Up & Up II in Nambu-Goto, monolithic tile installation

Up & Up II

We do not perceive our universe as it is—in six dimensions; three dimensions of space and three dimensions of time. From a one dimensional line, we create textural forms that modify the three dimensional interior. Pure integration and movement of line offers beauty and function in four patterns where subtlety and balance of scale bring timeless elegance. This collection's integrated texture and dimensional beauty are distinct enough for any space or time and bring a new approach to flooring.
