SHINGLE - INSTALLATION

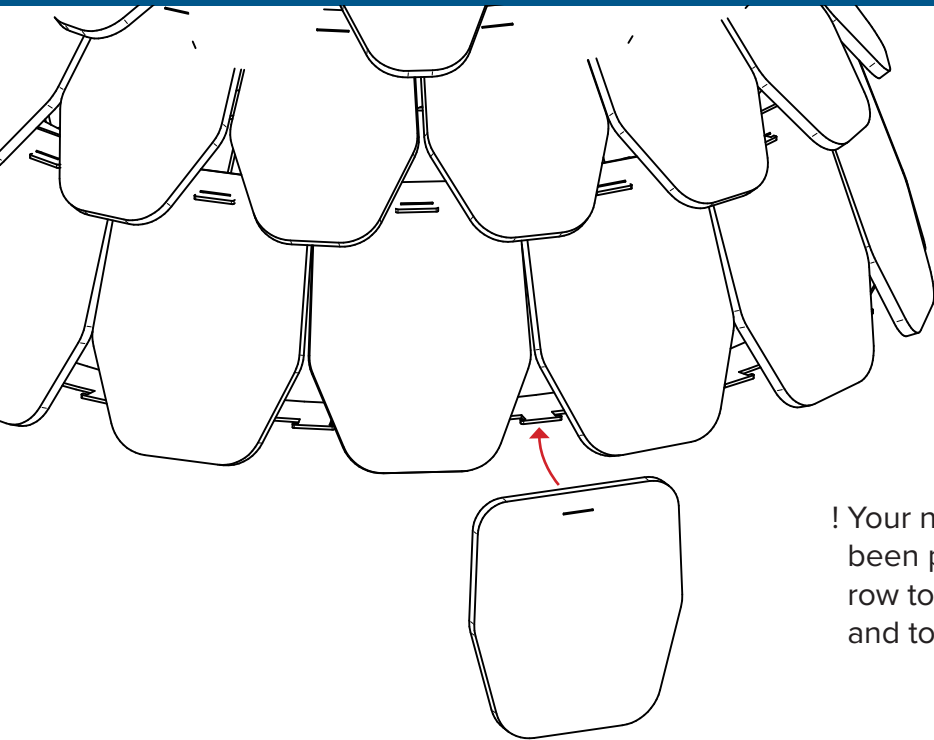

⚠ Before starting, determine which fasteners will be best suited to secure the fitting, based on the material of the ceiling substrate.

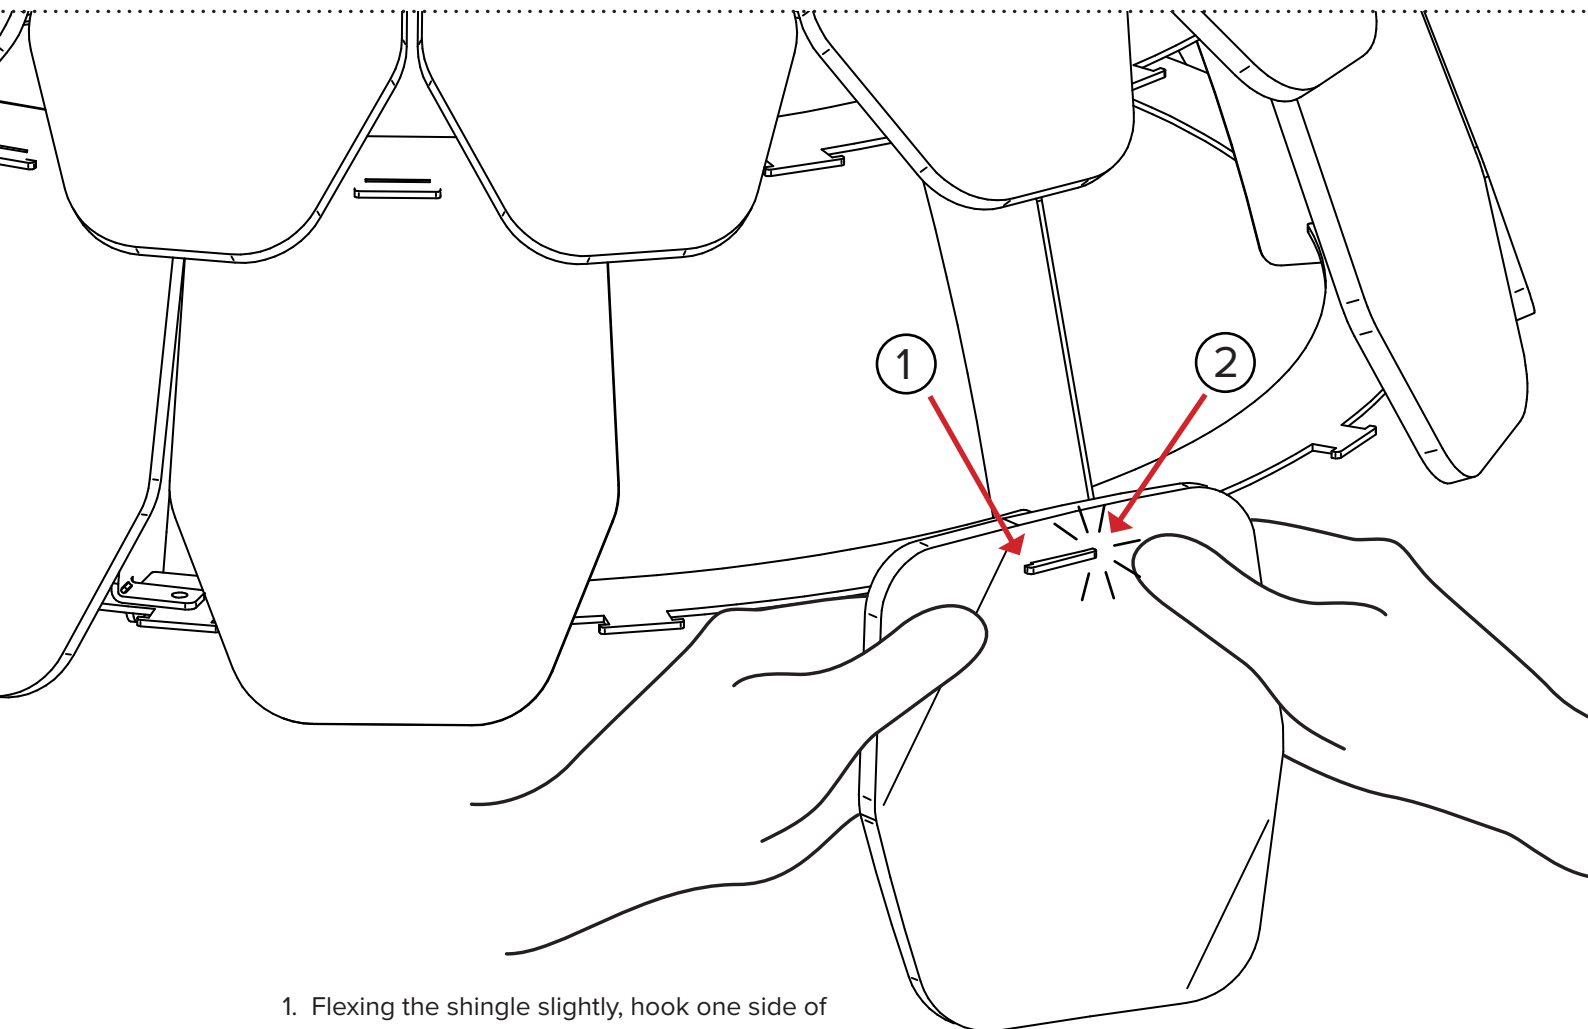

1. Mount canopy base to ceiling
2. Insert power cable into canopy cover. Adjust lengths of cable and trim if necessary. Fasten power cable strain relief grub screw
3. Connect line voltage to terminals provided
4. Place canopy over canopy mount and fasten 2x grub screws

NOTE: Line voltage fittings must be installed by a qualified electrician, in accordance with local electrical laws

SHINGLE - BOTTOM ROW ASSEMBLY

! Your new Shingle light may have been provided without the bottom row to save you money on shipping and to avoid damage in transit

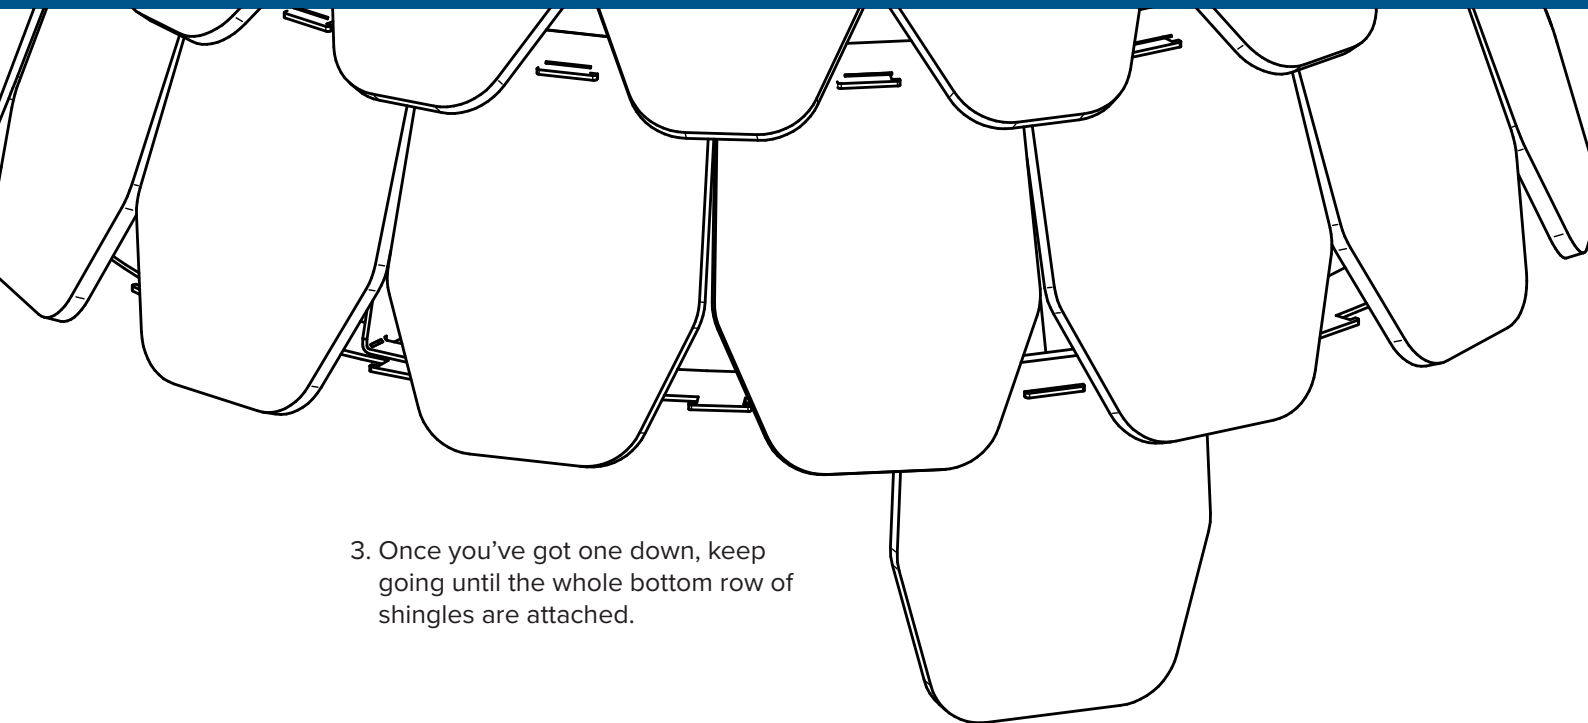

1. Flexing the shingle slightly, hook one side of the shingle on to the barbed ring plate
2. With one side on, push the barb through the slot in the shingle, it should 'pop' on
