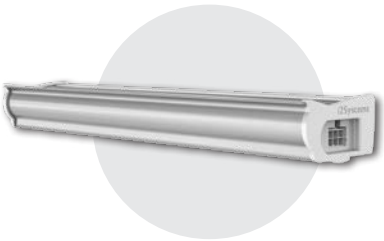
Experience the Sky

Optical system based on nano-technology to artificially reproduce the natural light and visual appearance of the sun.

- Create natural light where it is not possible to have a window
- Transform environments by giving them infinite space
- Illuminate the environment with a highly comfortable and incredibly beautiful light

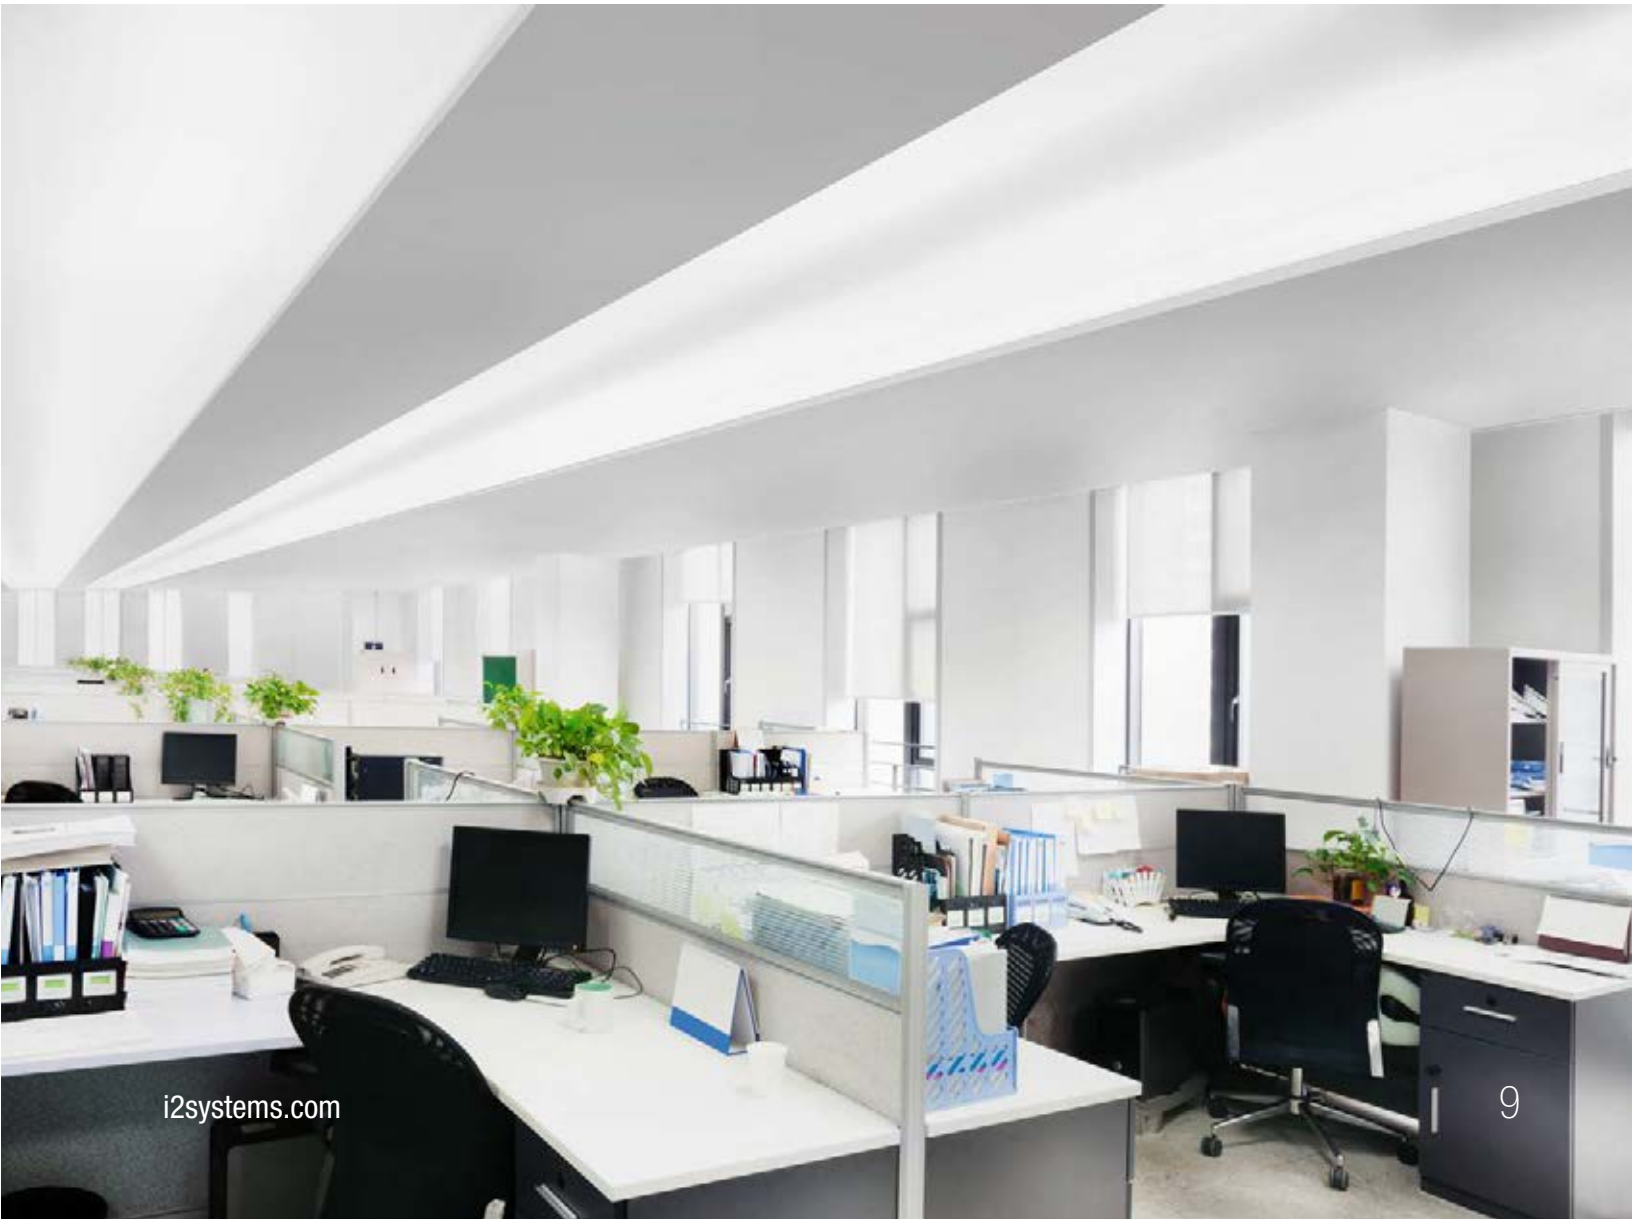
i2Systems
ADVANCED LED LIGHTING





We design and manufacture small form factor, high performance LED lighting products for the architectural design community.

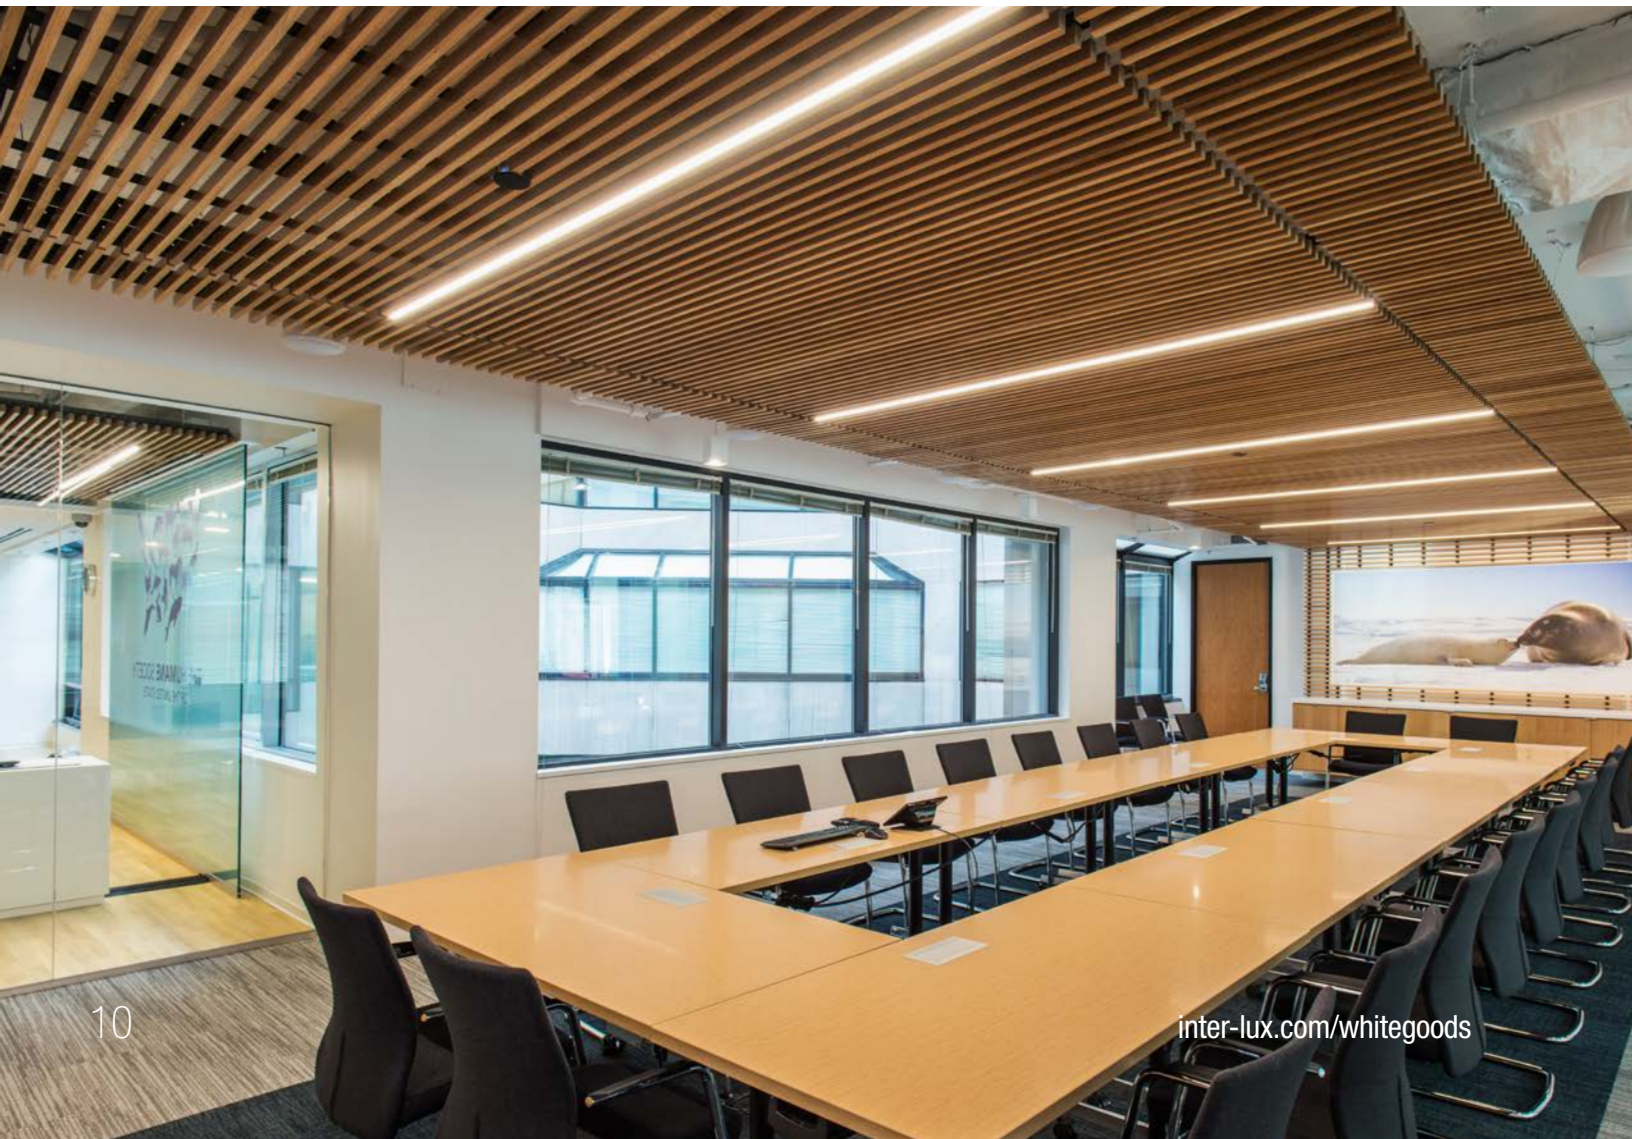
- The first indirect, energy code compliant cove system for open plan
- Volumetric lighting / 40fc at 29" A.F.F.
- Product selected by IES for 2017 Progress Report



inter•lux
whitegoods

Minimalist design – Clean integration – Consistent language of light.

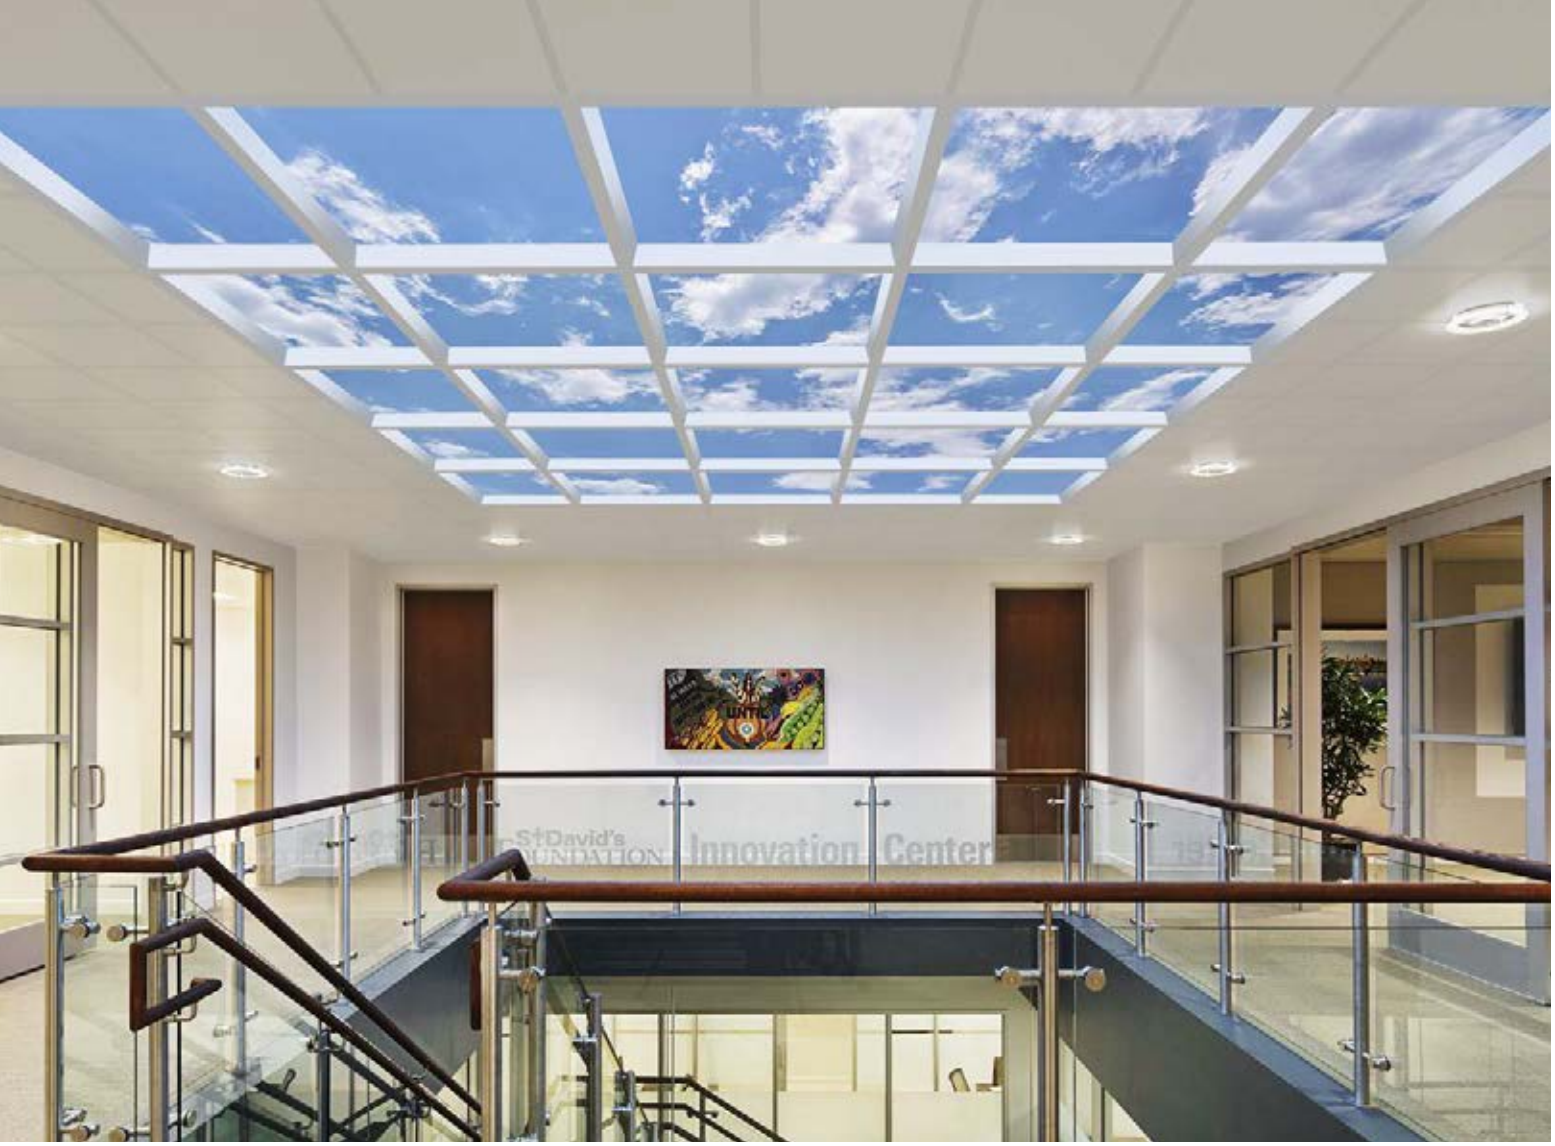
- Highly efficient and field sustainable LED light source allows matching appearance and performance across the range
- Various mountings and integration details to fit most any ceiling or wall construction
- Logical modular systems and families of products that support quick delivery to the site
- Ease of specification, installation, and maintenance



T-BAR LED™
by JLC • tech

The only lighting product that is designed, approved, and patented to replace the cross members in a suspended grid ceiling system.

- No plenum occupancy
- Improve acoustics and optimize ceiling light reflectance
- Reduce and save with tool free installation



Sky Factory™
The vastness of the sky...inside

Bring a visual connection to nature with Luminous SkyCeilings and enhance the occupant wellness experience with multisensory virtual skylights.

- **Easy-to-install modular system**: seamlessly integrates LED lighting, image panels, and architectural reveals into a single, integrated solution
- **The sky is the limit**: highest quality, proprietary image library in the business
- **Custom design**: create one-of-a-kind, virtual skylights for a signature installation

FLEXHEAD® INDUSTRIES

Rapid installation, simple relocation, feasible retro-fitting and system versatility for all commercial suspended ceiling applications.

- Flexible systems meet fire protection standards
- Require less installation time vs. hard pipe armovers
- Reduce construction schedules to allow for rapid building occupancy
