PP2220 Double Door: (2) 24" x 82"

Reversible Jamb System PAT. PEND.

Pacific Pride doors introduces a patent pending, revolutionary design with the **NEW Reversible Jamb System**. Created so that handing does not have to be determined until installation, the Reversible Jamb System benefits every step of the supply chain; from distributors and retailers who can reduce inventory without sacrificing selection, to installers and DIY customers who can ensure job completion through flexible reversible handing.

HINGE PREP

Machined both sides so that hinge jambs can be switched with strike jambs to reverse handing

JAMB STOPS

Jamb stops are shipped loose so they can be applied after installing frame for a cleaner, stronger system

HINGES

Engineered with one radius flange and one square edge flange so hinges can be flipped to accommodate either handing

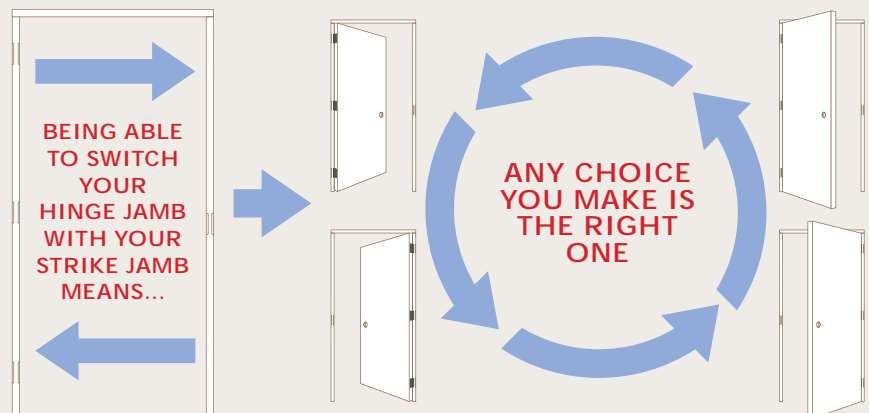

STRIKE PREP

Machined both sides so that strike jambs can be switched with hinge jambs to reverse handing

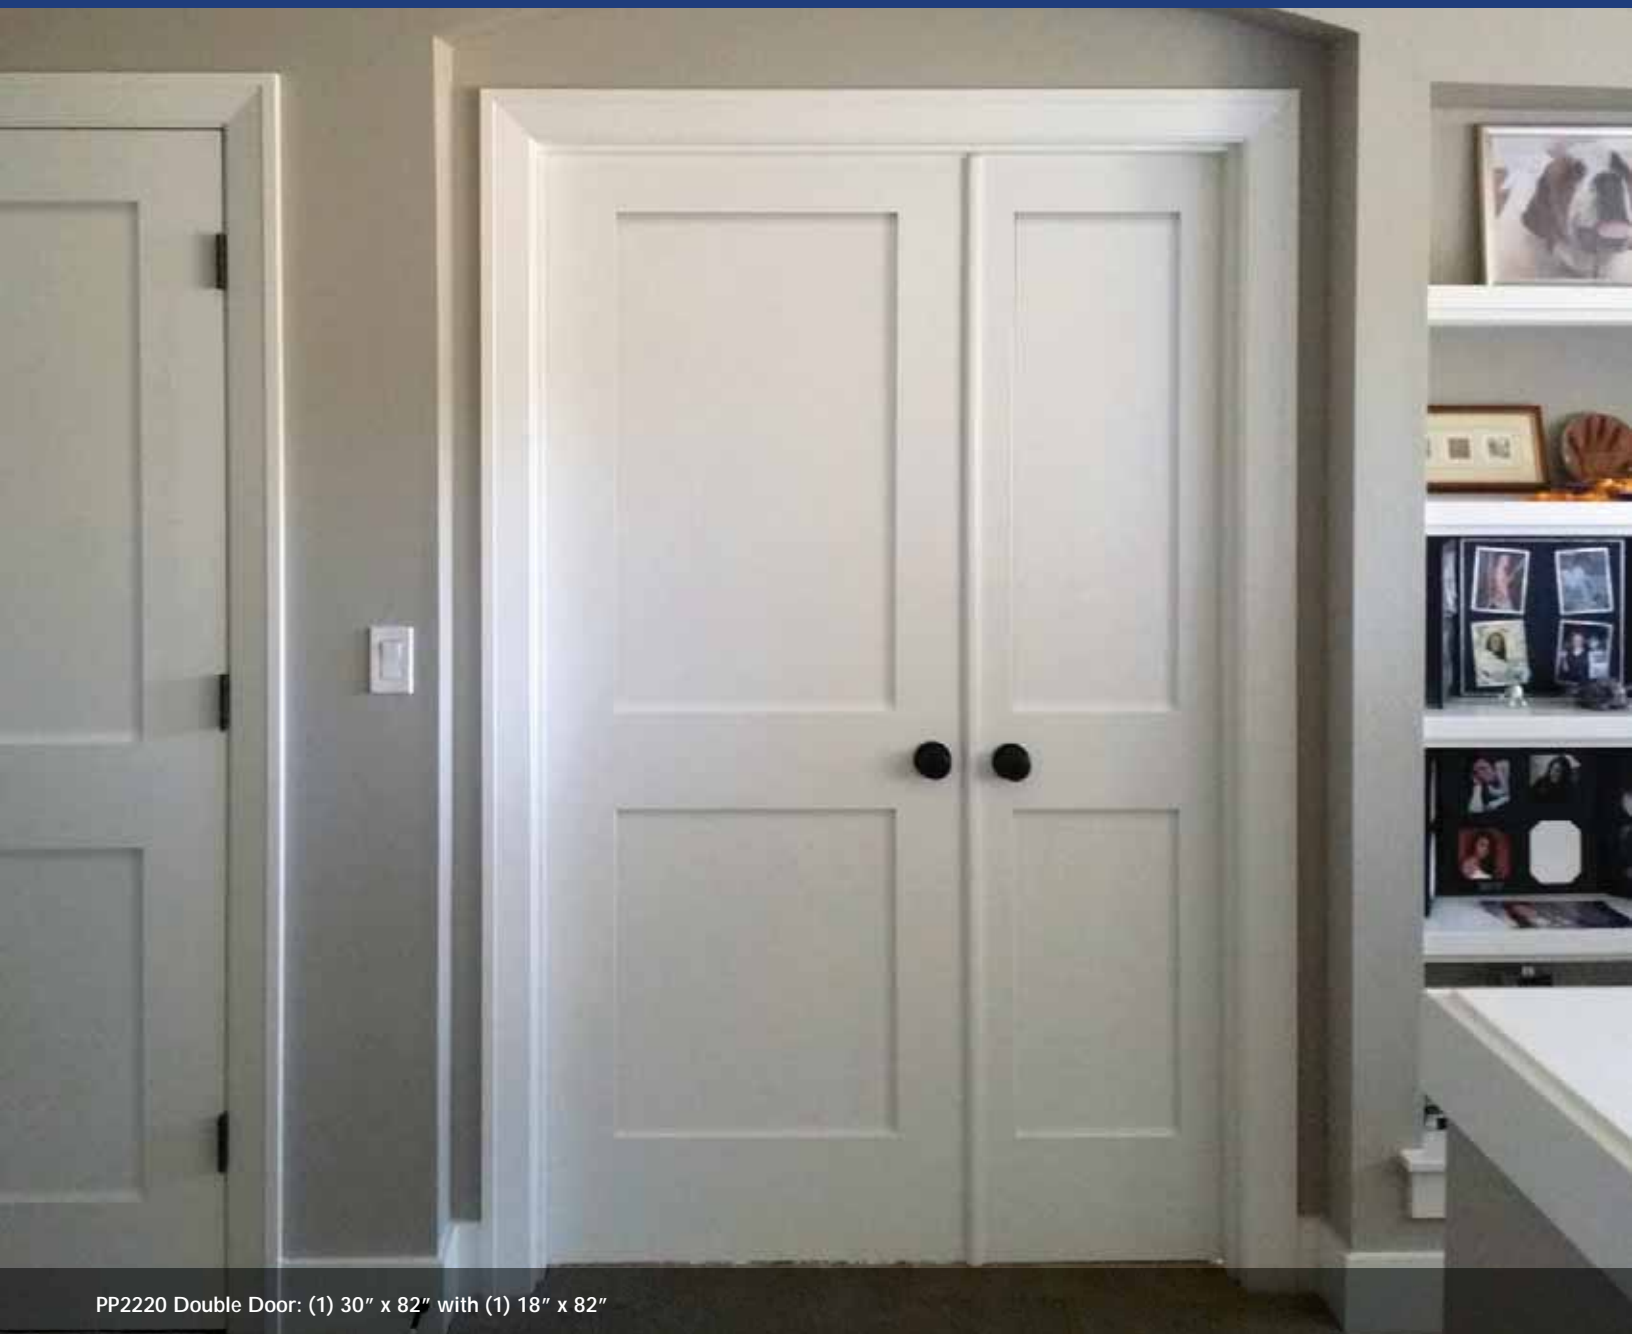

THE PACIFIC PRIDE REVERSIBLE JAMB KIT (PAT. PEND.)

- **No more handing "oops"**
Never worry about LH or RH mistakes again
- **A stronger, cleaner system**
Installing frame through the jamb stop channel allows for installation adjustments and no nail or screw holes to repair or putty
- **Less damage**
Reducing inventory means less space required, less handling needed and ultimately less damage caused

Interior - Swinging

PP2220 Double Door: (1) 30" x 82" with (1) 18" x 82"

Prefinished Alder Wood

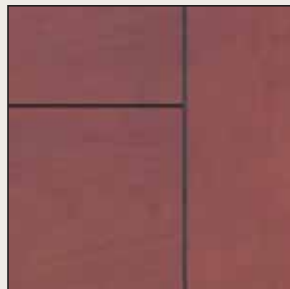

*LS and RS series
Alder doors*

*Shipped loose
so direction can
be determined
by home/
door location.
Additional
strap kits are
available.*
