What's new?

Starting in this version of the Formica® National Product Guide, you'll notice a design face-lift. The goal of the redesign is to make the guide easier to read and a more efficient resource for all our customers. So what's new in this version?

- The What's New section - we plan to incorporate this section into each new version as a quick overview to changes in the document from previous versions.
- The document has been digitally optimized. For those who use the document digitally, the Table of Contents above is now clickable. Click on any of the line items to be taken to that page.
- The new items for the 2019 Specialty Launch have been added. You'll find new items in DecoMetal®, ColorCore®2, Formica Infiniti® ColorCore®2 and ColorCore®2.
- There are selection edits to the Formica® Solid Surface Sinks and Showerpans offering.
- Outside of the Formica logo, all color has been removed from the document. Removing colored icons eliminates potential confusion when printed out on a black and white printer.
- No solid-black areas of graphics. A subtle change, but uses less ink while printing, therefore saving on ink usage in the long run.

This catalog includes standard products offered by Formica Corporation in a wide range of colors, grades, finishes and sizes. Please note that a large selection of standard items may be inventoried in our warehouse. Make-to-Order items are manufactured at time of order and require longer delivery times. Any item requesting special designations like peel coat and/or special inspection may become a Make-to-Order with a longer lead time.

To enable us to process your orders in the most efficient manner, please follow the below procedures.
