

Engage[®]

Task Seating

adaptable | adjustable | contemporary

Furnishing Knowledge[®]

One size doesn't fit all. One chair does.

Adaptable, adjustable comfort.

In offices, hospitals, computer labs or anyplace adjustable comfort is needed, Engage is the seating choice. There's even a 24/7 option with a three-shift, ten-year warranty. Choose from poly or upholstered back panels; fixed or adjustable arms or armless; black or aluminum base.

Back height adjusts in a 4" range for proper support.

Seat depth adjusts from 16" to 19" for chair and from 16" to 17-3/4" for stool to fit various leg lengths.

Arm height adjusts from 2-1/2" to 4" depending on style. Pivot armcap rotates to four positions including a 180° pivot. Width adjustable armcap provides an extra inch of room on each side.

Pneumatic height adjusts to fit your height - optional low and high cylinders.

Engage® Task Seating

We took the best thinking in ergonomics. Gave it a clean, crisp look. Then made it so simple to adjust that it can fit virtually any body type.

The seat and back move with you via a synchrotilt control for enhanced comfort. The soft seat also tilts forward to relieve pressure on thighs when in a work-intensive position. Optional memory foam seat enhances comfort even further.

With its contoured, thin profile and square back, Engage enhances the look of any environment.

Adjust seat depth, back height and arm height and pivot to fit your body and adapt to your tasks. Back flexes 20° yet can be locked in any of three positions. Best of all, the controls are easily accessible and easy to grasp.

Specifications
