Our Approach

We believe a thoughtfully designed ecosystem supports employee wellbeing by providing individuals and groups a range of destinations and technologies within the workplace that support the ways people create. By considering design, materiality and uncompromising performance — for the employee, for the organization and for designers & decision makers — employees and organizations can unlock their promise.

West Elm & Steelcase

People want to feel comfortable, inspired and supported at work. They want to connect with their teams in honest, informal ways — ways that help them build relationships, all while being their true selves and getting their best work done. Now, Steelcase and West Elm are introducing the West Elm Work Collection which will be available exclusively through Steelcase and West Elm dealers to support the changing preferences of people at work.

Steelcase and West Elm have teamed up to offer an initial suite of products designed to help create inspiring, high-performance places where people love to work.

The west elm Work Collection represents Steelcase and west elm's unique perspective as partners - west elm's signature modern aesthetic augmented by Steelcase's workplace expertise and reliability of the largest dealer network in the world.

Combining the distinctive look and feel of West Elm with Steelcase's research, engineering, operational capabilities, and dealer network will create a compelling combination for clients, as well as for the design community.
