A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table. The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

This book is effective September 3, 2019, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit www.HermanMiller.com.

All prices are list prices in US Dollars. Additional services, such as planning services, design, storage, and installation, are not included and must be added to these prices when the additional services are requested.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest 1/8". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Service problems are normally handled by a Herman Miller authorized dealer. Where this cannot be accomplished on a local level, service problems should be referred to the Customer Care Representative for your region, Herman Miller, Inc., Zeeland, Michigan 49464.

20-Day or Less/Assigned Lead-Time Shipments

All products and options in this price book not designated by an Assigned Program icon  will ship in **20 business days or less** after being acknowledged by Herman Miller.

Products and options designated by an  are on the assigned lead-time program and may ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Tall Pole

R1110.

Product Information

Description

This 96"-high, 3-sided pole forms 120° connections between support arms. It attaches to trusses and allows overhead delivery of power and/or data. Each pole has 3 petals and a crown at the top and a 2" adjustable base that adjusts the pole height in 1/2" increments. The N, R, and P power options have 9 receptacle location covers; each side of the pole is prepunched to hold 3 duplex receptacles.

The pole is available nonpowered or powered. The powered pole has a 3-sided, 6-circuit electrical harness on the inside of the pole. The pole is UL listed; electrical components are UL listed and CSA certified.

The field-wired version of the tall pole (R1110.R) meets Chicago electrical code requirements. This version can also be used internationally and is compatible with most international electrical systems and components.

Notes

Order following products separately:

- Fixed truss (R1220.) or sliding truss (R1230.)
- Support arms (R1210.)

To manage data cables, order 1 of the following products separately:

- Cable bag (R1365.)
- Cable cover (R1361.)
- Cable management clips (R1362.)

To attach data ports to outside of pole, order data faceplate housing (R1360.) separately.

For powered pole, order 6-circuit duplex receptacle (R1311.) separately.

To add simplex receptacles to crown, order simplex receptacle (R1312.) separately.

To convert nonpowered pole with cutouts to powered pole, order tall pole power harness (R1380.) separately.

To pass power over the top of nonpowered pole, order power block (R1382.) separately.

To add duplex receptacle to field-wired pole (R1110.R), order receptacle box/cover (R1313.) separately. Receptacle box/cover accepts standard-size faceplates and duplex receptacles (supplied by electrician).

To supply power to field-wired pole (R1110.R) from the floor or wall, order power entry plate (R1325.) separately.

Nonpowered pole without cutouts (R1110.A) cannot be converted to a powered pole.

Short Pole

R1120.

Product Information

Description

This 48"- or 60"-high, 3-sided pole forms 120° connections between support arms. Each pole has a top cap and a 2" adjustable base that adjusts the pole height in 1/2" increments. The N, R, and P power options have 9 receptacle location covers; each side of the pole is prepunched to hold 3 duplex receptacles.

The pole is available nonpowered or powered. The powered pole has a 3-sided, 6-circuit electrical harness on the inside of the pole. The pole is UL listed; electrical components are UL listed and CSA certified.

The field-wired version of the short pole (R1120.48R and R1120.60R) meets Chicago electrical code requirements. This version can also be used internationally and is compatible with most international electrical systems and components.

Notes

Standing-height monitor pod, standing-height café table, pole accent light, and 60"- and 69"-high boundary and display screens cannot be used with 48"-high short pole.

Order support arms (R1210.) separately.

To manage data cables, order 1 of the following products separately:

- Cable bag (R1365.)
- Cable cover (R1361.)
- Cable management clips (R1362.)

To attach data ports to outside of pole, order data faceplate housing (R1360.) separately.

For powered pole, order 6-circuit duplex receptacle (R1311.) separately.

To convert nonpowered pole with cutouts to powered pole, order short pole power harness (R1381.) separately.

To add duplex receptacle to field-wired pole (R1120.60R), order receptacle box/cover (R1313.) separately. Receptacle box/cover accepts standard-size faceplates and duplex receptacles (supplied by electrician).

To supply power to field-wired pole (R1120.60R), order power entry plate (R1325.) separately.

Nonpowered pole without cutouts (R1120.A) cannot be converted to a powered pole.

In-Line Pole

R1140.

Product Information
Description
This 2-sided pole forms a 180° connection between support arms. It is available in a 48", 60", or 72" height and has a top cap and a 2" adjustable base that adjusts the pole height in 1/2" increments. The in-line pole does not accommodate power or data cables. The pole is UL listed.
Notes

Resolve® Infrastructure

Seismic Clip

R1190.

Resolve® Infrastructure

Product Information

Description
This clip secures a tall, short, or in-line pole to the floor in regions where seismic activity is a concern or where required by local code. 3 clips are required for each tall or short pole; 2 clips are required for each in-line pole. Hardware to secure the clips to the pole is included; hardware to secure the clips to the floor is not included. Package contains 6.

Notes
Seismic clips must be field installed.

Support Arms

R1210.

Product Information
Description
These arms connect to tall, short, or in-line poles to create boundaries and hold components and accessories. They are available in 48" or 60" lengths as measured from the center axis of the connecting poles. Package includes an upper support arm and lower support arm. Support arms are UL listed.
Notes
Order screens separately:
• Boundary screen (R1410.)
• Display screen (R1420.)
• Marker screen (R1450.)
Order arm-attached storage separately:
• Arm-attached cabinet (R3221.)
• Ladder shelf (R3312.)
• Tool rail (R3610.)
To distribute power and data on lower support arm, order power/data channel (R1351.) separately.

Resolve® Infrastructure

Fixed Truss

R1220.

Resolve® Infrastructure

Product Information

Description

This truss attaches to 2 tall poles and delivers overhead power and/or data, creates boundaries, and can be used over an aisle. A steel barrier separates power and data cables in the trough. The truss is available nonpowered or powered and in 5 lengths. The powered truss has a 6-circuit electrical harness on the inside of the trough. The truss is UL listed; electrical components are UL listed and CSA certified.

Notes

To convert nonpowered truss to powered truss, order fixed truss power jumper conversion kit (R1345.) separately.
For cable capacity information, see Cable Capacity Charts in Omni.

Sliding Truss

R1230.

Product Information

Description

This truss joins 2 tall poles and connects 2 separate constellations. It delivers overhead power and/or data, creates boundaries, and can be used over an aisle. A steel barrier separates power and data cables in the trough. The truss has 3 adjustable lengths: 9' to 12', 12' to 16', or 16' to 20'; attachment brackets at each end rotate the truss 62° to the left and right of center.

The truss is available nonpowered or powered. The powered truss has a 6-circuit electrical harness on the inside of the trough. The truss is UL listed; electrical components are UL listed and CSA certified.

Notes

To convert nonpowered truss to powered truss, order sliding truss power jumper conversion kit (R1346) separately.

For cable capacity information, see Cable Capacity Charts in Omni.

Floor/Wall Power Entry

R1320.

Resolve® Infrastructure

Product Information

Description
This power entry connects a building’s electrical supply from a wall, floor, or column to the power harness of a tall or short pole. It distributes up to 6 20-amp circuits and is available in 4 lengths, which can be field cut to the appropriate length. The power entry plugs directly into the pole’s electrical harness and uses 1 of the lowest receptacle openings. It is UL listed and CSA certified. Attachment hardware is included.

Notes
Licensed electrician must wire power entry.

Product Information

Description

This power/data entry connects a ceiling's electrical supply to a power harness or power block at the top of a tall pole. It distributes up to 6 20-amp circuits. The entry is available in 3 mesh-wrap lengths and includes a ceiling bezel connector. The mesh wrap and ceiling bezel connector are off white. The entry is UL listed and CSA certified.

The entry is available nonpowered or powered. The powered entry includes a flex-conduit harness with a crown-mounting bracket and power whip that is 4' longer than the mesh wrap to allow flexibility during installation.

Notes

A licensed electrician must wire the power entry.

Product Information

Description

Notes

Dimensions

This channel mounts between 2 poles above the lower support arm and distributes power and data. It includes 3 channels: 1 for cables and power cords, 1 for an optional power harness, and 1 for data cables. The channel is available nonpowered or powered and in a 48" or 60" length. The powered center channel includes a power jumper with a flex-conduit harness; its direct connects on each end plug into the adjacent pole's electrical harness at the lowest receptacle opening. The channel is UL listed and CSA certified.

Specify length of channel to match length of support arms.

Power Pass-Through Bracket

R1352.

Resolve® Infrastructure

Product Information

Description

This mounting bracket fits into a nonpowered pole’s receptacle location. It allows power to pass from a powered pole, through a nonpowered pole, and onto another powered pole. The bracket provides a connection point for the 2 lower arm power harnesses in the powered poles. It is UL listed and CSA certified. Package contains 6.

Notes

Power pass-through bracket can only be used with nonpowered poles with cutouts. It cannot be used with powered poles, nonpowered poles without cutouts, or power harnesses.
Use of the power pass-through bracket does not create a powered pole.

Controlled Duplex Receptacle

R1311M

Product Information

Description

This receptacle is to be used for ASHRAE90.1 and Title 24 compliance. A controlled receptacle should be used for any receptacles that are under automated control by the energy management system. This duplex receptacle attaches to the power harness of a tall or short pole. Package contains 6 duplex receptacles. Attachment hardware included. Receptacle is UL listed and CSA certified.

Notes

For information on receptacle types and wire usage, see Resolve® Planning Guide.

Cable Bag

R1365.

Product Information
Description
This mesh bag hangs from a tall or short pole and holds cords, cables, a multi-outlet strip, or other items. A cable management clip holds the bag in place against the pole; the bag can be adjusted vertically in 1" increments. The bag has a drawstring with a clear plastic cinch button that adjusts the size of the opening and secures cables entering the bag. A hook-and-loop-fastener opening in the back allows cords to enter or exit the back of the bag. Mesh color is grey. 1 cable management clip is included.

Communication Port Faceplate
Extender

G1189.

Product Information
Description
This faceplate fits over the communication port cutout of the following products: Action Office® Series 2 or Ethospace® cable management side cover; Action Office Series 2 cable management panel face; Ethospace cable access tile upper port; or a Resolve® data faceplate housing. It allows installation of specific cable communication modules without interfering with cable distribution capacity. Attachment hardware is included. Package contains 6.
Notes
Purchase preconfigured voice/data modules/faceplates separately from their manufacturers.
When specifying faceplate for Action Office Series 2 panel or Ethospace frame, order “J” or “G” power option with communication port locations.
When specifying faceplate for Action Office Series 2 cable management panel, order panel face side 1 (A1181.C) and side 2 (A1182.C) separately.
When specifying faceplate for Ethospace grooved face tile or frame with grooved side covers, order both reducer (G1189.A) and extender (G1189.B).
When specifying faceplate for Resolve data faceplate housing, order housing (R1360.) separately.

Boundary Screen

R1410.

Product Information

Description

This fabric screen attaches to an upper and lower support arm using J-strips. It creates a boundary between workstations. The screen is available in combinations of 3 heights and 3 widths; the widths provide different degrees of enclosure. The upper and lower J-strip finish is clear. The screen is UL listed.

Notes

60"- and 69"-high screens cannot be used with 48"-high short pole.

Specify height of screen to match height of upper support arm.

Specify width of screen equal to or less than length of support arms.

For increased acoustical privacy, order acoustical insert (R1412.)

separately.

Screen accepts Customer's Own Material (COM). Yardage is estimated for nondirectional, 60"-wide fabrics.

Height—Yardage

48" —1¹/₈

60" —1¹/₂

69" —1⁷/₈

Textiles are cut parallel to the roll to match the appropriate screen height. Add 4 yards COM to total boundary screen order (required for lead-in material used in application process). For information on multiple quantities or directional fabrics, contact COM Department. See Order Information in Appendices.

Acoustical Insert

R1412.

Product Information
Description
This sound-reducing insert is placed between 2 boundary or display screens mounted on a 4' or 5' support arm. It has a clear, sound-blocking Sound Transmission Class (STC) barrier that is positioned between 2 sound-absorbing Noise Reduction Coefficient (NRC) layers. The 3-piece insert is semi-translucent to light and attaches to the upper and lower support arms. The STC rating is 21; the NRC rating is .40. The insert is UL listed.
Notes
Specify height of insert to match height of support arms.
Specify width of insert to match width of corresponding boundary or display screen.
Acoustical insert is not available in 36" width.
For boundary or display screens shipped before June 6, 2005, please contact Herman Miller Options for appropriate insert widths. Call (800) 654 3910 for more information.

Rolling Screen

R1441.

Product Information

Description

This screen attaches to a tall pole on one end, arcs over a workspace, and extends to the floor on the other end. It rolls left and right to allow easy positioning for individual privacy requirements. The fabric screen has a steel tube frame and color-matched wheels. It is available in 2 sizes and as a frame only or as a frame with standard fabrics.

Attachment hardware is included. Shipped knocked down.

The support arm length reference (48" or 60") gives the specifier an idea of the arc created when the rolling screen is used with either 48"- or 60"-long support arms.

Notes

For accurate planning information, see dimensional drawing and Resolve Planning Guide.

Fabric is shipped separately from frame; fabric must be field installed on frame.

When replacement fabric is needed, order replacement fabric for rolling screen (R1444.) separately.

Nesting Rolling Screen

R1442.

Product Information

Description

These 2 screens attach to a tall pole on one end, arc over a workspace, and extend to the floor on the other end. They nest together or roll apart and move left and right to allow easy positioning for individual privacy requirements. Each fabric screen has a steel tube frame and color-matched wheels. They are available in 2 sizes and as a frame only or as a frame with standard fabrics. Attachment hardware is included.

Shipped knocked down.

The support arm length reference (48" or 60") gives the specifier an idea of the arc created when the rolling screen is used with either 48"- or 60"-long support arms.

Notes

Product Information

Description

This 120° curved work surface attaches to a tall or short pole in the rear corner and has 2 pin-adjustable legs with 1" adjustable glides on the front (user) side. It can be installed from 22" to 32" in height. The work surface has a laminate, formcoat®, or veneer finish. The 3/4"-thick laminate surface has a square thermoplastic edge that matches the top color; the 1"-thick formcoat surface has a soft-curved front with an eased front edge; the veneer surface has a 7/8"-thick, 15-ply Baltic birch core and edge. It is predrilled for a pencil drawer: the 48"-wide work surface is predrilled in the center position; the 60"-wide work surface is predrilled in the left, right, and center positions. The center of the work surface's back edge is predrilled for a cable manager. Attachment hardware is included.

The formcoat finish is available as opaque or fleck. The opaque finish is nontransparent and has a solid-color appearance; the fleck finish is a nontransparent solid color with tiny flecks.

Notes

For additional support at left or right end of surface, order work surface bracket (R2190.) separately. Boomerang surface width must match adjacent support arm length (4' boomerang surface on 4' support arm; 5' boomerang surface on 5' support arm).

Order optional cable management products separately:

- Cable manager (R1364.)
- Cord holder (R1366.)

For accessory product applications, the following Compatibility Charts are available electronically for viewing and printing in Kiosk and HermanMiller.com: Keyboard Compatibility Charts, Pencil Drawer Compatibility Charts, and Work Organizer Compatibility Chart.

Extended Boomerang™ Work Surface

R2104.
R2105.

Product Information

Description

This 120° curved work surface attaches to 2 tall or short poles. It has 3 pin-adjustable legs with 1" height-adjustable glides. The work surface can be installed from 22" to 32" in height. It has 3 sides and a laminate, formcoat®, or veneer finish. The 3/4"-thick laminate surface has a square thermoplastic edge that matches the top color; the 1"-thick formcoat surface has a soft-curved front with an eased front edge; the veneer surface has a 7/8"-thick, 15-ply Baltic birch core and edge. It is predrilled for a pencil drawer: the 48"-wide work surface is predrilled in the center position; the 60"-wide work surface is predrilled on the left and right sides. The center of the work surface's back edge is predrilled for a cable manager. Attachment hardware is included. Shipped knocked down.

The formcoat finish is available as opaque or fleck. The opaque finish is nontransparent and has a solid-color appearance; the fleck finish is a nontransparent solid color with tiny flecks.

Notes

48"-wide left × 48"-wide right work surface with 48" center width (R2104.4848) has 2 pin-adjustable legs.

For additional support at left or right end of surface, order work surface bracket (R2190.) separately. Boomerang surface width must match adjacent support arm length (4' boomerang surface on 4' support arm; 5' boomerang surface on 5' support arm).

Order optional cable management products separately:

- Cable manager (R1364.)
- Cord holder (R1366.)

For accessory product applications, the following Compatibility Charts are available electronically for viewing and printing in Kiosk and HermanMiller.com: Keyboard Compatibility Charts, Pencil Drawer Compatibility Charts, and Work Organizer Compatibility Chart.

Resolve® Work Surfaces

Product Information

Description

This 48"- or 60"-high cabinet attaches to a tall or short pole. It has 4 legs with 1" height-adjustable glides and several interior components including shelves, 6"-deep drawers, and file frames for letter-size hanging files. The interior components are available in prearranged configurations or can be ordered separately. The top of the cabinet includes a lockable lid for secured storage of personal items. The cabinet has a lockable, steel door. Attachment hardware is included. 48" cabinet attaches to a tall or short pole. 60" cabinet attaches to a 60"-high short pole or to a tall pole (60" cabinet cannot attach to a 48"-high short pole). Cabinet must attach to pole for stability; it cannot be used as a freestanding unit.

Notes

To order individual components, specify N for interior configuration and order components separately:

- Cabinet drawer (R3232.)
- Cabinet file frame (R3231.)
- Cabinet shelf (R3230.)

To convert pole-attached cabinet to arm-attached cabinet, order cabinet arm attachment bracket (R3294.) separately.

For keyed-alike locks, order lock plugs separately. See Keyed-Alike Information in Appendices.

Product Information

Description

This 48"- or 60"-high cabinet has 4 legs with 1" height-adjustable glides and attaches to an upper support arm. It has several interior components including shelves, 6"-deep drawers, and file frames for letter-size hanging files. The interior components are available in prearranged configurations or can be ordered separately. The top of the cabinet includes a lockable lid for secured storage of personal items. The cabinet has a lockable, steel door. Attachment hardware is included.

48" cabinet attaches to a 48" upper support arm height; 60" cabinet attaches to a 48", 60", or 69" upper support arm height. Cabinet must attach to support arm for stability; it cannot be used as a freestanding unit.

Notes

Specify height of cabinet's attachment bracket to match height of upper support arm.

To order individual components, specify N for interior configuration and order components separately:

- Cabinet drawer (R3232.)
- Cabinet file frame (R3231.)
- Cabinet shelf (R3230.)

When placing 2 cabinets back to back, specify N (no attachment bracket) for attachment bracket. Order cabinet back-to-back attachment bracket (R3291.) separately.

To convert arm-attached cabinet to pole-attached cabinet, order cabinet pole attachment bracket (R3293.) separately.

To attach cabinet to different upper support arm height, order cabinet arm attachment bracket (R3294.) separately.

For keyed-alike locks, order lock plugs separately. See Keyed-Alike Information in Appendices.

Ladder Shelf

R3312.

Product Information

Description

This storage unit has adjustable, open shelves and attaches to an upper support arm. It holds binders, books, reference materials, and other items. The ladder shelf has two 2½" height-adjustable glides. Attachment hardware is included.

The 48"-high unit includes 3 shelves; the 60"-high unit includes 4 shelves; and the 69"-high unit includes 5 shelves. The shelves adjust vertically in 1" increments and can be specified with 3½"- or 6"-high shelf sides.

Notes

Specify height of ladder shelf's attachment bracket to match height of upper support arm.

When placing 2 ladder shelves back to back, specify N (no attachment bracket) for attachment bracket. Order ladder shelf back-to-back attachment bracket (R3391.) separately.

Pole Shelf

R7310.

Product Information
Description
This shelf attaches to a tall or short pole and holds display items, small electronics, and other items. It is available in 2 sizes: the 9"-deep shelf holds 25 pounds; the 13"-deep shelf holds up to 50 pounds. The shelf has a laminate, formcoat™, or veneer finish. Attachment brackets are included.
The formcoat finish is available as opaque or fleck. The opaque finish is nontransparent and has a solid-color appearance; the fleck finish is a nontransparent solid color with tiny flecks. The veneer shelf has a 1/2"-thick, 9-ply Baltic birch core and edge.

Bookshelf

G7314.

Product Information
Description
This shelf attaches to the back edge of a work surface and holds binders, books, files, small electronics, and personal items. It is available in 2 sizes: the 18"-wide shelf holds up to 54 pounds; the 30"-wide shelf holds up to 90 pounds. Each shelf has a raised back edge to prevent items from sliding off the back. The shelf has a laminate, formcoat®, or veneer surface finish. Attachment hardware adjusts to fit surfaces 3/4" to 1 1/4" thick. Attachment hardware requires at least 1 1/2" of clearance behind the back edge of the surface.
The formcoat finish is available as opaque or fleck. The opaque finish is nontransparent and has a solid-color appearance; the fleck finish is a nontransparent solid color with tiny flecks. The veneer shelf has a 1/2"-thick, 9-ply Baltic birch core and edge.
Back edge colors are predetermined:
<ul style="list-style-type: none">• Laminate shelves have a folkstone grey (8Q) edge, except for WL. Sandstone laminate (WL) has a sandstone (WL) edge.• Opaque formcoat shelves have a folkstone grey (8Q) edge, except for WL. Sandstone opaque formcoat (WL) has a sandstone (WL) edge.• Fleck formcoat shelves have a sandstone (WL) edge.• Veneer shelves have a sandstone (WL) edge.
Notes
Order bookshelf dividers (G7332.) separately; dividers can only be used on formcoat bookshelves (G7314.T).

Support Arm Task Light

R6140.
R6141.

Product Information

Description

This light mounts on an upper support arm and provides overhead task lighting to 1 side of a boomerang™ work surface. The light has a rapid-start shielded electronic ballast, T5 fluorescent lamp with a 3500° Kelvin color temperature, and 9' cord. The light cord and switch are located on the right side. The lamp has a refractive Holophane™ lens and the lamp's housing tilts from a level position to 45° backward. The 30"-wide light has a 14-watt lamp; the 42"-wide light has a 21-watt lamp. It is UL listed and UL Canada listed. Mounting hardware and 2 cord management clips are included.

Notes

42"-wide lights cannot be used back to back on 48"-long support arm.

20-Day or Less/Assigned Lead-Time Order Information

20-Day or Less and Assigned Lead-Time Programs

20-day or less and assigned lead-time products are designed for established Herman Miller dealers with pre-approved credit.

Products are distributed from multiple manufacturing facilities across the United States. All products and options not designated by an Assigned Lead-Time icon  will ship in 20 business days or less after being acknowledged by Herman Miller. Products and options designated by an  are on the assigned lead-time program and will ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Ordering Procedure

Please place orders through Order Manager. If this is not available to you, place orders through mail or fax. Verbal purchase orders will not be accepted.

Order Entry fax number for Passage®, 5000 Series, and Meridian® Filing and Storage: (616) 846 9236.

Order Entry fax number for all other products:
(616) 654 3085.

For more information, contact your Customer Care representative at:
(866) 854 3048 EXT 3400.

Shipments and Delivery

Per Herman Miller Terms and Conditions.

Changes and Cancellation

Per Herman Miller Terms and Conditions.

Keyed-Alike Information

Keyed-Alike Locks

All components with locks may be specified keyed alike. Products with keyed-alike locks will be shipped with lock chassis installed.

Installation of lock cylinders will be on-site according to instructions provided. Herman Miller, Inc., will not be responsible for lock cylinder installation.

When specifying product keyed-alike, include separate lines on your order for the lock cylinders.

For Action Office®, Ethospace®, Passage®, Quadrant®, Resolve®, and Supplemental products, list cylinder part number and key number (232092-XXX); select a key number (or numbers) between 226 and 427, excluding numbers 408 and 412.

The following products require a different lock cylinder part number. Specify UKY001-XXX for these products only; select a key number (or numbers) between 226 and 427, excluding numbers 408 and 412.

A3013.

A3053.

G5180.

G5181.

G5280.

The keys provided in 232092-XXX and UKY001-XXX kits work with either cylinder type, provided the key numbers match.

For Tu® Storage, Canvas Office Landscape®, 5000 Series, and Meridian® Storage, see the following charts.

Keyed-alike locks are field installed.

To order keyed-alike locks for Action Office® Series 1 and 2 door panels, please contact Customer Care.

A master key can be used to open any lock on an attached or freestanding component. In addition, a removal key or lock change tool is required to remove lock plugs. Customers interested in ordering master keys, removal keys, or lock change tools should contact Customer Care.

For Canvas overhead and lower storage units, specify as follows:

Specification Code	Part Number	Color	Lock Series
KA	1B2JK7-XXX ¹	chrome	UM series 226-427

For Canvas Metal Storage, Meridian Storage, Tu Storage, and 5000 Series desk components with pedestals, specify as follows:

Specification Code	Key Number	Color	Lock Series
KA	232092-XXX ¹	black	UM series 226-427
KA	1B2JK7-XXX ¹	chrome	UM series 226-427

For 5000 Series flipper door unit with bezel or credenza storage cabinet with bezel, specify as follows:

Specification Code	Key Number	Color	Lock Series
KA	232092-XXX ¹	black	UM series 226-427

Key Number:

XXX¹ = a key number between 226 and 427 (excluding 408 and 412)

Vary Easy Program

Program Overview

Vary Easy is a program designed to help dealers specify standard products with a larger breadth of options. For example, depending on the type of product being specified, choices include additional size, finish, edge types, and cable management features. Vary Easy 3D, specIT, and third-party text-based specification packages support the Vary Easy program. Vary Easy 3D enables designers to create a 3D image, CAD symbols, and a price book page. A Vary Easy product number is assigned for each product as the user selects specific options. Once the product is completely specified, the order can be submitted via Kiosk's Order Manager or a dealer's business system.

Accessing and Specifying Vary Easy

To view the full product vocabulary, go to the Vary Easy Product Offering on Kiosk. To specify Vary Easy, go to the Vary Easy 3D website on Kiosk, specIT, or your third-party text-based specification package.

Once you've made your product line selection, continue to follow through each option and enter the specific options that represent the product you need. When the product is fully specified, Vary Easy will generate an orderable product number and instantly calculate a price.

Note: Failure to completely specify a product will cause a delay in order acknowledgements. Be sure to make a selection for all options offered.

The acknowledgement process for Vary Easy products is the same as for any standard order. Vary Easy products ship with a standardized lead time and are competitively priced.

For more information, contact your Customer Care Line at (866) 854 3048 EXT 3400.

Fire Retardancy — Resolve® System

Fire Retardancy for Resolve Products

The products listed below, when covered with the textiles identified below, meet the Class A requirements for flame spread and smoke development as specified by the National Fire Protection Association (NFPA) in the 2009 Life Safety Code No. 101, and the Underwriters Laboratories requirements for use with energy distribution components (listed by UL under Office Furnishings 1286).

Stain-to-Match Program

Stain-to-Match Program

Program Overview

The Stain-to-Match program gives you the option of using veneer finishes that are not listed in the standard offering. The program allows Herman Miller to match a customer's existing recut or natural veneer, or create a new finish that is unique to an installation.

Specific information on approval, ordering, pricing, and warranty for the Stain-to-Match program is listed below. Questions and requests for assistance may be directed to Herman Miller Options at:
(800) 654 3910

Stain-to-Match Process

1. Fill out the Options Stain-to-Match Request Form and send along with a color sample (2" x 3" minimum) to the Herman Miller Options Applications Team at the address provided on the form. The form can be found on Omni.
2. Within 7-10 working days, Herman Miller Options will send a sample of the color-matched stain on Herman Miller veneer to the requester for the customer's signed approval.
3. If the sample meets the customer's approval, sign the reverse side of the sample, scan and email the approval to:
options@hermanmiller.com.
4. After the stain has been approved, a formal quotation with special number and pricing can be provided, or the product can be specified through the Vary Easy program, if available. Work with the Options team on final product needs and how to specify.
5. A purchase order can then be placed.

Stain-to-Match Warranty

Herman Miller warrants its products to be free from defects in craftsmanship from the date of delivery for the applicable warranty period. Herman Miller is responsible for the physical properties of the veneers available through the Stain-to-Match program, which include:

- STA: Stain-to-Match on Recut Ash
- STB: Stain-to-Match on Beech
- STC: Stain-to-Match on Cherry
- STD: Stain-to-Match on Oak
- STK: Stain-to-Match on Reltech Anigre (Geiger)
- STM: Stain-to-Match on Recut Mahogany
- STP: Stain-to-Match on Maple
- STU: Stain-to-Match on Walnut (Geiger)

See your specification tool for product specific finish offering limitations.

Customer's Own Material Order Information — Resolve® System

Customer's Own Material

Program Overview

The Customer's Own Material (COM) program gives you the option of using textiles other than those listed. Herman Miller will test textiles for application to Herman Miller products and will process orders for those with approved COM textiles only. COM textiles are on assigned lead times.

Omni lists an overview of fabrics that have been tested and indicates whether or not they were approved for application to Herman Miller products.

Specific information on the terms and conditions, testing, approval, and ordering process for COM is listed below. Questions about the COM program and requests for assistance may be directed to your COM representative at:

(616) 654 3400

(866) 854 3048 EXT 6543400

Customer's Own Material Warranty

Herman Miller does not warrant COM textiles. COM textiles are tested for application only; they are not tested for performance. The Herman Miller warranty does apply to the underlying products.

Suppliers of COM textiles are responsible for color consistency within commercial tolerances, UV stability, and resistance to soiling and perspiration.

Customer's Own Material Pricing

COM is a Category 1 fabric. There are no application charges for COM fabrics.

Ordering and payment for COM textile yardage are the responsibility of the customer and the textile supplier.

If desired, Herman Miller will purchase COM textiles directly from True Textiles, C.F. Stinson, Luna Textiles, Maharam, and Momentum Textiles to simplify ordering and shipment. For this service, refer to the Supplier Connection program.

Application Note

Herman Miller does not guarantee that Customer's Own Material (COM) fabric patterns will align across panels/tiles or from one screen to the next. We also do not guarantee that COM fabric designs will be positioned consistently in the same location across several panels, tiles, or screens.

COM Testing Guidelines

Herman Miller uses an automated process to cut the fabric for use on the Resolve® Boundary Screens (R1410.). To determine whether COM textiles will withstand this, we must subject them to the cutting process. In addition, since the design of the Resolve Boundary Screen is highly demanding with regard to the physical properties of the fabric used, the COM must pass our fabric qualification tests before it is approved. *Note: Within the Resolve product line, COM may be applied only to the Boundary Screens and flags.*

Test Prioritization, Response Time, and Capacity Limits

- pending orders will receive priority over general submittals for COM approval
- customers are to be notified of test results within 10 business days
- COM testing has a capacity of 10 fabrics per week; if the number of requests exceeds this capacity, lead time for notification of test results may be extended beyond the normal 10 business days

Test Sample Specifications

- sample must be a minimum of 14 yards of **machine rolled** fabric that represents the width and tension the fabric will have when coming directly from the manufacturer
- roll must have as little damage as possible: a damaged roll can increase the likelihood of a fabric not passing the testing process
- “telescoping”—the degree to which the fabric creeps down the roll, creating a telescope look—is not to exceed one half inch
- linear patterns (defined as a fabric that requires alignment across the screen) are not recommended and alignment of the pattern will not be guaranteed

Include with the Sample Roll

- 12-inch memo sample from the fabric supplier
- material content specifications for process safety reasons

Customer's Own Material Order Information — Resolve® System

continued

Fabric Parameters

The following known parameters automatically disqualify COM fabrics from use on Boundary Screens:

- vinyl content
- greater than 20 percent nylon content
- rayon and nylon blends
- greater than 10 percent wool content

Note: When combining standard Herman Miller Boundary Screens with COM Boundary Screens, it is suggested that the COM screens be placed back-to-back with another Resolve screen of the same size. This hides a one-sided fabric or a larger fold near the stitching. This isn't necessary when the back of the screen is hidden by architecture or other objects.

Textile Approval

1. Select a COM textile and a Herman Miller product.
2. If your textile is not listed in Omni, obtain a test number from a COM representative at (616) 654 3400 or (866) 854-3048 EXT 6543400. You can also submit your request within Omni. Please have the following information ready before calling: textile name, number, pattern, roll width, and the product you will apply it to.
3. Herman Miller will notify you of approval or disapproval within 10 business days from receipt of the test yardage.

Ordering Products with COM

1. Refer to the specific products to determine the yardage required for COM textiles.
2. If your textile is not listed in Omni, call a COM representative at (616) 654 3400 or (866) 854 3048 EXT 6543400. The representative will assign an identification number for your textile (ID#) and will verify yardage requirements for your order.
Note: Yardage requirements are based on nondirectional, 60"-wide textiles. See the boundary screen product information for yardage requirements for each height. 3 additional yards of textile are required per order when applying COM to boundary screens (required for lead-in material used in application process).
Example: When ordering 20 60"-high boundary screens with COM, order 30 yards COM + 3 additional yards = 33 yards COM for application on 20 boundary screens.
3. Enter your order on Order Manager in Omni.
4. Upon receipt of your purchase order, Herman Miller will send you a PO acknowledgment.
5. Arrangements must be made for the textiles to be shipped from the supplier to Herman Miller for application to the Herman Miller products. Textiles must be tagged with the assigned identification number and the roll yardage quantity. See Omni for shipping procedures and current shipping addresses or contact a COM representative at (616) 654 3400 or (866) 854-3048 EXT 6543400.

Products will be scheduled for production when COM textiles are received at Herman Miller. Standard lead times in effect at that time will apply.

Note: If textiles are to be purchased directly by Herman Miller through the Supplier Connection program, Herman Miller will handle the ordering and shipping process and will schedule your order for production upon receipt of your purchase order (dependent on textile availability). Refer to the Supplier Connection program for more information.

Customer's Own Material Order Information — Resolve® System

continued

Supplier Connection

Program Overview

The Supplier Connection program is a service offered by Herman Miller to purchase approved COM textiles directly from True Textiles, C.F. Stinson, Luna Textiles, Maharam, and Momentum Textiles. When you select a textile through this program, Herman Miller will facilitate the ordering, scheduling, and shipment of the textile directly with the supplier.

Suppliers included in the Supplier Connection program keep an active inventory of textiles that are pre-approved for application to Herman Miller products. Pre-approval applies only to the suitability of a textile for manufacturing and application to a Herman Miller product. Omni lists an overview of fabrics that have been tested and indicates whether or not they were approved for application to Herman Miller products.

Specific information on the terms and conditions, testing, approval, and ordering process for the Supplier Connection program is listed below. Questions and requests for assistance may be directed to your COM representative at:

(616) 654 3400

(866) 854 3048 EXT 6543400

Supplier Connection Warranty

Textiles purchased by Herman Miller through the Supplier Connection program are COM and are not warranted by Herman Miller. COM textiles are tested for application only; they are not tested for performance. The Herman Miller warranty does apply to the underlying products.

Suppliers of COM textiles are responsible for color consistency within commercial tolerances, UV stability, and resistance to soiling and perspiration.

Supplier Connection Pricing

Textiles purchased by Herman Miller through the Supplier Connection program are COM. COM is a Category 1 fabric. There are no application charges for COM fabrics.

Payment for textiles purchased by Herman Miller through the Supplier Connection program is the responsibility of the customer or dealer. Herman Miller will invoice the order at the supplier's prices published at the time of the order.

Textile Approval

1. Refer to Omni to identify the approval status of the textile. If your textile is not listed, contact the COM Department to request testing for application to Herman Miller products.
2. Herman Miller will notify you of approval or disapproval in approximately 10 days from receipt of the test yardage. If the textile is approved, it will be assigned a COM identification number.

Ordering Products with Supplier Connection COM

1. Identify and include the following information on your purchase order:
 - Product number and option
 - Herman Miller's COM identification number
2. Enter your order on Order Manager in Omni.
3. Upon receipt of the purchase order, Herman Miller will process your order and send you a PO acknowledgment. Herman Miller will determine the yardage required to produce your product and will order and schedule for delivery the required textile. Standard lead times in effect at the time the textile is allocated at the supplier will apply to products ordered through this program.

Design on Textile (DOT™) Order Information

Design on Textile

Program Overview

The Design on Textile (DOT) program gives you the option of selecting unique images from various designers and having the images digitally printed on a textile. The program is available for Resolve® components only: boundary screens, rolling screens, canopies, and flags. Herman Miller will process orders only for images within the DOT Collection.

A complete documentation of the collection images is available through your Herman Miller dealer or salesperson, the DOT brochure, HermanMiller.com, or Omni. The DOT Collection in the appendices has a list of images, their order numbers, and specification notes.

Specific information on the terms and conditions, warranties, and order processes for DOT is listed below.

Textile

The textile is 100% polyester. The base fabric color is white. Canopy and rolling screen products have a pearl grey (8C02) edge banding. Images are not applied to Resolve standard-colored fabrics.

Warranty

Herman Miller warrants the base textile for a period of one year. DOT textiles are not warranted for color consistency. Consistency will be maintained within commercial tolerance, UV stability, and resistance to soiling.

Visual color range is determined by multiple factors including lighting, application process, and image files.

Application Note

Herman Miller does not guarantee that images will be positioned the same across multiple screens, canopies, or flags. We also do not guarantee that patterns will align from one boundary screen to the next.

Material Pricing

DOT is a Category 1 fabric. Pricing of DOT Resolve products is listed with each product.

Distribution Rights

Working together since 1956, Herman Miller and Vitra are the authentic sources of designs by Charles and Ray Eames, Alexander Girard, and George Nelson. All the designs shown in this book are protected by law. Herman Miller has obtained all rights to make and sell these designs. Also, Herman Miller holds exclusive worldwide manufacturing and distribution rights for these products with the following exceptions:

Charles and Ray Eames, George Nelson, and Alexander Girard—Worldwide distribution rights for furniture in all areas except Europe and the Middle East. For those areas, please contact Vitra.

Isamu Noguchi—Worldwide distribution rights for the Noguchi Rudder Table. Distribution rights for the Noguchi Table in North America and Central America only. For all other areas, please contact Vitra.

Magis—Exclusive distribution rights in the US and Canada. For all other areas, please contact Magis.

Mattiazzi—Exclusive distribution rights in the US and Canada. For all other areas, please contact Mattiazzi.
