Product Overview

HBF Lounge Seating

The MOD Lounge Collection by Henrik Schulz embodies a humanistic approach towards the workplace, crafting a piece that looks and feels at home in a range of public and private spaces. With a modular sensibility, MOD allows for a variety of customizable seating arrangements while optimizing productivity and comfort. ANSI/BIFMA e3-2012 Furniture Sustainability Standard level®

HBF's production facilities, organizational policies and component materials of the products themselves have met all of the necessary qualifications to comply with the industry's most comprehensive furniture sustainability standard.

level® is the multi-attribute, sustainability standard and third-party certification program for the furniture industry. It has been created to deliver the most open and transparent means of evaluating and communicating the environmental and social impacts of furniture products in the built environment.

Taking into account a company's social actions, energy usage, material selection and human ecosystem health impacts, level® addresses how a product is sustainable from multiple perspectives. With level®, customers can make informed choices about commercial furniture that exceed single attribute eco-certifications. The level® brand identifies that a product has been vetted by an independent third party certifier and its numeric marking 1, 2 or 3 which indicates the threshold of certification it has achieved.

HBF's seating, occasional tables, and conference lines are level® certified. Please download the certificates from our product pages for the complete details.
