

## ARIZONA TILE

## CALACATTA GOLD EXTRA

**STONE TYPE**

Marble

**ORIGIN**

Italy

**FINISH**

Polished (P)

**RECOMMENDED USES**

Commercial

Residential

Interior Floor

Countertops

Interior Wall

Fireplaces

Showers

**SIZES**

3/4" (2cm slab)

12"x12"x3/8" (P)

12"x24"x3/8" (P)

12"x12"x3/8" (H)

12"x24"x3/8" (H)

Calacatta Gold Extra is quarried from the Borghini and Bettogli Quarries, which are located in the Apuan Mountain Range next to Carrara, Italy. The Gold Extra will have a creamy/white background with light grey veins and a mix of gold. This marble will have some small, black dots which are a normal characteristic. A polyester resin is applied to the surface of this marble during production to fill in any small pits or dry veins and it is possible that the resin may shrink before the stone is polished, leaving a slight depression in the stone. This does not affect the durability, maintenance or beauty of the stone. Due to the qualities of the stone, the slabs are book-matched; meaning slab one and slab two will be cut and polished to create a mirror image of each other. These are then kept in sequence, which allows for a consistent flow in pattern. As a natural stone product, it is recommended that this be sealed to extend its longevity.
