FIRST LET'S MAKE THINGS THAT LAST.

The Emeco 1006 Navy Chair was first commissioned in the 1940s by the U.S. Navy for use on warships – the contract even specified that it had to be able to withstand torpedo blasts. Today our chairs are still made in the U.S.A., of 80% recycled aluminum, and are made by hand, by Emeco craftsmen using the original 77 step process. The world's best architects and designers collaborate with us to design chairs that are built and guaranteed to last a lifetime.

As we apply what we've practiced in the past, we are looking toward the future. We are on a mission to make a positive impact on the environment. Our goals are to use waste material in our products, use as little energy as possible in our manufacturing, generate a minimum of waste in the process, and build strong, durable, beautiful chairs that last through generations. We've been on the same mission since 1944 and we will continue to search for new ways to recover and utilize discarded materials and make products that last.

A PERFECT MATCH

PARRISH by GRCIC

Konstantin Grcic said, "Emeco is simply the only company I could think of who could bring a nice mix for this interior concept, specialists in aluminum, delivering another kind of material appearance, environmentally sound, perfect for both indoor and outdoor and being such a truly American company – it was a perfect match."

The new Parrish Art Museum opened in November, 2012 in Water Mill on Long Island, and has been acclaimed for the barnlike building designed by Herzog and de Meuron and the elegantly minimal interiors and furniture designed by German designer Konstantin Grcic.

Parrish Chair with Black Plastic seat, Parrish Lounge Chair with Grey Leather seat. Opposite page: Parrish Chair with Grey Plastic seat.

THE HEART OF THE MATTER

The Parrish Collection is a family of chairs and tables with a subtle design and a strong technical core. The underside "heart" was designed specifically for Parrish to interconnect the elements of the chair to form a strong, integral anatomy.

Parrish Lounge Chair with grey leather seat.

"The Parrish lounge and side chair collection offers three frame choices - sandblasted recycled aluminum in clear finish, or red or black powder coated finish. The side chair is available in four seat options – reclaimed polypropylene, sustainably harvested local wood from Lancaster, PA, or high quality upholstery in fabric or leather. The Parrish lounge chair is available in sustainably harvested local wood from Lancaster, PA and upholstery in fabric or leather. These choices enable different combinations, creating a versatile family. The complementary tables, available in two heights, and offered in 2 finishes, and two Trespa tabletops, extend the adaptability of the collection."

Parrish Table aluminum frame grey top, Parrish Low Table black powder coat frame, black top.
