

# OPERATING INSTRUCTIONS

## CaféWay™ Rectangular Tables with Benches

October 2014

### TABLE TOP OPERATION

#### OPENING

To open table for in-use position, open by disengaging the retainer latch, which holds the table in the closed position. (Figure 1 & Detail A). Position hands on each side of table near the center point and then spread the two table sections apart (Figure 2). Place hands on top of benches and push downward until latch automatically locks into place (Figure 3).

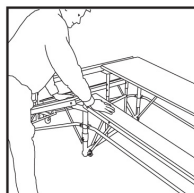

Figure 3

#### ADJUSTING THE DOWN LATCH

To adjust the down latch, apply body weight onto the bench top until the center leg touches the ground (Figure 4). While applying pressure to the bench top, use an allen wrench to tighten the adjusting screw. Tighten screw until the down latch cannot be released by hand, then back off 1/8" turn (Figure 5).

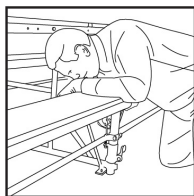

Figure 4

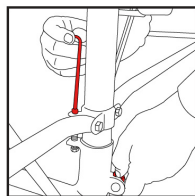

Figure 5

#### CLOSING

To close table for storage, push down on benches while disengaging the down latch on center post with your foot. (Figure 6). Grasp benches directly over center and lift upward to achieve the initial closing action (Figure 7). Raise table to teepee position. Close table to engage latch (Figure 8).

#### MOVING

To properly move the table and avoid table tipping, push from the end of the folded table while facing the center lock rod (Figure 9). Do NOT push from the flat table side as this may cause tipping (Figure 10).
