

Cambium

NUCRAFT

Cambium

Cambium provides a simple casegoods platform, focused on function and visual integrity. It combines Nucraft materials and finishes with an attention to detail that reflects today's design sensibilities. Trim and linear elements fit seamlessly, and can be customized to fit both space and user. With a concise kit of integrated parts, Cambium streamlines specification. Height-adjustable work surfaces enhance well-being and versatile storage supports professionals.

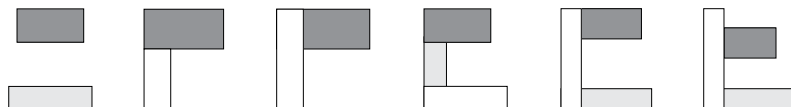

Freestanding

Freestanding desk with hoop legs available in high polish or powder coat finishes. Modesty panel available as half or full height in veneer or paint finishes. Shallow depth towers align flush with the adjacent overhead door. Overhead doors available in paint, frameless glass, and veneer. Towers available as wardrobe or closed-door storage. Shown in Otter Walnut with Textus Felt Mélange in Greige back panel, polished chrome hoop legs and integrated pulls. Drawers and overhead in Moonlight paint.

Configurations

Height adjustability can be located in multiple locations: primary desk (dark gray) or secondary worksurfaces (light gray) such as returns, bridges or credenzas.

Freestanding
