iXY Product Information

Layouts

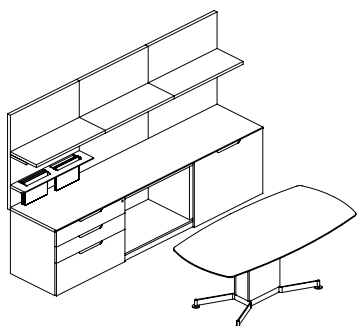

Four popular workstation layouts can be created with iXY.

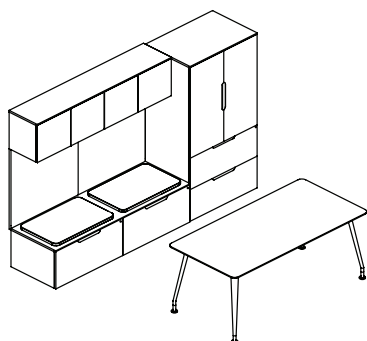

Three Leg Pedestal Supported Pivoting Table Desk with Secondary Height Technology Pedestal

Workstation with Secondary Height Storage and Overhead

Adjustable Height Table Desk with Workwall (wall panel must be wall mounted)

Freestanding Table Desk with Bench Height Storage, Wall Panels, Wall Mounted Storage and Storage Unit with Drawers

1 Table Desk 29¼"h

Offering includes Freestanding, Pedestal Supported Pivoting or Pedestal Supported Fixed Table Desk.

Pedestal Supported Pivoting and Fixed Table Desk must be attached to a pre-configured secondary height pedestal or credenza.

The layout selected will determine the type of desk required.

See page 264 for explanation

2 Secondary Height Storage - 25¾"h

Secondary Height Storage is offered in both pre-configured (25¾"h) and modular type units (25"h).

Secondary Height Storage is required when using pedestal supported pivoting or fixed table desks. Spindle Plate is used to attach to a pre-configured pedestal or credenza.

Pre-configured Technology pedestals and credenzas are available with or without adjustable height worksurface. The Cantilevered or Flush worksurfaces adjusts from 29¾" - 42¼". These units also come standard with surface power, pullout power and ventilated removable back panel.

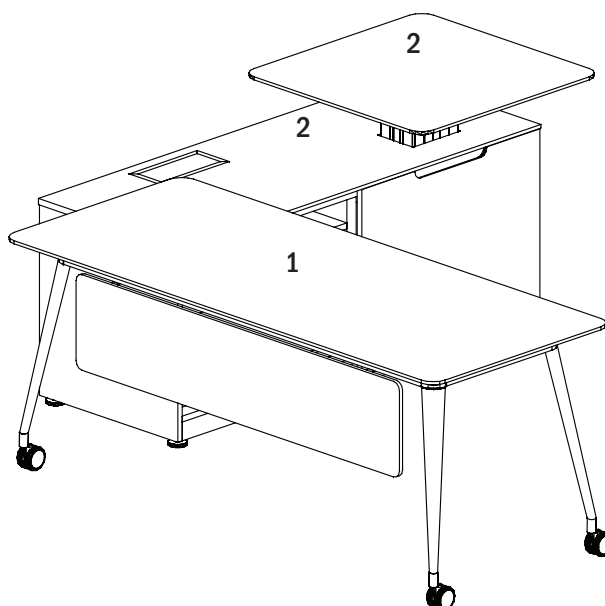

See page 270 for explanation

3 Primary Height Storage - 29¼"h

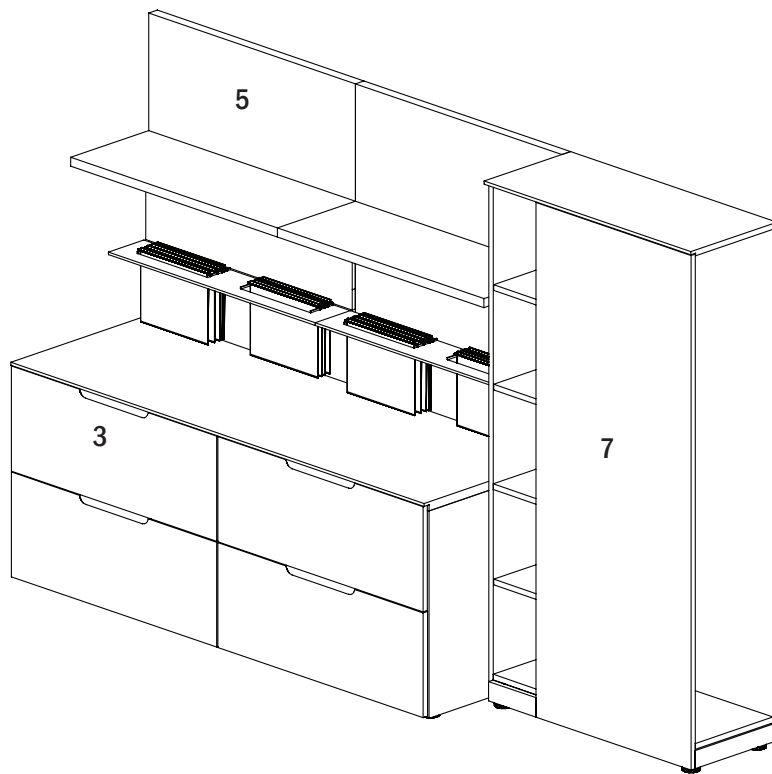

Primary Height Storage is offered in both pre-configured (29¼"h) and modular type units (28"h).

4 Bench Height Storage - 17¾"h

Bench Height Storage features lateral filing and seat cushions.

iXY Product Information

5 Workwall

Various wall panel types can be specified to be used with Secondary, Primary and Bench height storage to create a workwall.

Wall panels are offered in wood with tackboard or glass markerboard options.

See page 268 for explanation

6 Overhead Storage

Overheads can be freestanding or wall mounted depending on the application.

Overall height of overhead is determined by type of storage it sits on; either Secondary or Primary Height.

See page 271 for explanation

7 Storage Towers and Wardrobes

These components are available in various heights providing additional storage to the workstation.

See page 272 for explanation

8 Power & Technology

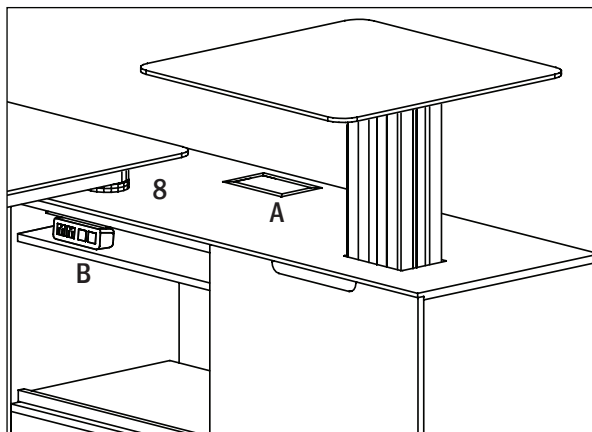

Power & Technology is standard in the Secondary Height Storage with Technology Units.

A. Byrne Ellora includes: (2) power outlets, 72" cord, (1) USB 2-Port Simplex Charger, (1) Passive USB-A, 3.0 with 72" w Cable. **(EC16)**

B. Byrne Assemble Reveal includes: (2) power outlets, 72" cord, (1) USB-2 Port Simplex Charger, (1) Passive USB-A, 3.0 with 72" Cable. **(EC17)**

9 Additional Features

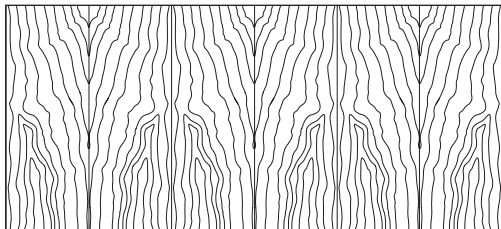

Mobile Pedestal, Privacy Screens and Modesty Panels can enhance the workstation.

iXY Product Information

Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the iXY product line. To attain a pleasing, symmetrical pattern, all veneers in iXY are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

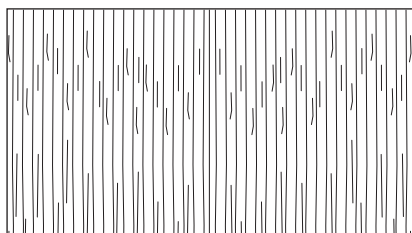

Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book. The diagram above shows book-matched flat cut veneer.

iXY is available in flat cut cherry, maple and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Double Cut veneer is another choice on iXY product. This veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern. The diagram below show the tight pattern used on iXY.

Solid painted finishes on MDF are also offered to provide an accent to the iXY product.

Table Frames

Die-cast aluminum corners with receivers for table rails and legs, attached to underside of the top. Table rails are extruded aluminum with allowance for optional features. Legs, die-cast aluminum with wire cavity and clip features to secure the wires. Glide has approximately 1" of adjustment and shroud ring to conceal threads.

Veneer Table Tops

Tops are 1 1/4" thick 3 ply with MDF core. Edges on table tops are undercut bevel with the 3/8" flat having a 1.5 mm matching self rim. Tops are secured with core fastening screws to the table rails. Two inch radius corners are on top shapes.

Secondary Height Case Tops

Tops are 3/4" thick, 3 ply construction with a solid lumber band on user side and 1.5 mm veneer tape. Tops are securely fastened with screws through the pedestal stretcher and metal connecting plates.

Primary Height Case Tops

Tops are 1 3/16" thick, 3 ply construction with a solid lumber band on user side and 1.5 mm veneer tape. Tops are securely fastened with screws through the pedestal stretcher and metal connecting plates.

Table with Glass Tops

Tops can be either clear or back painted opaque where applicable. Glass is 10 mm thick with a 1/32" bevel on both the top and bottom edges. Glass is low iron and tempered for safety. A series of small pucks are attached to the underside with an adhesive. These pucks then rest on the table rails.

Modesty Panels

Table desks with apron rails may be specified with a partial modesty panel. The back side of the apron rail has a groove in which the custom bracket along with two set screws secure the modesty panel place. Refer to the chart for the pricing that coordinates with each table size. See page 273.

Case Construction

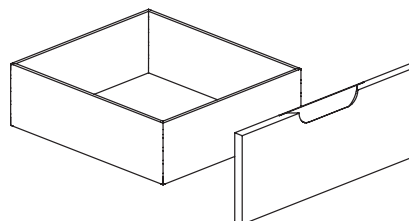

Cases are constructed with a combination of mortise-tenon and dowels to secure joints of the case. Panels are 3/4" thick 3 ply construction. Reinforced metal corner braces secure corners and house the leveler.

Back of cases can be fixed 3/4" thick stationary or 1/4" thick removable. (Check individual items specification listing) Backs of cases are always finished.

Glides have a full adjustment 1 1/2" to allow for proper leveling.

Drawers

Standard V-fold drawer interior is a 1/2" durable, miter-fold drawer system. The four sided box is mitered, glued and doweled with an attached front. The drawer front is veneer rimmed MDF core and is attached to the four sided box. Routed bevel pull creates a self pull. Prism pull is available as an option

Drawer Suspension

High quality black drawer suspension carries a lifetime warranty. Ball bearing provide a smooth effortless access to the drawers. All drawers have soft close feature with the exception of lateral files. File drawers have provisions for legal and letter filing. Lateral file drawers have reinforced bottoms.

Locking

All drawers have locks as standard. The locks are pedestal locking, located in the upper right corner of the top drawer. Locks are optional on most door compartments.

Units are shipped randomly keyed as standard (units in the grouping are keyed alike). Keyed alike units available if requested at no upcharge. Removable cores for in-field re-keying are standard.

Doors

Hinge doors have a 110° swing with the soft close feature.

Sliding doors have a single pass hidden roller wheel with guide tracks. Locking is not available on sliding door units.

Overheads can be ordered with the optional back painted glass doors in a thin profile aluminum frame. Locks are not available on glass doors.

iXY Product Information

Overhead Risers

Fabricated tubing flush welded for structure. Risers are field attached to the underside of the overhead cabinet. Optional tackboards are snap into place onto the upright of the riser. Available colors: Arctic Silver and Bright White.

Wall Mounted Overhead

Cabinets are mounted with reverse style cleats. The cleats are factory installed on the cabinet. Attachment wall cleat and hardware is the responsibility of installer. (See instructions for further details.)

Adjustable Height Worksurface

Single lift column adjust worksurface up to 42 1/4" height. Control is flush mounted into the top of pedestal. Control for the Table Desk can be mounted either left or right of the top's center. Aluminum profile housing encloses the UL® certified driver and mechanism.

Technology Pedestals

Standard with two electrical and data units, (first unit is flush on the top and second unit is mounted inside the unit; pulls out for use). Both units are configured with two power outlets, one USB 2-Port Simplex Charger, one Passive USB-A, 3.0 with 72" cable. Other configurations are available upon request, see the accessory section, pages 269, 388-390.

On select models a technology drawer is available, this feature allows for most lap top computers and/or their docking station to fit into the pullout drawer. This feature replaces the second box drawer.

Magnetic Privacy Panels

Privacy panels are available on rectangular table desks with veneer tops. These fabric covered panels are magnetic on both sides. The panel core is made up of furniture grade plywood with 28 gauge steel on each side. Upholstered in a textile of choice, some textiles with heavy textures or fibers are not recommended. The casted shaped bracket follows the edge shape. The bracket is mounted with wood screws to the underside of the top and panel is secured inside the fork of the bracket with set screws.

Pullout Shelf

Equipment can easily be accessed by specifying the pullout shelf option. This shelf is always located at the bottom of the cabinet and has a front stop rail incorporated as part of the shelf. The slide extensions are undermounts to provide a clean appearance.

Kneespace Access Panels

The kneespace access panel sits between modular units to provide a finished interior back panel between two other modular units. Flat metal brackets are attached to back side of the units to extend into the opening. Powerful earth magnets are embedded into the back of the panels to cling to the extended metal flat brackets. The panel is outfitted with adjustable glides to aid in leveling. The magnets allow the panel to be removed to access the wall and wiring.

Finish - Stain/Colors

We offer a variety of wood stains and paint colors on iXY. Please see the chart below. Samples are available upon request. Former finish names are listed in parentheses for reference.

CH1 Cherry *Flat Cut Veneer*

Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the of the indoor air we breathe.

Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.

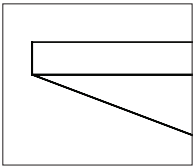

Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Special Finishes

Special finishes can be requested by following the instruction in the general introduction section, page 3. There is a one time charge of \$309 list per order.

30" Square (Standard)

30" Round (Optional)

iXY Product Information

Spindle Plates

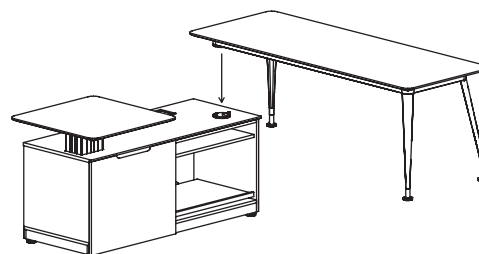

Fixed or Pivoting Table Desks supported by Secondary Height Storage require the spindle plate or plates option when ordering the storage unit.

Note: Left desk will attach to a Secondary Height Storage Unit with spindle plates located on the left of the unit. A right table desk will attach to a Secondary Height Storage Unit with spindle plates located on the right of the unit.

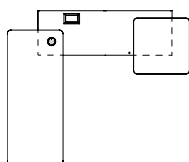

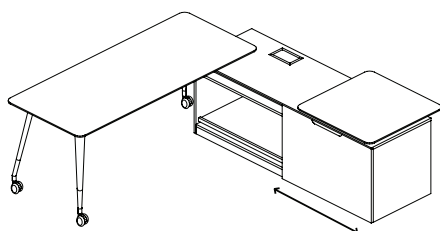

Universal Spindle Plate

Spindle plate takes the place of the table leg(s) on fixed or pivoting tables. The plate is mounted onto the supporting pedestal. The table's integrated corner sits onto the spindle plate.

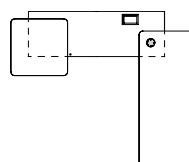

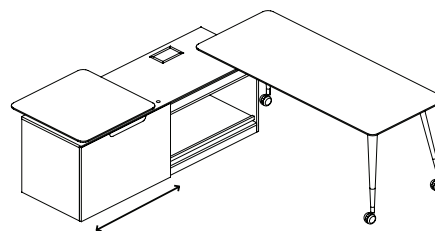

Single Spindle - LS1 / RS1

iXY Product Information

Power and Technology Features

iXY Product Information

1 Wire Extrusion Channel

Leg cavity allows wiring to be routed along the inside of the leg to the floor.

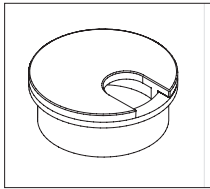

2 Adjustable Height Worksurface

Secondary Height Storage with Technology Pedestals may have a motorized adjustable height worksurface that ranges from 29 3/4" to 42 1/4"h.

3 Top Grommet

Matte Nickel grommet, optional on Table Desk.

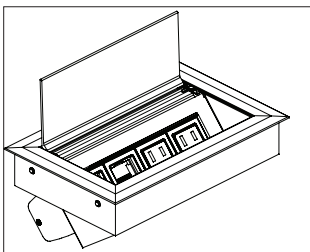

4 End Panel Grommet Sleeve

End panel grommet sleeve is standard on Technology Pedestal with Open Compartment when Spindle Location LS1 or RS1 is specified.

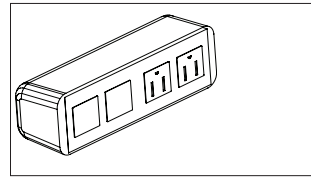

5 Surface Power Unit

(2) Power Outlets, 72" cord,
(1) USB 2-Port Simplex Charger,
(1) Passive USB-A, 3.0 with 72" Cable

11 Pullout Power Unit

(2) Power Outlets, 72" cord,
(1) USB 2-Port Simplex Charger,
(1) Passive USB-A, 3.0 with 72" Cable

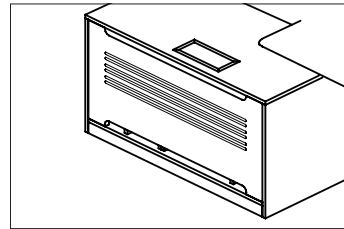

7 Pullout Equipment Tray

Pullout Equipment Tray is optional on 60", 72" and 90"w Secondary Height Technology Units with an Open Compartment.

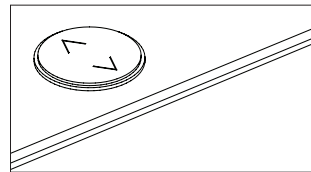

8 Ventilated Removable Back Panel

Ventilated Removable Back Panel is standard on all Secondary Height Technology Units.

9 Control Button

The secondary adjustable height has a surface mounted control button to move the worksurface from 29 3/4" to 42 1/4"h.

10 Utility/Technology/File

Utility/Technology/File is optional on the Secondary Height Storage with Technology and Drawers.

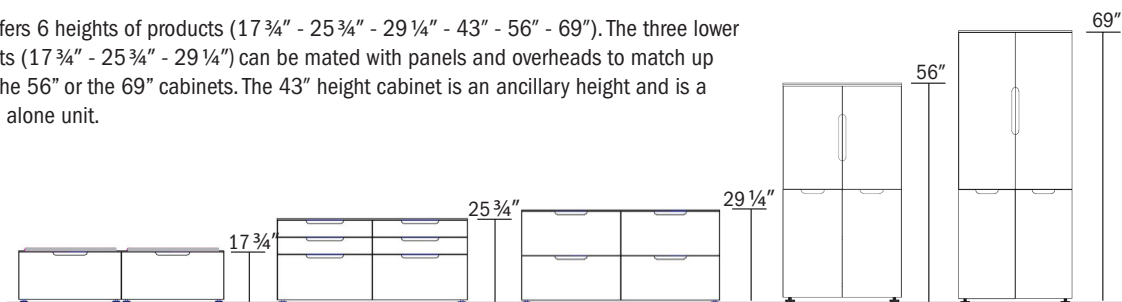

11 Removable Modesty Panel

Removable Modesty Panel may be used with Secondary or Primary Height Storage. Gap along the top of the panel allows for wire management. Magnetic attachment provides easy removal for access to the wall.

iXY Product Information

Matching Overall Heights

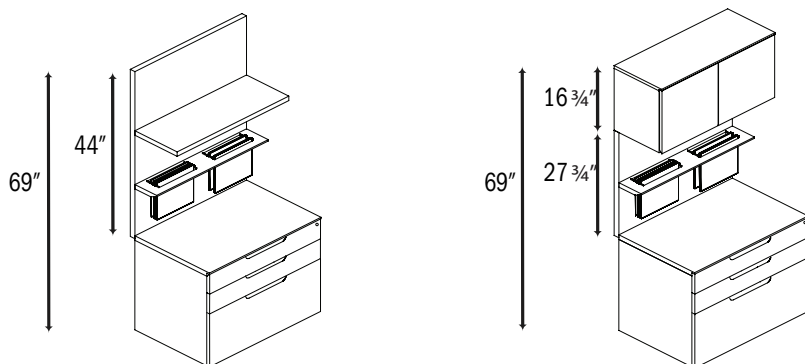

iXY offers 6 heights of products ($17\frac{3}{4}"$ - $25\frac{3}{4}"$ - $29\frac{1}{4}"$ - $43"$ - $56"$ - $69"$). The three lower heights ($17\frac{3}{4}"$ - $25\frac{3}{4}"$ - $29\frac{1}{4}"$) can be mated with panels and overheads to match up with the $56"$ or the $69"$ cabinets. The $43"$ height cabinet is an ancillary height and is a stand alone unit.

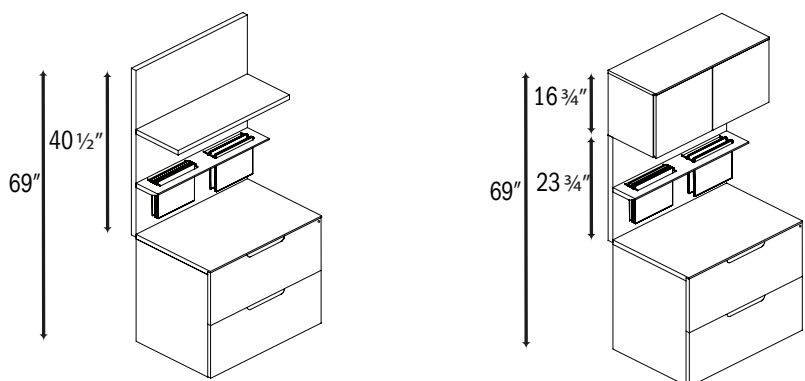

Workwalls

Various Wall Panel types can be specified to be used with Secondary, Primary and Bench Height Storage to create a Workwall. Shorter Wall Panels must be specified when using overhead units. Wall Panels are offered in wood with tackboard or glass markerboard options.

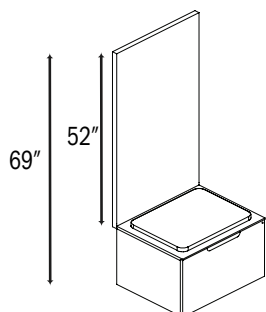

Secondary Height Wall Panel - used with Secondary Height Storage.

Primary Height Wall Panel - used with Primary Height Storage.

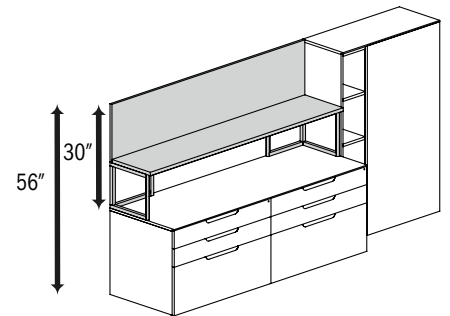

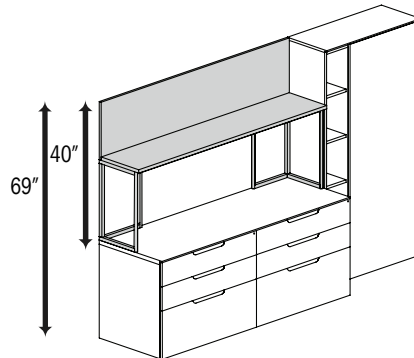

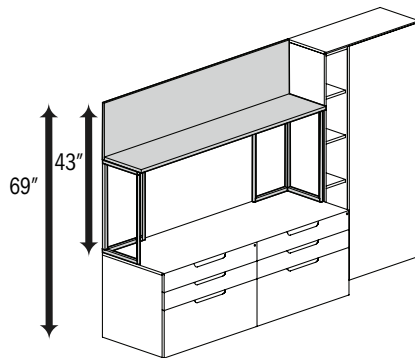

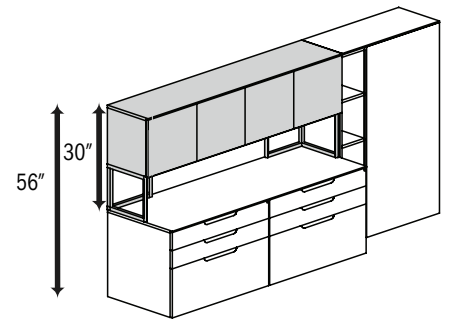

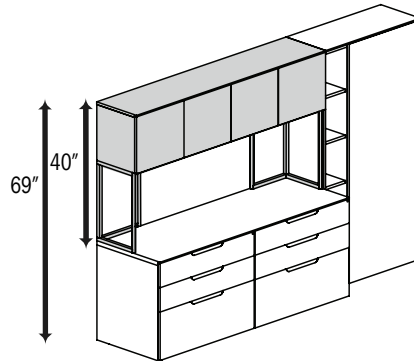

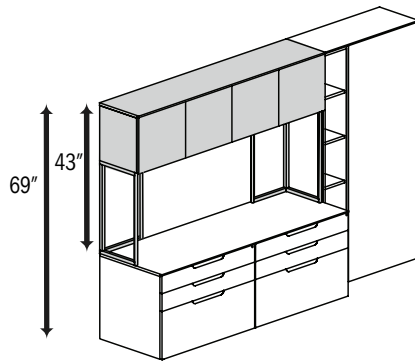

Bench Height Wall Panel - used with Bench Height Storage.

iXY Product Information

Riser Supported Overheads and Shelves

Riser supported overheads and shelves are available in three different heights; 43", 40" and 30"

43" h Overhead or Shelf

use with secondary height storage to align with 69" h storage towers

40" h Overhead or Shelf

use with primary height storage to align with 69" h storage towers

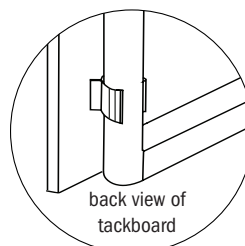

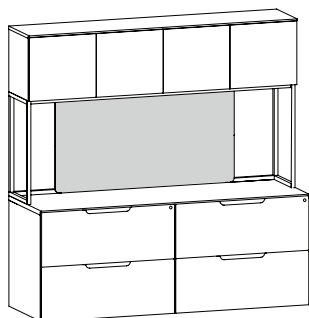

30" h Overhead or Shelf

use with secondary height storage to align with 56" h storage towers

Note: 90" wide overheads and shelves have a center support rail when ordering a tackboard.

Tackboards

60", 66", 72" and 90" wide overheads and shelves with risers can be ordered with an optional tackboard.

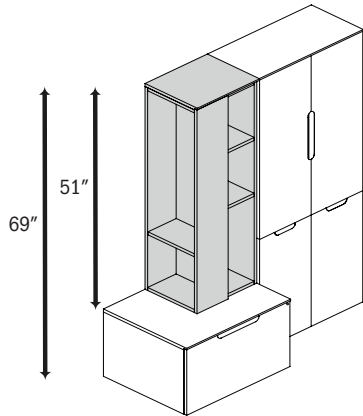

Tackboard clips onto risers for ease of installation.

Note: tackboards are inset 12" on each side.

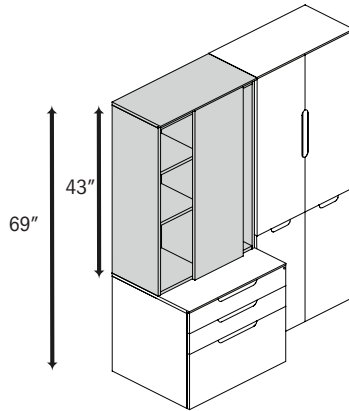

iXY Product Information

Worksurface Storage Towers

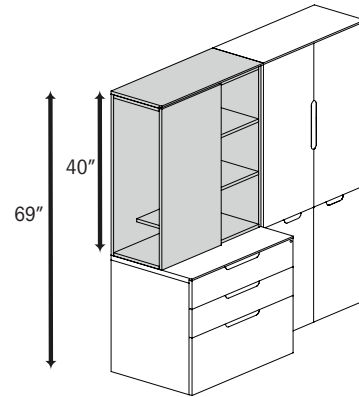

Storage Towers are available in three heights; 51", 43" and 40".

51" h Worksurface Storage Tower
shown with 18" w side entry wardrobe with open shelf use with bench height storage

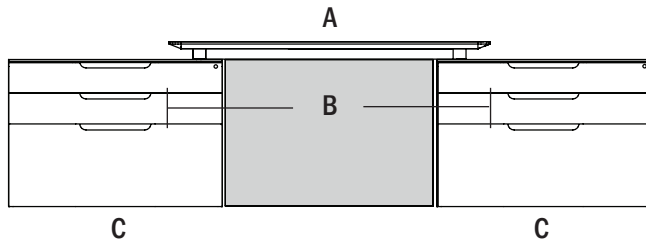

43" h Worksurface Storage Tower
shown with single sliding door use with secondary height storage

40" h Worksurface Storage Tower
shown with 36" w side entry wardrobe with open shelf use with primary height storage

Credenza Access Kneespace Panel used with Rectangular Top with Rails

Credenza Access Kneespace Panel available for use with Secondary Storage Units and Rectangular Top with Rails.

- 29"-39" height adjustment
- maximum weight rating 140 lbs. (evenly distributed load)

Round Adjustable Height Table	36	36	Adj.	46	27	DY8-JDF-AP-0036	\$2,520
	30	30	Adj.	39	19	DY8-JDF-AP-0030	\$2,416

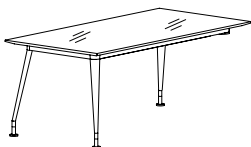

- non-locking casters
- pneumatic height adjustment
- 29"-39" height adjustment
- maximum weight rating 140 lbs. (evenly distributed load)

To Order, Specify:

- ① Model Number
- ② Wood Species on Top - Cherry (CH1), Maple (MA1), Walnut (WA1) or Double Cut (DC1) (see page 275)
- ③ Finish Color for Top (see page 275)
- ④ Color for Chassis (see page 275)
 - a.) Same as Top
 - b.) Paint Color (see page 275)
- ⑤ Leg/Base Color (see page 275)

To Order, Specify:

- ❶ Model number
- ❷ Color

Standard casegoods cut out locations:

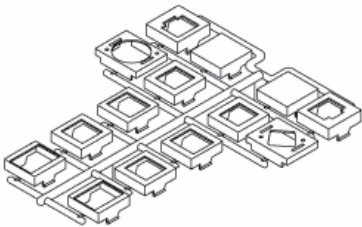

- Specify - Location when ordering on desk, return, computer corner, bridge and credenza - please provide drawing.
- Computer corner units - power/data replaces grommet.
- Standard power and data unit locations are indicated from user side of desk, return, computer corner bridge or credenza.

NOTE: Verify fit of data jack in adapter before ordering large quantities as manufacturer designs may change without notice

Data Adapter Applications

Data adapter kits ship with each power and data unit.

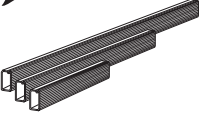

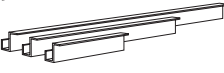

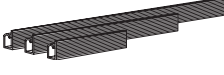

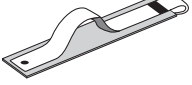

Adapter plates are marked on the back with letter designators to indicate the data jack manufacturer, series and style. Websites are listed below for quick reference to verify data jack series or style.

Included with EC3 and EC10

NOTE: Verify fit of data jack in adapter before ordering large quantities as manufacturer designs may change without notice.

iXY Product Information

Exterior Wood Materials

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the iXY product line. To attain a pleasing, symmetrical pattern, all veneers in iXY are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

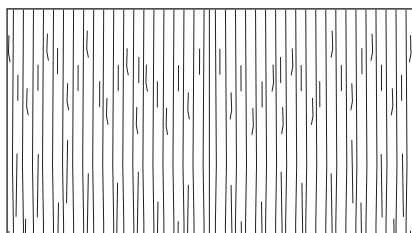

Book Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book. The diagram above shows book-matched flat cut veneer.

iXY is available in flat cut cherry, maple and walnut veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Double Cut veneer is another choice on iXY product. This veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern. The diagram below show the tight pattern used on iXY.

Solid painted finishes on MDF are also offered to provide an accent to the iXY product.

Table Frames

Die-cast aluminum corners with receivers for table rails and legs, attached to underside of the top. Table rails are extruded aluminum with allowance for optional features. Legs, die-cast aluminum with wire cavity and clip features to secure the wires. Glide has approximately 1" of adjustment and shroud ring to conceal threads.

Veneer Table Tops

Tops are 1 1/4" thick 3 ply with MDF core. Edges on table tops are undercut bevel with the 3/8" flat having a 1.5 mm matching self rim. Tops are secured with core fastening screws to the table rails. Two inch radius corners are on top shapes.

Primary Height Case Tops

Tops are 1 3/16" thick, 3 ply construction with a solid lumber band on user side and 1.5 mm veneer tape. Tops are securely fastened with screws through the pedestal stretcher and metal connecting plates.

Table with Glass Tops

Tops can be either clear or back painted opaque where applicable. Glass is 10 mm thick with a 1/32" bevel on both the top and bottom edges. Glass is low iron and tempered for safety. A series of small pucks are attached to the underside with an adhesive. These pucks then rest on the table rails.

Case Construction

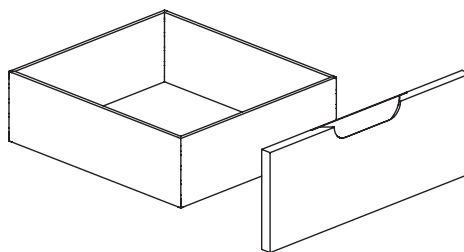

Cases are constructed with a combination of mortise-tenon and dowels to secure joints of the case. Panels are 3/4" thick 3 ply construction. Reinforced metal corner braces secure corners and house the leveler.

Back of cases can be fixed 3/4" thick stationary or 1/4" thick removable. (Check individual items specification listing) Backs of cases are always finished.

Glides have a full adjustment 1 1/2" to allow for proper leveling.

Drawers

Standard V-fold drawer interior is a 1/2" durable, miter-fold drawer system. The four sided box is mitered, glued and doweled with an attached front. The drawer front is veneer rimmed MDF core and is attached to the four sided box. Routed bevel pull creates a self pull. Prism pull is available as an option

Drawer Suspension

High quality black drawer suspension carries a lifetime warranty. Ball bearing provide a smooth effortless access to the drawers. All drawers have soft close feature with the exception of lateral files. File drawers have provisions for legal and letter filing. Lateral file drawers have reinforced bottoms.

Locking

All drawers have locks as standard. The locks are pedestal locking, located in the upper right corner of the top drawer. Locks are optional on most door compartments.

Units are shipped randomly keyed as standard (units in the grouping are keyed alike). Keyed alike units available if requested at no upcharge. Removable cores for in-field re-keying are standard.

Doors

Hinge doors have a 110° swing with the soft close feature.

Sliding doors have a single pass hidden roller wheel with guide tracks. Locking is not available on sliding door units.

Overheads can be ordered with the optional back painted glass doors in a thin profile aluminum frame. Locks are not available on glass doors.

iXY Product Information

Adjustable Height Worksurface

Single lift column adjust worksurface up to 42 ¼" height. Control is flush mounted into the top of pedestal. Control for the Table Desk can be mounted either left or right of the top's center. Aluminum profile housing encloses the UL® certified driver and mechanism.

Pull-Out Shelf

Equipment can easily be accessed by specifying the pull out shelf option. This shelf is always located at the bottom of the cabinet and has a front stop rail incorporated as part of the shelf. The slide extensions are undermounts to provide a clean appearance.

Finish - Stain/Colors

We offer a variety of wood stains and paint colors on iXY. Please see the chart below. Samples are available upon request.

Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the of the indoor air we breathe.

Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood.

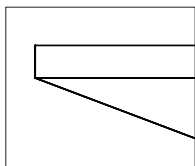

Durability - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Special Finishes

Special finishes can be requested by following the instruction in the general introduction section, page 3. There is a one time charge of \$309 list per order.

Flat Screen Mount - Universal Bracket (standard with TV, DTV and FSTV model)

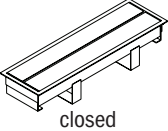

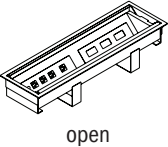

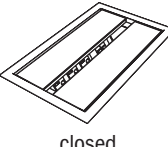

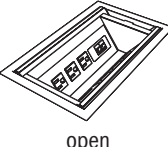

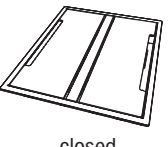

Peerless® ST650 universal tilting flat screen mount is supplied with the FSTV Flat Screen Mounting Frame.

- For use with 32"-50" screens
- Maximum weight 175 lbs. (79kg)
- Tilt 15° forward and -5° backward angles
- Mounting pattern allows up to 6" of vertical adjustment

NOTE: To verify TV interface to universal bracket

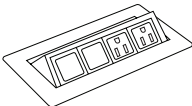

1. Access website - www.peerlessmounts.com
2. Locate "Mount Finder™" on home page side navigation bar
3. Enter make and/or model of your flat screen
4. Verify model: ST650 is listed as available model

Standard Power and Data Unit Locations

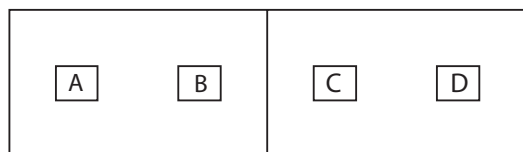

One Piece Table Top

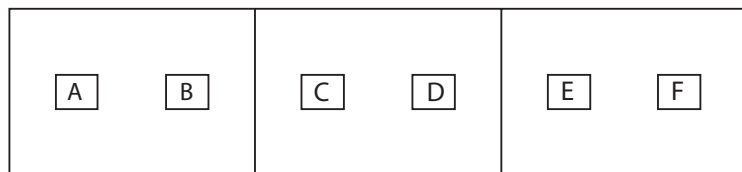

Round Top

Buffet Credenza

Two Piece Table Top

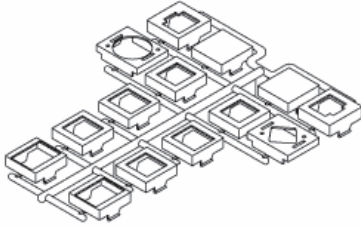

Three Piece Table Top

- Verify fit of jack in adapter before ordering large quantities as manufacturer designs may change without notice.
- Installation of Power and Data units on a seam of multi piece tops should be avoided when possible.
- Specify location when ordering conference tops or buffet credenza.
- Standard power and data units are indicated from the side of conference tops and user side of buffet credenza.

Data Adapter Applications

Data adapter kits ship with each power and data unit.

Adapter plates are marked on the back with letter designators to indicate the data jack manufacturer, series and style. Websites are listed below for quick reference to verify data jack series or style.

*Included with EC9, EC10,
EC13, EC15, TCP110 and CC9CNE1-0708.*

NOTE: Verify fit of data jack in adapter before ordering large quantities as manufacturer designs may change without notice.
