Total Weight/SY imperial	103 oz./square yard
Total Weight/SM metric	3.2 kg./meter
Warp/Weft	Cotton
Secondary Backing	ActionBac
Latex	100% Synthetic
<p>Color Variations - Every effort is made to ensure that there is minimal color variation, however some variation can be expected in that wool is a natural fiber and dye lots will vary. Please call Customer Service if a cutting is required from current inventory.</p> <p>Shedding of wool products is a natural process with any natural fiber and will minimize over time. Much of the shedding is caused by small fiber clippings that are a result of the shearing process and in no way shortens the life of the rug.</p> <p>As with any other flooring material made with natural fibers, variations within the weave and fibers are regarded as positive features, not defects. Picks, pulls and loose fibers within the rug are normal and can easily be remedied by trimming the tufts with sharp shears or scissors.</p> <p>A vacuum cleaner with a power brush or 'beater bar' action on a wool product of any construction will greatly increase picks, pulls and loose fibers. For this reason, Masland recommends a suction only vacuum system for proper maintenance.</p> <p>For additional warranty information, please visit us online at www.maslandcontract.com</p>
