

RUN by SAM HECHT + KIM COLIN

FIRST LET'S MAKE THINGS THAT LAST.

The Emeco 1006 Navy Chair was first commissioned in the 1940s by the U.S. Navy for use on warships – the contract even specified that it had to be able to withstand torpedo blasts. Today our chairs are still made in the U.S.A., of 80% recycled aluminum, and are made by hand, by Emeco craftsmen using the original 77 step process. The world's best architects and designers collaborate with us to design chairs that are built and guaranteed to last a lifetime.

As we apply what we've practiced in the past, we are looking toward the future. We are on a mission to make a positive impact on the environment. Our goals are to use waste material in our products, use as little energy as possible in our manufacturing, generate a minimum of waste in the process, and build strong, durable, beautiful chairs that last through generations. We've been on the same mission since 1944 and we will continue to search for new ways to recover and utilize discarded materials and make products that last.

One for all.

RUN by SAM HECHT+KIM COLIN

RUN effortlessly finds balance in both indoor and outdoor landscapes suited for meeting, eating, learning, sharing and working. Made of responsibly selected materials and engineered to last, RUN is right for a multitude of uses at home, for hospitality and in the workplace.

Aluminum table and bench with 1006 Navy chairs

"Run is shaped to acknowledge the benefits of being around others, so tables are welcoming and useful, purposefully made to work well with many of Emeco's existing chairs and stools, including the original Navy Chair." *Sam Hecht*

Long and short.

Planks come in recycled, anodized aluminum or responsibly harvested ash, cedar and walnut wood. Tables can be placed together for longer runs.

High and low.

High ash table with Emeco barstool

All Run tables are available as high tables for use with barstools or as a standing table.

In and out.

Cedar wood and anodized aluminum are suitable for both indoor and outdoor use.

Benches are available in two lengths to seat 3 or 4, with tops in aluminum, ash, cedar or walnut. Legs come in clear aluminum or powder coated black. *Shown: 4-seat bench in aluminum*

Shelves with aluminum frame and planks.

The Platform and Bookend accessories help delineate spatial and functional divisions for the tables and shelf.
