

## ARIZONA TILE

## CALACATTA UMBER

**STONE TYPE**

Marble

**ORIGIN**

China

**FINISH**

Polished

Honed

**GEOLOGICAL ERA**

Jurassic

(144-206) million years ago

**SIZES**

3/4" (2cm slab)

12"x24"x3/8" (H &amp; P)

**RECOMMENDED USES**

Commercial

Residential

Interior Floor

Countertops

Interior Wall

Fireplaces

Calacatta UMBER is quarried in the Jilin Province of China, near the border of North Korea. As a result of the severe winter in this area, the quarry is shut down for four to five months each year. Calacatta UMBER has a clean, white background with darker veins. Due to the qualities of the stone, the slabs are book-matched; meaning slab one and slab two will be cut and polished to create a mirror image of each other. These are then kept in sequence, which allows for a consistent flow in pattern. As a natural stone product, it is recommended that this be sealed to extend its longevity.
