

Haworth® Health Environments

Dover™ Collection

## Seating with style

The Dover collection offers contemporary style in guest and tandem seating. Its unique maple and steel construction spans up to three seats without requiring a center leg, making it easier to keep floors clean underneath. A bariatric chair accommodates patients who need more room, or provides a seat for a parent and child.

HIGH-BACK PATIENT CHAIR

## Features

- Maple and steel construction consists of solid kiln-dried hardwood and tubular steel with double dowel construction.
- Multi-density, Cal 117-2013 compliant urethane foam seats
- Cal 133 options available
- Vertical clean-out
- Field replaceable seats and backs
- Wood armcaps
- Wallsaver leg design
- An antimicrobial finish inhibits growth of bacteria while the lacquer provides a strong defense against the harshness of cleaning solutions.
- Also available without antimicrobial finish
- High-back patient seating is available in stationary and flex-back options
- Flexback chairs have 15 degrees of rearward flex
