Fireplaces
Showers
Steam Showers
Pool & Spa (waterline)

P.E.I. RATING: 4

FROSTPROOF: Yes

C.O.F. DRY: 0.87

C.O.F. WET: 0.73

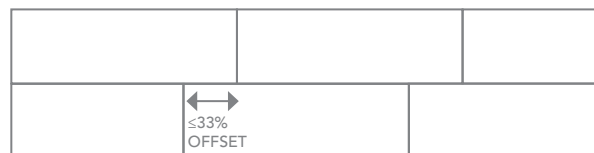

DYNAMIC C.O.F. WET: 0.52

*DCOF Rating is a measurement of a tiles frictional resistance. It is the specifier's responsibility to ensure the chosen tile is appropriate for each interior and exterior application.

The Fibra Series is a color body porcelain. Inspired by the rich textures of commercial textiles, this series has a clean, linear look that offers a simplistic and modern appeal. Because this material is a porcelain product, maintenance risks involved with actual stone are eliminated. It is available in four colors and provides an industrial and commercial aesthetic that is now available for residential installations as well.

For proper bonding, medium bed mortar should be used when installing tiles with a dimensional length greater than 15", and rectangular shap and plank tile, per industry standards. Proper thinset coverage is also necessary, and in some cases, back buttering of tile may be required.

When installing rectangular or square tiles 15 inches or longer with a staggered joint, it is recommended that the offset should not exceed 33%, unless otherwise specified by the manufacturer.

SIZE	SF/PIECE	PIECES/BOX	SF/BOX	BOXES/PALLET	SF/PALLET
