

Nature is filled with astonishing combinations of textures, shapes and colors that continually change and evolve over time. The Adapt Collection is inspired by nature's transformation and ability to adapt to its ever-changing surroundings.

The collection features four carpet tile patterns: **Moss**, **Stream**, **Brush** and **Pebble**. Each of the patterns are available in thirteen Antron® Lumena™ solution dyed type 6,6 nylon colorways.

Brush

Color 13 Splash

Brush accumulates effortlessly in nature with a blend of twigs and branches that stack together in layers. This lateral design creates both solid and wispy areas of textural interest.

Herringbone

Brush

Color 13 Splash

Brush accumulates effortlessly in nature with a blend of twigs and branches that stack together in layers. This lateral design creates both solid and wispy areas of textural interest.

Ashlar Monolithic

Moss

Color 13 Splash

Moss displays ornamental interest in its many species. It lives in tandem and takes shape while covering other surfaces in its habitat. This organic design resembles the formation of moss as it flourishes on tree bark in the forest.

Herringbone

Pebble

Color 13 Splash

Pebble tailors to its environment. Some pebbles drift, some sparkle in the sunlight, others may become hidden in the earth after a heavy rain. This small scale texture combines well with all of the patterns in the collection to create an effortless foundation to any space.

Stream

Color 13 Splash

Stream produces a natural ebb and flow that is affected by elements in its environment. Waterways sometimes move rapidly while other times they move more slowly. The fluid movement of Stream creates an understated linear design that changes subtly in density.

Backing System	Perma-tile vinyl backing system with recycled content. Approximate backing thickness is 0.12 inches. Approximate total thickness is 0.28 inches.			

General Guidelines

Quality Assurance	All certified carpets of Antron® LUMENA™ solution dyed type 6,6 nylon meet strict performance and construction standards set by Invista to assure the highest quality carpet. The Antron® LUMENA™ solution dyed type 6,6 nylon polymer provides superior resistance to crushing, matting, and wear.
Soil Retardant	DuraTech®, a patented soil resistance technology, is only available on styles of Antron® type 6,6 nylon.
Static Control	Antron® LUMENA™ solution dyed nylon type 6,6 carries a limited lifetime antistatic protection warranty not to exceed 3.5kV.
Flammability Ratings	ASTM E668 Flooring Radiant Panel Test: Class I. ASTM E662 NBS Smoke Chamber Test: < 450 in the Flaming Mode.
Environmental	Complete details on contributions to LEED, CRI Green Label Plus, NSF/ANSI 140-2015, HPD's and EPD's can be found on the Atlas website in the Resources tab under Environmental.
Warranty	Antron® LUMENA™ solution dyed nylon type 6,6 carries a Limited 10-Year Wear Warranty. See written warranties.
©Invista	All Rights Reserved. Antron® and the Antron® family of marks and logos are trademarks of INVISTA.
©Atlas	These patterns are protected under federal copyright law and may not be duplicated without Atlas' express written permission.
