

December 2019

**Availability**

**Electronic price list updated** with release 190.E (U.S.) and 151.E (Canada), dated December 16, 2019.

All specifications subject to change without notice. Reference the electronic catalog/Hedberg for current pricing.

Spec News is available on [village.steelcase.com](http://village.steelcase.com). Search Steelcase Marketing Resources (Adstock) and download the current release's Spec News.

*Tip: Steelcase Marketing Resources is a new global platform for ordering Steelcase marketing materials that replaces Adstock.*

View or download Steelcase Specification Guides at [https://www.steelcase.com/resources/documents?tax-\[doctype\]=spec-guide](https://www.steelcase.com/resources/documents?tax-[doctype]=spec-guide).

Transitional products in this specification guide are **maintained for existing customers only** and are likely to be phased out over time. These products are indicated with a . Products that are scheduled to be culled are indicated with an , followed by the last order entry date.

**Surface Materials**

**The surface materials team** has announced the launch of the Finish Library, found at <http://finishlibrary.steelcase.com>.

► For a list of all trademarks, refer to the last page of this specification guide.

© 2019 Steelcase Inc.

**For Canadian Pricing**

Canadian factor can be found at [www.steelcase.com/CADpricing](http://www.steelcase.com/CADpricing). Calculate in the following order to avoid rounding errors:

- Multiply the base price and each option by the Canadian factor.
- Round each to the nearest dollar.
- Add base and options for total list price.

# Ten Tips: How to Get the Most Out of This Book

## Tip 1

**Watch** the tabs on the right-hand edges of the pages. They'll always indicate which chapter you are in.

## Tip 2

**Use the Statement of Line pages** for an overview of the available components, their sizes, and page references for additional information. Each *Understanding* chapter includes a statement of line after the table of contents.

## Tip 3

**Find cross references** by looking for page numbers flagged with an arrow.

## Tip 4

**Study the product detail pages** in the *Understanding* section to learn everything an expert knows about specific products. Each product detail page in this section contains the following features, where applicable:

- Product Drawing
- Actual Dimensions
- Product Details
- Connections
- Wiring and Cabling
- Surface Materials
- Application Topics

**Product Drawing** shows you what the product looks like and points out important features.

**Product Details** gives specific information on the product and how it is used.

**Connections** describes how the product is assembled or how it attaches to another product.

**Actual Dimensions** table lists the dimensions of the product.

**Wiring and Cabling** details the power and cable-management and cable routing capabilities of the product.

**Surface Materials** lists what material is used for each part of the product.

### Tip 5

**Refer to the specifying pages** for all the information needed to order a product. Each product specifying page contains a variety of elements to help you complete a specification:

- Product Drawing
- Standard Includes
- Required to Specify
- Options
- Related Products
- Specification Information
- Dimensions
- Style Number
- Price

**Standard Includes**  
(under the red or dark grey band) provides a list of what comes standard with the product.

**Required to Specify**  
(under the red or dark grey band) itemizes the information that you must provide to order the standard product and the preferred sequence for specification.

**Specification Information**  
(under the teal or light grey band) provides product dimensions, style numbers, and prices for the standard product and any surface material choices that are available.

**Product Drawing** shows you what the product looks like.

**Product Drawing**

**Standard Includes**

- Standard light grey or dark grey (RAL 9006 or 9005) powder coat finish
- Base trim with no brackets (on 1/2" x 1/2" panel price)
- Base trim with brackets (on 1/2" x 1/2" panel price)
- Standard 1/2" x 1/2" x 1/2" aluminum extrusion

**Options**

| Options          | Unit Price | Required to Specify                      |
|------------------|------------|------------------------------------------|
| Standard panel 1 | No cost    | Specify panel size, material, and finish |
| Standard panel 2 | No cost    | Specify panel size, material, and finish |
| Standard panel 3 | No cost    | Specify panel size, material, and finish |

**Base Trim**

| Base Trim        | Unit Price | Required to Specify                      |
|------------------|------------|------------------------------------------|
| Standard panel 1 | No cost    | Specify panel size, material, and finish |
| Standard panel 2 | No cost    | Specify panel size, material, and finish |
| Standard panel 3 | No cost    | Specify panel size, material, and finish |

**Related Products**

| Related Products | Unit Price | Required to Specify                      |
|------------------|------------|------------------------------------------|
| Standard panel 1 | No cost    | Specify panel size, material, and finish |
| Standard panel 2 | No cost    | Specify panel size, material, and finish |
| Standard panel 3 | No cost    | Specify panel size, material, and finish |

**Product Drawing**

**Standard Includes**

- Standard light grey or dark grey (RAL 9006 or 9005) powder coat finish
- Base trim with no brackets (on 1/2" x 1/2" panel price)
- Base trim with brackets (on 1/2" x 1/2" panel price)
- Standard 1/2" x 1/2" x 1/2" aluminum extrusion

**Options**

| Options          | Unit Price | Required to Specify                      |
|------------------|------------|------------------------------------------|
| Standard panel 1 | No cost    | Specify panel size, material, and finish |
| Standard panel 2 | No cost    | Specify panel size, material, and finish |
| Standard panel 3 | No cost    | Specify panel size, material, and finish |

**Base Trim**

| Base Trim        | Unit Price | Required to Specify                      |
|------------------|------------|------------------------------------------|
| Standard panel 1 | No cost    | Specify panel size, material, and finish |
| Standard panel 2 | No cost    | Specify panel size, material, and finish |
| Standard panel 3 | No cost    | Specify panel size, material, and finish |

**Related Products**

| Related Products | Unit Price | Required to Specify                      |
|------------------|------------|------------------------------------------|
| Standard panel 1 | No cost    | Specify panel size, material, and finish |
| Standard panel 2 | No cost    | Specify panel size, material, and finish |
| Standard panel 3 | No cost    | Specify panel size, material, and finish |

### Tip 6

**Required to Specify**

Specify with Customiz Stain

**Italic typeface** on specifying pages usually identifies wording that you should use in your order.

### Tip 7

**To determine** how many skins are needed to complete a panel, consult the table at the right.

*Tip: Remember to order skins for both sides of the panel buildup.*

**Watch for tips** throughout the text that give you explanations and helpful instructions.

### Tip 8

**Learn what you cannot do** by looking for drawings crossed out with an "X."

### Tip 9

**Use the surface materials listings** in the Surface Materials section of this book to find surface material color numbers.

### Tip 10

| Style Number | Page |
|--------------|------|
| TS7042BL     | 131  |
| TS7042S      | 130  |
| TS7048BL     | 131  |
| TS7048S      | 130  |
| TS7060BL     | 131  |
| TS7060S      | 130  |
| TS7072BL     | 131  |

**Refer to the style number index** when you know a style number and you need to find the page that has more details about the product.

# Additional Resources

## Elective Elements

**products** are supported with informational materials, tools, and software to help you plan, specify, and order an installation efficiently.

**Many Steelcase wood products** are Cradle to Cradle™ and/or Indoor Advantage™ certified.

## FSC CoC Certification

Steelcase Wood harvesting practices are just one of the steps in achieving Forest Stewardship Council Chain of Custody (FSC CoC) certification. FSC certified wood (veneer and core) is available on most Steelcase wood products through the Specials RFQ process.

**Environmental** Steelcase's proprietary Clarity ultraviolet (UV) water-borne finish is unique to the industry. In 2001, with the introduction of our first water-borne finish, we reduced our Volatile Organic Compounds by an estimated 91%. Since 2007, with virtually no emissions, the Clarity process protects the environment while providing exceptional durability and clarity. Elective Elements products are produced in a LEED certified manufacturing facility. Many Steelcase wood products are Cradle to Cradle and/or Indoor Advantage certified. Please refer to Steelcase.com for the latest information, including an Environmental brochure. Form number 09-0000201.

**Product brochures and planning tools** can be ordered through your Steelcase area office by calling 1.800.784.0358 or through the Marketing Resources web site at [village.steelcase.com](http://village.steelcase.com).

**Planning Ideas** is your resource to help inspire, envision, and plan Steelcase wood solutions. ▶ See [www.steelcase.com](http://www.steelcase.com), resources, design center, planning ideas.

**Wood Solutions Interactive Tool** has everything you need to talk about wood solutions combined in one interactive tool. [www.steelcase.com/woodinteractive](http://www.steelcase.com/woodinteractive)

**Wood touch up kits** are available in specific finishes for field repair. ▶ Page 638

## Printed Materials

### Surface Materials Reference Manual

This publication provides:

- An explanation of the surface materials
- "Available on" matrices
- Surface material selection listing
- Technical data for surface materials
- Surface material care and cleaning instructions

### Hard Surfaces Card

The card provides an overview of:

- Finish levels
- An explanation of Flat Cut, Rift Cut and Quarter Cut
- Veneer lay-up techniques on exterior surfaces
- Wood finishes
- Certifications

Form number 09-0000483

### Specification Guides

The following Specification Guides contain panels, supports, complementing tables, and complementing desk and seating that work with Elective Elements:

### Montage Solutions Specification Guide

### Answer Solutions Specification Guide

### Architectural Solutions Specification Guide

**Wood Casegoods and Tables Specification Guide** contains Victor2 and Divisio

### FlexFrame Specification Guide

### Seating Specification Guide

### Steelcase Worktools Specification Guide

### V.I.A. Specification Guide

## Planning Tools

### Quick Ship Guide

This handbook describes all Steelcase, turnstone, and Coalesse products that are available for Rapid2 (ships in 2 days), Rapid5 (ships in 5 days), or Coalesse Rapid10 (ships in 10 days).

## Computer Tools

### Electronic Catalog

Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools — Steelcase's design and specification software (for more information on SmartTools, please email [SmartTools@steelcase.com](mailto:SmartTools@steelcase.com)), the ProjectMatrix ProjectSymbols libraries, as well as 20-20 CAP Studio.

### Furniture Symbol Graphic Data

Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

### Digital Publications

You can access these digital publications at [www.steelcase.com](http://www.steelcase.com) or [village.steelcase.com](http://village.steelcase.com).

## Support

### Steelcase Capabilities

Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

### For ordering or product assistance,

please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to [lineone@steelcase.com](mailto:lineone@steelcase.com).

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality concerns or service parts questions.

For warranty information, please go to <http://www.steelcase.com/warranty/>.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939 or visit our Web site: [www.steelcase.com](http://www.steelcase.com).

# General Overview of Elective Elements

**Elective Elements components** are built on a 6" module. Each component is ordered separately and assembled in the field. These buildups allow users to create configurations that are specific to their functional needs. They also provide an opportunity to mix surface materials.

**Quick Spec pages** conveniently provide all of the style numbers needed to quickly specify some of the most commonly ordered buildups.   
▶ Page 258

**Wall-mounted tackboards** provide a display surface.   
▶ Page 200

**Square grommet** is available for cord and cable routing. A power and data box with multiple outlets can be installed just under the grommet cover for access at worksurface level.   
▶ Page 62

**Organizer shelves** help to provide order to office supplies and stacks of papers. They can attach to a wall or panel, suspend between towers, or be supported by hutches.   
▶ Page 190

**Overhead cabinet** provides storage above a worksurface. It is available in a variety of enclosed and open storage area configurations. Hinged or sliding doors are available in wood or glass.

**65 $\frac{1}{8}$ "H side support frame** supports overhead storage when used with a high pedestal.   
▶ Page 193

**Filler panel** closes the space that results when a modesty panel isn't used on the back of a storage unit or end panel.

**Single-high overhead cabinets** can attach to a wall or panel, suspend between towers, be supported by a hutch kit, or supported by a single side support frame when the other end is attached to a stacking bookcase or tower. Double-high models are also available.   
▶ Page 184

**Tower** provides storage, can support overhead storage, and can be used to provide privacy and define boundaries. Various file drawer, shelf, and wardrobe configurations are available to meet storage needs.   
▶ Page 178

**Round grommet** can be specified to assist with cable and cord routing.   
▶ Page 62

**Back panel** finishes pedestal back when it is exposed.   
▶ Page 76

**2/3-height modesty panel** conceals the kneespace area. Full-height and 12"H modesty panels are also available. Modesty panel can be positioned flush, inset, or floating depending on the application. The 2/3-height and 12"H modesty panels are available in back painted glass.   
▶ Page 78

**Adjustable-height legs** provide support in desk and run-off peninsula applications. They adjust in 1/2" increments in the field.   
▶ Page 100

**Cushion top** is optional on lateral files or mobile pedestals to provide comfortable seating. Cushion top ships separately.

**One-high pedestal** provides another option for filing papers and expandable files.   
▶ Page 136

**High pedestal** is 35 $\frac{7}{8}$ "H and can support overhead storage. Open and hinged-door models are available.   
▶ Page 150

### Blade accessory shelf

fits discreetly beneath an overhead cabinet, organizer shelf, or service module and accommodates paper and small objects. Also works on plinth base settings.

► Page 190

**Credenzas** offer up to three storage components in a single piece.

► Page 158

**Gate leg** offers light scale aesthetic while supporting 24"D and 30"D workspaces. Works in both leg base and plinth base settings.

► Page 100

**Hutch kits** are intended to support an overhead storage unit. Hutch kits are available in single supports or paired with tackboards, tackboards with slatwall, and wood panels with slatwall.

► Page 193

**Glass modesty panels** with back painted glass provide visual privacy for a seated position. Wood versions also exist.

► Page 78

**Storage legs** raise the storage 8¾" off of the ground to give a lighter aesthetic. Storage legs can be shared with adjacent elements of the same depth.

► Page 158

### Coped work surface edge

is standard with bullnose and blade edge profile in a return, desk return, bridge, or run-off peninsula application to provide a smooth transition between the adjoining work surfaces. Coping is not required on work surfaces with a square edge.

**Cable tray** is field installed under a work surface to keep cords and cables out of the way.

\*Not available on laminate or composite fronts.

**Blade edge underside** is treated as follows:

- **Laminate top** is sanded smooth.
- **Veneer with clear top coat** receives a wash coat without stain on the underside.
- **Veneer with stain** receives the same stain as the top surface plus wash coat. The underside is then sanded smooth.

# Thought Starters and Applications

## Plinth Base Freestanding Desk and Credenza

**Square grommet** is available for cord and cable routing. A power unit with cord pass-through can be installed just under the grommet for access at worksurface level.

**Single-high overhead cabinets** can attach to a wall or panel, suspend between towers or stacking bookcases, be supported by a hutch kit, or supported by a single side support frame when the other side is attached to a stacking bookcase or tower. Double-high models are also available.

**Wall-mounted tackboards or wood panels with slatwall** come in widths to match overhead cabinets. They feature a one-piece design.

**Modesty panels** are not required for structural support.

**2/3-Height wood modesty panel** attaches to a storage component or adjustable-height leg. They cannot attach to an end panel. The glass 2/3-height modesty panel attaches underneath the worksurface.

**Tower** provides storage, can support overhead storage, and can be used to provide privacy and define boundaries. Various file drawer, shelf, and wardrobe configurations are available to meet storage needs.

**Overhanging desk worksurface** is required when floating wood modesty panels are used. Glass modesty panels can sit either flush to the edge or inset.

**Adjustable-height legs** provide support in desk and run-off peninsula applications. In this application, they are adjusted to the same height as the pedestal.

**Round grommet** can be specified to assist with cable and cord routing.

**Finished back panel** conceals unfinished back of pedestal.

Specification includes all wood surfaces with square edge profile and inset pulls.

*Tip: The exploded view shows one workstation of the 4-pack.*

# Height Matrix–Plinth Base

*Tip: One-high pedestal with a worksurface top is 17"H. 1.5 high storage with a worksurface top is 23"H. Pedestal (two high) with a worksurface top is 29"H. Stacking storage elements come in various heights to create solutions which match panel or freestanding storage heights of 38", 45", 55 1/4", 65 5/8", and 77 1/2".*

*Tip: Heights of components—freestanding and stacked—align and work with Montage panel systems.*

*Tip: Use of adjustable-height supports may make the height of stacked components to misalign.*

## Plinth Base Bookcases and Towers

## Service Modules

## Hutch Kits, Shelves, and Side Supports

Tip: Leg base  $21\frac{1}{2}$ "H storage with a worksurface is 23"H. Box/file leg base  $27\frac{1}{2}$ "H storage with a worksurface is 29"H. Stacking storage elements come in various heights to create solutions which match panel or freestanding heights of 45",  $55\frac{1}{4}$ ",  $65\frac{5}{8}$ ",  $72\frac{1}{2}$ ", and  $77\frac{1}{2}$ ".

Tip: Heights of components—freestanding and stacked—align and work with Montage panel systems.

Tip: Use of adjustable-height supports may cause the height of stacked components to misalign.

# Understanding Storage Options

Elective Elements offers three different storage platforms to accommodate a wide range of aesthetic and storage options:

- **Plinth base storage components** are full to the floor, providing a conservative, architectural aesthetic with maximum storage.
- **Leg base modular storage components** feature an 8<sup>3</sup>/<sub>4</sub>"H leg for a light, residential aesthetic with maximum planning and reconfiguration flexibility.
- **Leg base credenzas** also feature the 8<sup>3</sup>/<sub>4</sub>"H storage leg, but come in factory assembled configurations to minimize storage leg locations and provide the cleanest aesthetic.

|                                                                                                                                                                                                                                                                               | Plinth Base                                                                                                                                     | Leg Base Modular                                                                                                                                                     | Leg Base Credenzas                                                                                                                                                             |

Plinth base

**Plinth base pedestals with a proud back panel** will show the seams of back panel and pedestal connection on the outer sides of the unit.  
*Note: A proud back panel is standard on plinth base pedestals.*

Leg base

**Leg base pedestals with an inset back panel** allow the seams of back panel and pedestal connection to only be visible from the rear of the unit.  
*Note: An inset back panel is standard on leg base pedestals.*

Power shroud

**When routing power through a leg base credenza**, a technology trough allows power to be strung through the unit and a scallop on the bottom panel near the back of the unit allows power to exit the unit and reach the floor. A power shroud can be used to conceal the cords exiting the unit.

**A plinth base freestanding desk** can be created by using two plinth base free support end panels.

**Two leg base free support end panels** are not an applicable application to create a freestanding desk.

**An L-shape end panel** varies from plinth base to leg base. A plinth base L-shape end panel requires the use of a filler panel, while a leg base L-shape end panel spans the full depth.

**15"W and 18"W drawers** can have soft close drawer slides. Soft close drawer slides are not available on 30"W or 36"W drawers. Available for both dove tail and mitre fold construction.

## Storage Differences—Plinth Base versus Leg Base

|                                                              | Plinth Base                                                                                                                                                                                                                    | Leg Base                                                                                                                                                                                                                                               |
|--------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Height</b>                                                | Low storage in a plinth base application with worksurfaces equal an overall height of 17"H, 23"H, and 29"H.                                                                                                                    | Low storage in a leg base application with worksurfaces equal an overall height of 23"H and 29"H. Planned widths shown

Tip: 90"W and 96"W are not available on the full-width top desk.

# Height-Adjustable Desks

**Height-adjustable desks** support single users. They allow users to quickly and effortlessly raise and lower their desks between seated and standing positions.

► Specifying, page 262

**Desk surface** has a wood core with a wood veneer or High-Pressure Laminate surface and is 1½" thick. Available in partial-width and full-width sizes dependent on application. The edge of a laminate desk surface is available with a 3 mm plastic square edge or wood square edge profile. Veneer desk surface is available only with wood square edge.

**Three pre-set programmable controller** is standard and mounted under the desk. Controller adjusts height at a rate of 17/10" per second.

*Tip: The speed slows to half when going down and is full speed when going up.*

**Lifting column** is activated by a central control box for synchronization. Columns are precision balanced to minimize surface vibrations.

**Height-adjustable base** adjusts from 27<sup>7</sup>/<sub>10</sub>"H to 47<sup>2</sup>/<sub>5</sub>"H in any increment.

**Base** supports a maximum distributed weight capacity of 295 pounds (2-leg base).

► For further information on weight limits, see page 30 for the *Weight Limit Chart*.

**Shroud** conceals a major portion of the height-adjustable column and the entire foot.

**Hanging modesty panel**

may be used with full-width or inset floor modesty, or with no floor modesty. The hanging modesty panel can be specified to be inset between shrouds, a shroud and a pedestal, or two pedestals. It can also be specified to match the width of the desk. The full-width modesty version is only available on the 36"D desks.

**Floor modesty panel**

is available for use with shrouds or pedestals. It covers the entire footprint expanse on the visitor side of the height-adjustable desk, from the floor to the top of the shroud or pedestal. The full-width floor modesty panel must be specified with an inset or full-width hanging modesty panel.

► For all available dimensions and options, see the sizing matrix on page 28.

**Pedestal** conceals a major portion of the height-adjustable column and the entire base. It also provides 15"W box/file storage within a single unit. The pedestal can be specified for both the left- and right-hand side, together or separately.

## Product Details

### Wood Veneer or High-Pressure Laminate Desks

**When laminate is specified for top surface**, the edge may either be 3 mm plastic square edge or wood square edge.

Wood Square Profile  
3 mm edge profile

See surface material listing in this book for specific PVC-free availability.

**Edge profile finishes** are specified separately from laminate color.

**Height-adjustable desks** adjust 27<sup>7</sup>/<sub>10</sub>\"/>

### Three pre-set programmable controller

is available as an option and easily adjusts the desk by simply pushing the up and down arrows. Three pre-set programmable buttons allow user to set the seated and standing height positions or pre-set heights for multiple users.

*Tip: If a floor modesty is selected, then a hanging modesty is required.*

*Tip: Please order a cable riser (OLCR) to manage the cable that controls the height adjustment underneath the desk.*

► See *Height-Adjustable Desks Specification Guide*.

Contemporary Jazz

Bar Nile

Integral Transitional

Inset Beam

**Pulls** are available in eight different styles to provide design options that range from conventional to progressive when pedestal is selected.

*Tip: Integral pull is not available on laminate or composite fronts.*

**Locks** are available factory- or field-installed on lateral files. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

## Wiring and Cabling

**Low surge electric motor with whisper quiet operation** adjusts at 1<sup>7</sup>/<sub>10</sub>\"/>

*Tip: The speed slows to half when going down and is full speed when going up.*

**Soft stop DC motor** eliminates abrupt stops and starts and is housed inside the lifting column.

**Built-in limiter switch** is standard.

**Trough** is provided to manage excess base controller wires. No wiring or cabling may pass through the interior of the shroud or pedestal.

*Tip: Consider ordering wire management products to manage the power and lock-out wires in addition to the trough.*

► See page 617

## Grain Direction

**If veneer is selected for the case of the shroud and/or pedestal**, then the veneer on the front must match. When selecting a veneer on the shroud and/or pedestal, grain direction will default to vertical. Horizontal grain direction can be specified if desired.

**If any laminate is selected for the case of the shroud and/or pedestal**, the front may either be laminate or veneer. When selecting a woodgrain laminate on the shroud and/or pedestal, grain direction will default to vertical. Horizontal grain direction can be specified if desired. If selecting a non-directional laminate, no grain direction selection is needed.

*Tip: If any height-adjustable desk component (shroud, pedestal, hanging or floor modesty) uses Open Line laminate (OLL), then refer to the Surface Materials Reference Manual for more details and availability.*

**If a floor modesty panel is selected**, then the grain direction on the storage and modesty panel must match. In the case of a laminate modesty panel greater than 60\"/>

**If a hanging modesty is selected**, it may match or differ from the floor modesty panel and storage selection. In the case of a laminate modesty panel greater than 60\"/>

*Tip: If any height-adjustable desk component (shroud, pedestal, hanging or floor modesty) uses Open Line laminate (OLL), then refer to the Surface Materials Reference Manual for more details and availability.*

## Surface Materials

### Desk top surface

- Wood veneer with wood edge profile
  - Laminate with 3 mm plastic edge profile
  - Laminate with wood edge profile
  - Open Line laminate (option)
- A program including non-Steelcase laminates which are suitable for use on Steelcase products.
- See *Surface Materials Reference Manual*.

### 3 mm wood square edge profile

- Plastic

### Height-adjustable base

**Inset pulls**

- 4728 Nickel Metallic
- 4799 Platinum Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze

**Face lock**

- 9201 Polished Chrome
- 9250 Ember Chrome

*Tip: When an integral pull is specified with a 9250 Ember Chrome lock, the lock housing is black, and when a 9201 Polished Chrome lock is specified, the lock housing is nickel.*

**Application Topics**

**Any storage higher than 23"** will impede height range of desk.

*Tip: Do not place storage underneath controller.*

**All assemblies** meet or exceed ANSI/BIFMA standards.

**Installation**

**Height-adjustable base** requires attachment to the desk top surface and encasement in shroud or pedestal.

# Straight, Desk, Return, Desk Return, and Bridge Worksurfaces

For Use with Plinth Base and Leg Base

**Straight, desk, return, desk return, and bridge worksurfaces** are used to build freestanding casegoods or they can be used in panel-supported applications. Technology worksurfaces are available as straight.

► Specifying, page 272

**Worksurface** has a wood core with a wood veneer or laminate surface.

**Back and side edge finishes** vary depending on the worksurface type.

► Page 54

**Supports** must be ordered separately.

**Straight Worksurface**

**Bow-Front Desk Worksurface**

**Technology Straight Worksurface**

**Technology Desk Worksurface**

**Wood worksurface** is available with three different wood edge profiles—square, bullnose, and blade. Front edge of a laminate worksurface is available with a plastic square edge, wood square edge, wood bullnose edge, or laminate blade edge profile.

► Page 52

## Actual Dimensions

### Straight Worksurfaces

|           |                                                                                            |
|-----------|--------------------------------------------------------------------------------------------|
| Depth     | 18" * 24" or 30"                                                                           |

|                  |                    |
|------------------|--------------------|
| Depth            | 30"/36" or 36"/42" |
| Width of 30"/36" | 66" or 72"         |
| Width of 36"/42" | 72", 78", or 84"   |
| Thickness        | 1 1/2"             |

### Technology Desk Worksurfaces

|           |                                 |
|-----------|---------------------------------|
| Depth     | 24", 30", or 36"                |
| Width     | 60", 66", 72", 78", 84", or 90" |
| Thickness | 1 1/2"                          |

### Return Worksurfaces

|           |                                 |
|-----------|---------------------------------|
| Depth     | 18" or 24"                      |
| Width     | 30", 36", 42", 48", 60", or 72" |
| Thickness | 1 1/2"                          |

### Desk Return Worksurfaces

|           |            |
|-----------|------------|
| Depth     | 30" or 36" |
| Width     | 60" or 72" |
| Thickness | 1 1/2"     |

### Bridge Worksurfaces

|           |            |
|-----------|------------|
| Depth     | 18" or 24" |
| Width     | 42" or 48" |
| Thickness | 1 1/2"     |

*Tip: For bridge worksurfaces with a blade edge, subtract 2 1/8" from each side (4 1/4" total) for precise dimensions.*

\*18"D units are only available in widths 90" or less.

## Product Details

### Worksurface edge

aligns with the face of the pedestal drawer if square or bullnose edge profiles are selected. If the blade edge profile is selected, the bottom corner of the blade edge aligns with the pedestal drawer front. Worksurfaces specified with a blade edge are  $2\frac{1}{8}$ " larger per profiled edge.

► Page 52

### Short grain wood veneer

is available on many worksurfaces and ensures that the wood grain in an installation all runs in the same direction.

► Page 60

*Tip: Short grain is not available on laminates.*

### Worksurface overhang

can be created by ordering a worksurface that is 6" maximum deeper than the pedestal or end panel.

*Tip:  $23\frac{1}{4}$ "D and  $29\frac{1}{4}$ "D pedestals should be used for overhang desks. End panels less than  $23\frac{1}{4}$ "D should not be used in overhang configurations.*

### Desk worksurface

should be specified when the selected profile edge is desired on both the user's and visitor's side. This worksurface is to be used in a freestanding application. It cannot be panel supported.

*Tip:  $36\frac{1}{4}$ "D bow-front desk worksurfaces must be supported by  $30"$ D pedestals or end panels.*

*Tip: A desk worksurface with a 6" overhang cannot accept an L-shape end panel. As an alternative, use a straight end panel with a full modesty, or a J-shape end panel instead.*

### Technology worksur-

faces feature an unfinished cut-out for a separately specified technology zone. Location varies depending on the type and size of worksurface.

► Page 65

*Tip: Only one technology zone cut-out is allowed in a worksurface. No additional factory installed grommets can be specified in technology worksurfaces.*

*Tip: A technology worksurface cannot accept a monitor arm directly behind the cut-out.*

## Connections

### Coped worksurface edge on return, desk return, or bridge work-

surfaces is standard with bullnose or blade edge profile to provide a smooth transition between the adjoining worksurfaces. When a square edge profile is specified, the edge which would typically be coped features a 3 mm wood (on wood worksurfaces) or 1 mm plastic (on laminate worksurfaces) edge profile.

### For bridge worksur-

faces with a blade edge, subtract  $2\frac{1}{8}"$  from each side ( $4\frac{1}{4}"$  total) for precise dimensions.

*Tip: This same rule applies to a bullet or P-top in a U-shape setting.*

The nominal width of a bridge coped with blade edge worksurface is approximately  $4\frac{1}{4}"$  less than a square edge.

### Technology worksur-

faces used over 1.5 plinth base storage units with or leg base  $27\frac{1}{2}"$ H storage technology trough provide access to the cable routing channel in the storage.

*Tip: Technology zones extend below the worksurface and cannot be placed over one-high plinth,  $21\frac{1}{2}"$ H leg base storage, or full height plinth base.*

Blade edge profile cannot be used in conjunction with either a height adjustable leg or a gate leg.

### When mounting storage on worksur-

faces with blade edge profile, subtract the  $2\frac{1}{8}"$  extension caused by the shape of the blade edge.

### Supports for these

worksurfaces must be ordered separately and vary with selected worksurface. To support the worksurface, you can use:

- End panel ( $10\frac{3}{8}"$ H,  $15\frac{1}{2}"$ H,  $21\frac{1}{2}"$ H, and  $27\frac{1}{2}"$ H), page 90
- Center support panel (for unsupported span greater than 60"W), page 98
- Adjustable-height legs, page 100
- Columns, disk columns, gate leg, rectangular column leg, freestanding table base, page 100
- Parallel slip-fit support, page 100
- Pedestals, page 132
- Supports for use with 6" module panels. Please refer to the selected panel systems specification guide
- Payback square leg (grommets cannot be used above this leg), see *Wood Casegoods and Tables Specification Guide*

*Tip: When used in a single pedestal desk configuration, specify pedestal and end panel 6" less than the depth of the desk worksurface. This will create an overhang condition.*

*Tip: For panel environments, follow worksurface support rules for either line-specific or Universal Worksurfaces. If universal cantilevers are used, the tabs need to be pushed down. This is not required for line-specific (i.e. Montage) cantilevers.*

### Full-height plinth base modesty panel,

ordered separately, is stationary and is not required for support. The positioning opportunities vary depending on the application.

► Page 78

### $10\frac{3}{8}"$ H T-shape end panel and $10\frac{3}{8}"$ H

L-shape end panels can support a worksurface on a plinth base one-high lateral file or bookcase.

► Page 94

### $4\frac{5}{8}"$ H T-shape end

panel can support a worksurface on a plinth base 1.5 high storage or a leg base  $21\frac{1}{2}"$ H storage unit.

► Page 94

### Perpendicular tether supports and cable

shroud supports support a desk worksurface on a plinth base 1.5 high storage or a leg base  $21\frac{1}{2}"$ H storage unit.

*Tip: Perpendicular tether supports and cable shroud supports are inset 2" from the back and side of the worksurface.*

## Straight, Desk, Return, Desk Return, and Bridge Worksurfaces, For Use with Plinth Base and Leg Base, continued

**Panel-supported applications** can be achieved by attaching worksurfaces to Montage, Answer, and Privacy Wall.

► Refer to appropriate panel specification guide.

### Center support panel or worksurface brace

must be used when a worksurface has an unsupported span that is greater than 60"W in a plinth base setting.

*Tip: The center support panel brace cannot be used in leg base settings. In leg base settings, a worksurface brace must be used when a worksurface has an unsupported span that is greater than 54"W.*

### Attachment hardware

is included with return, desk return, and bridge worksurfaces.

## Wiring & Cabling

**Round or square grommets** are available factory installed to allow power cords and cables to pass through the worksurface. Grommet location options vary depending on the type of worksurface and type of support used.

► Page 62

**2½" round grommet** is available.

► Page 250

**Technology zones** are specified separately for technology worksurfaces.

► Page 246

**Scallop** is available centered on the back edge of a worksurface to route cords and cables. It may be used in conjunction with a round or square grommet. Technology straight, desk, and technology desk worksurfaces are not available with a scallop.

*Tip: Worksurface scallops and modesty panel pass-throughs must be in the same location to allow a cord plug to pass through.*

► Page 63

**Cable tray** is available to field install under a worksurface to keep cords and cables out of the way.

## Surface Materials

### Worksurface

- Wood veneer with wood edge profile
- Laminate with plastic edge
- Laminate with wood edge profile
- Customiz stain (option on wood)

### Attachment hardware for returns or bridge

- Black paint only

### 2½" round grommet

- 0835 Black
- 4799 Platinum Metallic
- 7241 Arctic White
- 7278 Dark Bronze
- 9201 Polished Chrome
- 9211 Nickel

### Square grommet

- 7278 Dark Bronze door and frame
- 8043 Clear Anodized Aluminum door and frame
- 8044 Black Anodized Aluminum door and frame

### Edge profile samples

can be ordered to meet your specifications. These 18"D x 20"W worksurfaces can be ordered with any Elective Elements edge profile and worksurface option.

# Single Tapered, Tapered, Bullet, P-Top, Meeting, and Extended Bullet Worksurfaces

For Use with Plinth Base and Leg Base

**Single tapered, tapered, bullet, P-top, meeting, and extended bullet worksurfaces** provide an extended range of workstation layouts and offer special support for meetings.

► Specifying, page 290

**Worksurface** has a wood core with a wood veneer or laminate surface.

**Wood worksurface** is available with three different wood edge profiles—square, bullnose, and blade edge. Exposed edge of a laminate worksurface is available with a plastic square edge, wood square edge, wood bullnose edge, or laminate blade edge profile.

► Page 54

**Supports** must be ordered separately.

## Actual Dimensions

### Single Tapered Worksurfaces

|           |            |
|-----------|------------|
| Depth     | 24"-30"    |
| Width     | 72" or 90" |
| Thickness | 1 1/2"     |

### Single Tapered Run-Off Worksurfaces

|           |            |
|-----------|------------|
| Depth     | 24"-30"    |
| Width     | 36" or 60" |
| Thickness | 1 1/2"     |

### Double Tapered Run-Off Worksurfaces

|           |                              |
|-----------|------------------------------|
| Depth     | 24"-30", 30"-36", or 36"-42" |
| Width     | 36", 48", 60", or 72"        |
| Thickness | 1 1/2"                       |

### Bullet Run-Off Worksurfaces

|           |                                 |
|-----------|---------------------------------|
| Depth     | 30" or 36"                      |
| Width     | 42", 48", 54", 60", 66", or 72" |
| Thickness | 1 1/2"                          |

### Bullet Freestanding Worksurfaces

|           |                                 |
|-----------|---------------------------------|
| Depth     | 30" or 36"                      |
| Width     | 60", 66", 72", 78", 84", or 90" |
| Thickness | 1 1/2"                          |

### P-Top Run-Off Worksurfaces

|           |            |
|-----------|------------|
| Depth     | 30" or 36" |
| Width     | 66" or 72" |
| Thickness | 1 1/2"     |

### P-Top Freestanding Worksurfaces

|           |            |
|-----------|------------|
| Depth     | 30" or 36" |
| Width     | 66" or 72" |
| Thickness | 1 1/2"     |

### Meeting Worksurfaces

|                               |                      |
|-------------------------------|----------------------|
| Depth                         | 36"                  |
| Width                         | 60" or 78"           |
| Thickness                     | 1 1/2"               |
| Depth of adjacent worksurface | 60"W-18"D, 78"W-24"D |

### Extended Bullet Worksurfaces

|           |            |
|-----------|------------|
| Depth     | 42"        |
| Width     | 60" or 72" |
| Thickness | 1 1/2"     |

# Single Tapered, Tapered, Bullet, P-Top, Meeting, and Extended Bullet Worksurfaces, For Use with Plinth Base and Leg Base, continued

## Product Details

**Short grain wood veneer** is available on worksurfaces to ensure that the wood grain in an installation all runs in the same direction.

*Exception: Short grain option is not available on any laminate worksurfaces.*

► Page 60

**Technology worksurfaces** feature an unfinished cut-out for a separately specified technology zone. Location varies depending on the type and size of worksurface.

► Pages 65

*Tip: Only one technology zone cut-out is allowed in a worksurface. No additional factory installed grommets can be specified in technology worksurfaces.*

## Connections

**Worksurface can attach** anywhere along the front of the adjacent 24"D or 30"D worksurface. Attachment hardware is included. When run-off worksurfaces are attached to a straight worksurface in a T-configuration, the straight worksurface must be supported by storage or end panels that are the same depth as the worksurface. *Exception: 78"W, 84"W, and 90"W bullet worksurfaces cannot be used in run-off applications.*

**Coped worksurface edge** is standard with bull-nose or blade edge profile in a run-off application to provide a smooth transition between the adjoining worksurfaces. When a square edge profile is specified, the edge which would typically be coped features a 3 mm wood (on wood worksurfaces) or 1 mm plastic (on laminate worksurfaces) edge profile.

**Technology worksurfaces** used over plinth base 1.5 high storage or leg base 27½"H storage units with technology trough provide access to the cable routing channel in the storage. *Tip: Technology zones extend below the worksurface and cannot be placed over one-high plinth or 21½"H leg base storage, and full height plinth base.*

**Supports** for the run-off end of these worksurfaces must be ordered separately and vary with selected worksurface. To support the worksurface, you can use:

- End panel (10⅜"H and 27½"H), page 90
  - Free support end panel, page 94
  - Extended T-shape end panel, page 94
  - Rectangular column leg, column, disk column, gate leg, adjustable-height legs, freestanding table base, and parallel slip-fit supports, page 100
  - Plinth base or leg base storage, page 132 or 144
  - Supports for use with 6" module panels. Please refer to the selected panel systems specification guide
  - Payback square leg (grommets cannot be used above this leg), see *Wood Casegoods and Tables Specification Guide*
- Tip: Recommended column and leg supports vary based on worksurface length and support conditions on the other end. Refer to Worksurface Support Guidelines, page 103.*
- Tip: For panel environments, follow worksurface support rules for either line-specific or Universal Worksurfaces. If universal cantilevers are used, the tabs need to be pushed down. This is not required for line-specific (i.e. Montage) cantilevers.*

**Gate leg or height adjustable leg** cannot be used with a blade edge profile.

*Tip: The column leg rules apply to the gate leg support. T or L configurations are recommended.*

**Gate leg** must have at least 30" wide plinth base storage under the opposite end of the worksurface being supported.

**Gate leg** must have at least two leg base components equaling at least 45" wide when used to support a worksurface.

*Tip: Gate leg cannot be used to support above worksurface storage.*

**Modesty panel and free support end panel with modesty panel** are ordered separately.

► Pages 78 and 94

*Tip: Meeting and extended bullet worksurface use a floating modesty panel. Specify a 12"H or 2⅓-height modesty panel and support brackets separately.*

► Pages 298 and 300

*Tip: Meeting and extended bullet worksurfaces are never freestanding in either a plinth or leg base setting.*

**A free support end panel** cannot be used to support above worksurface storage.

*Tip: If the free support end panel is used with above worksurface storage (overheads or service modules), then the free support end panel must be attached to either a tower or a building wall for stability.*

**10⅜"H T-shape end panel** can support a worksurface on a plinth base one-high lateral file or bookcase.

► Page 94

**4⅝"H T-shape end panel** can support a worksurface on plinth base 1.5 high storage or leg base 21½"H storage units.

► Page 94

**Perpendicular tether supports** can support a desk worksurface on a plinth base 1.5 high storage or leg base 21½"H storage units. *Tip: Perpendicular tether supports are inset 2" from the back and side of the worksurface.*

**Panel-supported applications** can be achieved by attaching worksurfaces to Montage, Answer, and Privacy Wall.

► Refer to appropriate panel specification guide.

**The 36"W end of the meeting worksurface** can be supported by a 29 1/4"D plinth base L-shaped end panel or by a 36"D plinth base or leg base free support end panel.

**Meeting worksurfaces** can be supported in one of the following ways on the outer edge: a pedestal with or without a slip fit bracket, a rectangular column leg with or without base, adjustable height legs, disk column or column leg, gate leg, free support end panel, L-shape end panel, or J-shape end panel.

**The 42"W end of the extended bullet worksurface** can be supported by a 23 1/4"D or 29 1/4"D plinth base L-shaped end panel, or by a 36"D plinth base or leg base free support end panel.

## Wiring & Cabling

**Round or square grommets** are available factory installed to allow power cords and cables to pass through the worksurface. Grommet location options vary depending on the type of worksurface and type of support used.

*Tip: Only a leg base credenza with a kneewell can accept a square grommet.*

► Page 62

**2 1/2" round grommet** is available.

► Page 250

**Scallop** is available centered on the back edge of a single tapered and technology single tapered worksurface to route cords and cables. It may be used in conjunction with a round or square grommet.

► Page 63

**Cable tray** is available to field install under a worksurface to keep cords and cables out of the way.

## Surface Materials

### Worksurface

- Wood veneer with wood edge profile
- Laminate with plastic edge
- Laminate with wood edge profile
- Customiz stain (option on wood)

### Attachment hardware

- Black paint only

### Round grommet

- 0835 Black
- 4799 Platinum Metallic
- 7241 Arctic White
- 7278 Dark Bronze
- 9201 Polished Chrome
- 9211 Nickel

### Square grommet

- 7278 Dark Bronze door and frame
- 8043 Clear Anodized Aluminum door and frame
- 8044 Black Anodized Aluminum door and frame

### Edge profile samples

can be ordered to meet your specifications. These 18"D x 20"W worksurfaces can be ordered with any Elective Elements edge profile and worksurface option.

# Corner and Extended Corner Worksurfaces

For Use with Plinth Base and Leg Base

## Corner and extended corner worksurfaces

create an angled transition between two right-angle worksurfaces of the same depth.

They fit into the 90° angle formed by panels or structural walls, or they can be used in a freestanding open plan or private office setting.

*Tip: Straight and curved-front worksurfaces have 45° grain.*

► Specifying, page 302

**Wood worksurface** is available with three different wood edge profiles—square, bullnose, and blade. Front edge of a laminate worksurface is available with a plastic square edge, wood square edge, wood bullnose edge, or laminate blade edge profile.

► Page 54

**Worksurface** has a wood core with a wood veneer or laminate surface.

## Back and side edges

are wood veneer on wood worksurfaces and plastic on laminate worksurfaces.

**Supports** must be ordered separately.

**Straight-Front Corner Worksurface**

**Curved-Front Corner Worksurface**

**Extended Corner Worksurface**

## Product Details

**Short grain wood veneer** is available on extended corner worksurfaces only to ensure that the wood grain in an installation all runs in the same direction.

► Page 60

## Connections

**Supports** for corner and extended corner worksurfaces must be ordered separately. To support the worksurface, you can use:

► Gate leg, page 100

► Corner support kit, page 96

► Rear L-shape corner support, page 82

► L-shape end panel, page 90

► Plinth base or leg base storage can be used to support the long end of an extended corner worksurface, pages 132 and 144

► Supports for use with 6" module panels, please refer to the selected panel systems specification guide

*Tip: For panel environments, follow worksurface support rules for either line-specific or Universal Worksurfaces. If universal cantilevers are used, the tabs need to be pushed down. This is not required for line-specific (i.e., Montage) cantilevers.*

## Actual Dimensions

Thickness 1½"

*Tip: User's edge dimension is smaller when blade edge is specified.*

**Modesty panel**, ordered separately, is full height (for plinth base settings only) in wood only and flush mounted. It is stationary and is not required for support. It attaches to the end panel supports and rear corner support.

► Page 78

*Tip: Full height modesty panels are not available in glass.*

**As an alternative**, the following can be ordered:

- Modesty panels, available in wood, laminate, or glass (that are 12" shorter than the length of the worksurface), page 78
- Straight end panels, page 90
- Rear corner support, page 96

## Wiring & Cabling

**Round or square grommets** are available factory installed to allow power cords and cables to pass through the worksurface.

► Page 62

**2½" round grommet** is available.

► Page 250

**Scallop** is available centered on both back edges of corner and extended corner worksurfaces to route cords and cables. It may be used in conjunction with a round or square grommet.

*Tip: Worksurface scallops and modesty panel pass-throughs do not line up when used on corner and extended corner worksurfaces.*

► Page 63

**Cable tray** is available to field install under a worksurface to keep cords and cables out of the way.

## Surface Materials

### Worksurface

- Wood veneer with wood edge profile
- Laminate with plastic edge
- Laminate with wood edge profile
- Customiz stain (option on wood)

### Round grommet

- 0835 Black
- 4799 Platinum Metallic
- 7241 Arctic White
- 7278 Dark Bronze
- 9201 Polished Chrome
- 9211 Nickel

### Square grommet

- 7278 Dark Bronze door and frame
- 8043 Clear Anodized Aluminum door and frame
- 8044 Black Anodized Aluminum door and frame

### Edge profile samples

can be ordered to meet your specifications. These 18"D x 20"W worksurfaces can be ordered with any Elective Elements edge profile and worksurface option.

# Transaction Worksurfaces

For Use with Plinth Base and Leg Base

**Transaction worksur-**  
**faces** provide a surface  
that can be used by standing  
visitors or serve as a shelf.

► Specifying, page 306

**Worksurface** has a wood  
core with a wood veneer or  
laminate surface.

**Side edges that abut  
adjacent worksurfaces**  
are wood veneer or plastic.

**Front and back edges  
on a wood worksurface**  
are available with three differ-  
ent wood edge profiles—  
square, bullnose, and blade.  
Front and back edges of  
a laminate worksurface  
are available with a plastic  
square edge, wood square  
edge, wood bullnose edge, or  
laminate blade edge profile.  
► Page 52

|                                  |                                                                                     |                                                                                     |                                                                                     |                                                                                     |                                                                                     |                                                                                     |
|----------------------------------|-------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|

| 15 <sup>3</sup> / <sub>4</sub> " |  |  |  |  |  |  |
|                                  | 473 sq. in.                                                                         | 567 sq. in.                                                                         | 662 sq. in.                                                                         | 756 sq. in.                                                                         | 810 sq. in.                                                                         | 945 sq. in.                                                                         |

## Actual Dimensions

|           |                                  |
|-----------|----------------------------------|
| Depth     | 15 <sup>3</sup> / <sub>4</sub> " |
| Width     | 30", 36", 42", 48", 54", or 60"  |
| Thickness | 1 <sup>1</sup> / <sub>2</sub> "  |

## Connections

### For Montage

**Transaction worksurfaces** attach to cantilevers that are inserted in the slotted channels of Montage panels and replace the panel's top cap. Attachment hardware is included.

**Transaction worksurface** can be centered over the Montage panel.

**Recommended height** (approximately 40"H) is achieved by attaching the transaction worksurface to 38"H (standard special) Montage panels. All panel heights can accept transaction worksurfaces.

**Taller panels** cannot be used adjacent to transaction worksurfaces. Adjacent panels must be the same height.

**Multiple Montage panels** can be spanned with transaction worksurfaces.  
► See *Montage Specification Guide* for more details.

### For Answer

**Transaction worksurfaces support brackets** connect to the top of a horizontal connecting bar. Horizontal bar must be connected to junctions in the top position. Attachment hardware is included.

**Transaction worksurfaces** cannot be used when a transparent window, pass-thru window, or consolidation point cabinet is assembled at the top of a panel.

**Spanning** two panels is possible.

Exception: 54"W transaction worksurface cannot span multiple panels.

**Actual width of Answer transaction worksurface** is 6" shorter than the nominal planning dimension to accommodate change-of-height panel applications. Shortened top caps are included with the transaction worksurface. Oval and square tops are available. Transaction worksurface must be centered on the panel.  
► See *Answer Solutions Specification Guide* for more details.

## Wiring & Cabling

**Cables** can still be routed in the space at the top of a Montage panel when a transaction worksurface is attached in place of a panel top cap.

## Surface Materials

### Worksurface

- Wood veneer with wood edge profile
- Laminate with plastic edge
- Laminate with wood edge profile
- Customiz stain (option on wood)

### Attachment hardware

- Black paint only

### Edge profile samples

can be ordered to meet your specifications. These 18"D x 20"W worksurfaces can be ordered with any Elective Elements edge profile and worksurface option.

# Personal Table Tops

## For Use with Plinth Base and Leg Base

**Personal table tops** are available in two shapes—square and round. They provide an auxiliary work surface and offer a conferencing area.  
 ▶ Specifying, page 308

**Worksurface** has a wood core with a wood veneer or laminate surface.

**Wood worksurface** is available with three different wood edge profiles—square, bullnose, and blade. Edge of a laminate worksurface is available with a plastic square edge, wood square edge, wood bullnose edge, and laminate blade edge profile.  
 ▶ Page 52

**Supports** must be ordered separately.

### Connections

**Supports for personal table tops** must be ordered separately. To support the worksurface, you can use:

- ▶ Adjustable-height legs, page 100
- ▶ Freestanding table base, page 100
- ▶ Convene disk base, see *Wood Caseworks and Tables Specification Guide*
- ▶ Groupwork table base, see *Meeting Spaces Specification Guide*

*Tip: Refer to application guidelines in the specification guide from which you are selecting.*  
*Tip: The disk column will not support a freestanding table.*

### Surface Materials

#### Worksurface

- Wood veneer with wood edge profile
- Laminate with plastic edge
- Laminate with wood edge profile
- Customiz stain (option on wood)

#### Edge profile samples

can be ordered to meet your specifications. These 18"D x 20"W worksurfaces can be ordered with any Elective Elements edge profile and worksurface option.

### Actual Dimensions

#### Square

|           |            |
|-----------|------------|
| Depth     | 30" or 36" |
| Width     | 30" or 36" |
| Thickness | 1 1/2"     |

#### Round

|           |            |
|-----------|------------|
| Diameter  | 30" or 36" |
| Thickness | 1 1/2"     |

# Edge Profile Application Guidelines

3 mm Wood Square Edge

5/8" Wood Bullnose Edge

2 1/8" Wood Blade Edge

**Wood worksurface** is available with four different wood profiles—a 3 mm square edge, 5/8" bullnose edge, or 2 1/8" blade edge with 1.5 mm edge band.

3 mm Plastic Square Edge

3 mm Wood Square Edge

5/8" Wood Bullnose Edge

2 1/8" Laminate Blade Edge

**Laminate worksurface** is available with four profiles—a 3 mm plastic square edge, 3 mm wood square edge, 5/8" wood bullnose edge, or 2 1/8" blade edge with 1 mm edge.

**3 mm wood edges and 3 mm plastic** have a slight ergonomically rounded profile for user comfort.

**Wood edge profile (square or bullnose) on laminate worksurface or (square, bullnose, or blade) on wood worksurface** is achieved by adding a specially shaped solid wood edge to the worksurface core. The 0.5 mm edge is wood banded. The 3 mm square, bullnose, and blade edges are made of wood solids. Wood solids run the length of straight edges. The 3 mm and 1.5 mm edge can wrap around curved edges.

**Plastic square edge profile on a laminate worksurface** is achieved by adding plastic surfaces to the worksurface core. This technique can be applied to worksurfaces that are straight or curved.

**Grain direction of solid wood edge profile** is always parallel to the edge, regardless of grain direction of wood worksurface.

**Valleys** can be avoided when joining two worksurfaces at 90° angles. If non-handed solutions are desired, use straight worksurfaces with square edge treatment to avoid the creation of valleys. If a coped look is desired, use handed worksurfaces which are standard with coped edges.

**Coped worksurface edge** is standard with bullnose or blade edge profile in a return, desk return, bridge, or run-off application to provide a smooth transition between the adjoining worksurfaces. When a 3 mm square edge profile is specified, the edge which typically would be coped features a 3 mm profile. Coped worksurfaces can be used in freestanding and system applications. *Tip: A worksurface with a blade edge is not recommended next to a tower, the edge extends 2 1/8" beyond. A square edge profile offers a more consistent appearance.*

Square

Bullnose

Blade

**Worksurface edge** aligns with drawer face if square or bullnose edge profiles are selected. If the blade edge profile is selected, the bottom corner of the blade edge aligns with the pedestal drawer front. *Tip: Beam pulls are not recommended with blade edge because they are difficult to access under the blade edge.*

**Blade edge** adds 2 1/8" to the size of the worksurface wherever the profile is added. *Example: Straight worksurface would have 2 1/8" added to the depth measurement. However, a desk worksurface would add 4 1/4" to the depth because the blade edge profile is located on the front and back of the worksurface. Tip: Do not pair blade edge worksurface with beam pull; access is compromised.*

**Blade edge profile** cannot be used with either a height adjustable leg or a gate leg.

**Surface Materials**

**On wood worksurface,**  
specify the wood color.  
The wood worksurface and  
wood edge will be the same  
color. Worksurface and edge  
cannot have different stain  
colors.

**On a laminate worksur-  
face with plastic edge,**  
specify the 3 mm plastic  
edge color. The 1 mm plas-  
tic edge defaults to match  
the specified 3 mm finish.

**On a laminate worksur-  
face with wood edge,**  
specify the wood edge color.  
The 1 mm plastic edge is a  
color default to match the  
laminate.

**Edge profile samples**  
can be ordered to meet your  
specifications. These 18"D  
x 20"W worksurfaces can  
be ordered with any Elective  
Elements edge profile and  
worksurface option.

# Worksurface Wood Veneer Grain Directions

**Wood** is a natural, unique, and always changing material. No two pieces are the same. The appearance of each surface will vary based on a piece's individual grain pattern, underlying color, and characteristics (like gum pockets and pin knots). While the finishing process is identical for all pieces, each finished piece celebrates wood's individual beauty. Because wood contains standing fibers, similar to suede, the orientation of the grain pattern to a light source will cause it to reflect light differently and look a slightly different color. Two surfaces with grain directions that are at different angles to each other will look different. This natural phenomenon is called flash or polarization. This can happen within a piece as alternating veneer leaves are placed side by side or from piece to piece. Polarization is often noticed on worksurfaces installed at a 90° angle with each other.

**Wood veneer short grain direction** is available on many worksurfaces so that the wood grain in an installation all runs in the same direction.

**Make a sketch of the grain direction** for adjacent worksurfaces to ensure they are suitable for your installation.

**Please refer to the illustrations at right** for an understanding of grain direction on your installation.

# Worksurface Directional Laminate Grain Directions

Worksurface Directional  
Laminate Grain Directions

**Directional laminates** are standard with the grain directions shown.

**Laminate patterns** are not available with the short grain direction option.

**Make a sketch of the grain direction** for adjacent worksurfaces to ensure they are suitable for your installation.

**Please refer to the illustrations at right** for an understanding of grain direction on your installation.

# Worksurface Wiring and Cabling

## Round Grommet

### Actual Dimensions

Diameter 2½"

### Product Details

#### Round grommets

provide a way for cords and cables to pass through the worksurface.

*Tip: For installation purposes, the actual hole size for the round grommet is 2¼" in diameter.*

**Accommodates** a three-prong plug through the opening.

**Cords and cables** can be routed behind pedestals and into the distribution channel on plinth base 1.5 high. There is a ¾" clearance behind 17¼"D, 23¼"D, and 29¼"D\* pedestals, and 17¼"D lateral files. There is a 6" clearance behind 23¼"D lateral files and a 12" clearance behind 29¼"D lateral files. For leg base storage, there is a cutout in the bottom panel to allow cord passage.

*\*29¼"D pedestals are not available in a leg base application.*

### Connections

**Location of grommet** varies depending on the worksurface shape and type of support used.  
▶ See *Grommet and Scallop Locations*, page 64

#### Inset grommet location

is available for desk worksurfaces with an overhang. It is located approximately 8½" from the back edge of the worksurface.

*Tip: Grommets located on the back edge should not be used on worksurfaces with an overhang.*

**Hutch kits and service modules** that extend to the middle of a worksurface may interfere with the center grommet.

#### Scallops may be used in conjunction with grommets.

*Tip: Round grommets cannot be used adjacent to a gate leg due to bracket interference.*

**Hutch kits and service modules, when used on bridge worksurfaces,** must sit squarely on the worksurface not including the blade edge. Blade edge profiles extend 2⅛" and cannot support the weight.

### Surface Materials

#### Round grommet

- 0835 Black
- 4799 Platinum Metallic
- 7241 Arctic White
- 7278 Dark Bronze
- 9201 Polished Chrome
- 9211 Nickel

## Square Grommet

### Actual Dimensions

Depth 4½"

Width 6⅜"

Size of pass through hole 3¾"

### Product Details

**Square grommets** are equipped with a door that swings up to provide a way for cords and cables to pass through the worksurface.

*\*29¼"D pedestals are not available in a leg base application.*

**Power unit** with cord pass-through can be installed below the square grommet for effortless access.

*Tip: Depending on layout, power unit may be visible on freestanding furniture if it is not equipped with a modesty panel.*

*Tip: Power units cannot be used over 15"W or 18"W pedestals but can be used over 30"W or 36"W lateral files that are 30"D.*

*Tip: Square grommets cannot be placed over a lateral file or pedestal that are the same depth as the worksurface, due to interference.*

*Tip: A square grommet with power unit cannot be placed over any worksurface with credenza storage. It is allowed in a leg base kneewell.*

*Tip: Unlike a round grommet which can be easily cut in the field, a technology zone or square grommet requires very precise measurements as the lip protrudes only ⅛".*

**Cords and cables** can be routed behind plinth base and leg base storage and into the distribution channel on plinth base 1.5 high. There is a ¾" clearance behind 17¼"D, 23¼"D, and 29¼"D\* pedestals, and 17¼"D lateral files. There is a 6" clearance behind 23¼"D lateral files and a 12" clearance behind 29¼"D lateral files. For leg base storage, there is a cutout in the bottom panel to allow cord passage.

*Tip: A square grommet cannot be used with a technology zone on a plinth base one-high pedestal, or a leg base 21½"H pedestal due to interference.*

▶ See *Technology Zone Cut-Out Locations*, page 65.

### Connections

**Location of grommet** varies depending on the worksurface shape and type of support used.

▶ See *Grommet and Scallop Locations*, page 64

#### Inset grommet location

is available for desk worksurfaces with an overhang. It is located approximately 8½" from the back edge of the worksurface.

*Tip: Grommets located on the back edge should not be used on worksurfaces with an overhang.*

**Hutch kits and service modules** that extend to the middle of a worksurface may interfere with the center grommet.

**Scallops** may be used in conjunction with grommets.

*Tip: Square grommets cannot be used adjacent to a gate leg due to bracket interference.*

### Surface Materials

#### Square grommet

- 7278 Dark Bronze door and frame
- 8043 Clear Anodized Aluminum door and frame
- 8044 Black Anodized Aluminum door and frame

Scallop

Actual Dimensions

|        |        |
|--------|--------|
| Depth  | 1 3/8" |
| Width  | 6 1/8" |
| Height | 1 1/2" |

Product Details

**Scallops** provide an orderly way for cords and cables to pass over the back edge of the worksurface.  
*Tip: Scallops are not available on technology straight or technology esk worksurfaces.*

Connections

**Scallop availability** varies depending on the worksurface shape. When available, scallop is centered on the back edge of the worksurface.  
▶ See *Grommet and Scallop Locations*, page 64

**Hutch kits and service modules** that extend to the middle of a worksurface may interfere with cords or cables routed through the scallop.

**Tackboard, tackboard with slatwall, or wood panel with slatwall** will cover the worksurface scallop. Cords or cables should be routed before the tackboard or wood panel with slatwall is installed.

**Modesty panel pass-through** must be in the same location as the worksurface scallop to allow a cord plug to route through.

**Grommets** may be used in conjunction with scallops.

Surface Materials

**Scallop on worksurface**

- Wood banded, if wood worksurface is selected
- Plastic, if laminate worksurface is selected

# Grommet and Scallop Locations

**Corner grommets** (both always  $3\frac{5}{16}$ " from the edge of the worksurface. In a desk application, they can be either  $3\frac{5}{16}$ " or  $8\frac{1}{2}$ " from the visitor's side.

*Tip: If blade edge profile is specified, grommets are located  $5\frac{7}{16}$ " or  $10\frac{5}{8}$ " from the visitor's side of a desk.*

*Tip: Grommets on desks with inset modesty panels should only be ordered in right or left position.*

**Center grommets** (both round and square) are always  $3\frac{5}{16}$ " from the visitor's side.

*Exception: Center grommets on overhanging desk work-surfaces can also be positioned to accommodate a 6" recessed modesty panel.*

*Tip: If blade edge profile is specified, grommets are located  $5\frac{7}{16}$ " or  $10\frac{5}{8}$ " from the visitor's side.*

*Tip: Grommets on desks with inset modesty panels should only be ordered in right or left position because the modesty interferes with the center placement.*

*Tip: Worksurfaces 54"W and less can only have a grommet in the center location.*

## Square grommet door

flips to the left on left and center grommet locations and it flips to the right on the right grommet location.

*Tip: For installation purposes, the actual hole size for the round grommet is  $2\frac{1}{4}$ " in diameter.*

*Tip: When technology zone cut-outs are specified, no other grommets can be factory installed. Field installation of round grommets is recommended.*

*Tip: When using a pedestal under one side of the work-surface, select the opposite side for the grommet to ensure easy access.*

# Technology Zone Cut-Out Locations

Technology Zone Cut-Out Locations

**Technology zone cut-outs** specified in the right or left position, are always 3<sup>5</sup>/<sub>16</sub>" from the edge of the worksurface.

*Tip: If a blade edge profile is specified, the technology zone cut-out is located 5<sup>7</sup>/<sub>16</sub>" from the visitor's side of the desk.*

**Technology zone cut-outs** specified in the center position are always 3<sup>5</sup>/<sub>16</sub>" from the back edge of the worksurface.

*Tip: If a blade edge profile is specified, the technology zone cut-out is located 5<sup>7</sup>/<sub>16</sub>" from the visitor's side of the desk.*

**Technology zone doors** flip toward the user.

*Tip: Technology zones are available in 24" width.*

*Tip: Only one technology zone cut-out is allowed in a worksurface.*

*Tip: To determine location of a technology zone on a bullet worksurface, stand at curved end facing the flat end.*

*Tip: Technology zones are not available on 15"W and 18"W plinth base and leg base storage.*

*Tip: The corded version of the technology zone is equipped with a circuit breaker.*

*Tip: Unlike a round grommet which can be easily cut in the field, a technology zone or square grommet requires very precise measurements as the lip protrudes only 1/8".*

**42" Technology Straight Worksurface  
24"W cut-out only**

**48" and 54" Technology Straight Worksurface  
24"W cut-out only**

**60", 66", 72", 78", 84", 90", 96", 102", 108", 114",  
and 120" Technology Straight Worksurface  
24"W cut-out**

**Technology Desk Worksurface  
24"W cut-out**

**\*18"D available up to 90"W only.**

**Storage Leg**  
Available for Use with Leg Base Storage Only

# Back Panels

For Use with Plinth Base and Leg Base Pedestals

**Back panel** finishes the back of a storage unit if it is in an exposed application.  
 ▶ Specifying, page 318

## Product Details

**Exposed side and edges** of the back panel are finished.

## Connections

**Back panel** attaches to the unfinished back of a pedestal, high pedestal, or one-high lateral file or bookcase. It should be used in situations when the back of the storage unit is exposed either because there is no modesty panel or because a modesty panel is used in an inset or floating application on a freestanding desk. If the back of the pedestal is not exposed, a back panel is not required. The back may be left unfinished or a filler panel may be used.

**Full-height modesty panel** should be used to finish the back of 27½"H exposed 30"W or 36"W pedestal.  
 ▶ Page 78

**Attachment hardware** is included.

## Surface Materials

### Back panel

- Wood veneer
- Laminate
- Customiz stain (option on wood)

### Attachment hardware

- Black paint only

## Actual Dimensions

### Plinth Base Pedestal Back Panels

|        |            |
|--------|------------|
| Depth  | ¾"         |
| Width  | 15" or 18" |
| Height | 27½"       |

### Plinth Base High Pedestal Back Panels

|        |      |
|--------|------|
| Depth  | ¾"   |
| Width  | 15"  |
| Height | 35⅞" |

### Leg Base High Pedestal Back Panels

|        |      |
|--------|------|
| Depth  | ¾"   |
| Width  | 14⅞" |
| Height | 26⅞" |

### Plinth Base One-High Lateral File and Bookcase Back Panels

|        |            |
|--------|------------|
| Depth  | ¾"         |
| Width  | 30" or 36" |
| Height | 15½"       |

### Plinth Base 1.5 High Pedestal Back Panels

|        |            |
|--------|------------|
| Depth  | ¾"         |
| Width  | 15" or 18" |
| Height | 21½"       |

Refer to modesty panels if a 30"W or 36"W pedestal requires a finished back, page 78.

# Modesty Panels

For Use with Plinth Base and Leg Base

**Modesty panel** is fixed and available in four heights. All four heights available in wood or laminate, two heights available in glass.

► Specifying, page 338

**2/3-height modesty panel** can be used with a run-off worksurface. It extends under both the run-off and adjacent work-surface. Available in wood, laminate, or glass.

**2/3-height modesty panel** is used with an overhanging desk worksurface. It does not connect to an end panel. Available in wood, laminate, or glass.  
*Tip: If a 2/3-height modesty panel is used with a pedestal, a back panel must be specified for the storage component.*

**Full-height modesty panel** can be used with a flush or desk overhanging desk worksurface. It is used with an end panel or pedestal.  
*Tip: Desks with full-depth pedestals need a full-height modesty panel.*  
*Tip: Full-height modesty panel is available in wood or laminate and is for use with plinth base storage.*

**12"H modesty panel** is used when the primary worksurface is supported by 1.5 high storage. It can also be used on desk, meeting, and extended bullet worksurfaces by selecting the hanging brackets. This application will always need the hanging bracket option. Available in either wood, laminate, or glass.

**Actual Dimensions****Desks, Meeting, and Extended Bullet Worksurfaces—For Plinth Base Applications Only**

|        |                                                               |
|--------|---------------------------------------------------------------|
| Depth  | ¾"                                                            |
| Width  | 24", 30", 36", 42", 48", 54", 60", 66", 72", 78", 84", or 90" |
| Height | 12"                                                           |

**Full-Height Modesty Panel for Plinth Base Desks, Credenzas, or Back of 27½"H Lateral Files, Storage Cabinet, or Bookcase—For Plinth Base Applications Only**

|        |                                                                                            |
|--------|--------------------------------------------------------------------------------------------|
| Depth  | ¾"                                                                                         |
| Width  | 24", 30", 36", 42", 48", 54", 60", 66", 72", 78", 84", 90", 96", 102", 108", 114", or 120" |
| Height | 27½"                                                                                       |

**¾-Height Modesty Panel for Desks—For Plinth Base Applications Only**

|        |                                                |
|--------|------------------------------------------------|
| Depth  | ¾"                                             |
| Width  | 42", 48", 54", 60", 66", 72", 78", 84", or 90" |
| Height | 18"                                            |

**21½"H for use with Plinth Base 1.5 High Storage—For Plinth Base Applications Only**

|        |                                                                                       |
|--------|---------------------------------------------------------------------------------------|
| Depth  | ¾"                                                                                    |
| Width* | 30", 36", 42", 48", 54", 60", 66", 72", 78", 84", 90", 96", 102", 108", 114", or 120" |
| Height | 21½"                                                                                  |

**Full-Height Modesty Panel for Bridges—For Plinth and Leg Base Applications**

|        |                                             |
|--------|---------------------------------------------|
| Depth  | ¾"                                          |
| Width* | 48" or 54"                                  |
| Height | 18 <sup>13</sup> / <sub>16</sub> " or 27½"H |

**¾-Height Modesty Panel for Run-Off Tops—For Plinth and Leg Base Applications**

|        |                                                                                   |
|--------|-----------------------------------------------------------------------------------|
| Depth  | 1⅞"                                                                               |
| Width  | 39", 42", 45", 48", 51", 54", 57", 60", 64", 66", 69", 72", 75", 78", 81", or 84" |
| Height | 18"                                                                               |

**Glass Modesty Panels\*—For Plinth and Leg Base Applications**

|        |                                           |
|--------|-------------------------------------------|
| Width  | 42", 48", 54", 60", 66", or 72"           |
| Height | 12" or 18 <sup>13</sup> / <sub>16</sub> " |

\*Use the 48"W modesty panel with a 42"W bridge and the 54"W modesty panel with a 48"W bridge.

Tip: Glass modesty panels are only available up to 72"W.

## Product Details

**All edges and both sides of a modesty panel** are finished.

*Tip: When woodgrain laminates are specified, the grain direction runs vertically for modesty panels up to 60"W, and horizontally for modesty panels from 66"W to 120"W.*

**Full-height modesty panel** sits proud of the storage unit back or support back. Available in wood and laminate only.

**2/3-height modesty panel** sits proud of the underworksurface storage back panels. Pedestal back panels must be ordered separately for plinth base. For leg base storage, pedestals ship with back panel. Finished back panel option must be selected. Available in either wood and laminate or glass.

*Tip: In this application, a desk worksurface must be used to allow for proper attachment.*

*Tip: Glass modesty panels are available up to 72"W.*

*Tip: A cable shroud cannot be used with a glass modesty panel and a technology zone due to bracket interference. A cable shroud and technology zone or a glass modesty panel and technology zone are allowed.*

*Tip: The glass modesty is available in two versions - end panel application and storage application. The storage application is 7/8" larger to fill the absence of headset on open storage in an L-shape application where the lack of open storage headset would adjoin against the modesty.*

**2/3-height modesty panels** are used with extended bullet and meeting worksurfaces. Specify optional hanging brackets to suspend the modesty panels. Available in wood, laminate, or glass.

► Refer to *Modesty Panel Selection Guide*, page 108.

**21 1/2"H wood modesty panels** are designed to be used with plinth base 1.5 high storage units and 21 1/2"H end panels. Multiple storage units can be covered by a single modesty panel.

**12"H modesty panels** are used on desks supported by 21 1/2"H storage units. 12"H modesty panels can also be suspended on any worksurface using optional hanging brackets. They can attach to cable shroud supports. Available in wood, laminate, or glass.

► Refer to *Modesty Panel Selection Guide*, page 108.

**12"H or 18"H glass modesty panels** follow these rules:

- Style numbers ending in "E" are best used when a worksurface has one of the following column supports: rectangular column leg with or without base, column, or disk column.
- Style numbers ending in "S" are best used with a gate leg used in a return application next to a leg base credenza with open storage or plinth base open storage where the return worksurface attaches.
- Can attach inset or flush with visitor edge anywhere under a worksurface as long as there is no interference with power, storage, or supports.
- Should attach flush to both sides of the following worksurfaces: desk, desk return, bullet, or P-top.

## Connections

**Quick-lock assembly hardware** is used to assemble the components in the field. The hardware features pins in the back of the supports and underside of the worksurface that are captured by rotating connector locks in the modesty panel.

*Exception: If adjustable-height legs are used, the modesty panel connects to the legs so that the modesty panel remains stationary when the worksurface is adjusted.*

**Flush modesty panel width** equals the worksurface width in a desk, return, or credenza application for plinth base applications. Available in wood and laminate only.

*Tip: No back panel is used on pedestals with a full modesty panel.*

**Inset modesty panel width**, in a desk application, does not equal the desk worksurface width. To select the correct modesty panel width, deduct the width of the pedestals from the desk worksurface width.

Example: 66"W (worksurface) - 30" (two pedestals) = 36"W (modesty panel)

*Tip: Inset modesty panels are used with J-shape end panels to make single-pedestal desks.*

*Tip: Inset modesty panels should not be used with adjustable-height storage.*

*Tip: An inset modesty panel on a 24"D or narrower desk application will cause limited knee space.*

*Tip: When the J-shape end panel is used without a modesty panel, there will be*

**2/3-height floating modesty panel width**, in a desk application, does not equal the desk worksurface width. To select the correct modesty panel width, deduct 6" from the worksurface width if the desk has a pedestal. If the desk has two pedestals, then deduct 12". Available in wood, laminate, or glass.

Example: 66"W (worksurface) - 6" (one pedestal and legs) = 60"W (modesty panel)

Example: 66"W (worksurface) - 12" (two pedestals) = 54"W (modesty panel)

*Tip: Only floating modesty panels can be used with an overhanging desk worksurface when plinth base or leg based pedestals are used.*

**Back panel** can be ordered to cover the unfinished back of an exposed pedestal when there is no modesty panel. If an inset or floating modesty panel is specified, a back panel must be ordered for the pedestal for plinth base. For leg base storage, pedestals ship with back panel. Finished back panel option must be selected. Available in wood and laminate only.

► Page 76

**Modesty panel on a plinth base return** is full height and is equal to the worksurface width. It is attached to the adjacent desk end panel with an end panel to modesty panel attachment bracket. Available in wood and laminate only.

**Plinth and leg base desk return with an overhanging worksurface and a modesty panel** requires a 6" filler panel to fill the gap between the modesty panel and adjacent worksurface end panel in both plinth and leg base settings.

**Modesty panel on a plinth base bridge** is full-height and is 6" longer than the worksurface width. It is inset 1 1/2" because it attaches to the inside of the end panels on the adjacent worksurfaces. For leg base, a 2/3 height modesty is available for this application.

**Modesty panel on run-off worksurfaces** can be full or 2/3 height depending on the application. Available in wood, laminate, or glass.

**Single-tapered run-off worksurfaces** may use a full-height plinth base modesty panel. The modesty panel width is equal to the worksurface width. A 15"D end panel must be used to support the end of the modesty panel that attaches to the adjacent worksurface. An end panel, pedestal, or leg must support the other end of the modesty panel. Available in wood and laminate only.

*Tip: Full-height modesty panels cannot be used with disk column or column support.*  
*Tip: Also works in leg base applications.*

**Bullet, P-top, and double-tapered run-off worksurfaces** use a 2/3-height modesty panel. The width of the modesty panel varies depending on the width of the run-off worksurface and the depth of the connecting worksurface. It attaches to the underside of both the run-off and adjacent worksurfaces. Available in wood, laminate, or glass.

*Tip: Also works in leg base applications.*  
► Refer to *Modesty Panel Selection Guide* for run-off worksurfaces, page 108.

**Modesty panel on plinth base corner and extended corner worksurfaces** is full height and needs to be 12" shorter than the worksurface width because it connects to the corner support. To select the correct modesty panel width, deduct 12" from the worksurface width.

Example: 42"W (worksurface) – 12" (rear corner support) = 30"W (modesty panel).

**Filler panel** is optional and can be ordered to fill the 3/4" space on the back of an L-shape end panel or pedestal instead of a modesty panel. A 1 1/2"D filler panel can be ordered to fill the space that is created when worksurfaces with plinth base L-shape end panels or pedestals are used in a back-to-back application without modesty panels. Filler panels should not be used with desk worksurfaces.

► Page 88

## Wiring & Cabling

**Pass-through** is available centered on the top edge of the full-height modesty panel. It aligns with the worksurface scallop to allow a three-prong plug to pass through.

*Exception: Scallop on free-standing corner worksurface will not align with modesty panel pass-through.*

► Page 63

*Tip: Pass-through is unfinished.*

## Surface Materials

### Modesty panel

- Wood veneer
- Laminate
- Customiz stain (option on wood)
- Back painted glass on steel

### Steel back on glass modesty panel

- 4728 Nickel Metallic
- 4799 Platinum Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze

### Modesty hanging brackets

- 0835 Black
- 4799 Platinum Metallic

### Attachment hardware

- Black paint only

## Application Topics

**If adjustable-height legs are used**, the modesty panel does not connect to the underside of the worksurface. First, the modesty panel is flipped 180° so that a finished edge is exposed. Then, it connects to the adjustable-height legs so that the modesty panel remains stationary when the worksurface is adjusted. Attachment hardware is included with the modesty panel.

*Tip: Available in plinth base only.*

# Universal Privacy/Modesty Screens

**Universal privacy/modesty screen** provides a boundary element for height adjustable desks and fixed worksurfaces. It can be used with Ology, Migration, Series worksurfaces, Elective Elements, Universal tables, and Universal panel-mount worksurfaces.

► Specifying, page 342

**Universal privacy/modesty screens** are available in one height, 25<sup>7</sup>/<sub>10</sub>", with two mount location options to provide either privacy or privacy/modesty.

**Universal privacy/modesty screen** is pin tackable.

The screen is attached to the worksurface using simple L-brackets and 1" screws.

## Product Details

**The edge of the screen** is comprised of two different materials. The upper segment is merle plastic. The lower portion is PET which can be specified in medium heather grey to provide contrast or dark heather grey for a uniform visual.

**The screen** may be used on 3/4"–1 1/2" thick worksurface.

**The width of the screen** can be equal to or less than the width of the worksurface to which it will attach. Some restrictions apply due to location of worksurface legs and supports.

## Surface Materials

### Screen

- Fabric
- See *Surface Materials*, page 632.

### Edge (upper segment)

- 7360 Merle

### Edge (lower segment)

- P630 Medium Heather Grey PET
- P631 Dark Heather Grey PET

### Brackets

- 7360 Merle

## Actual Dimensions

|                  |                                                   |
|------------------|---------------------------------------------------|
| <b>Width</b>     | 42", 48", 54", 60", or 66"                        |
| <b>Height</b>    | 25 <sup>7</sup> / <sub>10</sub> "                 |
| <b>Weight</b>    | 9.79 lb, 10.315 lb, 10.84 lb, 11.365 lb, 11.89 lb |
| <b>Thickness</b> | 3/4"                                              |

*Tip: Universal screens can also be specified parametrically in width in 1/16" increments.*

## Application Topics

**Universal privacy/modesty screen** mounts to worksurfaces using simple L-brackets and screws. The brackets are positioned 3 3/4" inches in from each side of the screen.

**Screen height attachment locations** are determined when specifying privacy (top of screen will be at 48") or privacy/modesty (top of screen will be at 42"). The location cannot be changed in the field.

**Privacy configuration** provides 19 1/2" of screen above the worksurface and 5 1/2" of screen below the worksurface. The height is measured from the top of the mounting surface to the top of the screen, and from the bottom of the mounting surface to the bottom of the screen. The top of the screen will align with the bottom of the top trim on a 48"H Answer panel.

**Screen** can be mounted with a 1 1/8" cord drop or flush with no cord drop.

**Privacy/modesty configuration** provides 13" of screen above the worksurface and 11 7/10" of screen below the worksurface. The height is measured from the top of the mounting surface to the top of the screen, and from the bottom of the mounting surface to the bottom of the screen. The top of the screen will align with the bottom of the top trim on a 42"H Answer panel.

**Both the privacy and privacy/modesty configurations** allow the height-adjustable desks to be lowered to the lowest position (22") while preserving pinch point gap. Privacy version will not interfere with integrated storage.

**Universal privacy/modesty screens** can be used on Elective Elements worksurfaces and peninsulas where the straight surface dimensions are equal to or larger than screen width. Screen bracket positions are 3 3/4" in from edge of screen and may not be located over surface supports, cut outs for technology trays, or leg bracket attachment locations.

**Example 1:** Privacy/modesty screens used on Elective Elements surfaces with gate leg or the adjustable-height leg must be 6" less in width to avoid interference between screen bracket and leg attachment plate.

**Example 2:** Privacy/modesty screens are for mounting on flat edge profiles known as straight worksurfaces. Desk surfaces where a blade profile may be used cannot accept a privacy/modesty screen.

**Privacy/modesty screens** must never be wider than the surface to which they are attached.  
*Tip: It is recommended that CET SmartTools Planning aid be used to ensure proper application of screen to worksurface or tables.*

# Universal Privacy Screens

**Universal privacy screens** provide a boundary and privacy element for height adjustable desks and fixed worksurfaces. It can be used with Ology, Migration, Elective Elements, panel supported Universal worksurfaces, and TS Series worksurfaces.

► Specifying, page 344

## Actual Dimensions

|                       |                                                                    |
|-----------------------|--------------------------------------------------------------------|
| <b>Height</b>         | 12½" or 18½"                                                       |
| <b>Overall Height</b> | 13½" or 19½"                                                       |
| <b>Width</b>          | 24", 30", 36", 42", 48", 54", 60", 66", 72", 78", 84", 90", or 96" |

*Tip: Overall height is measured from top of mounting surface to the top of the screen.*

*Tip: 13½"H screen aligns with a 42" datum from the floor. 19½" screen aligns with a 48" datum from the floor.*

*Tip: Universal screens can also be specified parametrically in width and height in ½" increments.*

## Product Details

**Universal privacy screens** are tackable and available in 13½"H and 19½"H, and have widths from 24"W to 96"W.

**The edge of the screen** is comprised of two different materials. The upper segment is merle plastic. The lower portion is PET which can be specified in medium heather grey to provide contrast or dark heather grey for a uniform visual.

**The screen** may be used on ¾"-1½" thick worksurface.

**The width of the screen** can be equal to or less than the width of the worksurface to which it will attach. Some restrictions apply due to location of worksurface legs and supports.

**When fabric screens are placed directly adjacent to each other**, a small aligner can be placed in between the screens at the top to connect them for planar alignment. Aligners are ordered separately in packages of 10.

**Brackets** are included with screens. Two brackets are used on all screens.

**Universal privacy screen** slides onto brackets.

## Surface Materials

### Screen

- Fabric
- See *Surface Materials*, page 632.

### Edge (upper segment)

- 7360 Merle

### Edge (lower segment)

- P630 Medium Heather Grey PET
- P631 Dark Heather Grey PET

- 7241 Arctic White
- 7360 Merle

# Sarto Privacy/Modesty Screens

**Sarto privacy/modesty screen** provides a light scale boundary element for height adjustable desks and fixed worksurfaces. It can be used with Ology, Migration, Series 5 worksurfaces, Elective Elements, universal tables, and universal panel-mount worksurfaces.

► Specifying, page 346

**Sarto privacy/modesty screens** are available in one height, 24", and in one mounting configuration to provide privacy and modesty.

**Sarto privacy/modesty screen** is pin tackable.

The screen is attached to the worksurface using simple L-brackets and 1" screws.

## Product Details

The screen may be used on 3/4"–1 1/2" thick worksurfaces.

The width of the screen can be equal to or less than the width of the worksurface to which it will attach. Some restrictions apply due to location of worksurface legs and supports.

## Surface Materials

**Screen**

- Fabric

► See *Surface Materials*, page 632.

**Brackets**

- 7360 Merle

## Application Topics

**Sarto privacy/modesty screen** mounts to worksurfaces using simple L-brackets and screws. The brackets are positioned 3 3/4" in from each side of the screen.

**Screen height** is 24" overall. When mounted, the top of the screen will be at 42".

**Screen** can be mounted with a 1 1/8" cord drop or flush with no cord drop.

**Privacy/modesty configuration** provides 13 1/2" of screen above the worksurface and 9 1/2" of screen below the worksurface on a 1" thick worksurface. The height is measured from the top of the mounting surface to the top of the screen, and from the bottom of the mounting surface to the bottom of the screen. The top of the screen will align with the bottom of the top trim on a 42"H Answer panel.

**When mounted**, the screen allows a height-adjustable desk to be lowered to the lowest position (22") while preserving pinch point gap.

**Privacy/modesty screen with integrated storage** will not allow for adequate pinch point gaps when desk is lowered to its lowest position.

**Sarto privacy/modesty screens** can be used with universal worksurfaces and tables where surface supports and leg brackets are not in same location of the screen L-bracket attachment points.

- Example 1—Worksurfaces supported by a panel side bracket or cantilever can accept privacy/modesty screen placed 6" in from end with these brackets.
- Example 2—Tables with cabby leg or double elliptical post C-legs can accept screens 6" shorter than total table width but not same width.

## Privacy/modesty

**screens** can also be used with Elective Elements surfaces with some restrictions when combined with gate leg or the Elective Elements adjustable-height leg.

## Privacy/modesty

**screens** must never be wider than the surface to which they are attached.

*Tip: It is recommended that CET SmartTools planning aid be used to ensure proper application of screen to worksurface or tables.*

## Actual Dimensions

|           |                                             |
|-----------|---------------------------------------------|
| Width     | 42", 48", 54", 60", or 66"                  |
| Height    | 24"                                         |
| Weight    | 4.86 lb, 5.48 lb, 6.10 lb, 6.97 lb, 7.59 lb |
| Thickness | 9/16"                                       |

## Sarto privacy screens

provide a light scale boundary and privacy element for height-adjustable desks and fixed worksurfaces. It can be used with Ology, Migration, Series 5, Elective Elements, universal worksurfaces, and TS Series worksurfaces.

► Specifying, page 347

## Actual Dimensions

|                |                                                                    |
|----------------|--------------------------------------------------------------------|
| Screen Height  | 12½" or 18½"                                                       |
| Overall Height | 13½" or 19½"                                                       |
| Width          | 24", 30", 36", 42", 48", 54", 60", 66", 72", 78", 84", 90", or 96" |

*Tip: Overall height is measured from top of mounting surface to the top of the screen.*

*Tip: 13½"H screen aligns with a 42" datum from the floor.*

*19½"H screen aligns with a 48" datum from the floor.*

## Product Details

### Sarto privacy screens

are tackable. They are available in two heights, 13½"H and 19½"H, and have widths ranging from 24"W to 96"W.

**The screen** may be used on ¾"—1½" thick worksurfaces.

**The width of the screen** can be equal to or less than the width of the worksurface to which it will attach. Some restrictions apply due to location of worksurface legs and supports.

### Brackets and hard stops

are included with screens. Screens up to 54"W use two brackets, while screens 60"W and larger utilize three brackets. The third bracket is centered on the width of the screen.

**Sarto privacy screen** slides onto brackets.

## Surface Materials

### Screen

- Fabric

► See *Surface Materials*, page 632.

### Brackets and hard stops

- 7360 Merle

# Filler Panels

For Use with Plinth and Leg Base Storage

**Filler panel** is optional and is used to close the space that may result from various applications.

► Specifying, pages 320 and 333

## Actual Dimensions

### Filler Panels for Use with Plinth Base

|        |                                                                                                   |
|--------|---------------------------------------------------------------------------------------------------|
| Depth  | $\frac{3}{4}"$ , $1\frac{1}{8}"$ , or $1\frac{1}{2}"$                                             |
| Width  | $5\frac{3}{8}"$ or $6\frac{3}{4}"$                                                                |
| Height | $10\frac{3}{8}"$ , $15\frac{1}{2}"$ , $18\frac{13}{16}"$ , $21\frac{1}{2}"$ , or $27\frac{1}{2}"$ |

### Filler Panels for Use with Leg Base

|        |                    |
|--------|--------------------|
| Depth  | $1\frac{1}{8}"$    |
| Width  | $5\frac{3}{4}"$    |
| Height | $18\frac{13}{16}"$ |

## Product Details

**End panels and plinth base pedestals** are  $\frac{3}{4}$ " shorter in depth than the worksurface so that the modesty panel can sit proud on the end panel or storage component back. If a modesty panel isn't used, a  $\frac{3}{4}$ " space results. If desired, the filler panel is used to close that gap between the unfinished back of an end panel or storage component and the wall, panel, or other furniture component.

**$\frac{3}{4}$ " D filler panel** is used to fill the space on the back of a plinth base unit that doesn't have a modesty panel. It is also used to close the space that results from the use of an L-shape end panel to support a worksurface over a plinth base 1.5 high or one-high storage unit.

**A leg base** filler panel exists for this purpose.

**$1\frac{1}{2}$ " D filler panel** is used to fill the space that is created when units are used in a back-to-back plinth base application without modesty panels.

**All exposed edges** of the filler panel are finished.

**Filler for use in plinth L- or U-shape configuration** is required for a return, bridge, or run-off worksurface with an overhang and a modesty panel. It fills the space between the modesty panel and adjacent worksurface end panel.

**Filler for use in leg base L- or U-shape configuration** is required for a return credenza with a worksurface with an overhang and a modesty panel. It fills the space between the modesty panel and adjacent worksurface end panel.

**All exposed surfaces** of the filler panel for use in an L- or U-shape configuration are finished.

## Connections

**$\frac{3}{4}$ " D or  $1\frac{1}{2}$ " D filler panel** attaches to the unfinished back of a plinth base storage component or plinth base L-shape end panel.

**$5\frac{3}{4}$ " W filler panel** for use in an L- or U-shape configuration attaches to the modesty panel on one worksurface and to the end panel of the adjacent worksurface.

**Attachment hardware** is included with the filler panel.

## Surface Materials

### Filler panel

- Wood veneer
- Laminate
- Customiz stain (option on wood)

### Attachment hardware

- Black paint only

# End Panels

Straight, L-Shape, and J-Shape for Use with Plinth Base Storage  
L-Shape For Use with Leg Base Storage

**End panel** is available in three configurations—straight, L-shape, and J-shape.

► Specifying, pages 322 and 334

## Product Details

**Right- and left-hand versions of straight and L-shape end panels** are available.

**All** exposed edges and sides of the end panel are finished.

**15"D straight or L-shape end panel** can be used to support a work surface that is next to and attached to the tower. The tower and end panel will be defaced when installed. Use a full-depth end panel if attachment to the tower is not desired.

**21<sup>1</sup>/<sub>2</sub>"H straight end panel** is used in a freestanding application to support a work surface at the height of 1.5 high storage units. A modesty panel must be used with a straight end panel.

**27<sup>1</sup>/<sub>2</sub>"H straight end panel for use with Montage panels** is used to attach a work surface to the panel on module. Worksurfaces supported by these end panels are not meant to be freestanding.

**27<sup>1</sup>/<sub>2</sub>"H straight end panel for use with Answer and Privacy Wall** is used to attach a work surface to the panel on-module only.

## Actual Dimensions

### Plinth Base Straight End Panel

|                   |                                                                                                              |
|-------------------|--------------------------------------------------------------------------------------------------------------|
| Depth             | 15", 17 <sup>1</sup> / <sub>4</sub> ", 23 <sup>1</sup> / <sub>4</sub> ", or 29 <sup>1</sup> / <sub>4</sub> " |
| Width (thickness) | 17 <sup>1</sup> / <sub>16</sub> "                                                                            |
| Height            | 21 <sup>1</sup> / <sub>2</sub> " or 27 <sup>1</sup> / <sub>2</sub> "                                         |

### Plinth Base Straight End Panel for Use with Answer Panels, Montage Panels, and Privacy Wall

|                   |                                   |
|-------------------|-----------------------------------|
| Depth             | 15", 18", 24", or 30"             |
| Width (thickness) | 17 <sup>1</sup> / <sub>16</sub> " |
| Height            | 27 <sup>1</sup> / <sub>2</sub> "  |

### Plinth Base L-Shape End Panels

|        |                                                                                                                                           |
|--------|-------------------------------------------------------------------------------------------------------------------------------------------|
| Depth  | 15", 17 <sup>1</sup> / <sub>4</sub> ", 23 <sup>1</sup> / <sub>4</sub> ", or 29 <sup>1</sup> / <sub>4</sub> "                              |
| Width  | 15"                                                                                                                                       |
| Height | 10 <sup>3</sup> / <sub>8</sub> ", 15 <sup>1</sup> / <sub>2</sub> ", 21 <sup>1</sup> / <sub>2</sub> ", or 27 <sup>1</sup> / <sub>2</sub> " |

### Leg Base L-Shape End Panels

|        |                                  |
|--------|----------------------------------|
| Depth  | 15", 18", or 24"                 |
| Width  | 15"                              |
| Height | 27 <sup>1</sup> / <sub>2</sub> " |

### Plinth Base J-Shape End Panels

|        |                                  |
|--------|----------------------------------|
| Depth  | 24" or 30"                       |
| Width  | 15"                              |
| Height | 27 <sup>1</sup> / <sub>2</sub> " |

**27½"H straight end panel** is used in a free-standing application on worksurfaces that have a fixed modesty panel.

**27½"H J-shape end panel** is used to create single plinth base pedestal desks.

*Tip: J-shape end panel and worksurface can allow no more than a 6" worksurface overhang.*

*Tip: A 24"D J-shape end panel with an inset modesty panel does not meet BIFMA kneespace requirements.*

**Any bow-front desk worksurface with an overhang** must use a J-shape end panel and plinth base pedestal combination only.

**When a return work-surface is attached** to a straight or bow-front desk worksurface, then an overhang of no greater than 12" is allowed.

**27½"H L-shape end panel** is used on worksurfaces with no modesty panel for plinth base. It can also be used to support the end of a meeting or extended bullet worksurface in plinth or leg base.

*Tip: A desk worksurface with a 6" overhang cannot accept an L-shape end panel. As an alternative, use a straight end panel with a full modesty, or a J-shape end panel instead.*

**27½"H L-shape end panels** are used to support worksurfaces used in conjunction with plinth base pedestals and leg base 27½"H storage.

**21½"H L-shape end panels** are used to support worksurfaces used in conjunction with plinth base 1.5 high or 21½"H leg base storage units.

**15½"H L-shape end panels** are used to support worksurfaces used in conjunction with plinth base one-high storage components.  
*Tip: Technology cutouts are not allowed in end panels, only in storage units.*

**10¾"H L-shape end panel** is used to support a worksurface on a plinth base one-high lateral file or bookcase.

*Tip: Recommended column and leg supports vary based on worksurface length and support conditions on the other end. Refer to Worksurface Support Guidelines, page 103.*

**All 10¾"H L-shape end panels on a one-high lateral file or bookcase and 27½"H end panels** support a worksurface at 29"H, allowing it to meet ANSI (American National Standards Institute) standards.

*Tip: End panels on legs cannot share storage legs with other adjacent units.*

*Tip: Leg base L-shape end panel does not require a filler panel as they are full depth.*

*Tip: An L-shape end panel on legs will not be in alignment with adjacent leg base storage. The leg base L-shape end panel sits ¾" forward on the storage unit.*

## Connections

**Quick-lock assembly hardware** is used to assemble the components in the field. The hardware features pins in the underside of the worksurface that are captured by rotating connector locks in the end panel.

**Attachment hardware for straight end panel used with Answer panels, Montage panels, or Privacy Wall** is provided to connect the end panel to the panel and worksurface.

*Note: All plinth and leg base end panels are now 1⅜" thick. They work seamlessly with any Elective Elements worksurface.*

## Surface Materials

### End panel

- Wood veneer
- Laminate
- Customiz stain (option on wood)

### Storage leg

- 4728 Nickel Metallic
- 4799 Platinum Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze

### Storage leg with reveal

- 4728 Nickel Metallic
- 4799 Platinum Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze

### Attachment hardware

- Black paint only

# Perpendicular Tether Support and Cable Shroud Support

For Use with Plinth Base and Leg Base Storage

**Perpendicular tether supports and cable shroud supports** are used to support desk worksurfaces at 29"H when used with plinth base 1.5 high storage or leg base 21½"H storage units.

► Specifying, pages 349 and 350

**Perpendicular tether supports** allow a desk worksurface to be positioned anywhere along a run of plinth base 1.5 high storage or leg base 21½"H storage units.

**Perpendicular tether supports** are non-handed.

**Cable shroud** supports conceal the portion of the technology zone that extends below the worksurface.

## Product Details

**Perpendicular tether supports** are used to support desk worksurfaces at 29"H when used with plinth base 1.5 high storage or leg base 21½"H storage units.

**Perpendicular tether supports** are positioned 2" in from the side and back edge.

**Depth of the perpendicular tether support** is determined by the depth of the worksurface supported. Use a 19⅝"D support for a 24"D worksurface. Use a 25⅝"D support for a 30"D worksurface. Use a 31⅝"D support for a 36"D worksurface in plinth base setting.

**Width of the perpendicular tether support** is determined by the depth of the worksurface above the plinth base 1.5 high storage or leg base 21½"H storage units. Use a 13⅝"W support when the worksurface is 18"D. Use a 19⅝"W support when the worksurface is 24"D.

*Tip: Perpendicular tether supports are designed to work with technology desk worksurfaces. Holes are pre-drilled for attachment. If perpendicular tether supports are used with other worksurface types (ie. bullet worksurfaces) additional brackets are included for field attachment.*

*Tip: Use perpendicular tether brackets when the primary worksurface does not contain a technology zone.*

**Cable shroud supports** are used to support technology desk worksurfaces at 29"H when used with plinth base 1.5 high storage or leg base 21½"H storage units.

## Actual Dimensions

### Perpendicular Tether Support

|        |                     |
|--------|---------------------|
| Depth  | 19⅝", 25⅝", or 31⅝" |
| Width  | 13⅝" or 19⅝"        |
| Height | 4⅝"                 |

### Cable Shroud Support

|        |                       |
|--------|-----------------------|
| Depth  | 19⅝", 25⅝", or 31⅝"   |
| Width  | 48", 54", 60", or 66" |
| Height | 4⅝"                   |

**Cable shroud supports** cover the portion of the technology zone that hangs below the worksurface.

**Cable shroud supports** are positioned 2" in from the side and back edge.

**Width of the cable shroud support** is determined by the width of the technology desk worksurface with technology zone. 48"W cable shroud supports are used with 60"W desks. 54"W cable supports are used with 66" and 72"W desks. 60" cable shroud supports are used with 78" and 84"W desks and 66" cable shroud supports are used with 90"W desks.

*Tip: Cable shroud supports can be used with or without modesty panels. 12"H modesty panels are recommended.*

## Connections

**Attachment hardware** is included with perpendicular tether and cable shroud supports to secure them to worksurfaces in the field. Attachment is required to both the worksurface above and the worksurface on which the support rests.

## Surface Materials

### Perpendicular tether supports and cable shroud supports

- Wood veneer
- Laminate
- Customiz stain (option on wood)

### Attachment hardware

- Black paint only

# T-Shape, Free Support, and Extended T-Shape End Panels

For Use with Plinth Base and Leg Base

**Free support end panel** is available in plinth base and leg base and in two widths—30"W or 36"W—and one height—27½"H. The 77/16"W free support provides support for worksurfaces up to 60"W.

► Specifying, pages 326 and 335

**T-shape end panel** is available in two heights—45/8"H or 103/8"H.

► Specifying, pages 327 and 336

## Product Details

**All exposed edges and sides** of the T-shape, free support, and extended T-shape end panels are finished.

**103/8"H T-shape end panel** supports a 30"D or 36"D worksurface with a square end in a non-run-off application. 45/8"H T-shape end panel supports 24", 30", and 36"D worksurfaces. It is not designed for use with a coped worksurface edge.

**45/8"H T-shape end panel** is used to support a worksurface on a plinth base 1.5 high or leg base 21½"H storage unit. It has an 11"W leg that extends from the end panel to provide proper worksurface support.

*Tip: Use a T-shape end panel to support a worksurface over plinth base 1.5 high storage when a service module is above. This will avoid interference with a technology trough in the storage.*

*Tip: Extended T-shape end panel cannot support a worksurface in a freestanding application.*

**Adjustable glides** on 27½"H end panels adjust for installations on uneven floors. Adjustability range is 1¼".

**Extended T-shape end panel** has a 27½"H end panel with a 2/3-height modesty panel.

► Specifying, page 328  
► Extended T-Shape End Panel Selection Guide, page 110

## Actual Dimensions

### T-Shape End Panel (for use with Plinth Base and Leg Base)

|        |                  |
|--------|------------------|
| Depth  | 24", 30", or 36" |
| Width  | 12"              |
| Height | 45/8" or 103/8"  |

### Plinth Base Extended T-Shape End Panel for Use with Freestanding Bullet Worksurfaces

|                      |                                                               |
|----------------------|---------------------------------------------------------------|
| Depth                | 30" or 36"                                                    |
| Width                | 39", 42", 45", 48", 51", 54", 57", 60", 63", 66", 69", or 72" |
| Modesty panel height | 18"                                                           |
| End panel height     | 27½"                                                          |

### Plinth Base and Leg Base Free Support End Panel

|        |            |
|--------|------------|
| Depth  | 30" or 36" |
| Width  | 77/16"     |
| Height | 27½"       |

### Plinth Base Extended T-Shape End Panel for Use with Freestanding P-Top Worksurfaces (Left-Hand and Right Hand)

|                      |                  |
|----------------------|------------------|
| Depth                | 30" or 36"       |
| Width                | 44", 50", or 51" |
| Modesty panel height | 18"              |
| End panel height     | 27½"             |

**10<sup>3</sup>/<sub>8</sub>"H T-shape end panel** is used to support a worksurface on a one-high plinth base lateral file or bookcase. It has an 11"W leg that extends from the end panel to provide proper worksurface support.

*Tip: Recommended column and leg supports vary based on worksurface length and support conditions on the other end. Refer to Worksurface Support Guidelines, page 103.*

Leg base

Plinth base

**27<sup>1</sup>/<sub>2</sub>"H free support end panel** has an 7<sup>7</sup>/<sub>16</sub>"W metal support triangle that extends from the end panel to provide proper worksurface support.

*Tip: For proper stability, bullet, P-top, meeting, and extended bullet worksurfaces supported by 27<sup>1</sup>/<sub>2</sub>"H free support must be connected to a perpendicular worksurface forming an L- or U-shaped configuration.*

*Tip: If the free support end panel is used with above worksurface storage (overheads or service modules), then the free support end panel must be attached to either a tower or a building wall for stability.*

**Extended T-shape end panel** supports a bullet or P-top worksurface in a plinth base setting only. Either a column or disk column supports the other end of the worksurface. The 2/3-height modesty panel is notched at the top to allow installation next to the column or disk column; however, it does not attach to the column or disk column. The width of the modesty panel on the extended T-shape end panel varies depending on the width and type of worksurface.

► To select the correct extended T-shape end panel width, refer to *Plinth Base Extended T-Shape End Panel Selection Guide*, page 110.

*Tip: Extended T-shape end panels are handed for P-top worksurfaces. The modesty panel is located 10" in from the visitor side.*

*Tip: Extended T-shape end panel supporting a bullet worksurface cannot stand alone in a freestanding application.*

Leg base

Gate leg

Plinth base

Gate leg

**All 27<sup>1</sup>/<sub>2</sub>"H free support end panels, gate legs, extended T-shape end panels, 4<sup>5</sup>/<sub>8</sub>"H T-shape end panels on plinth base 1.5 high storage or leg base 21<sup>1</sup>/<sub>2</sub>"H storage, and 10<sup>3</sup>/<sub>8</sub>"H T-shape end panels on a one-high plinth base lateral file or bookcase** support a worksurface at 29"H, allowing it to meet ANSI (American National Standards Institute) standards.

*Tip: In a plinth base setting, two free support end panels can support a stand alone worksurface.*

*Tip: In a leg base setting, the free support end panel does not support a worksurface freestanding. It must be used in a perpendicular application with another worksurface for proper support.*

*Tip: A gate leg cannot be used in conjunction with slip-fit brackets on storage at the other end of a worksurface.*

*Tip: A gate leg cannot be used to support overhead storage.*

*Tip: A slip-fit bracket is not allowed with a bullet top or a P-top, due to stability issues.*

*Tip: A slip-fit bracket with either plinth or leg base storage is not an allowable option to support overhead storage.*

*Tip: The column leg rules apply to the gate leg support. T or L configurations are recommended.*

## Connections

**Quick-lock assembly hardware** is used to assemble the components in the field. The hardware features pins in the underside of the worksurface that are captured by rotating connector locks in the end panel or modesty panel.

## Surface Materials

**Free support, T-shape, and extended T-shape end panels**

- Wood veneer
- Laminate
- Customiz stain (option on wood)

### Storage legs

- 4728 Nickel Metallic
- 4799 Platinum Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze

### Storage legs with reveal

- 4728 Nickel Metallic
- 4799 Platinum Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze

### Attachment hardware

- Black paint only

# Corner Support Kits and Rear L-Shape Corner Support

For Use with Plinth Base and Leg Base Applications

## Corner support kit

comes with three L-shape supports to hold the corner or extended corner work-surface at 29"H, allowing it to meet ANSI (American National Standards Institute) standards.

► Specifying, page 330

## L-shape end panels

support the front corners of the worksurface.

**Adjustable glides** adjust for installations on uneven floors. Adjustability range is 1¼".

## Rear L-shape corner support

can be specified separately for an extended corner worksurface that is supported by a 27½"H storage component at one end and an L-shape end panel at the other end.

**Rear L-shape corner support** attaches to the back corner of the worksurface.

## Actual Dimensions

|                             |                         |
|-----------------------------|-------------------------|
| Rear L-shape corner support | 12" x 12"               |
| L-shape end panel           | 15" x 15" or 23¼" x 15" |
| Height                      | 27½"                    |

*Tip: Rear L-shape corner support kit can be used with leg base storage, although it is not available with storage legs.*

## Product Details

### Corner support kit

includes two L-shape end panels and one rear L-shape corner support. Corner support kits are ordered separately and support a corner or extended corner worksurface in a freestanding application.

*Tip: If an extended corner worksurface is supported by a pedestal or lateral file on one end, then specify a rear L-shape corner support and an L-shape end panel separately to support the back and other end.*

Two 15" x 15" L-shape end panels

One 15" x 15" L-shape end panel  
One 23¼" x 15" L-shape end panel

Two 23¼" x 15" L-shape end panels

### L-shape end panels

can be specified in three ways, each version including a 12" x 12" rear L-shape corner support:

- Two 15" x 15" L-shape end panels
- One 15" x 15" L-shape end panel and one 23¼" x 15" L-shape end panel (located on the left or right side)
- Two 23¼" x 15" L-shape end panels

**23<sup>1</sup>/<sub>4</sub>" x 15" L-shape end panels** are handed. The 15" side is installed on the back of the worksurface.

**All exposed edges and sides** of the supports are finished.

*Tip: The corner support kit is not available in leg base, but can be created by combining the leg base L-shape and panel with the rear L-shape corner support.*

## Connections

**Quick-lock assembly hardware** is used to assemble the components in the field. The hardware features pins in the underside of the worksurface that are captured by rotating connector locks in the support.

**Full-height modesty panel**, if selected, attaches to the plinth base rear L-shape corner support, the L-shape end panel, and the worksurface.

*Tip: Select a modesty panel that is 12" shorter than the worksurface.*

## Surface Materials

### Plinth base or leg base L-shape end panel and rear L-shape corner support

- Wood veneer
- Laminate
- Customiz stain (option on wood)

### Storage legs

- 4728 Nickel Metallic
- 4799 Platinum Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze

### Storage legs with reveal

- 4728 Nickel Metallic
- 4799 Platinum Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze

### Attachment hardware

- Black paint only

# Plinth Base Center Support Panels

**Center support panel** is used when a worksurface has an unsupported span that is greater than 60"W.  
 ▶ Specifying, page 331

## Product Details

**All exposed edges and both sides of the center support panel** are finished.

## Connections

**Center support panel** attaches under the worksurface in the center of the span.

**8"D center support panels** are used with 18"D worksurfaces.

**24"D and 30"D work-surfaces** must use 11"D center support panel.  
*Tip: Center support panel is for use only with plinth base storage.*

**21½"H center support panel** provides support to a worksurface span that is greater than 60"W used with 1.5 high storage units and end panels.

**15½"H center support panel** provides support to a worksurface span that is greater than 60"W used with one-high units and end panels.

**10¾"H center support panel** provides support to a worksurface span that is greater than 60"W over one-high lateral files or bookcases.

**Attachment hardware** is included with the center support panel.

## Surface Materials

**Center support panel**

- Wood veneer
- Laminate
- Customiz stain (option on wood)

**Attachment hardware**

- Black paint only

## Actual Dimensions

|                   |                           |
|-------------------|---------------------------|
| Depth             | 8" or 11"                 |
| Width (thickness) | 1½"                       |
| Height            | 10¾", 15½", 21½", or 27½" |

# Worksurface Braces

For Use with Plinth Base and Leg Base

Worksurface Braces

**Worksurface brace** is used when a worksurface has an unsupported span that is greater than 60"W. It provides unobstructed support under the worksurface.

► Specifying, page 352

## Product Details

**Worksurface, other than blade edge, supported by pedestals or end panels** that have unsupported spans from 60"W to 90"W, use one worksurface brace or a center support panel. Select the worksurface brace length closest to the unsupported span. For spans greater than 90"W in a plinth base setting, a center support panel must be used.

*Tip: The use of wood or laminate modesty panels will provide increased rigidity in spans greater than 60"W in conjunction with a worksurface brace.*

► Page 98

*Tip: When calculating unsupported spans, the 15" portion of an L-shaped end panel that runs along the back edge should not be considered. Measure from the portion of the end panel that runs front-to-back.*

**Worksurface** supported by legs or tethered brackets that have unsupported spans less than or equal to 84"W, use one worksurface brace. For unsupported spans greater than 84"W two worksurface braces are required for support.

**Worksurface brace** attaches under the worksurface in the center of the span.

**Blade edge profile worksurfaces** have slightly more stringent rules due to their construction:

- For unsupported spans 54"W to less than 72"W, use one worksurface brace.
- For unsupported blade edge spans from 72"W to less than 90"W, use two worksurface braces.
- For unsupported spans greater than 90"W in plinth base settings, use an intermediate support.
- Unsupported spans greater than 90"W in a leg base setting are not allowed. A center support to the ground is an option. *Note: A center support panel changes the leg base aesthetic.*

## Connections

**Worksurface brace** attaches under the worksurface in the center of the span.

## Surface Materials

**Worksurface brace**

- Black paint only

Worksurface  
Supports

## Actual Dimensions

|        |                       |
|--------|-----------------------|
| Width  | 45", 51", 57", or 69" |
| Height | 1"                    |

# Rectangular Column Leg, Rectangular Column Leg with Base, Column, Disk Column, Gate Leg, Adjustable-Height Legs, Freestanding Table Base, and Parallel Slip-Fit Support

For Use with Plinth Base and Leg Base

**Rectangular column leg, rectangular column leg with base, column disk column, and gate leg** support the end of worksurfaces.

► Specifying, page 354

## Adjustable-height legs

provide support for an open, clean look in desk and square-end run-off applications.

► Specifying, page 354

## Freestanding table base

supports the end of run-off, meeting, and extended bullet worksurfaces. It also supports personal table tops.

## Parallel slip-fit support

is used with plinth base 1.5 high storage in 30" and 36"W but cannot be used with 15" or 18"W pedestals. It can also be used in leg base 21½"H credenza in all widths.

| Actual Dimensions                       |          |                                  |                      |

| Diameter of disk base                   | 22"      | Width                            | 7½"                  |
| Height range with worksurface           | 28"-32"  | Height                           | 12⅜"                 |

## Product Details

28"H  
to  
32"H

28"H  
to  
32"H

**Column and disk column** are adjustable within a range of 4" and support a worksurface at heights from 28"H to 32"H.

**Adjustable-height legs** adjust up to 3" in 1/2" increments and support a worksurface at heights from 25 1/2"H to 29 1/2"H or 29"H to 32"H.

**The interior cover of an adjustable height leg** is always 6527 Merle.

**Freestanding table bases** have non-adjustable glides. Use a 22" diameter base for 30" personal table tops. Specify a 28" diameter base for 36" personal table tops.

**Rectangular column leg and rectangular column leg with base** support a worksurface at 29"H. Rectangular columns have 2 1/4" of adjustment at the top of the leg. Adjustment is in 1/4" increments. The base does not have glides.

**Gate leg supports** a worksurface at 29"H. Glides adjust 1 1/4" in height.

**Gate leg** allows up to a 6" overhang when used with a desk worksurface.

*Tip: The column leg rules apply to the gate leg support. T or L configurations are recommended.*

**Gate leg** when used with an L-shape end panel must have a perpendicular worksurface with at least 30"W total storage.

**Slip-fit support** is used with plinth base 1.5 high storage to support a worksurface at 29"H. Slip-fit supports attach to the side of the storage unit. They cannot be attached to a back or modesty panel. Slip-fit supports can also be used with one-high and two-high plinth base storage that is 30" or 36"W. The slip-fit supports can also be used with 21 1/2"H leg base storage in all widths.

*Tip: Overhead storage cannot be mounted to work-surfaces supported by slip-fit supports.*

*Tip: Slip-fit supports can be used on both ends of a worksurface.*

*Tip: Slip-fit supports cannot be used on 15" or 18"W plinth base pedestals.*

*Tip: Also works in leg base applications.*

*Tip: Slip-fit supports are not allowed in conjunction with a P-top due to stability issues.*

*Tip: Any storage used with a slip fit bracket to support a worksurface cannot have a gate leg on the opposite end. Instead use a free support end panel.*

## Connections

**Modesty panel connects to adjustable-height legs** so that the modesty panel remains fixed when the worksurface is adjusted.

**Modesty panel is installed next to the column or disk column;** however, it does not actually attach to the column or disk column.

*Tip: Disk column cannot be used to support a free-standing table.*

**The maximum a work-surface** can cantilever over a plinth base 1.5 high 30" or 36"W storage unit or 21 1/2"H leg base credenza when a slip-fit bracket is used is 21".  
*Tip: Slip-fit supports cannot be used on 15" or 18"W plinth base or leg base storage.*  
*Tip: The maximum worksurface overhang front or back allowed on a worksurface with a slip-fit support is 6".*

**The maximum a work-surface** can cantilever from the front or back edge of a 17 1/4"D plinth base 1.5 high storage or leg base 21 1/2"H storage unit below is 6".

**The maximum work-surface** cantilever on a 23 1/4"D unit is 12". This can be 6" on the front and back.

**Rectangular column legs, rectangular column legs with bases, columns, disk columns, and gate legs** should not be used to support free-standing tables. They are used to support the end of run-off worksurfaces.

*Tip: Power units cannot be used with gate leg, adjustable height leg, or glass modesty panel due to bracket interference.*

## Wiring & Cabling

**Cord cover on adjustable-height legs** is removable to reveal a space to manage and conceal cords and cables that are routed from the worksurface.

**Power units with cord pass-through** cannot be installed in the left or right position when using adjustable-height legs.

## Surface Materials

**Rectangular column leg and rectangular column leg with base**

## Attachment hardware

- Black paint only

## Application Topics

**Two adjustable-height legs** can be used to support a run-off worksurface application. Four adjustable-height legs can support a freestanding table.

*Tip: Worksurfaces supported by legs or tethered brackets that have unsupported spans less than 84"W, use one worksurface brace. For unsupported spans greater than 84"W two worksurface braces are required for support.*

*Tip: The column leg rules apply to the gate leg support. T or L configurations are recommended.*

**In table applications,** worksurfaces up to 90"W can be supported by four legs and will allow a hutch kit with a single-high overhead or single-high service module to be attached above the worksurface, provided a worksurface brace or center support panel is used. 96"W worksurfaces can support overhead cabinets and service modules in this application only if a center support panel is used. If a center support panel is used, adjustable-height legs cannot be adjusted.

*Tip: When hutch kits with single-high overheads or single-high service modules are installed on worksurfaces supported by adjustable-height legs, units must be positioned back-to-back or placed up against a wall. If a bridge or return is attached to the worksurface with the height-adjustable legs, the units can be freestanding.*

**Height adjustable legs and gate legs** cannot be used with blade edge profile.

**Table applications greater than 96"W** are not allowed using four legs.

## In the table application using four legs,

the hutch kit or service module must be located within 6" of the edge of the worksurface on both ends. Anything greater than 6" is not an approved application.

*Tip: Do not place both power and data cables through the height adjustable leg cavity, as the power can interfere with the data signal as both are typically unshielded.*

# Plinth Base Pedestals

## Plinth base pedestals

can support a worksurface in a desk, return, credenza, or panel-supported worksurface application. Laminate and wood models are available.

► Specifying, page 360

**Top on plinth base pedestal** is open to attach under the worksurface.

**Top** on adjustable-height plinth base pedestals is finished and inset.

**Back** is unfinished. It can be finished with a back panel or modesty panel.

**Sides** are finished so they can be used in right- or left-hand positions.

**Face lock** allows individual plinth base pedestals, lateral files, and cabinets to be locked independently. Locks are standard keyed random. *Exception: Locks are not available on single- or double-door plinth base pedestals with integral or beam pulls.* ► Lock and Keying, page 646

**Leveling glides** adjust for installations on uneven floors. Adjustability range is 1¼".

**Height adjustable brackets** are available in polished chrome only.

**Pulls** are available in eight styles.

## Actual Dimensions

### Plinth Base Pedestal

|                   |                     |
|-------------------|---------------------|
| Depth             | 17¼", 23¼", or 29¼" |
| Width             | 15" or 18"          |
| Height            | 27½"                |
| Adjustable-height | 27½" to 30½"        |

### Plinth Base Lateral File

|                   |                     |
|-------------------|---------------------|
| Depth             | 17¼", 23¼", or 29¼" |
| Width             | 30" or 36"          |
| Height            | 27½"                |
| Adjustable-height | 27½" to 30½"        |

### Plinth Base Hinged Door Pedestal

|        |              |
|--------|--------------|
| Depth  | 17¼" or 23¼" |
| Width  | 15" or 18"   |
| Height | 27½"         |

### Plinth Base Two Hinged Doors Pedestal

|        |                     |
|--------|---------------------|
| Depth  | 17¼", 23¼", or 29¼" |
| Width  | 30" or 36"          |
| Height | 27½"                |

### Plinth Base Bookcase

|        |                       |
|--------|-----------------------|
| Depth  | 16½", 22½", or 28½"   |
| Width  | 15", 18", 30", or 36" |
| Height | 27½"                  |

## Product Details

**All 27½"H plinth base pedestals, lateral files, bookcases, and single- or double-door pedestals** support a worksurface at 29"H, allowing it to meet ANSI (American National Standards Institute) standards.

**Adjustable-height plinth base pedestals and lateral files** adjust up to 3" increment and support a worksurface at heights from 29"H to 32"H.

**Worksurface edge** aligns with the face of the drawer or door if square or bullnose worksurface edge profiles are selected. If the blade edge profile is selected, the bottom corner of the blade edge aligns with the drawer or door front.

*Tip: This alignment causes the blade edge profile to protrude 2⅛" beyond an adjacent tower or vertical cabinet.*

**Heavy duty steel, telescoping slides** are standard on all drawers. Slides are full extension on both box and file drawers. At full extension, entire space within the drawer is accessible.

**Soft close slides** are available as an option for 15"W and 18"W box and file drawers.

**Standard drawers** have five-ply maple construction with sanded dovetail joinery. These drawers include a solid wood pencil tray and drawer divider in box drawers.

**Optional drawers** feature miter fold polypropylene drawers. These drawers include a plastic pencil tray in box drawers.

*Tip: 17¼"D pedestals do not have a miter fold drawer option.*

*Tip: In an 18"W miter fold drawer pedestal, the plastic pencil tray sits on the bottom of the box drawer.*

**File drawers** are equipped with a fastened metal filing system. File capacities vary.

► Page 204

**One adjustable shelf** is standard in 27½"H single- or double-door pedestals and bookcases. Shelf is finished on both sides.

*Tip: It is recommended to flip the wood bookcase shelf annually.*

*Tip: The adjustable shelf is available in wood or metal.*

Transitional

Inset

Beam

**Pulls** are available in eight different styles to provide design options that range from conventional to progressive.

*Tip: Integral pull is not available on laminate or composite fronts.*

► Page 228

**One pull per door or drawer** is standard.

*Exception: Double-door pedestals are equipped with only one integral or beam pull that is located on the right door.*

*Tip: Do not pair beam pull with blade edge worksurface; file access is compromised.*

**Locks** are available factory- or field-installed on plinth base pedestals, lateral files, and plinth base pedestals with doors. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

*Exception: Pedestals with doors are not available with locks when integral or beam pulls are specified.*

► Lock and Keying, page 646

**Wood veneer grain direction** runs vertically on plinth base pedestals.

*Exception: Wood veneer grain direction runs horizontally on the mitered base of bookcases.*

► Page 239

**Counterweights** are shipped with all plinth base pedestals for field installation to insure stability.

*Tip: In certain applications, counterweights may not be needed and can be optioned out at specification.*

*Exception: Counterweights are always needed in 17¼"D pedestals.*

*Tip: Counterweights are not required in storage units with doors.*

**Worksurface overhang** can be created by ordering a worksurface that is 6" deeper than the storage component.

**Wood modesty panel**

can be used with plinth base pedestals. It sits proud on the back of the plinth base pedestals. Full-height, full-width wood modesty panels cover the back of the plinth base pedestal. The ¾-height wood modesty panel must be used in conjunction with a pedestal back panel to cover the exposed unfinished back of the plinth base pedestal. The ¾-height desk modesty panels are only used with overhanging worksurfaces.

► Page 78

**Back panel** needs to be ordered to cover the unfinished back of an exposed pedestal on a desk when there is no full-height wood modesty panel or if inset or floating wood modesty panels are specified. Back panel sits proud on the back of the plinth base pedestal.

*Tip: Full-height wood modesty panel should be used to finish the back of an exposed two-high lateral file, double-door plinth base pedestal, or underworksurface bookcase.*

► Page 76

**Filler panel** may be ordered to close the ¾" space on the exposed back edge of a plinth base credenza if a wood modesty panel isn't used. A 1½"D filler panel can be used to fill the space that is created when worksurfaces with pedestals are used in a back-to-back application without modesty panels. Filler panel attaches to the unfinished back of a plinth base pedestal.

► Page 88

**Cushion top** is optional on a two-high lateral file or a plinth base 1.5 high pedestal. It replaces a wood or laminate top. In these applications, a finished back panel must be used. Cushion has topstitching with no welting. Cushion top ships separately.

► Page 310

**End panel** is not necessary for support on the end of a worksurface that is supported by a plinth base pedestal. If desired, use an L-shape end panel to create a single-plinth base pedestal desk, right- or left-hand credenza, or shell. A panel-supported end panel can be used in system applications.

## Wiring & Cabling

**Grommet** can be installed above underworksurface storage components or in kneespace area.

► Page 62

**Cords and cables** can be routed behind plinth base pedestals. There is a 3/4" clearance behind 17 1/4"D, 23 1/4"D and 29 1/4"D plinth base pedestals, and 17 1/4"D lateral files, a 6" clearance behind 23 1/4"D lateral files, and a 12" clearance behind 29 1/4"D lateral files.

**Back of plinth base pedestals** allow for electrical access in the wall or panel. If a modesty panel is used, a hole can be cut in the field to accommodate cable or cord pass through. *Tip: There is 3 3/4"H open space to feed cords.*

**Bottom of plinth base pedestals** are open for electrical access in the floor.

## Surface Materials

### Plinth base pedestals

- Wood case with wood front
- Laminate case with same or contrasting laminate front
- Laminate case with wood front
- Customiz stain (option on wood)

*Tip: When specifying all wood storage units, the case and front must be the same wood finish. When specifying all laminate storage units, the case and the front can be the same or contrasting finishes.*

### Shelves

- Wood, if wood case is specified
- Laminate, if laminate case is specified

### Metal shelves

- 4728 Nickel Metallic
- 4799 Platinum Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze

### Contemporary or bar pulls

- 0835 Black
- 9201 Polished Chrome
- 9211 Nickel
- 9212 Silver

### Jazz pulls

- 0835 Black
- 4799 Platinum Metallic
- 9201 Polished Chrome
- 9211 Nickel
- 9212 Silver

### Nile pulls

- 0835 Black
- 4799 Platinum Metallic
- 7278 Dark Bronze
- 9201 Polished Chrome
- 9211 Nickel

### Integral pull

- Wood if wood front is specified
- Tip: Not available on laminate or composite fronts.*

### Beam pulls

- 4728 Nickel Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze
- 8043 Clear Anodized Aluminum

### Transitional pulls

- 0835 Black
- 4799 Platinum Metallic
- 7278 Dark Bronze
- 9211 Nickel

### Inset pulls

- 4728 Nickel Metallic
- 4799 Platinum Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze

### Face lock

- 9201 Polished Chrome
- 9250 Ember Chrome

*Tip: When an integral pull is specified with a 9250 Ember Chrome lock, the lock housing is black, and when a 9201 Polished Chrome lock is specified, the lock housing is nickel.*

### Cushion top

- Fabric
- Leather

**Cushion top** will be manufactured in a four seam pattern in all standard solid color seating upholstery, leather, vinyls, COM leathers, and COM vinyls. These upholstery are:

- Brisa
- Buzz2
- Cogent: Connect
- Elmosoft Leather
- Gaja – Cradle to Cradle Certified™ Silver
- Leather
- Stand In
- Select Surfaces leather
- Vinyl

**Cushion top** will be manufactured in a two seam pattern on all standard upholstery not listed under the four seam pattern. All COMs including pattern or textured leather and vinyl, will be manufactured in a two seam pattern.

## Application Topics

### Storage Capacities

► Page 204

**Counterweights** are always required in 17 1/4"D plinth base pedestals.

**Counterweights** are always needed on a free-standing plinth base credenza when storage mounted on the worksurface is less than the width of the worksurface.

**Counterweights** are always needed when overhead storage is mounted on 18"D freestanding plinth base credenza with closed lower storage below.

**Counterweights** are not needed when plinth base pedestals are installed in an L-shape, U-shape, or T-shape configuration.

**Counterweights** are not needed in plinth base pedestals installed under an overhanging desk worksurface.

**Counterweights** are not needed when a service module, hutch kit with overhead cabinet or shelf, or stacking bookcase is installed on the worksurface above.

**Counterweights** are available as a service part package for use when furniture is reconfigured into applications which require their use.

# Plinth Base One-High Pedestals (15<sup>1</sup>/<sub>2</sub>"H)

**Plinth base one-high pedestals**, including plinth base one-high lateral file or bookcase, can stand alone or support a worksurface when used with a 10<sup>3</sup>/<sub>8</sub>"H end panel. Wood and laminate models are available.

► Specifying, page 372

**Back** is unfinished. It can be finished with a back panel or filler panel.

**Top** is open to attach a worksurface or cushion top.

**Pulls** are available in eight styles. One pull per drawer is standard.

**Face lock** allows individual plinth base one-high lateral files to be locked independently. Locks are standard keyed randomly.

► Lock and Keying, page 646

**Sides** are finished so they can be used in right- or left-hand positions.

## Product Details

**Plinth base one-high lateral file or plinth base one-high bookcase** produce a layered look and provide a piling surface when used with an 10<sup>3</sup>/<sub>8</sub>"H end panel to support a worksurface at 29"H.

**Two or more plinth base one-high storage components** can be ganged together under a single worksurface.

**Plinth base one-high bookcases** help to organize stacks of papers, expandable files, and case boxes.

**Worksurface edge** aligns with the face of the lateral file drawer if square or bullnose worksurface edge profiles are selected. If the blade edge profile is selected, the bottom corner of the blade edge aligns with the drawer front.

*Tip: This alignment causes the blade edge profile to protrude 2<sup>1</sup>/<sub>8</sub>" beyond an adjacent tower.*

**Lateral file drawers** are equipped with a fastened metal filing system for legal- and letter-size filing. Filing capacities vary.

► Page 204

**Standard drawers** have five-ply maple construction with sanded dovetail joinery.

**Optional drawers** feature miter fold polypropylene drawers available on plinth base storage.

## Actual Dimensions

### Plinth Base Lateral File

|        |                                                                      |
|--------|----------------------------------------------------------------------|
| Depth  | 17 <sup>1</sup> / <sub>4</sub> " or 23 <sup>1</sup> / <sub>4</sub> " |
| Width  | 30" or 36"                                                           |
| Height | 15 <sup>1</sup> / <sub>2</sub> "                                     |

### Plinth Base Bookcase

|        |                                                                      |
|--------|----------------------------------------------------------------------|
| Depth  | 16 <sup>1</sup> / <sub>2</sub> " or 22 <sup>1</sup> / <sub>2</sub> " |
| Width  | 30" or 36"                                                           |
| Height | 15 <sup>1</sup> / <sub>2</sub> "                                     |

**Pulls** are available in eight different styles to provide design options that range from conventional to progressive.

*Tip: Integral pull is not available on laminate or composite fronts.*

► Page 228

**Locks** are available factory- or field-installed on one-high lateral files. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► *Lock and Keying*, page 646

**Wood veneer grain direction** runs vertically on plinth base one-high pedestals. *Exception: Wood veneer grain direction runs horizontally on the mitered base of bookcases.*

► Page 239

## Connections

**Finished back panel** may be ordered to cover the unfinished back of an exposed plinth base one-high unit. Finished back panel sits proud on the back of the plinth base pedestal.

► Page 76

**Filler panel** may be ordered to close the ¾" space on the exposed back edge of a plinth base pedestal if a back panel isn't used. A 1½"D filler panel can be used to fill the space that is created when worksurfaces with pedestals are used in a back-to-back application without back panels. Filler panel attaches to the unfinished back of a pedestal.

► Page 88

**Cushion top** is optional and ordered and shipped separately on a plinth base one-high or two-high lateral file. It replaces a wood or laminate top. Cushion has topstitching with no welting. When used with a two-high lateral file, or an open/file combination on a plinth base 1.5 high storage, a finished back panel must be used.

*Tip: Cushion top is not designed to be used on open plinth base one-high bookcase units. If that application is desired, specify a worksurface to be mounted on the bookcase and attach the cushion top to the worksurface. This will raise the overall height of the unit by an additional 1½".*

## Wiring & Cabling

**Grommet** can be installed in a worksurface above a plinth base one-high lateral file.

► Page 62

**Cords and cables** can be routed behind the one-high lateral files. There is a 6" clearance behind 23¼"D plinth base lateral files. A hole can be field cut in the back panel to accommodate cable or cord pass through. Bottom of plinth base one-high lateral file is open for electrical access in the floor.

## Surface Materials

### Plinth base one-high lateral file or bookcase

- Wood case with wood front
- Laminate case with same or contrasting laminate front
- Laminate case with wood front
- Customiz stain (option on wood)

*Tip: When specifying all wood storage units, the case and front must be the same wood finish. When specifying all laminate storage units, the case and the front can be the same or contrasting finishes.*

### Storage Capacities

► Page 204

# Plinth Base 1.5 High Storage Units (21½"H)

**Plinth base 1.5 high storage units** provide an optional technology trough to accommodate technology zones and distribute power and data.

► Specifying, Page 374

**Top on plinth base pedestal** is open to attach under the worksurface.

**Leveling glides** adjust for installations on uneven floors. Adjustability range is 1¼".

**Back** is unfinished. It can be finished with a modesty panel.

**Sides** are finished so they can be used in right- or left-hand positions.

**Cut-outs in the plinth base 1.5 high storage units** allow power and data to be distributed from unit to unit. This eliminates the need for panels in open plan applications.

*Tip: Cut-outs are unfinished.*

*Tip: Side panels can be specified with cut-outs right, left, right and left, or with no cut-outs for end of run conditions. An optional cable access cover is also available.*

**Face lock** allows individual units to be locked independently. Locks are standard keyed random.

► Lock and Keying, page 646

**Optional technology trough** accommodates power and data cables and houses optional technology zones. The space in the back of the unit accommodates wires.

**Pulls** are available in eight styles.

## Actual Dimensions

### Plinth Base Open Bookcase

|        |                  |
|--------|------------------|
| Depth  | 16½" or 22½"     |
| Width  | 30", 36", or 42" |
| Height | 21½"             |

### Plinth Base Open with Pull-Out Tray

|        |            |
|--------|------------|
| Depth  | 22¼"       |
| Width  | 30" or 36" |
| Height | 21½"       |

### Plinth Base Open/File

|        |              |
|--------|--------------|
| Depth  | 17¼" or 23¼" |
| Width  | 30" or 36"   |
| Height | 21½"         |

### Plinth Base Box/File

|        |                       |
|--------|-----------------------|
| Depth  | 23¼"                  |
| Width  | 15", 18", 30", or 36" |
| Height | 21½"                  |

*Note: Hinged door cabinet configuration is not available in plinth base storage.*

## Product Details

Square

Bullnose

Blade

### Worksurface edge

aligns with the face of the drawer if square or bullnose worksurface edge profiles are selected. If the blade edge profile is selected, the bottom corner of the blade edge aligns with the drawer front.

*Tip: This alignment causes the blade edge profile to protrude 2⅛" beyond an adjacent tower or vertical cabinet.*

### Heavy duty steel, telescoping slides

are standard on all drawers. Slides are full extension on both box and file drawers. At full extension, entire space within the drawer is accessible.

**Drawers** have five-ply maple construction with sanded dovetail joinery. These drawers include two drawer dividers in box drawers.

**Trays** are field-installed in units specified with a pull-out tray. A template is provided to insure placement accuracy.

**File drawers** are equipped with a fastened metal filing system. File capacities vary. File drawers are designed to hold hanging file folders.

*Tip: Plinth base storage units with a depth of 16½" or 17¼" will not accommodate legal redweld folders. For this use order the 23¼"D units.*

*Exception: Counterweights are always needed in 17¼"D pedestals.*

**Modesty panel** can be used with plinth base 1.5 high storage units. It sits proud on the back of the storage.

**Filler panel** may be ordered to close the ¾" space on the exposed back edge if a modesty panel isn't used. A 1½"D filler panel can be used to fill the space that is created when work-surfaces with plinth base 1.5 high storage are used in a back-to-back application without modesty panels. Filler panel attaches to the unfinished back of the storage.

► Page 88

**Cushion top** is optional on plinth base 1.5 high storage. It replaces a wood or laminate top. Cushion top ships separately.

► Page 310

*Tip: Cushion tops are not available for 42"W open units.*

*Tip: Cushion tops must be used with a back panel to align with the depth of closed units. If used with an open unit, such as shown, the cushion will overhang the front by ¾".*

**End panel** is not necessary for support on the end of a worksurface that is supported by plinth base 1.5 high storage. If desired, use an L-shape end panel or straight end panel with modesty panel to support the end of a worksurface not supported by 1.5 high storage.

**The upper shelf** in an open, open with pull-out tray, and open with lateral file unit is removable to facilitate attachment to the worksurface.

**Perpendicular tether supports, cable shroud supports, and 4⅜" T-shape end panels**

when used with plinth base 1.5 high storage support worksurfaces at 29"H. *Tip: The perpendicular tether support is no longer handed.*

## Wiring & Cabling

**Technology zone** can span between two plinth base 1.5 high storage units when cut-outs are specified.

**Optional cable access cover** is available to cover cut-out if desired. Cover is clear anodized aluminum or dark bronze.

**Power** can feed into channel from a Montage panel by field-cutting a hole in the Montage skin.  
*Tip: Specify Montage panels with modified open base to facilitate vertical routing of power when not at junction.*

**Technology trough** houses technology zones and route power and data. Refer to understanding electrical.

*Tip: Power units with cord pass-through cannot be used over plinth base 1.5 high storage units.*

**Cut-outs** available in right, left, and both right and left positions. Also available with no cut-outs if not needed for power routing.

**Optional cable access cover** is available to cover cut-out if desired. Cover is clear anodized aluminum or dark bronze.

**Power** can feed into channel from a Montage panel by field-cutting a hole in the Montage skin.  
*Tip: Specify Montage panels with modified open base to facilitate vertical routing of power when not at junction.*

**Technology trough** has 3 cut-outs to facilitate cable routing. (Top view shown)

**Cables** can route directly into the technology trough from the lower portion of an open unit or pull-out tray.

## Surface Materials

### 1.5 High storage

- Wood case with wood front
- Laminate case with same or contrasting laminate front
- Laminate case with wood front
- Customiz stain (option on wood)

*Tip: When specifying all wood storage units, the case and front must be the same wood finish. When specifying all laminate storage units, the case and the front can be the same or contrasting finishes.*

### Shelves

- Wood, if wood case is specified
- Laminate, if laminate case is specified

### Metal shelves

- 4728 Nickel Metallic
- 4799 Platinum Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze

### Pull-out tray

- 8043 Clear Anodized Aluminum
  - Black bottom panel
- Tip: Pull-out tray not available on leg base storage.*

### Contemporary or bar pulls

- 0835 Black
- 9201 Polished Chrome
- 9211 Nickel
- 9212 Silver

### Jazz pulls

- 0835 Black
- 4799 Platinum Metallic
- 9201 Polished Chrome
- 9211 Nickel
- 9212 Silver

### Nile pulls

- 0835 Black
- 4799 Platinum Metallic
- 7278 Dark Bronze
- 9201 Polished Chrome
- 9211 Nickel

### Integral pulls

- Wood, if wood front is specified
- Tip: Not available on laminate or composite fronts.*

### Beam pulls

- 4728 Nickel Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze
- 8043 Clear Anodized Aluminum

### Transitional pulls

- 0835 Black
- 4799 Platinum Metallic
- 7278 Dark Bronze
- 9211 Nickel

### Inset pulls

- 4728 Nickel Metallic
- 4799 Platinum Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze

### Face lock

- 9201 Polished Chrome
  - 9250 Ember Chrome
- Tip: When an integral pull is specified with a 9250 Ember Chrome lock, the lock housing is black, and when a 9201 Polished Chrome lock is specified, the lock housing is nickel.*

### Cushion top

- Fabric
- Leather

**Cushion top** will be manufactured in a four seam pattern in all standard solid color seating upholstery, leather, vinyls, COM leathers, and COM vinyls. These upholsteries are:

- Brisa
- Buzz2
- Cogent: Connect
- Elmosoft Leather
- Gaja – Cradle to Cradle Certified™ Silver
- Leather
- Stand In
- Select Surfaces leather
- Vinyl

**Cushion top** will be manufactured in a two seam pattern on all standard upholstery not listed under the four seam pattern. All COMs including pattern or textured leather and vinyl, will be manufactured in a two seam pattern.

## Application Topics

### Storage Capacities

► Page 204

**Counterweights** are always needed in 17¼"D plinth base pedestal if freestanding.

**Counterweights** are always needed on a freestanding plinth base credenza when storage mounted on the worksurface is less than the width of the worksurface.

**Counterweights** are always needed when overhead storage is mounted on 18"D freestanding plinth base credenza with closed lower storage below.

**Counterweights** are not needed when plinth base 1.5 high storage is installed in an L-shape, U-shape, or T-shape configuration. This is true even for 17¼"D in this situation only.

**Counterweights** are not needed when a service module, hutch kit with overhead cabinet or shelf, or stacking bookcase is installed on the worksurface above. This is true even for 17¼"D in this situation only.

**Counterweights** are available as a service part package for use when furniture is reconfigured into applications which require their use.

# Leg Base 21½"H Storage

**Leg base 21½"H storage**, including leg base 21½"H lateral file or open unit, can stand alone or support a worksurface when used with a 4⅝"H T-shape end panel. Wood and laminate models are available.  
► Specifying, page 422

**Cushion top** is optional and ordered and shipped separately on a leg base storage unit.

**Inset back panel** is standard unfinished. A finished inset back panel is an option.

**Top** is open to attach a worksurface or cushion top.

**Face lock** allows individual leg base 21½"H lateral files to be locked independently. Locks are standard keyed randomly.  
► Lock and Keying, page 646

**Pulls** are available in eight styles. One pull per drawer is standard.

**Leveling glides** adjust for installations on uneven floors. Adjustability range is 1¼".

**Sides** are finished so they can be used in right- or left-hand positions.

## Product Details

**Leg base 21½"H lateral file or leg base 21½"H open** produce a layered look and provide a piling surface when used with a perpendicular tether support, cable shroud support, or a 4⅝"H T-shape end panel to support a worksurface at 29"H.

**Two or more leg base 21½"H storage components** can be ganged together under a single worksurface. Another option is to select a leg base 21½"H credenza with up to three storage components.

**Leg base 21½"H open bookcases** help to organize stacks of papers, expandable files, and case boxes.

**Worksurface edge** aligns with the face of the lateral file drawer if square or bullnose worksurface edge profiles are selected. If the blade edge profile is selected, the bottom corner of the blade edge aligns with the drawer front.

*Tip: This alignment causes the blade edge profile to protrude 2⅛" beyond an adjacent tower. Consider another profile option for easy access or when next to a tower.*

**Lateral file drawers** are equipped with a fastened metal filing system for legal- and letter-size filing. Filing capacities vary.  
► Page 204

## Actual Dimensions

### Leg Base Lateral File

|        |            |
|--------|------------|
| Depth  | 18" or 24" |
| Width  | 30" or 36" |
| Height | 21½"       |

### Leg Base Open

|        |            |
|--------|------------|
| Depth  | 23⅛"       |
| Width  | 30" or 36" |
| Height | 21½"       |

**Standard drawers** have five-ply maple construction with sanded dovetail joinery. *Tip: Miter fold drawers are not available on leg base storage.*

Contemporary

Jazz

Bar

Integral

Transitional

Inset

Beam

**Pulls** are available in eight different styles to provide design options that range from conventional to progressive.

*Tip: Integral pull is not available on laminate or composite fronts.*

► Page 228

**Perpendicular tether supports, cable shroud supports, and 4⅝" T-shape end panels** when used with leg base 21½"H storage support worksurfaces at 29"H.

**Locks** are available factory- or field-installed on one-high lateral files. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► *Lock and Keying*, page 646

## Connections

**Sharing Storage Legs Shared storage legs** are optional:

- When a credenza and another leg base storage unit are the same depth.
- If the units sharing the storage leg are facing the same or opposite direction.

## Default position of shared storage legs

is under the taller leg base storage unit, with the storage leg plate supporting the smaller unit.

**Storage legs** ship unattached.

**Suspension/ganging kits** link the credenza and tower.

► *Specifying*, Page 585

**Cushion top** is optional and ordered and shipped separately on a leg base 21½"H or 27½"H box/file. It replaces a wood or laminate top. Cushion has topstitching with no welting. Open units require a worksurface under a cushion.

**Storage legs** may be shared at the seam of a cushion between two units.

## Surface Materials

### Leg base 21½"H lateral file or open unit

- Wood case with wood front
- Laminate case with same or contrasting laminate front
- Laminate case with wood front
- Customiz stain (option on wood)

*Tip: When specifying all wood storage units, the case and front must be the same wood finish. When specifying all laminate storage units, the case and the front can be the same or contrasting finishes.*

- 9201 Polished Chrome

*Tip: When an integral pull is specified with a 9250 Ember Chrome lock, the lock housing is black and when a 9201 Polished Chrome lock is specified, the lock housing is nickel.*

### Cushion top

- Fabric
- Leather

**Cushion top** will be manufactured in a four seam pattern in all standard solid color seating upholstery, leather, vinyls, COM leathers, and COM vinyls. These upholsteries are:

- Brisa
- Buzz2
- Cogent: Connect
- Elmosoft Leather
- Gaja – Cradle to Cradle Certified™ Silver
- Leather
- Stand In
- Select Surfaces leather
- Vinyl

**Cushion top** will be manufactured in a two seam pattern on all standard upholstery not listed under the four seam pattern. All COMs including pattern or textured leather and vinyl, will be manufactured in a two seam pattern.

## Application Topics

### Individual leg base 21½"H storage units

may share storage legs.

*Tip: The external sides will be defaced by the suspension/ganging hardware. An understorage brace is needed to ensure proper stability of storage units that are ganged with no shared legs. Braces for use under storage credenzas in place of a storage leg in spans smaller than 72" wide are available in customer service parts.*  
*Tip: Power units cannot be installed over leg base 21½"H storage due to inadequate space.*

### Storage Capacities

► Page 204

# Leg Base 27½"H Storage Units

**Leg base 27½"H storage units** provide an optional technology trough to accommodate technology zones and distribute power and data in some configurations.  
► Specifying, Page 424

**Optional technology trough** accommodates power and data cables and houses optional technology zones. The space in the back of the unit accommodates wires.

**Top on pedestal** is open to attach under the worksurface.

**Inset back panel** is standard unfinished. A finished inset back panel is an option.

**Sides** are finished so they can be used in right- or left-hand positions.

**Cut-outs in the leg base 27½"H storage units** allow power and data to be distributed from unit to unit. This eliminates the need for panels in open plan applications.

*Tip: Cut-outs are unfinished.*  
*Tip: Side panels can be specified with cut-outs right, left, right and left, or with no cut-outs for end of run conditions.*  
*An optional cable access cover is also available.*

**Leveling glides** adjust for installations on uneven floors. Adjustability range is 1¼".

**Face lock** allows individual units to be locked independently. Locks are standard keyed random.  
► Lock and Keying, page 646

**Pulls** are available in eight styles.  
*Tip: If inset pull is selected, the pulls are on the door seam vertically.*

## Actual Dimensions

### Leg Base All Open

|        |            |
|--------|------------|
| Depth  | 18" or 24" |
| Width  | 30" or 36" |
| Height | 27½"       |

### Leg Base Hinged Door Cabinet

|        |            |
|--------|------------|
| Depth  | 18" or 24" |
| Width  | 30" or 36" |
| Height | 27½"       |

### Leg Base Open/File

|        |            |
|--------|------------|
| Depth  | 18"        |
| Width  | 30" or 36" |
| Height | 27½"       |

### Leg Base Box/File

|        |                       |
|--------|-----------------------|
| Depth  | 18" or 24"            |
| Width  | 15", 18", 30", or 36" |
| Height | 27½"                  |

*Note: Open with pull-out tray configuration is not available in leg base storage.*

## Product Details

**Worksurface edge** aligns with the face of the drawer if square or bullnose worksurface edge profiles are selected. If the blade edge profile is selected, the bottom corner of the blade edge aligns with the drawer front.

*Tip: This alignment causes the blade edge profile to protrude 2<sup>1</sup>/<sub>8</sub>" beyond an adjacent tower or vertical cabinet.*

**Heavy duty steel, telescoping slides** are standard on all drawers. Slides are full extension on both box and file drawers. At full extension, entire space within the drawer is accessible.

**Soft close slides** are available as an option for 15"W and 18"W box and file drawers.

**Drawers** have five-ply maple construction with sanded dovetail joinery. These drawers include two drawer dividers in box drawers.

*Tip: Miter fold drawer option is not available on leg base storage.*

**File drawers** are equipped with a fastened metal filing system. File capacities vary. File drawers are designed to hold hanging file folders.

*Tip: Leg base storage units with a depth of 16<sup>1</sup>/<sub>2</sub>" or 17<sup>1</sup>/<sub>4</sub>" will not accommodate legal redweld folders. For this use order the 23<sup>1</sup>/<sub>4</sub>"D units.*

► Page 204

Contemporary

Jazz

Bar

Nile

Integral

Transitional

Inset

Beam

**Pulls** are available in eight different styles to provide design options that range from conventional to progressive.

*Tip: Integral pull is not available on laminate or composite fronts.*

► Page 228

**One pull per drawer** is standard.

*Tip: On leg base 27<sup>1</sup>/<sub>2</sub>"H storage, the inset pulls are adjacent, i.e. the inset pull for the box drawer is at the bottom of the drawer, and the inset pull for the file drawer is at the standard top of its drawer.*

**Locks** are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► *Lock and Keying*, page 646

**Wood veneer grain direction** runs vertically on leg base storage.

*Exception: Wood veneer grain direction runs horizontally on the mitered base of bookcases.*

► Page 239

**Counterweights** are shipped with all leg base storage for field installation to insure stability.

*Tip: In certain applications, counterweights may not be needed and can be optioned out at specification.*

*Exception: Counterweights are always needed in 17<sup>1</sup>/<sub>4</sub>"D pedestals.*

**Inset back panel** is standard on leg base storage and credenzas and ships assembled.

**Filler panel** may be ordered to close the 3/4" space on the exposed back edge if a modesty panel isn't used. In an overhang application, a 1<sup>1</sup>/<sub>8</sub>"D filler panel can be used to fill the space that is created when worksurfaces with leg base 27<sup>1</sup>/<sub>2</sub>"H storage are used in a back-to-back application without modesty panels. Filler panel attaches to the unfinished back of the storage.

► Page 88

**Cushion top** is optional on leg base 27<sup>1</sup>/<sub>2</sub>"H storage. It replaces a wood or laminate top. Cushion top ships separately.

► Page 310

*Tip: If used with an open unit, the cushion will overhang the front by 3/4".*

**End panel** is not necessary for support on the end of a worksurface that is supported by leg base 27<sup>1</sup>/<sub>2</sub>"H storage. If desired, use an L-shape end panel to support the end of a worksurface not supported by 27<sup>1</sup>/<sub>2</sub>"H storage.

**The upper shelf** in an open and open with lateral file unit is removable to facilitate attachment to the worksurface.

## Connections

### Sharing Storage Legs Shared storage legs

are optional:

- When a credenza and another leg base storage unit are the same depth.
- Storage legs can be shared side-to-side between units of the same depth when facing the same or opposite directions.

**Storage legs** must attach on the ends of a unit, and on the interior unit that is not supported by an under storage brace.

**Storage leg** ship unattached. If desired, storage legs may replace the under-storage brace under a three component credenza.

*Note: The unit will ship with the standard understorage brace and the additional storage legs must be ordered separately. In this case, the brace may be recycled.*

### Suspension/ganging kits link the credenza and tower.

► Specifying, Page 585

## Wiring & Cabling

**Technology zone** can span between two leg base 27<sup>1</sup>/<sub>2</sub>"H storage units when cut-outs are specified.

**Technology trough** houses technology zones and routes power and data. Refer to understanding electrical.

*Tip: A leg base 27<sup>1</sup>/<sub>2</sub>"H hinged door cabinet cannot accept power due to regulation constraints.*

**Cut-outs** available in right, left, and both right and left positions. Also available with no cut-outs if not needed for power routing.

**Optional cable access cover** is available to cover cut-out if desired. Cover is clear anodized aluminum or dark bronze.

**Power** can feed into channel from a Montage panel by field-cutting a hole in the Montage skin.

*Tip: Specify Montage panels with modified open base to facilitate vertical routing of power when not at junction.*

**Technology trough** has 3 cut-outs to facilitate cable routing. (Top view shown)

**Cables** can route directly into the technology trough from the lower portion of an open unit.

*Tip: Power units cannot be installed over leg base 27<sup>1</sup>/<sub>2</sub>"H storage due to inadequate space.*

**For 27<sup>1</sup>/<sub>2</sub>"H closed storage units**, there is a cut-out on the bottom panel to allow cables to exit.

*Tip: When an integral pull is specified with a 9250 Ember Chrome lock, the lock housing is black, and when a 9201 Polished Chrome lock is specified, the lock housing is nickel.*

### Cushion top

- Fabric
- Leather

**Cushion top** will be manufactured in a four seam pattern in all standard solid color seating upholstery, leather, vinyls, COM leathers, and COM vinyls. These upholsteries are:

- Brisa
- Buzz2
- Cogent: Connect
- Elmosoft Leather
- Gaja – Cradle to Cradle Certified™ Silver
- Leather
- Stand In
- Select Surfaces leather
- Vinyl

**Cushion top** will be manufactured in a two seam pattern on all standard upholstery not listed under the four seam pattern. All COMs including pattern or textured leather and vinyl, will be manufactured in a two seam pattern.

### Individual leg base 27<sup>1</sup>/<sub>2</sub>"H storage units

may share storage legs.

*Tip: The external sides of the storage case will be defaced by the suspension/ ganging hardware. A brace is needed to ensure proper stability of storage units that are ganged with no shared leg. Braces for use under storage credenzas in place of a storage leg in spans smaller than 72" wide are available in customer service parts.*

Application Topics

Storage Capacities

► Page 204

**Counterweights** are always needed on a free-standing leg base credenza when storage mounted on the worksurface is less than the width of the worksurface.

**Counterweights** are always needed when overhead storage is mounted on 18"D freestanding leg base credenza with closed lower storage below.

**Counterweights** are not needed when leg base 27 1/2"H storage is installed in an L-shape, U-shape, or T-shape configuration.

**Counterweights** are not needed when a service module, hutch kit with overhead cabinet or shelf, or stacking bookcase is installed on the worksurface above.

**Counterweights** are available as a service part package for use when furniture is reconfigured into applications which require their use.

# Plinth Base Mobile Pedestal

**Plinth base mobile pedestal** can be positioned anywhere storage is needed. Wood and laminate models are available.  
*Tip: The mobile pedestal is not available in leg base storage.*  
► Specifying, page 378

**Square edge** is 1 mm plastic on a laminate case or 0.5 mm veneer on a wood case. There are no other edge profile options.

**Top** is wood on a wood case or laminate on a laminate case. Cushion top is available as an option.

**Sides and back** are finished with wood or laminate.

**Casters** are hidden. They are non-locking, dual-wheel, swivel 360 degrees, and allow the plinth base pedestal to move easily.

**Face lock** allows mobile pedestals to be locked. Locks are standard keyed random.  
► *Lock and Keying*, page 646

**Pulls** are available in eight styles.

## Product Details

**Plinth base mobile pedestal** fits under a 29"H worksurface.

**Top edge** aligns with the face of the drawer.

**Drawers on mobile pedestals** align with drawers on underworksurface plinth base pedestal and 1.5 high storage.

**Standard drawers** have five-ply maple construction with sanded dovetail joinery. Box drawers include a solid wood pencil tray and drawer divider.

**Optional drawers** feature miter fold polypropylene drawers. The box drawers include a plastic pencil tray and plastic drawer divider.  
*Tip: In an 18"W miter fold drawer pedestal, the plastic pencil tray sits on the bottom of the box drawer.*

*Note: There is no mobile pedestal in leg base storage.*

# High Pedestals—Plinth Base and Leg Base

**Plinth high pedestal** is available with or without a door. It supports 15"D overhead storage.  
 ▶ Specifying, pages 380 and 430

**Back** is unfinished. It can be finished with a wood or laminate back panel for plinth or leg base. It is proud in plinth base.

**Top** on high pedestal is open to attach overhead storage.

**Sides** are finished so they can be used in right- or left-hand positions.

**Leg base high pedestals** can be ganged together by ordering the suspension/ganging hardware attachment kit.  
 ▶ Specifying, page 585

**Leveling glides** adjust for installations on uneven floors. Adjustability range is 1¼".

**Pulls** are available in eight styles.

**Face lock** allows door to be locked independently. Locks are standard keyed random.  
 ▶ *Lock and Keying*, page 646

**Door** sits proud on the high pedestal case and is handed for left- or right-hand applications.

**Open high pedestal** is only available in plinth base.

## Product Details

**One adjustable shelf** is standard in veneer, laminate, or metal. Shelf is finished on both sides.

## Actual Dimensions

### Plinth Base Hinged Door

|        |      |
|--------|------|
| Depth  | 15¾" |
| Width  | 15"  |
| Height | 35⅞" |

### Plinth Base Open

|        |      |
|--------|------|
| Depth  | 15"  |
| Width  | 15"  |
| Height | 35⅞" |

### Leg Base Hinged Door

|        |      |
|--------|------|
| Depth  | 15¾" |
| Width  | 15"  |
| Height | 35⅞" |

**Locks** are available factory- or field-installed on high pedestals. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

*Exception: High pedestal with door is not available with lock when integral or beam pull is specified.*

► **Lock and Keying**, page 646

**Wood veneer grain direction** runs vertically on a high pedestal. It runs horizontally on the base of the open high pedestal.

► Page 239

## Connections

**Back panel** needs to be ordered to cover the unfinished back of an exposed plinth or leg base high pedestal. Back panel sits proud on the back of the pedestal.  
► Page 76

**Overhead storage** can span from a high pedestal to a 65" side support frame on a worksurface.

**Two leg base high pedestals** can support an organizer shelf, but not an overhead.

**Ganging a leg base high pedestal** to a leg base bookcase is accomplished with a suspension/ganging hardware attachment kit.  
► Page 585

*Tip: To ensure stability the ganged leg base high pedestal and leg base bookcase must be positioned against a wall.*

## Surface Materials

### High pedestal

- Wood case with wood front
- Laminate case with same or contrasting laminate front
- Laminate case with wood front
- Customiz stain (option on wood)

*Tip: When specifying all wood storage units, the case and front must be the same wood finish. When specifying all laminate storage units, the case and the front can be the same or contrasting finishes.*

# Plinth Base Lateral Files

Freestanding

**Lateral files** are freestanding and provide additional storage in an office. Wood and laminate models are available.

► Specifying, page 384

**Top** is inset on 3-high and 4-high lateral files. Inset top is wood on a wood case or laminate on a laminate case.

**Back panel** is inset and finished.

**Leveling glides** adjust for installations on uneven floors. Adjustability range is 1 1/4".

**Worksurface top and finished proud back panel** are standard on two-high lateral file.

**Worksurface profile edges in wood and laminate** are standard on the two-high lateral file.

**Sides** are finished with wood or laminate.

**Face lock** allows lateral file to be locked. Locks are standard keyed random. ► *Lock and Keying*, page 646

**Pulls** are available in eight styles.

## Product Details

**Spring-activated safety catch** prevents drawers from being pulled out accidentally. At full extension, entire space within a file drawer is accessible.

**File drawers** are equipped with a fastened metal filing system for legal- and letter-size filing.

► Page 204

**Standard drawers** have five-ply maple construction with sanded dovetail joinery.

**Optional drawers** feature miter fold polypropylene drawers.

## Actual Dimensions

|        |                          |
|--------|--------------------------|
| Depth  | 24"                      |
| Width  | 30" or 36"               |
| Height | 29", 39 3/8", or 51 1/4" |

**Plinth base two-high lateral file worksurface edge** aligns with the face of the plinth base pedestal drawer if square or bullnose edge profiles are selected. If the blade edge profile is selected, the bottom corner of the blade edge aligns with the pedestal drawer front. Worksurfaces specified with a blade edge are 2 1/8" larger per profiled edge.

# One-High Open Plinth Base Pedestals and Common Tops for Ology Application

## One-High open plinth base pedestal and common top for Ology application

seamlessly integrate the Ology desk into Elective Elements. They provide a clean aesthetic with an efficient footprint. Ease of access to your items under the desk is convenient with this open storage configuration.

► Specifying, pages 365 and 366

*Tip: Use Elective Elements worksurface with Ology base to have a complete Elective Elements aesthetic.*

*Tip: In applications with two back-to-back Open Ped for Ology are found, the filler panel may be used when no proud back is desired.*

## Actual Dimensions

### One-High Open Plinth Base Pedestal

|        |                        |
|--------|------------------------|
| Depth  | 17 1/4"                |
| Width  | 24", 30", 36", and 42" |
| Height | 15 1/2"                |

### Common Top

|        |                                                                                             |
|--------|---------------------------------------------------------------------------------------------|
| Depth  | 18"                                                                                         |
| Width  | 24", 30", 36", 42", 48", 54", 60", 66", 72", 78", 84", 90", 96", 102", 108", 114", and 120" |
| Height | N.A.                                                                                        |

**Wire manager** keeps wires tidy and functionally flexes vertically.

**Grommet** provides a clean area where the desk leg integrates.

*Tip: The cable riser ships with the unit.*

**Common top for Ology application** is available in laminate or veneer. It can be used in longer sizes with additional Elective Elements one-high storage to create credenzas.

**A back panel** comes as standard. If a unit is placed against a wall, consider selecting no back panel for easier access to wall power.

**Usable depth in pedestal** is 10 1/8"D.

**Leveling glides** adjust up to 3/4".

## Product Details

### Pedestal Base

3" Base

**Removable interior cover** provides access to power outlets that can be located in the panel behind storage unit.

### Base widths and Ology foot:

- 24"W Ology base units can house Ology legs 24" in length.
- 30"W Ology base units can house Ology legs of 24" or 30" in length.
- 36"W and 42"W units can house Ology legs of 24", 30", or 36" in length.

**Integrated leg options** apply to One-High units only and are meant for use with Ology height-adjustable desks only.

## Surface Materials

### Pedestal case

- Wood veneer
- Laminate

### Laminate top on pedestal and common top

- Laminate
- Open Line laminate (option)

### Edges on pedestal and common top

- Wood veneer
- Plastic

### Wood veneer top on pedestal and common top

- Wood veneer—open pore finishes
- Full-fill (option) is available on wood veneer tops only.

## Application Topics

Application: Ology left

Application: Ology right

**Application** is determined by which leg of the Ology base is located inside the pedestal.

**Modesty panels and Universal privacy/modesty screens** must be undersized and justified to the outside of the common top when used with pedestal.

**Common top for Ology applications**, ordered separately, is available in laminate or veneer. Cut-out for Ology leg is available on the left side or the right side of the common top. Ology desk cannot be placed in the middle of the common top.

**To help avoid pinch points, the pedestal for Ology application** extends 1" past the back of the common top.

**When specifying One-High storage that matches the worksurface depth**, only One-High storage should be placed adjacent to the desk.

**Pinch point clearances** are not maintained when 1.5-High or taller storage is used adjacent to One-High integrated storage that matches the worksurface depth.

**When used with One-High integrated storage**, screens used in the modesty position must be a minimum of 18" shorter than worksurface width to allow for pinch point clearances.

**Soft edge and power and data access door** can be positioned left or right on Ology desks that are 64"W or wider for use with One-High integrated storage.

**Worksurface overhang** can be positioned left or right on desks that are 70" wide or wider.

**Ology 90° corners** that are 70" wide and wider can be used with One-High storage unit.

**Ology 120° corners** that are 52" wide and wider can be used with One-High storage unit.

# Leg Base Lateral Files

Freestanding

**Leg base lateral files** are freestanding and provide additional storage in an office. Wood and laminate models are available.  
► Specifying, page 432

**Top** is inset on 3-high lateral files. Inset top is wood on a wood case or laminate on a laminate case.

**Sides** are finished with wood or laminate.

**Back panel** is inset and finished.

**Leveling glides** adjust for installations on uneven floors. Adjustability range is 1 1/4".

**Face lock** allows lateral file to be locked. Locks are standard keyed random.  
► *Lock and Keying*, page 646

**Pulls** are available in eight styles.

## Product Details

**Spring-activated safety catch** prevents drawers from being pulled out accidentally. At full extension, entire space within a file drawer is accessible.

**File drawers** are equipped with a fastened metal filing system for legal- and letter-size filing.  
► Page 204

**Standard drawers** have five-ply maple construction with sanded dovetail joinery. Miterfold drawer option is not available on leg base storage.

## Actual Dimensions

# Leg Base Storage—Leg Logic

## Rules

The style number can include up to three components, including closed and open storage, as well as kneewells.

1. The first two characters will always be an abbreviation of the product line: E6 (Elective Elements).
2. The third character will always be an abbreviation of the product class: C (leg base storage credenza).
3. The following set of numerical characters follow depth width sequence:  
Depth: 18 or 24  
Width: 15 to 108 (in 6" increments)
4. Remaining spaces are used to indicate the suffix used to support storage components and kneewells.  
(See chart below for a list of suffixes.)

## Credenza Storage Components

| Suffix | Depth | Width | Height | Suffix Description  | Suffix | Depth | Width | Height | Suffix Description  |
|--------|-------|-------|--------|---------------------|--------|-------|-------|--------|---------------------|
| M      | 18"   | 30"   | 21½"   | File Pedestal       | V      | 18"   | 36"   | 27½"   | Open/Lateral File   |
| N      | 24"   | 30"   | 21½"   | File Pedestal       | S      | 18"   | 36"   | 27½"   | Open Pedestal       |
| O      | 24"   | 30"   | 21½"   | Open Pedestal       | T      | 18"   | 36"   | 27½"   | Hinged Door Cabinet |
| P      | 18"   | 36"   | 21½"   | File Pedestal       | A      | 24"   | 15"   | 27½"   | Box/File Pedestal   |
| Q      | 24"   | 36"   | 21½"   | File Pedestal       | B      | 24"   | 18"   | 27½"   | Box/File Pedestal   |
| R      | 24"   | 36"   | 21½"   | Open Pedestal       | D      | 24"   | 30"   | 27½"   | Box/Lateral File    |
| C      | 18"   | 30"   | 27½"   | Box/Lateral File    | E      | 24"   | 30"   | 27½"   | Open Pedestal       |
| U      | 18"   | 30"   | 27½"   | Open/Lateral File   | G      | 24"   | 30"   | 27½"   | Hinged Door Cabinet |
| F      | 18"   | 30"   | 27½"   | Open Pedestal       | I      | 24"   | 36"   | 27½"   | Box/Lateral File    |
| H      | 18"   | 30"   | 27½"   | Hinged Door Cabinet | J      | 24"   | 36"   | 27½"   | Open Pedestal       |
| K      | 18"   | 36"   | 27½"   | Box/File Pedestal   | L      | 24"   | 36"   | 27½"   | Hinged Door Cabinet |

## Kneewell

| Suffix | Depth | Width | Height | Suffix Description |
|--------|-------|-------|--------|--------------------|
| A1     | 24"   | 30"   | 27½"   | Kneewell           |
| A2     | 24"   | 36"   | 27½"   | Kneewell           |
| A3     | 24"   | 42"   | 27½"   | Kneewell           |
| A4     | 24"   | 45"   | 27½"   | Kneewell           |
| A5     | 24"   | 48"   | 27½"   | Kneewell           |
| A6     | 24"   | 54"   | 27½"   | Kneewell           |
| A7     | 24"   | 60"   | 27½"   | Kneewell           |
| A8     | 24"   | 66"   | 27½"   | Kneewell           |
| A9     | 24"   | 72"   | 27½"   | Kneewell           |

**Leg base credenzas** are made up of two to three storage components, as well as kneewells.  
*Tip: Leg base credenzas are specified with unique suffixes representing storage components and kneewell.*

**Full storage leg base credenzas** ship assembled from the factory up to 96"W without tops. A credenza with more than one work surface or cushion top must have an extra set of storage legs at the seam. The work surface must be ordered separately. The work surface must be at least as long as the credenza, unless a cushion top is used.

*Tip: Storage legs are attached in the field to prevent damage.*

*Tip: If desired, storage legs may replace the understorage brace under a three component credenza.*

*Note: The unit will ship with the standard understorage brace and the additional storage legs must be ordered separately. In this case, the brace may be recycled.*

**Leg base credenzas** offer a matching veneer face across all storage components within the credenza.

**Leg base credenzas of equal depth** can be joined to other leg base units in the field with the use of suspension/ganging hardware kit (ordered separately), and shared storage legs.

**Leg base credenzas** are best used when:

- Dense storage is not the driving force for the user or setting. Leg base storage offers one fewer box drawer than comparable height plinth base storage.
- A lighter scale aesthetic is preferred, especially in an open plan.
- A single back panel is preferred, or when it is preferable for seams to not be visible on the side of the unit. An inset back panel allows seams to be seen on the backside of the credenza versus the side.

## Individual Credenzas

**Individual credenzas** are made up of two to three storage components, available in varying widths and heights. The smallest credenza available is 30"W, and the widest is 108"W.

**This drawing** shows three individual units side by side and not ganged.

*Note: Each unit has four storage legs.*

**Leg base storage** are single storage units available in depths of 18"D and 24"D and widths sizes of 15"W, 18"W, 30"W, and 36"W. Pedestals are available for leg base applications, when a larger assembled credenza is not a feasible option, or not needed.

*Note: When ordering single 21½"H or 27½"H storage units through SmartTools, see leg base credenzas.*

*Note: These individual units can share a leg at each seam if ganged later in the field. Remember to order a suspension/ganging hardware kit.*

**27½"H leg base credenza storage** is made up of a combination of the smaller leg base pedestals:

- 18"D credenzas are available in 60"W, 72"W, 90"W, and 96"W.

*Tip: 18"D credenzas back-to-back may share a 36"D work surface.*

- 24"D credenzas are available in 42"W, 45"W, 48"W, 54"W, 60"W, 66"W, 72"W, 78"W, 84"W, 90"W, 96"W, 102"W, and 108"W.

*Tip: If individual units are ganged later, the exteriors of the units will be defaced.*

**Leg base credenzas 72"W and smaller** have four storage legs that attach at the corners of the unit. Exceptions include certain combinations, such as a 72"W credenza with two 18"W box/file components and a 36"W box/file with a cushion top. Any time a cushion top is added, a storage leg must be added at the seam.

**If a full worksurface spans the entire credenza,** a cushion may be added to the top of the worksurface without adding additional legs at the storage seam.

*Tip: If a cushion is placed over two 15"W or two 18"W components without a worksurface, then storage legs are required at the seam of the components.*

**Storage legs** may be shared at the seam of a cushion between two units.

### Sharing Storage Legs within a Leg Base Credenza

**Leg base credenzas larger than 72"W** must share a storage leg at the seam of one of the interior storage components. The largest segment of the credenza will be supported by an under-storage brace, while the smaller unit will be supported by an extra set of storage legs.

*Tip: The brace and storage legs can be moved to accommodate floor vents or aesthetic views. If the storage leg moves to support a component that is already braced, the brace must move to maintain the stability of the unsupported structure.*

**An under-storage brace** is required any time a storage leg is not used at the storage component seam within a leg base credenza.

*Tip: A credenza with an outside kneewell cannot share storage legs with another storage unit on the kneewell end because the plate on end panel storage legs is different.*

**A support to the floor** must always be within 6" from the end of the worksurface.

### Ganging Different Height Leg Base Storage Products

**Ganging of leg base storage products** is allowed when:

- All storage units are of the same depth.
- A storage leg is shared when storage components change heights.
- A storage leg is used to support the seam where a break in the top or back occurs.
- All storage units sharing storage legs are facing the same or opposite direction.

*Tip: It is not allowed to share legs in back-to-back condition because the storage legs are for side-to-side use only. Additionally, in a back-to-back setting, the reveals will not fit, and would collide with the side-to-side under storage brace.*

- A shared leg is used at the point of ganging. For example, a leg base credenza and a leg base tower are able to share a leg at the point of connection. In addition, the suspension/ganging hardware kit must be used to connect the two units.

*Tip: A leg base tower cannot share a leg with a credenza that has a kneewell at the point of connection, because the storage legs used on a kneewell end panel do not include the larger plate that can support an extra unit.*

## Routing Power in Credenzas

### Specifying the Technology Trough in Various Credenza Situations:

LH option applied

RH option applied

Both option applied

Situation 1—Storage components with a kneewell on end (two or three storage components)

- Cut-out applies only to the storage portion when kneewell is on the end. Cannot select a cut-out on the straight end panel of kneewell.

LH option applied  
Kneewell option applied

RH option applied  
Kneewell option applied

Both option applied  
Kneewell option applied

Situation 2—Storage components with a kneewell in the middle with a storage component on either side

- Technology cut-out option applies to the outermost ends of storage only. Kneewell cut-out option applies to both sides of the kneewell. Cannot choose cut-out on only one side of the kneewell.

LH option applied

RH option applied

Both option applied

Situation 3—Storage components with full storage

- Cut-out option applies to the outermost ends/sides of a storage component. Inside panels of a storage have a cut-out as standard.

*Tip: Hinged door cabinets cannot accept technology cut-outs or technology zone due to regulation concern.*

*Tip: A technology worksurface is allowed over a kneewell.*

*Tip: On a leg base credenza, a square grommet can only be used in a kneewell due to clearance.*

# Leg Base Return Credenzas

For Use with Leg Base Storage

## Actual Dimensions

### Leg Base Return Credenza

|                     |                  |
|---------------------|------------------|
| Depth               | 18" or 24"       |
| Width of Storage    | 15" or 18"       |
| Width of Back Panel | 42", 48", or 60" |
| Height              | 27 1/2"          |

## Product Details

**Left- and right-hand versions of return credenzas** are available.

**Return credenzas** make it easy to get the right size modesty with a 15"W or 18"W box/file pedestal.

**Pedestal top** is open to attach under the worksurface.  
*Tip: Worksurfaces are ordered separately.*

**Heavy duty steel, telescoping slides** are standard on all drawers. Slides are full extension on both box and file drawers. At full extension, entire space within the drawer is accessible.

**Soft close slides** are available as an option for 15"W and 18"W box and file drawers.

**Drawers** have five-ply maple construction with sanded dovetail joinery. These drawers include two dividers in box drawers.  
*Tip: Miter fold drawer option is not available on leg base storage.*

**File drawers** are equipped with a fastened metal filing system. File drawers are designed to hold hanging file folders.

*Tip: Leg base storage units with a depth of 18" will not accommodate legal redweld folders. For this use, order 24"D units.*

► Page 204

Contemporary

Jazz

Bar

Nile

Integral

Transitional

Inset

Beam

**Pulls** are available in eight different styles to provide design options that range from conventional to progressive.

*Tip: Integral pull is not available on laminate or composite fronts.*

► Page 228

**One pull per drawer** is standard.

**Locks** are available factory or field-installed. Factory installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► Lock and Keying, page 646

**Wood veneer grain direction** runs vertically on leg base storage.

*Exception: Wood veneer runs horizontally on the mitered base of bookcases.*

► Page 239

**Back panel** is flush with the height of the credenza.

**Return credenzas** are available with standard pulls and storage leg finishes.

## Connections

**When a return work-surface is attached to a return credenza**, an overhang up to 6" is allowed.

**Sharing storage legs** is allowed with a return credenza and another leg base storage unit of the same depth. An example of this would be a tower next to the pedestal of the same depth.

**Storage legs** ship unattached.

## Surface Materials

### Leg base pedestal and modesty panel

- Wood case with wood front
- Laminate case with same or contrasting laminate front
- Laminate case with wood front
- Customiz stain (option on wood)

*Tip: When specifying all wood storage units, the case and the front must be the same finish. When specifying all laminate storage units, the case and the front can be the same or contrasting finishes.*

### Storage legs

- 4728 Nickel Metallic
- 4799 Platinum Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze

### Storage leg with reveal

- 4728 Nickel Metallic
- 4799 Platinum Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze

### Attachment hardware

- Black paint only

### Contemporary or bar pulls

- 0835 Black
- 9201 Polished Chrome
- 9211 Nickel
- 9212 Silver

### Jazz pulls

- 0835 Black
- 4799 Platinum Metallic
- 9201 Polished Chrome
- 9211 Nickel
- 9212 Silver

### Nile pulls

- 0835 Black
- 4799 Platinum Metallic
- 7278 Dark Bronze
- 9201 Polished Chrome
- 9211 Nickel

### Integral pulls

- Wood, if wood front is specified
- Tip: Not available on laminate or composite fronts.*

### Beam pulls

- 4728 Nickel Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze
- 8043 Clear Anodized Aluminum

### Transitional pulls

- 0835 Black
- 4799 Platinum Metallic
- 7278 Dark Bronze
- 9211 Nickel

### Inset pulls

- 4728 Nickel Metallic
- 4799 Platinum Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze

### Face lock

- 9201 Polished Chrome
- 9250 Ember Chrome

*Tip: When an integral pull is specified with a 9250 Ember Chrome lock, the lock housing is black, and when a 9201 Polished Chrome lock is specified, the lock housing is nickel.*

## Application Topics

**Individual leg base storage units of the same depth** may share storage legs.

*Tip: The external sides of the storage case will be defaced by the suspension/ganging hardware.*

*Tip: Only leg base credenzas with a kneewell accept a square grommet.*

# Leg Base 21½"H Credenzas

## 21½"H credenzas

feature up to three specifiable storage positions.

► Specifying, page 438

**Wood veneer** is matched across storage fronts in assembled credenzas.

**Storage leg** is 8¾"H and is used to support and elevate the entire unit.

**Storage legs** ship unattached.

**Assembled credenzas** do not include a top. Straight worksurfaces are ordered separately and installed in the field. The worksurface must be at least as wide as the credenza it covers.

*Note: Technology troughs are not available in 21½"H storage credenzas.*

**Back panel** is inset and spans the entire width of the unit. Seams are visible from the back of the unit. An optional finished inset back panel provides a clean aesthetic.

## Actual Dimensions

**Depth** 18" or 24"

**Width** 30", 36", 60", 66", 72", 90", or 96"

**Height** 21½"

## Product Details

Square

Bullnose

Blade

## Worksurface edge

aligns with the face of the drawer if square or bullnose worksurface edge profiles are selected. If the blade edge profile is selected, the bottom corner of the blade edge aligns with the drawer front.

*Tip: This alignment causes the blade edge profile to protrude 2⅛" beyond an adjacent tower or vertical cabinet.*

**Heavy duty steel, telescoping slides** are standard on all drawers. Slides are full extension on both box and file drawers. At full extension, entire space within the drawer is accessible.

**Drawers** have five-ply maple construction with sanded dovetail joinery.

*Tip: Miter fold drawer option is not available on leg base storage.*

**File drawers** are equipped with a fastened metal filing system. File capacities vary.  
▶ Page 204

Inset

Beam

**Pulls** are available in eight different styles to provide design options that range from conventional to progressive.

*Tip: Integral pull is not available on laminate or composite fronts.*

▶ Page 228

**One pull per drawer** is standard.

**Locks** are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

▶ *Lock and Keying*, page 646

**Wood veneer grain direction** runs vertically on leg base storage.

*Exception: Wood veneer grain direction runs horizontally on the mitered base of bookcases.*

▶ Page 239

**Counterweights** are shipped with all leg base storage for field installation to insure stability.

*Tip: In certain applications, counterweights may not be needed and can be optioned out at specification.*

*Exception: Counterweights are always needed in 18"D pedestals.*

**Cushion top** is optional on leg base 21½"H storage. It replaces a wood or laminate top. Cushion top ships separately.

▶ Page 310

*Tip: If used with an open unit, the cushion will overhang the front by ¾".*

**Cushion top** is only available in 30"W or 36"W. Multiple cushion tops can be attached to a credenza. A set of storage legs is required at each seam or break in the top (additional storage legs ordered separately).

*Note: When a cushion top is selected on an open unit, a worksurface must be specified along with the cushion top. If a file unit is selected, a cushion top is specifiable without an extra worksurface.*

**If a full worksurface spans the entire credenza**, a cushion may be added to the top of the worksurface without adding additional legs at the storage seam.

*Tip: If a cushion is placed over two 15"W or two 18"W components without a worksurface, then storage legs are required at the seam of the components.*

## Connections

### Full Storage

**Credenzas** are available in widths from 30"W to 96"W.

### Storage credenzas

offer multiple selections of storage in different widths, including:

- 30"W or 36"W Lateral File
- 30"W or 36"W Open Unit

**Top on credenza** is open to attach under a worksurface. Order worksurface separately. Elective Elements straight worksurfaces are recommended.

**Inset back panels** are standard on assembled leg base storage credenzas, but a finished option, in laminate or wood, is available.

**Inset back panels** span the entire width of the credenza. Seams are visible on the back side of the unit.

**Storage legs** support credenzas in a set of four up to 72"W. 78"W or wider require an extra set of storage legs, resulting in six storage legs total which ship with the credenza.

**Under storage brace** spans the largest set of storage components. If storage is all equal widths the brace will be placed on the left hand side of the credenza.

### Sharing Storage Legs

**Shared storage legs** are optional:

- When a credenza and another leg base storage unit are the same depth.
- If the units sharing the storage leg are facing the same direction.

**Default position of shared storage legs** is under the taller leg base storage unit, with the storage leg plate supporting the smaller unit.

**An extra set of storage legs** is supplied when:

- A credenza is ganged to another leg base storage unit of the same depth. The default position is the storage leg under the taller unit, and the storage leg plate under the credenza.
- A change in height occurs in two ganged leg base storage units.

**Storage legs** must attach on the ends of a unit, and on the interior unit that is not supported by an under storage brace.

**Storage legs** ship unattached.

**Suspension/ganging kits** link the credenza and tower.

▶ Page 585

## Under Storage Braces

**Credenza brace** is 27⅞"H and is used to support the larger of the two units within a three component credenza. For credenzas up to 96"W, the brace ships attached.

**Under storage braces** are required when:

- Two units are ganged together in a credenza with no shared leg at the seam.
- Tip: A credenza with more than one worksurface or cushion top must have an extra set of storage legs at the seam.*

**Under storage braces** may be replaced by adding an extra set of storage legs at the seam between units. Storage legs are ordered separately, the under storage brace may be recycled.

**When routing power cables through a leg base 27½"H credenza,** use the scallop in the bottom panel and a power shroud to hide cords exiting the unit.

## Surface Materials

### Leg base 21½"H credenzas

- Wood case with wood front
- Laminate case with same or contrasting laminate front
- Laminate case with wood front
- Customiz stain (option on wood)

*Tip: When specifying all wood storage units, the case and front must be the same wood finish. When specifying all laminate storage units, the case and the front can be the same or contrasting finishes.*

*Tip: Wood veneer is matched across storage fronts in assembled leg base credenzas.*

## Inset pulls

- 4728 Nickel Metallic
- 4799 Platinum Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze

## Face lock

- 9201 Polished Chrome
- 9250 Ember Chrome

*Tip: When an integral pull is specified with a 9250 Ember Chrome lock, the lock housing is black, and when a 9201 Polished Chrome lock is specified, the lock housing is nickel.*

## Cushion top

- Fabric
- Leather

**Cushion top** will be manufactured in a four seam pattern in all standard solid color seating upholstery, leather, vinyls, COM leathers, and COM vinyls. These upholsteries are:

- Brisa
- Buzz2
- Cogent: Connect
- Elmosoft Leather
- Gaja – Cradle to Cradle Certified™ Silver
- Leather
- Stand In
- Select Surfaces leather
- Vinyl

**Cushion top** will be manufactured in a two seam pattern on all standard upholstery not listed under the four seam pattern. All COMs including pattern or textured leather and vinyl, will be manufactured in a two seam pattern.

*Tip: When more than one worksurface or cushion top is used on a credenza, an extra set of storage leg is needed at the seam where the worksurfaces meet.*

## If a full worksurface spans the entire credenza,

a cushion may be added to the top of the worksurface without adding additional legs at the storage seam.

*Tip: If a cushion is placed over two 15"W or two 18"W components without a worksurface, then storage legs are required at the seam of the components.*

## Shipping

**Leg base credenzas up to 96"W** ship from the factory with the components assembled: back panel, under-storage brace, and storage components. Storage legs are included to be attached in the field.

# Leg Base 27½"H Credenzas

**27½"H credenzas** feature up to three specifiable storage or kneewell positions, selected from left to right.

*Tip: 102"W and 108"W credenzas only offer a combination of two storage units with a kneewell.*

► Specifying, page 448

**Kneewells** are specifiable from 30" to 72"W in a stand alone setting or within a built up credenza.

*Tip: Only leg base credenzas with a kneewell can accept a square grommet.*

**Optional technology trough** routes power and data through 27½"H credenza storage.

*Note: A power shroud is recommended to route power from a leg base 27½"H credenza to the floor.*

**Storage leg** is 8¾"H and is used to support and elevate the entire unit.

**Storage legs** ship unattached.

## Actual Dimensions

### 18"D Leg Base 27½"H Credenzas

|        |                       |
|--------|-----------------------|
| Depth  | 18"                   |
| Width  | 60", 72", 90", or 96" |
| Height | 27½"                  |

### 24"D Leg Base 27½"H Credenzas

|        |                                                                                     |
|--------|-------------------------------------------------------------------------------------|
| Depth  | 24"                                                                                 |
| Width  | 15", 18", 30", 36", 42", 45", 48", 60", 66", 72", 78", 84", 90", 96", 102", or 108" |
| Height | 27½"                                                                                |

**Wood veneer** is matched across storage fronts in assembled credenzas.

**Back panel** is inset and spans the entire width of the unit. Seams are visible from the back of the unit. An optional finished inset back panel provides a clean aesthetic.

**Power shroud** manages wires and cables exiting the bottom of each leg base component to the floor. It accommodates two standard whips.

## Product Details

### Square Bullnose

### Blade

### Worksurface edge

aligns with the face of the drawer if square or bullnose worksurface edge profiles are selected. If the blade edge profile is selected, the bottom corner of the blade edge aligns with the drawer front.

*Tip: This alignment causes the blade edge profile to protrude 2 1/8" beyond an adjacent tower or vertical cabinet.*

**Heavy duty steel, telescoping slides** are standard on all drawers. Slides are full extension on both box and file drawers. At full extension, entire space within the drawer is accessible.

**Soft close slides** are available as an option for 15"W and 18"W box and file drawers.

**Drawers** have five-ply maple construction with sanded dovetail joinery. These drawers include two drawer dividers in box drawers.

*Tip: Miter fold drawer option is not available on leg base storage.*

**File drawers** are equipped with a fastened metal filing system. File capacities vary. ▶ Page 204

Contemporary

**Pulls** are available in eight different styles to provide design options that range from conventional to progressive.

*Tip: Integral pull is not available on laminate or composite fronts.*

▶ Page 228

**One pull per drawer** is standard.

**Locks** are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

▶ *Lock and Keying*, page 646

**Wood veneer grain direction** runs vertically on leg base storage.

*Exception: Wood veneer grain direction runs horizontally on the mitered base of bookcases.*

▶ Page 239

**Counterweights** are shipped with all leg base storage for field installation to insure stability.

*Tip: In certain applications, counterweights may not be needed and can be optioned out at specification.*

*Exception: Counterweights are always needed in 18 1/4"D pedestals.*

**Cushion top** is optional on leg base 27 1/2"H storage. It replaces a wood or laminate top. Cushion top ships separately.

▶ Page 310

*Tip: If used with an open unit, the cushion will overhang the front by 3/4".*

**Cushion top** is only available in 30"W or 36"W. Multiple cushion tops can be attached to a credenza. A set of storage legs is required at each seam or break in the top (additional storage legs ordered separately).

**If a full worksurface spans the entire credenza**, a cushion may be added to the top of the worksurface without adding additional legs at the storage seam.

*Tip: If a cushion is placed over two 15"W or two 18"W components without a worksurface, then storage legs are required at the seam of the components.*

## Connections

### Full Storage

**Credenzas** are available in widths from 15"W to 108"W.

### Storage credenzas

offer multiple selections of storage in different widths, including:

- 30"W or 36"W Box/Lateral File
- 30"W or 36"W Open/Lateral File (Note: Only available in 18"D.)
- 30"W or 36"W Open Unit
- 30"W or 36"W Hinged Door Cabinet

**Top on credenza** is open to attach under a worksurface. Order worksurface separately. Elective Elements straight or technology straight worksurfaces are recommended.

#### Technology trough

is optional.  
*Tip: Hinged door cabinets are not allowed to accept technology. Fire code restrictions require continual access to a locked unit.*

**Unfinished inset back panels** are standard on assembled leg base storage credenzas, but a finished option, in laminate or wood, is available.

**Inset back panels** span the entire width of the credenza. Seams are visible on the back side of the unit.

**End panels in a kneewell** have a thickness of 1 $\frac{3}{8}$ " to mimic the thickness of a worksurface.  
*Tip: A technology worksurface is allowed over a kneewell component. However, a technology cutout is not allowed in an end panel, including a kneewell.*

**Storage legs** support credenzas in a set of four up to 72"W. 78"W or wider require an extra set of storage legs, resulting in six storage legs total which will ship with the credenza.

**Under storage brace** spans the largest set of storage components. If storage is all equal widths the brace will be placed on the left hand side of the credenza.

#### Credenzas with Kneewell

**If a kneewell on a credenza** is the point of connection when ganging with other leg base storage components, the storage legs cannot be shared.

**Leg base credenzas with a kneewell** can share legs with other leg base storage components if an end unit in the credenza is storage and is the point of connection with other leg base storage components.

#### Sharing Storage Legs

**Shared storage legs** are optional:

- When a credenza and another leg base storage unit are the same depth.
- If the units sharing the storage leg are facing the same direction.

#### Default position of shared storage legs

is under the taller leg base storage unit, with the storage leg plate supporting the smaller unit.

#### An extra set of storage legs

- A credenza is ganged to another leg base storage unit of the same depth. The default position is the storage leg under the taller unit, and the storage leg plate under the credenza.
- A change in height occurs in two ganged leg base storage units.

**Storage legs** must attach on the ends of a unit, and on the interior unit that is not supported by an under storage brace.

**Storage legs** ship unattached.

**Suspension/ganging kits** link the credenza and tower.

► Page 585

#### Wiring & Cabling

**Technology zone** can span between two leg base 27 $\frac{1}{2}$ "H storage units when cut-outs are specified.

**Technology trough** houses technology zones and route power and data. Refer to understanding electrical.

*Tip: A leg base 27 $\frac{1}{2}$ "H hinged door cabinet cannot accept power due to regulation constraints.*

**Cut-outs** available in right, left, and both right and left positions. Also available with no cut-outs if not needed for power routing.

**Metal shelves** extend completely to rear of unit (leg base) to provide support.  
*Note: Cable routing must be field cut in these unit.*

**Optional cable access cover** is available to cover cut-out if desired. Cover is 8043 Clear Anodized Aluminum or 7278 Dark Bronze.  
► Page 377

**Power** can feed into channel from a Montage panel by field-cutting a hole in the Montage skin.  
*Tip: Specify Montage panels with modified open base to facilitate vertical routing of power when not at junction.*

**Technology trough** has 3 cut-outs to facilitate cable routing. (Top view shown)

**Cables** can route directly into the technology trough from the lower portion of an open unit or pull-out tray.

**Power shroud** is used to conceal the wires from a technology trough as they exit the unit and reach the floor of leg base storage unit.

*Tip: Technology troughs are available in all 24"D storage or open/file 18"D storage, only in 27½"H credenzas.*

**Power shroud** holds up to two standard power and data whips.

**Power shroud** is available in three paint colors to blend into the surroundings rather than draw attention to power exiting the leg base credenza.

*Tip: Only leg base credenzas with a kneewell can accept a square grommet.*

## Surface Materials

### Leg base 27½"H credenzas

- Wood case with wood front
- Laminate case with same or contrasting laminate front
- Laminate case with wood front
- Customiz stain (option on wood)

*Tip: When specifying all wood storage units, the case and front must be the same wood finish. When specifying all laminate storage units, the case and the front can be the same or contrasting finishes.*

*Tip: Wood veneer is matched across storage fronts in assembled leg base credenzas.*

### Storage legs

- 4728 Nickel Metallic
- 4799 Platinum Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze

### Storage leg with reveal

- 4728 Nickel Metallic
- 4799 Platinum Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze

### Shelves

- Wood, if wood case is specified
- Laminate, if laminate case is specified

### Metal shelves

- 4728 Nickel Metallic
- 4799 Platinum Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze

### Contemporary or bar pulls

- 0835 Black
- 9201 Polished Chrome
- 9211 Nickel
- 9212 Silver

### Jazz pulls

- 0835 Black
- 4799 Platinum Metallic
- 9201 Polished Chrome
- 9211 Nickel
- 9212 Silver

### Nile pulls

- 0835 Black
- 4799 Platinum Metallic
- 7278 Dark Bronze
- 9201 Polished Chrome
- 9211 Nickel

### Integral pulls

- Wood, if wood front is specified

*Tip: Not available on laminate or composite fronts.*

### Beam pulls

- 4728 Nickel Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze
- 8043 Clear Anodized Aluminum

### Transitional pulls

- 0835 Black
- 4799 Platinum Metallic
- 7278 Dark Bronze
- 9211 Nickel

### Inset pulls

- 4728 Nickel Metallic
- 4799 Platinum Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze

### Face lock

- 9201 Polished Chrome
- 9250 Ember Chrome

*Tip: When an integral pull is specified with a 9250 Ember Chrome lock, the lock housing is black, and when a 9201 Polished Chrome lock is specified, the lock housing is nickel.*

### Cushion top

- Fabric
- Leather

**Cushion top** will be manufactured in a four seam pattern in all standard solid color seating upholstery, leather, vinyls, COM leathers, and COM vinyls. These upholsteries are:

- Brisa
- Buzz2
- Cogent: Connect
- Elmosoft Leather
- Gaja – Cradle to Cradle Certified™ Silver
- Leather
- Stand In
- Select Surfaces leather
- Vinyl

**Cushion top** will be manufactured in a two seam pattern on all standard upholstery not listed under the four seam pattern. All COMs including pattern or textured leather and vinyl, will be manufactured in a two seam pattern.

*Tip: When more than one worksurface or cushion top is used on a credenza, an extra set of storage legs is needed at the seam where the worksurfaces meet.*

### If a full worksurface spans the entire credenza, a cushion

may be added to the top of the worksurface without adding additional legs at the storage seam.

*Tip: If a cushion is placed over two 15"W or two 18"W components without a worksurface, then storage legs are required at the seam of the components.*

## Shipping

**Leg base credenzas up to 96"W ship** from the factory with the components assembled: back panel, under-storage brace, and storage components. Storage legs are included to be attached and units ganged in the field.

**Leg base credenzas larger than 96"W ship** knocked down in order to accommodate elevator sizes. The back panel will need to be attached in the field.

**Kneewell components in leg base credenzas** will always ship knocked down.

# Plinth Base Freestanding Bookcases

**Freestanding bookcases** provide shelf storage within a workstation, private office, or common area. They are available with or without doors.  
► Specifying, page 386

**Inset top** is finished.

**Case** has a wood core with a wood or laminate surface.

**Back panel** is standard inset and finished on 45"H and 65<sup>5</sup>/<sub>8</sub>"H bookcases. The 72<sup>1</sup>/<sub>2</sub>"H and 77<sup>1</sup>/<sub>2</sub>"H bookcases are standard with an unfinished back.

**Sides** are finished.

**Leveling glides** adjust for installations on uneven floors. Adjustability range is 1<sup>1</sup>/<sub>4</sub>".

**Freestanding Bookcase**

**Adjustable shelves** are finished on both sides and can be positioned in increments of 1<sup>1</sup>/<sub>4</sub>" to meet needs. Shelves are available in wood, laminate, or metal.  
*Tip: It is recommended to flip the wood or laminate shelf annually in the open bookcase.*

**Fixed shelf** provides structural stability. Shelves are available in wood, laminate, or metal.

**Interior** is finished.

**Base** is mitered on the front edge.

**Freestanding Bookcase without Doors**

F = Fixed Shelf

## Product Details

**Freestanding bookcase heights** will align with tower, vertical cabinet, and panel heights.  
► See *Height Matrix*, page 16, for alignment with other components.

**Shelves** are standard 3/4" thick. Thicker 1<sup>1</sup>/<sub>8</sub>" shelves are available for heavy load conditions as an option.  
*Tip: Heavy load conditions are defined as loads of 100 lbs or greater. Heavy load or metal shelves should be specified on wider units (30"W or 36"W) loaded with books or other heavy objects.*  
*Tip: Shelves with less than 12" of clearance height will not hold some binders in the vertical orientation.*  
*Tip: Metal shelves can be used in place of heavy load shelves.*

**Doors**, when selected, sit proud on the bookcase. Wood and laminate doors feature soft-close hinges.

### Freestanding Bookcases with Doors

|        |                                                                                                              |
|--------|--------------------------------------------------------------------------------------------------------------|
| Depth  | 15 <sup>7</sup> / <sub>8</sub> "                                                                             |
| Width  | 24", 30", or 36"                                                                                             |
| Height | 45", 65 <sup>5</sup> / <sub>8</sub> ", 72 <sup>1</sup> / <sub>2</sub> ", or 77 <sup>1</sup> / <sub>2</sub> " |

**Double-doors on all freestanding bookcases** open from the center out. One door has a right hinge and the other door has a left hinge.

**Glass doors** are available. They are equipped with a magnetic touch latch and do not have pulls. Dry erase markers can be used on glass doors with the exception of mirrored glass. The textured surface of the mirrored glass does not promote full erasure.

*Tip: When cleaning the glass, for best results, pour alcohol on a Magic Eraser, not directly on the glass.*

*Wipe with dry towel. Take care that the frame and inside backer do not come into contact with the alcohol or the appearance could be compromised.*

### Elective Elements

**products** are produced in a LEED certified manufacturing facility. Many Steelcase wood products are Cradle to Cradle™ certified. Please refer to Steelcase.com for the latest information.

# Plinth Base Towers, Vertical Cabinets, and Wardrobes

**Towers and vertical cabinets** are available with a variety of sizes and configuration options to provide file, shelf, or wardrobe space. Full wardrobe units are also available. They can stand alone or support overhead storage.  
► Specifying, page 400

**Back panel** is standard inset and finished on 45"H, 55¼"H, 65⅝"H, and 72½"H towers, vertical cabinets, and wardrobes. The 77½"H towers, vertical cabinets, and wardrobes are standard with an unfinished back.

**Adjustable wood or laminate shelf** is finished on both sides and can be reconfigured to meet needs. All units have at least one adjustable shelf.

**Case** has a wood core with a wood or laminate surface.

**Towers, vertical cabinets, and wardrobes with box drawers** have no dividers.

**Top and sides** are finished for use in any office application.

**Doors** sit proud on the case and are handed for left- or right-hand applications.

**Pulls** must be specified and are available in eight styles.

**Toe kick** is flush.

**Leveling glides** adjust for installations on uneven floors. Adjustability range is 1¼".

**Rails** are standard in file drawers. File capacities vary.  
► Page 204

## Actual Dimensions

### Towers

|        |                                |
|--------|--------------------------------|
| Depth  | 18", * 24", or 30"             |
| Width  | 15½" or 24"                    |
| Height | 45", 55¼", 65⅝", 72½", or 77½" |

### Vertical Cabinets

|        |                    |
|--------|--------------------|
| Depth  | 24"                |
| Width  | 30"                |
| Height | 45", 65⅝", or 77½" |

### Wardrobes

|        |                          |
|--------|--------------------------|
| Depth  | 18" or 24"               |
| Width  | 12", 15½", or 30"        |
| Height | 45", 55¼", 65⅝", or 77½" |

\*18"D is only available on 45"H and 55¼"H.

**Face lock** allows doors and drawers to be locked. Locks are standard keyed random.

*Tip: Wood doors with integral pulls and glass doors are not available with locks. However, drawers with integral pulls have locks.*  
► Lock and Keying, page 646

## Product Details

**Towers, vertical cabinets, and wardrobes** are available in heights that align with Montage panels and other storage units.  
► Page 16

**Doors** are handed for easy access. On right-hand units, the hinge is located on the right side of the door. On left-hand units, the hinge is located on the left. Wood and laminate doors feature soft-closed hinges. Hinged doors with pulls open 110°.  
*Tip: Use a right-handed unit if the user is sitting to the left of the unit and a left-handed unit if the user is sitting to the right of the unit.*  
*Exception: 30"W vertical cabinet and wardrobe doors open from the center out. One door has a right hinge and the other door has a left hinge.*

**Standard drawers** have five-ply maple construction with sanded dovetail joinery.

**Optional drawers** feature miter fold polypropylene drawers.

*Tip: Box drawer units in towers do not have drawer dividers.*

**Soft close slides** are available as an option for 15"W and 18"W box and file drawers.

**Pulls** are available in eight different styles to provide design options that range from conservative to progressive.  
*Tip: Integral pull is not available on laminate or composite fronts.*  
► Page 228

**Glass doors** are available. They are equipped with a magnetic touch latch and do not lock or have door pulls. Dry erase markers can be used on glass doors with the exception of mirrored glass. The textured surface of the mirrored glass does not promote full erasure.  
*Tip: On 24"W towers specified with glass door, only the 15"W door will be glass. The wardrobe door will be wood or laminate.*

**Wardrobe** is available on 24"W towers only. The door is always 8 1/2"W and it is not available with glass. It is equipped with two coat hooks.

**12"W personal wardrobes** have two interior hooks.

*Tip: 12"W personal wardrobes must be attached to an adjacent pedestal or end panel for stability.*

**One pull per wood or laminate door or drawer** is standard. Glass doors are equipped with magnetic touch latches and do not have pulls. Hinged glass doors open 110°.  
*Exception: 30"W vertical cabinets with two doors are equipped with only one integral or beam pull that is located on the right door.*  
*Tip: If hangers are desired for use with 18"D towers or wardrobes, petite hangers should be purchased.*  
*Tip: Pencil trays do not come with towers.*

**Locks** are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.  
*Exception: Door is not available with a lock when the glass option or an integral pull is specified. However, drawers with integral pulls will lock.*  
► Lock and Keying, page 646

**On 24"W towers**, only the wardrobe door and drawers will lock. The 15"W door does not lock.  
*Exception: Door with the glass option or an integral pull does not lock. Drawers with integral pulls will lock.*

**Wood veneer grain direction** runs vertically on towers and vertical cabinets.  
► Page 239

## Connections

**Overhead storage** can span between two towers (or vertical cabinets) or it can be attached to the side of one tower (or vertical cabinet) and be supported with a one-sided hutch kit on the other end. Specify a suspension/ganging hardware kit separately.

**A single-high overhead or shelf** can be supported by a tower, wardrobe, or vertical cabinet and be supported with a single side support frame on the other end.

**Organizer and open shelves** can span between two towers or vertical cabinets.  
*Tip: Open shelves are not recommended for use as bookshelves.*

**A single side support** can be used to suspend an organizer shelf with a 45"H or 55"H tower in an open plan setting.

**15"D straight or L-shape end panel** can be used to support a work-surface that is next to and attached to the tower, vertical cabinet, or wardrobes. The storage unit and end panel will be defaced when installed. Use a full-depth end panel if attachment to the storage unit is not desired.

### Surface Materials

#### Tower, vertical cabinet, and wardrobes

- Wood case with wood front
- Laminate case with same or contrasting laminate front
- Laminate case with wood front
- Customiz stain (option on wood)

*Tip: When specifying all wood storage units, the case and front must be the same wood finish. When specifying all laminate storage units, the case and the front can be the same or contrasting finishes.*

#### Door option

- Glass

*Tip: On 24"W towers specified with glass door, only the 15" door will be glass. The wardrobe door will be wood or laminate.*

#### Glass door frame option

- 4728 Nickel Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze
- 8043 Clear Anodized Aluminum

#### Shelves

- Wood, if wood case is specified
- Laminate, if laminate case is specified

#### Metal shelves

- 4728 Nickel Metallic
- 4799 Platinum Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze

#### Contemporary or bar pulls

- 0835 Black
- 9201 Polished Chrome
- 9211 Nickel
- 9212 Silver

#### Jazz pulls

- 0835 Black
- 4799 Platinum Metallic
- 9201 Polished Chrome
- 9211 Nickel
- 9212 Silver

#### Nile pulls

- 0835 Black
- 4799 Platinum Metallic
- 7278 Dark Bronze
- 9201 Polished Chrome
- 9211 Nickel

#### Integral pulls

- Wood, if wood front is specified

*Tip: Not available on laminate or composite fronts.*

#### Beam pulls

- 4728 Nickel Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze
- 8043 Clear Anodized Aluminum

#### Transitional pulls

- 0835 Black
- 4799 Platinum Metallic
- 7278 Dark Bronze
- 9211 Nickel

#### Inset pulls

- 4728 Nickel Metallic
- 4799 Platinum Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze

#### Lock

- 9201 Polished Chrome
- 9250 Ember Chrome

*Tip: When an integral pull is specified with a 9250 Ember Chrome lock, the lock housing is black. When a 9201 Polished Chrome lock is specified, the lock housing is nickel.*

#### Coat hooks

- Brushed nickel only

# Leg Base Towers and Wardrobes

Leg Base Towers and  
Wardrobes

**Towers** are available with a variety of sizes and configuration options to provide file, shelf, or wardrobe space. Full wardrobe units are also available. They can stand alone or support overhead storage.  
► Specifying, page 536

**Back panel** is standard inset and finished on 55¼"H, 65⅝"H, and 72½"H towers and wardrobes.

**Adjustable wood or laminate shelf** is finished on both sides and can be reconfigured to meet needs. All units have at least one adjustable shelf.

**Case** has a wood core with a wood or laminate surface.

**Leveling glides** adjust for installations on uneven floors. Adjustability range is 1¼".

*Tip: Two 15½"W towers can share four storage legs. Specify the tower brace and suspension/ganging hardware kit separately.*

*Tip: Two towers may share storage legs side-to-side, if the same depth. A suspension/ganging kit is required for these towers to share storage legs.*

**Top and sides** are finished for use in any office application.

**Doors** sit proud on the case and are handed for left- or right-hand applications.

**Pulls** must be specified and are available in eight styles.

**Wardrobes** are only available in 12"W personal size.  
► Page 546

*Tip: 12"W wardrobe must be attached to building wall or adjacent furniture.*

**Storage legs** are 8¾"H.

## Actual Dimensions

### Leg Base Towers

|        |                     |
|--------|---------------------|
| Depth  | 18" or 24"          |
| Width  | 15½" or 24"         |
| Height | 55¼", 65⅝", or 72½" |

### Leg Base Wardrobes

|        |                     |
|--------|---------------------|
| Depth  | 24"                 |
| Width  | 12"                 |
| Height | 55¼", 65⅝", or 72½" |

### Tower Brace

|        |      |
|--------|------|
| Depth  | 3¼"  |
| Width  | 28⅞" |
| Height | 3¼"  |

**Face lock** allows doors and drawers to be locked. Locks are standard keyed random.  
*Tip: Wood doors with integral pulls and glass doors are not available with locks. However, drawers with integral pulls have locks.*  
► Lock and Keying, page 646

## Product Details

**Leg base towers and wardrobes** are available in heights that align with Montage panels and other storage units.

► Page 17

Right-handed

Left-handed

**Doors** are hinged for easy access. On right-hand units, the hinge is located on the right side of the door. On left-hand units, the hinge is located on the left. Wood and laminate doors feature soft-closed hinges. Hinged doors with pulls open 110°.

*Tip: Use a right-handed unit if the user is sitting to the left of the unit and a left-handed unit if the user is sitting to the right of the unit.*

**Standard drawers** have five-ply maple construction with sanded dovetail joinery.

*Tip: Miter fold drawers are not available on leg base storage.*

*Tip: Box drawer units in towers do not have drawer dividers.*

Contemporary Jazz

Bar Nile

Integral Transitional

Inset Beam

**Pulls** are available in eight different styles to provide design options that range from conservative to progressive.

*Tip: Integral pull is not available on laminate or composite fronts.*

► Page 228

**Glass doors** are available. They are equipped with a magnetic touch latch and do not lock or have door pulls. Dry erase markers can be used on glass doors with the exception of mirrored glass. The textured surface of the mirrored glass does not promote full erasure.

*Tip: On 24"W towers specified with glass door, only the 15 1/2"W door will be glass. The wardrobe door will be wood or laminate.*

*Tip: Two 15 1/2"W towers can share four total storage legs when used with a tower brace and a suspension/ganging hardware kit.*

**Wardrobe** is available on 24"W towers only. The door is always 8 1/2"W and it is not available with glass. It is equipped with two coat hooks.

**12"W personal wardrobes** have two interior hooks.

*Tip: 12"W personal wardrobes must be attached to an adjacent pedestal or end panel for stability.*

*Tip: Two 12"W personal wardrobes can share four total storage legs side to side, if also joined by a suspension/ganging hardware kit.*

**One pull per wood or laminate door or drawer** is standard. Glass doors are equipped with magnetic touch latches and do not have pulls. Hinged glass doors open 110°.

*Tip: If hangers are desired for use with 18"D towers or wardrobes, petite hangers should be purchased.*

**Sharing storage legs** is possible when both components are the same depth.

**Tower brace** is used to join two 15 1/2"W towers with four legs. It allows this slim pair to avoid need for storage legs at the seam.

► Page 353

**Locks** are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

*Exception: Door is not available with a lock when the glass option or an integral pull is specified. However, drawers with integral pulls will lock.*

► Lock and Keying, page 646

Lock

**On 24"W towers**, only the wardrobe door and drawers will lock. The 15 1/2"W door does not lock.

# Overhead Cabinets

For Use with Plinth Base and Leg Base Storage

**Overhead cabinets** provide storage above a work-surface and are available in single- and double-high models.

► Specifying, page 550

**Back** is inset and unfinished.

**Sides** are finished.

**Optional light valance or metal light housing** are available.  
► Page 594

**Optional insert back panel** is available in wood, laminate, or tackable fabric on 15"H single-high cabinets or 30"H double-high cabinets. Finished back panel that sits proud is available for use on a single-high overhead cabinet in an exposed application.

► Page 576

*Tip: When woodgrain laminates are specified, the grain direction runs vertically for back panels up to 60"W, and horizontally for back panels from 66"W to 120"W.*

**Single-high overhead cabinets** are available in a variety of storage area configurations with hinged doors or open. Sliding doors are available on 15"H units only.

**Top** is finished.

**Double-High**

**Double-high overhead cabinets** are available with hinged doors, with a combination of hinged doors and open storage areas, or with all open storage areas. Sliding doors are not available.

**Interior** is finished.

**Case** has a wood core with a wood or laminate surface.

**Door** sits proud on the overhead cabinet case. The door bottom aligns with the base of the case available in wood or glass.

**22"H Single High**

**Single-High**

**Optional locks** are available on hinged door cabinets.

**Bottom** is finished and flush.

## Actual Dimensions

### Single-High Overhead Cabinet with Hinged Doors

|        |                                                               |

\*18"D and 17<sup>1</sup>/<sub>4</sub>"D only available on 15"H.

## Product Details

Equal widths

**Hinged doors**, when selected, are all equal in width on the overhead cabinet.

30"W

36"W

42"W

48"W

54"W

60"W

66"W

72"W

78"W

84"W

90"W

96"W

**One fixed divider on sliding door and open units** is standard on 36"W, 42"W, 48"W, 54"W, 60"W, and 66"W overhead cabinets. The 84"W, 90"W, and 96"W overhead cabinets have three fixed dividers. The 72"W and 78"W sliding door units have one fixed divider and the open units have three fixed dividers.  
*Exception: The 30"W overhead cabinet does not have a divider.*

**Hinged doors** are available on single- and double-high overhead cabinets. Wood and laminate doors are equipped with soft-close hinges and are available with ADA open/close hinges. Glass doors feature self-close hinges and are available with ADA open/close hinges. They do not have pulls. Glass doors are available on double-high cabinets and single-high cabinets that are 60"W, 72"W, 90"W, and 96"W. Glass doors do not lock. Dry erase markers can be used on glass doors. The texture of mirrored glass does not promote full erasure.

*Tip: Select the ADA opening/closing option when required. This option features a magnetic touch latch and neutral hinge.*

*Tip: When stacking single-high overhead cabinets with hinged doors, the ADA option should be selected.*

**Sliding door** is available only on 15"H single-high overhead cabinets. It does not have a pull. Safety stops are positioned on both ends of the cabinet. The door covers half of the cabinet width. Dry erase markers can be used on glass doors. The texture of mirrored glass does not promote full erasure.

**Single-high cabinets** can be finished on the back by using a proud back panel. Insert back panels are also available on 15"H cabinets. When an insert is used, there will be a 3 mm reveal around all edges of the insert. Inserts are available in wood, laminate, or tackable fabric.

**Locks** are available factory- or field-installed on hinged doors. Factory-installed locks are keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

*Tip: Sliding doors and glass doors are not available with locks.*

*Tip: When specifying locks for double-high combination cabinets, only the tall door(s) will lock.*

► *Lock and Keying, page 646*

**Wood veneer grain direction** runs vertically on overhead cabinets. Door faces have coordinating veneer grain.

► *Page 239*

**Optional light valance** is available to conceal task lighting if desired. A three-sided version is used for wall-mounted overhead cabinets. A single-sided version is used for cabinets mounted on hutch kits.

**Optional light housing** is available when the LED shelf light is used. The metal shield covers the light and can be specified with one, two, or three lights based on the width of the overhead cabinet.

## Connections

**Single-high overhead cabinets** can be attached to a structural wall, supported by a hutch kit, suspended between towers or stacking bookcases, or supported by a hutch kit and a tower or stacking bookcase. Single-high cabinets can be stacked on each other using hutch kits or high pedestals with side support frames.

*Tip: When specifying a single-high overhead cabinet supported by a hutch kit adjacent to a stacking bookcase, use a one support hutch kit and suspend the other end of the overhead from the bookcase. This will allow for precise alignment.*  
*Tip: 22"H overheads follow the same suspension rules as single-high (15"H) overheads.*

**A single side support frame** can be used to support a single-high cabinet when the other end of the cabinet is attached to a stacking bookcase, tower, vertical cabinet, or wardrobe.

**15"H single-high cabinets up to 72"W** can attach on-module to Privacy Wall solid wall panels. Cabinets larger than 72" cannot be accommodated.

**15"H single-high cabinets up to 72"W** can attach to Montage panels on-module with the back of the cabinet up against the panel using back-mount brackets. Cabinets greater than 72"W cannot be accommodated. Follow the Montage panel stability rules.

► *See Montage specification guide.*

*Tip: Overhead cabinets cannot be attached using back-mount brackets to 45"H and 55"H Montage panels.*

*Tip: When mounting two or more cabinets side by side on Montage, Answer or Privacy Wall, ganging straps or cabinet-to-cabinet attachment kits are recommended.*

**15"H single-high overhead cabinets up to 48"W** can attach on-module to Answer panels. Cabinets greater than 48"W cannot be accommodated. Elective Elements cabinets cannot be used on Answer stacking frames. Follow the Answer panel stability rules.

► *See Answer Solutions Specification Guide.*  
*Tip: End-mount brackets are not available for use with Answer panels.*

**When mounting two or more cabinets side by side** to Answer panels, ganging brackets are required. If a worksurface seam is directly below where two cabinets come together, use suspension/ganging brackets on the worksurface as well. If additional rigidity is desired, use the Elective Elements cabinet-to-cabinet attachment kit.

*Tip: 22"H single-high cabinets can not attach to Answer panels.*

**Double-high overhead cabinets** can be attached to a structural wall, suspended between towers, or stacking bookcases supported by a hutch kit, or supported by a one-sided hutch kit and a tower.

**Attachment hardware** is available as an option to secure an overhead cabinet in a structural wall-mount or panel-mount application. Only 15"H single-high cabinets can be panel mounted. Hutch kits and suspension/ganging hardware kits are specified separately. Overhead cabinet is attached in the field.

**Overhead storage cabinets** are secured onto the attachment bracket to prevent accidental disengagement.

**Overhead cabinets** can attach so they align with tower, vertical cabinet, and panel heights.  
► Page 16

**Cabinet-to-cabinet attachment kits** are used to provide alignment between overhead cabinets mounted side by side in a panel or wall-mounted application

### Wiring & Cabling

**Because the bottom of the cabinet** is flush, a low-profile task light should be specified.

► See *Storage Specification Guide*.

*Tip: Specify an optional valance to conceal task light if desired.*

*Tip: The LED shelf light can be used with the blade accessory shelf with or without overheads, service modules, or hutch kits.*

### Surface Materials

#### Overhead cabinet

- Wood case with wood front
- Laminate case with same or contrasting laminate front
- Laminate case with wood front
- Customiz stain (option on wood)

*Tip: When specifying all wood storage units, the case and front must be the same wood finish. When specifying all laminate storage units, the case and the front can be the same or contrasting finishes.*

#### Door option on select models

- Glass

#### Glass door frame option

- 4728 Nickel Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze
- 8043 Clear Anodized Aluminum

#### Lock on hinged doors only

- 9201 Polished Chrome
- 9250 Ember Chrome

#### Attachment hardware

- Black paint only

#### Attachment end bracket for Montage panels

- 4798 Sterling Metallic
- 4799 Platinum Metallic
- 4710 Low Gloss Black

### Application Topics

#### Storage Capacities

► Page 204

**When used above a worksurface with adjustable-height legs**, overhead cabinets should be suspended between towers or attached to a panel or wall. Misalignment with other free-standing components may result if overhead cabinets are used with a hutch kit on a worksurface with adjustable-height legs.

**Anytime a hutch kit supports an overhead cabinet on a worksurface**, an end panel or side panel of underworksurface storage unit must be used under the worksurface within 6" of where the side support frame is located.

**When overhead cabinets are stacked in-line**, the total length of the two overhead cabinets must exceed the worksurface length by at least 6" in order to overlap properly.  
*Tip: Overhead storage cannot be mounted on worksurfaces supported by slip-fit support(s).*

**When overhead cabinets are stacked perpendicular to each other**, the lower overhead cabinet will be off-set 1 1/2" and pushed off of the 6" module. In this application, a longer worksurface must be used to support the lower overhead cabinet. Hutch kits used are the same width as the cabinets they support.

**When overhead cabinets are used in a parallel stacking application,** a one-sided hutch kit should support the overhead cabinet that is located on top. The hutch kit is the same width as the opening. The overhead cabinet located on the bottom should use a two-sided hutch kit of the same width.

**Anytime a service module or hutch kit with cabinet or shelf** is mounted on a worksurface with less than 30" of storage below or without attachment to other worksurfaces (freestanding shell), units must be positioned back-to-back or placed up against a wall. If a bridge or return is attached to the worksurface with the storage, the unit can be freestanding.

**Overhead storage attached to an 18"D worksurface** in a freestanding condition with no perpendicular worksurface must be used back-to-back or up against a wall.

**Spanning two worksurfaces** is possible when a hutch kit is used.

*Tip: Do not attach hutch kit or side support frame to a worksurface edge with a profile.*

**Overhead storage cabinet can be shorter than the supporting worksurface** as long as an end panel or underwork surface storage unit is used under the worksurface within 6" of where the side support frame or hutch kit is located.

**When stacking multiple cabinets, organizer shelves and open shelves vertically** using wall-mount brackets, plan for space between the units. A tight fit is difficult to achieve due to tolerances and variations in wall conditions.

# Floating Shelf with Shelf Back Panel and Floating Back Panel

**Floating shelf** is offered in laminate or veneer and has a back panel.

► Specifying, page 562

**Floating back panel,** ordered separately, is offered in veneer and laminate, with a standard horizontal grain direction. Optional vertical grain laminate is limited to 60"W. There is no size restriction on vertical grain veneers.

► Specifying, page 586

**Shelves** mounted side-by-side must have at least a 2" gap between them.

**Shelf** cannot be mounted lower than 38" from the floor.

*Tip: Floating shelf is intended for light load settings. Shelf weight capacity is 18 pounds per linear foot.*

## ⚠ WARNING

**The shelf** is not designed to function as a seat or for heavy bulk storage.

## Actual Dimensions

### Floating Shelf with Shelf Back Panel

|                                     |                        |
|-------------------------------------|------------------------|
| Floating shelf depth                | 6" and 12"             |
| Floating shelf and back panel width | 36", 54", 72", and 90" |
| Shelf back panel height             | 15", 22", and 30"      |
| Shelf back panel thickness          | ¾" or 1"               |

### Floating Back Panel

|           |                            |
|-----------|----------------------------|
| Width     | 36", 54", 72", and 90"     |
| Height    | 8", 15", 22", 36", and 48" |
| Thickness | ¾" or 1"                   |

*Tip: Refer to SmartTools for parametric sizes, available in 1/8" increments within the following ranges: 6"–15" depth, 30"–120" width, and 7"–48" height.*

**Shelf back panel** is offered in laminate or veneer, with a standard horizontal grain direction. Optional vertical grain laminate is limited to 60"W. There is no size restriction on vertical grain veneers (option).

**Floating shelf** comes standard with a horizontal grain direction. Vertical grain direction is not available.

**The floating shelf** can be mounted in a structural wall-mount application. Not intended for a panel-mounted application.

*Tip: The floating shelf can be mounted in a structural wall-mount application.*

## Surface Materials

### Floating shelf

- Wood veneer
- Laminate
- Open Line laminate (option)

### Shelf back panel

- Wood veneer
- Laminate
- Open Line laminate (option)

### Floating back panel

- Wood veneer
- Laminate
- Open Line laminate (option)

### Edge on shelf, back panel, and floating back panel

- Plastic
- Wood veneer

*Tip: Floating shelf with shelf back panel and floating back panel are also available in a laminate/veneer mix.*

# Organizer, Open, Blade Accessory Shelf, Desktop Organizers, and Stacking Paper Organizers

For Use with Plinth Base and Leg Base Storage

## Organizer, open, accessory shelves, blade accessory shelf, desktop organizers, and stacking paper organizers

accommodate small-scale work tools and allow users to effectively arrange paper piles in their workspace.

► Specifying, page 572

**Case** has a wood core with a wood or laminate surface.

**Miter-folded back** is featured on an open shelf.

**Open shelf** provides storage above or below the worksurface. Open shelf is not intended for heavy, bulk storage such as books.

**Blade accessory shelf** is available in multiple finishes.

**Blade accessory shelf** is available in 6" increments, spanning from 48" to 96" wide.

**Top** is finished.

**Back** is inset and unfinished. Finished back panel that sits proud on the case is available. Wood or laminate insert back panels are also available.

► Page 574

**Interior** is finished.

**Divider** is fixed and is standard on organizer shelves. The 84"W, 90"W, and 96"W shelves have three dividers. *Exception: The 30"W organizer shelf does not have a divider.*

**Optional light valance or metal light housing** are available.

► Page 594

**Sides and bottom** are finished.

## Blade accessory shelf

is a 3"H aluminum shelf for use with an overhead, service module, or organizer.

*Tip: Blade accessory shelf cannot mount to a wall without the use of overhead, service module, or organizer.*

**Metal shelves** are standard.

## Desktop Organizer - Combo

### Actual Dimensions

| Organizer Shelf |                                                               | Blade Accessory Shelf        |                                        | Desktop Organizer - Combo |            | Stacking Paper Organizer |             |
|-----------------|---------------------------------------------------------------|------------------------------|----------------------------------------|---------------------------|------------|--------------------------|-------------|
| Depth           | 15" or 17¼"                                                   | Depth                        | 14⅞"                                   | Depth                     | 15"        | Depth                    | 15" or 17¼" |
| Width           | 30", 36", 42", 48", 54", 60", 66", 72", 78", 84", 90", or 96" | Width                        | 48", 54", 60", 66", 72", 78", 90", 96" | Width                     | 60" or 72" | Width                    | 15"         |
| Height          | 7½"                                                           | Height                       | 3¾"                                    | Height                    | 21⅝"       | Height                   | 17¼"        |
| Open Shelf      |                                                               | Desktop Organizer - Vertical |                                        |                           |            |                          |             |
| Depth           | 15"                                                           | Depth                        | 12⅜"                                   |                           |            |                          |             |
| Width           | 30", 36", 42", 48", 54", or 60"                               | Width                        | 14⅜"                                   |                           |            |                          |             |
| Height          | 7½"                                                           | Height                       | 18⅞" or 21½"                           |                           |            |                          |             |

*Tip: Blade accessory shelf is available in varying widths to be used with service module or single-side supports.*

## Product Details

**Wood veneer grain direction** runs lengthwise on the top and bottom of the shelves and runs vertically on the sides.  
▶ Page 239

**Optional light valance or metal light housing** are available to conceal task lighting if desired. A three-sided valance version is used for wall-mounted shelves. A single-sided valance version is used for shelves mounted on hutch kits. A metal light housing conceals an energy saving LED shelf light.

**Desktop organizer** sits on a worksurface. The horizontal paper shelves are standard in metal.  
*Tip: When a vertical desktop organizer is used, there is not enough depth for both a tackboard and a standard light valance. Consider an LED shelf light with or without a metal light housing.*

*Tip: The vertical desktop organizer must be used under a shelf, service module, or overhead, even though it does not attach, to limit the weight placed on its shelves.*

Stacking Paper Organizer

**Stacking paper organizer** is used to support a single-high cabinet or shelf. The organizer must be attached to the cabinet or shelf and to the worksurface.  
*Tip: When used with a single-high cabinet over plinth base 1.5 high storage or leg base 21½"H storage, the height aligns with 55¼"H towers.*

*Tip: Two stacking paper organizers can be used to support a single-high overhead cabinet or shelf or one end can be supported by a 17¼" H side support frame.*

## Connections

**Organizer and open shelves** can be attached to a structural wall, supported by a hutch kit, suspended between towers or stacking bookcases, or supported by a hutch kit and a tower or stacking bookcase.  
*Tip: Open shelves are not rated for use as bookshelves.*

**A single side support frame** can be used to support an organizer or open shelf when the other end of the shelf is attached to a stacking bookcase, tower, vertical cabinet, or wardrobe.

**Organizer and open shelves up to 72"W** can attach on-module to Privacy Wall solid wall panels. Shelves larger than 72" cannot be accommodated.

**Organizer and open shelves 72"W** can attach to Montage panels on-module with the back of the cabinet up against the panel using back-mount brackets. Shelves greater than 72"W cannot be accommodated. Follow the Montage panel stability rules.  
▶ See Montage specification guide.

*Tip: Shelves cannot be attached using back-mount brackets to 45"H and 55"H Montage panels.*

**Organizer and open shelves up to 48"W** can attach on-module to Answer panels. Shelves greater than 48"W cannot be accommodated. Elective Elements shelves cannot be used on Answer stacking frames. Follow the Answer panel stability rules.  
▶ See Answer Specification Guide.  
*Tip: End-mount brackets are not available for use with Answer panels.*

**Blade accessory shelf** can attach to the bottom of an overhead cabinet, an organizer or open shelf, or a service module. It accommodates stacks of papers or other small items. Attachment hardware is included.  
▶ Page 570

*Tip: Blade accessory shelves are dimensionally designed so that the end of the shelf lines up with the end of an overhead or service module, or sit under a single support or two support hutch kit or side support. The blade accessory shelf is available for use with a 48"W, 60"W, 72"W, 84"W, or 96"W overhead cabinet or service module.*

**Blade accessory shelf** accommodates small-scale work tools and allows users to effectively arrange paper piles in their workspace.

**Blade accessory shelves** cannot be wall mounted unless under an overhead, service module, or organizer.  
*Tip: The blade accessory shelf width cannot exceed the length of the supporting product.*

*Tip: Select the LED shelf light with the metal light housing for a light under any blade accessory shelf.*

*Tip: Blade accessory shelf cannot be used with open hutch kit.*

*Tip: Two blade accessory shelves may be used next to one another under a wider overhead. However, due to construction, there may be some misalignment of the front edges of each shelf.*

**Organizer shelves** can be finished on the back by using a proud back panel or by using an insert. When an insert is used, there will be a 3 mm reveal around all edges of the insert. Inserts are available in wood or laminate.

**A single side support** can be used to suspend an organizer shelf with a 45"H or 55"H tower in an open plan setting.

### Wiring & Cabling

**Because the bottom of the shelf** is flush, a low-profile task light should be specified.  
▶ See *Storage Specification Guide*.

**LED shelf light** can be field installed to the bottom of an overhead, a service module, an organizer, an open shelf, or a blade accessory shelf.  
▶ See LED shelf light, page 629.

**Blade accessory shelf wire management** can fall behind a tackboard, tackboard with slatwall, or wood panel with slatwall, when used in conjunction with one another.

### Surface Materials

#### Organizer shelf and open shelf

- Wood case
- Laminate case
- Customiz stain (option on wood)

#### Blade accessory shelf

- 4728 Nickel Metallic
- 4799 Platinum Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze

#### Attachment hardware for Montage panels

- 4798 Sterling Metallic
- 4799 Platinum Metallic
- 4710 Low Gloss Black

### Application Topics

#### Storage Capacities

▶ Page 204

**When stacking multiple cabinets, organizer shelves and open shelves vertically** using wall-mount brackets, plan for space between the units. A tight fit is difficult to achieve due to tolerances and variations in wall conditions.

*Tip: Open shelves are not recommended for use as bookshelves.*

# Hutch Kits, Open Hutch Kits, and Side Support Frames

For Use with Plinth Base and Leg Base Storage

Hutch Kits, Open Hutch Kits,  
and Side Support Frames

**Hutch kit** includes side support frames and a tackboard.

► Specifying, page 580

**Open hutch kits** include two L-shaped side support frames.

► Specifying, page 583

**Tackboard** provides a fabric-covered tackable surface above the worksurface.

**Hutch kit** supports an overhead storage unit. Depending on the application, either one or two side support frames are included with each kit.

**Backs of hutch kit tackboards** are unfinished.

**Open hutch kits** do not require a back panel.

## Actual Dimensions

### Single-High Hutch Kits with Tackboard and Side Support Frame(s) for Use with Blade Accessory Shelf

|        |                            |
|--------|----------------------------|
| Depth  | 15"                        |
| Width  | 48", 60", 72", 84", or 96" |
| Height | 18½"                       |

### Double-High Hutch Kits with Tackboard and Side Support Frame(s) for Use with Blade Accessory Shelf

|        |                       |
|--------|-----------------------|
| Depth  | 15"                   |
| Width  | 60", 72", 84", or 96" |
| Height | 15⅞"                  |

### Open Hutch Kits

|        |                         |
|--------|-------------------------|
| Depth  | 15" or 17¼"             |
| Width  | 7"                      |
| Height | 7", 14½", 17¼", or 21⅝" |

### Side Support Frames

|        |                                         |
|--------|-----------------------------------------|
| Depth  | 15" or 17 1/4"                          |
| Width  | 7"                                      |
| Height | 6⅝", 7", 8½", 14½", 17¼", 18¾", or 21⅝" |

## Hutch Kits, Open Hutch Kits, and Side Support Frames, For Use with Plinth Base and Leg Base Storage, continued

### Product Details

**Side support** provides an open support structure that works in front of a window or in other office situations where an open environment is desired. Applicable in plinth base or leg base settings.

**18<sup>9</sup>/<sub>16</sub>"H hutch kits** are designed to be used with double-high overhead cabinets.  
► See *Height Matrix*, page 16, for alignment with other components.

**21<sup>5</sup>/<sub>8</sub>"H hutch kits** are designed to be used with single-high overhead cabinets.  
► See *Height Matrix*, page 16, for alignment with other components.

**Open hutch kits** support single-high overheads and shelves.

► See *Height Matrix*, page 16, for alignment with other components.  
*Tip: Open hutch kits do not support double-high overhead cabinets.*

**A single side support** can be used to suspend an organizer shelf with a 45"H or 55"H tower in an open plan setting.

### Connections

**Attachment hardware** is standard with a hutch kit to secure the side support frames to the overhead storage unit and a worksurface in the field.

**When a one-sided hutch kit is used with an overhead storage unit**, the side support frame supports one side of the unit and a tower or wall must support the other side.

*Tip: When specifying a single-high overhead cabinet supported by a hutch kit adjacent to a stacking bookcase, use a one support hutch kit and suspend the other end of the overhead from the bookcase. This will allow for precise alignment.*

**A single side support frame** can be used to support a single-high cabinet or shelf when the other end is attached to a stacking bookcase, tower, vertical cabinet, or wardrobe.

**Tackboard on 18<sup>9</sup>/<sub>16</sub>"H and 21<sup>5</sup>/<sub>8</sub>"H hutch kits** attach using brackets to the overhead cabinet or shelf and worksurface.

**Square edge**

**Profile edge**

**Side support frame** must rest squarely on the worksurface. It cannot be placed on a profile edge within 3" of the edge.

**Hutch kits** must match the depth of the cabinet they support.

### Wiring & Cabling

48"W or Less

60"W or Wider

**Scallop** on tackboards or wood panel is either centered (on 54"W or less) or left and right (on 60"W or wider) on the top edge. This allows a light cord to be routed to the cavity behind.

**Center grommet** on a worksurface may be covered if an overhead storage unit that is supported by a hutch kit extends to the middle of a worksurface.

**Worksurface scallop** will be covered by the tackboard, tackboard with slatwall, or wood panel with slatwall. Cords or cables should be routed before the tackboard or wood panel is installed. No additional cables will be able to be routed once the panel is in place. Applicable in plinth base or leg base settings.

**Hutch kits with tackboards** are available in a blade accessory shelf application, which is 3" shorter than a full-height unit. To use a hutch kit with a blade accessory shelf, select style numbers ending in B.

## Surface Materials

### Hutch kit

- 4728 Nickel Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze
- 8043 Clear Anodized Aluminum

### Side support frame

- 4728 Nickel Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze
- 8043 Clear Anodized Aluminum only

### Tackboard

- Vertical surface fabric

*Tip: Because tackboard is one-piece design, fabric will be railroaded for consistent application.*

### Wood panel

- Wood
- Customiz stain (option on wood)

### Slatwall section on tackboards and wood panels

- 0835 Black paint
- 8043 Clear Anodized Aluminum

### Attachment hardware

- Black paint only

## Application Topics

**Anytime a hutch kit supports an overhead storage unit on a work surface**, an end panel or side panel of a plinth base or leg base pedestal must be used under the worksurface within 6" of where the side support frame is located.

**When double-high cabinets are mounted on hutch kits**, physical attachment to the wall behind the cabinet is required. If used in a back-to-back application, the cabinets must be attached to each other.

**When overhead cabinets are stacked perpendicular to each other**, the lower overhead cabinet will be off-set 1 1/2" and pushed off of the 6" module. In this application, a longer worksurface must be used to support the lower overhead cabinet. Hutch kits used are the same width as the cabinets they support. Applicable in plinth base or leg base settings.

**When overhead cabinets are used in a parallel stacking application**, a one-sided hutch kit should support the overhead cabinet that is located on top. The hutch kit is the same width as the opening. The overhead cabinet located on the bottom should use a two-sided hutch kit of the same width.

*Tip: This application requires the 15"H single overhead; the 22"H overhead will not work in the lower position.*

**Anytime a service module or hutch kit with cabinet or shelf** is mounted on a worksurface with less than 30" of storage below or without attachment to other worksurfaces (freestanding shell), units must be positioned back-to-back or placed up against a wall. If a bridge or return is attached to the worksurface with the storage, the unit can be freestanding.

# Service Modules

For Use with Plinth Base and Leg Base Storage

**Service modules** provide storage above a work-surface and are available in single- and double-high models. They are available open, with doors, or with a combination of doors and open storage areas.

► Specifying, page 596

**Case** has a wood core with a wood or laminate surface.

**Sides** are finished.

**Bottom** is finished and flush.

**Top** is finished.

**Hinged doors** sit proud on the service module case.

**Interior of back** is finished.

**Optional light valance or metal light housing** is available.  
► Page 616

**Optional finished back panel** that sits proud of the case is available for use on 36<sup>5</sup>/<sub>8</sub>", 43<sup>1</sup>/<sub>2</sub>" and 48<sup>9</sup>/<sub>16</sub>"H service modules in an exposed application.

► Page 576

**Optional inset finished back panel** is available for 32<sup>1</sup>/<sub>4</sub>"H service modules.

**Exterior back** is unfinished.

**Face locks** are optional. On double-high combination cabinets, only the tall door(s) will lock.

► Lock and Keying, page 646

**Optional tackboard, tackboard with slat-wall, or wood panel with slatwall** can be used, but is not required, between the service module and worksurface.

► Pages 588 and 609

**Interior of storage area and dividers** is finished.

**Actual Dimensions****Single-High Service Module - 32 $\frac{1}{4}$ "H**

|        |                                      |
|--------|--------------------------------------|
| Depth  | 15" or 17 $\frac{1}{4}$ "            |
| Width  | 60", 66", 72", 78", 84", 90", or 96" |
| Height | 32 $\frac{1}{4}$ "                   |

**Single-High Service Module - 36 $\frac{5}{8}$ "H**

|        |                                      |
|--------|--------------------------------------|
| Depth  | 15 $\frac{3}{4}$ "                   |
| Width  | 60", 66", 72", 78", 84", 90", or 96" |
| Height | 36 $\frac{5}{8}$ "                   |

**Single-High Service Module - 43 $\frac{1}{2}$ "H**

|        |                                                   |
|--------|---------------------------------------------------|
| Depth  | 15" on open unit, 15 $\frac{3}{4}$ " on door unit |
| Width  | 60", 66", 72", 78", 84", 90", or 96"              |
| Height | 43 $\frac{1}{2}$ "                                |

**Double-High Service Module**

|        |                                                   |
|--------|---------------------------------------------------|
| Depth  | 15" on open unit, 15 $\frac{3}{4}$ " on door unit |
| Width  | 60", 66", 72", 78", 84", 90", or 96"              |
| Height | 48 $\frac{9}{16}$ "                               |

**Product Details**

**Doors** are all equal in width on the service module. They are equipped with soft-close hinges when wood or laminate doors are specified. Glass doors feature a self-close hinge.

*Tip: Specify the ADA opening/closing option when required. This option features a magnetic touch latch and neutral hinge.*

**Glass doors** are available on select service modules only. They do not lock. Glass doors feature a self-closing hinge. Dry erase markers can be used on glass doors. The texture of mirrored glass does not promote full erasure.

**Locks** are available factory- or field-installed. Factory-installed locks are available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

*Tip: Glass doors are not available with locks.*

► *Lock and Keying*, page 646

**36 $\frac{5}{8}$ "H service modules** align with 65 $\frac{5}{8}$ "H freestanding storage when mounted on 29"H work-surfaces. 43 $\frac{1}{2}$ "H service module align with 72 $\frac{1}{2}$ "H freestanding storage when mounted on 29"H work-surfaces. 48 $\frac{9}{16}$ "H service modules align with 77 $\frac{1}{2}$ "H freestanding storage when mounted on 29"H work-surfaces. 32 $\frac{1}{4}$ "H service modules align with 55 $\frac{1}{4}$ " freestanding storage when mounted on plinth base 1.5 high storage units.

► See *Height Matrix*, page 16, for alignment with other components.

**Wood veneer grain direction** runs vertically on service module doors, sides, and back panel. The grain on the top and underside runs lengthwise. Door faces have coordinating veneer grain.

► Page 239

**Clearance** between the worksurface and underside of the 36 $\frac{5}{8}$ "H single-high service module is 21 $\frac{5}{8}$ ". There is 18 $\frac{9}{16}$ " of clearance between the worksurface and the underside of a double-high service module.

**There** is 17 $\frac{1}{4}$ " of clearance between a 32 $\frac{1}{4}$ "H service module and the worksurface.

**All service modules** feature  $\frac{3}{4}$ " side panels.

**Optional light valance** is available to conceal task lighting if desired on 22 $\frac{1}{4}$ ", 32 $\frac{1}{4}$ ", 36 $\frac{5}{8}$ ", 43 $\frac{1}{2}$ ", and 48 $\frac{9}{16}$ "H service modules. A single-sided version is used for service modules.

**Metal light housing** is available for use with the LED shelf light for an application of one, two, or three lights. If an LED shelf light is used with a blade accessory shelf, the metal light housing is required.

## Connections

**Attachment hardware** is standard with service module to secure it to a desk, desk return, or return worksurface in the field. The service module should not be connected to an edge with a bullnose or blade profile.

**Tackboards, tackboards with slatwall, or wood panels with slatwall** can be removed and replaced without disturbing the service module. They are ordered separately. [▶ Page 200](#)

**Tackboards, tackboards with slatwall, or wood panels with slatwall** when used with a service module fit inside of the end panels.

**Service module heights** will align with tower, vertical cabinet, and panel heights. Actual height of the service module is determined by the worksurface height. [▶ Page 16](#)

## Wiring & Cabling

**LED shelf lighting** can be field installed to the bottom of the service module. Because the bottom of the cabinet is flush, a low-profile task light should be specified. *Tip: Use a metal light housing with a LED shelf light.* [▶ Page 628](#)

**Service module pass-through** is centered on the bottom edge of the back of 36 $\frac{5}{8}$ ", 43 $\frac{1}{2}$ ", and 48 $\frac{3}{16}$ " service modules and lines up with the optional worksurface scallop. *Tip: Specify an optional tackboards, tackboards with slatwall, or wood panel with slatwall to cover unfinished cable pass-through if desired.* *Tip: For cable and cord routing that extends from the service module to below the worksurface, be sure to specify a scallop in the connecting worksurface and a pass-through in the modesty panel.* [▶ Page 63](#)

**Tackboards, tackboards with slatwall, or wood panels with slatwall** for use with service module has two scallops located on the top to allow light cords to be routed to the cavity behind. The cords are then routed down through the service module, worksurface scallops, and modesty panel pass-through to below the worksurface. Once the cords are in place, the tackboard or wood panel will cover the service module and worksurface scallops. [▶ Page 588](#)

## Surface Materials

### Service module

- Wood case with wood front
- Laminate case with same or contrasting laminate front
- Laminate case with wood front
- Customiz stain (option on wood)

*Tip: When specifying all wood storage units, the case and front must be the same wood finish. When specifying all laminate storage units, the case and the front can be the same or contrasting finishes.*

### Door option

- Glass

### Glass door frame option

- 4728 Nickel Metallic
- 4803 Near Black Metallic
- 7241 Arctic White
- 7278 Dark Bronze
- 8043 Clear Anodized Aluminum

### Face lock

- 9201 Polished Chrome
- 9250 Ember Chrome

### Attachment hardware

- Black paint only

## Application Topics

### Storage Capacities

[▶ Page 204](#)

**When using a worksurface with adjustable-height legs**, use overhead cabinets that are suspended between towers or attached to a panel or wall.

**Service module can be shorter than the supporting worksurface** as long as a worksurface support or side panel of a storage unit is used under the worksurface within 6" of where the side of the service module is located.

**Service module can span multiple worksurfaces.** It should connect to desk, desk return, or return worksurfaces that have a square edge and not a profile edge.

**Tackboards, tackboards with slatwall, or wood panels with slatwall** for use in conjunction with the blade accessory shelf will be 3" shorter to accommodate the shelf.

### Anytime a service module or hutch kit with cabinet or shelf

is mounted on a worksurface with less than 30" of storage below or without attachment to other worksurfaces (freestanding shell), units must be positioned back-to-back or placed up against a wall. If a bridge or return is attached to the worksurface with the storage, the unit can be freestanding.

*Tip: Service modules cannot be mounted to worksurfaces supported by slip-fit support. Note: Applies to plinth and leg base.*

# Tackboards, Tackboards with Slatwall, and Wood Panels with Slatwall

For Use with Service Modules, Blade Accessory Shelves, and Wall-Mounted  
For Use with Plinth Base and Leg Base Storage

**Tackboards, tackboards with slatwall, or wood panels with slatwall** finish the space between a service module or overhead storage unit and a worksurface. They can be specified with service modules or be ordered separately for attaching to a wall.

*Tip: Tackboards, tackboards with slatwall, or wood panels with slatwall is standard with a hutch kit.*

► Specifying, pages 588 and 609

**Tackboard** provides a fabric-covered tackable surface above the worksurface.

## Product Details

**Wood veneer grain direction** runs in a vertical direction on the wood panel.  
► Page 239

**End cover** is available to finish the exposed end of the tackboard with slatwall and wood panel with slatwall when it is used in a wall-mounted application or if it is exposed in certain one-sided hutch kit applications. This end cover is not required if the panel is located between storage units such as towers or stacking bookcases.

*Tip: The ends of the tackboard are finished and do not require an end cover when attached to a wall.*

**End cover** is available in two different heights: 18½"H and 21½"H. When a blade accessory shelf is used, it is recommended to select an 18½"H end cover.

## Actual Dimensions

### Slatwall for Use with Blade Accessory Shelf and Use on Wall

|        |                            |
|--------|----------------------------|
| Depth  | ¾"                         |
| Width  | 48", 60", 72", 84", or 96" |
| Height | 15⅜" or 18½"               |

### Tackboard for Use with Blade Accessory Shelf and Use on Wall

|        |                            |
|--------|----------------------------|
| Depth  | ¾"                         |
| Width  | 48", 60", 72", 84", or 96" |
| Height | 15⅜" or 18½"               |

### Tackboard for Use with Blade Accessory Shelf

|        |                           |
|--------|---------------------------|
| Depth  | ¾"                        |
| Width  | 58½", 70½", 82½", or 94½" |
| Height | 11⅜"                      |

### Tackboard for Use with Blade Accessory Shelf and 32¼"H Single High Service Modules

|        |                           |
|--------|---------------------------|
| Depth  | ¾"                        |
| Width  | 58½", 70½", 82½", or 94½" |
| Height | 14⅞"                      |

### Tackboard for Use with Blade Accessory Shelf and Double-High Service Modules

|        |                           |
|--------|---------------------------|
| Depth  | ¾"                        |
| Width  | 58½", 70½", 82½", or 94½" |
| Height | 15⅜"                      |

### Tackboard with Slatwall for Use on Wall

|        |                                                                                          |
|--------|------------------------------------------------------------------------------------------|
| Depth  | ¾"                                                                                       |
| Width  | 30", 36", 42", 48", 54" (30"–54" width only for 21½" Height), 60", 66", 72", 84", or 96" |
| Height | 18½" or 21½"                                                                             |

### Tackboard with Slatwall for Use with Blade Accessory Shelf and on Wall

|        |      |
|--------|------|
| Depth  | ¾"   |
| Width  | 48"  |
| Height | 18½" |

### End Cover

|        |                     |
|--------|---------------------|
| Height | 15⅜", 18½", or 21½" |
|--------|---------------------|

## Connections

**When used with a service module,** tackboards attach with hook and loop and wood panels and tackboards with slatwall are secured with steel brackets. The attachment hardware is standard with the tackboard or wood panel for field installation.

**When used with a structural wall,** tackboards attach with a wooden cleat and wood panels and tackboards with slatwall are secured with steel brackets. The attachment hardware is standard with the tackboard or wood panel for field installation.

*Tip: Check with local building code official for proper application.*

## Wiring & Cabling

**Scallop** on tackboards or wood panel is either centered (on 54"W or less) or left and right (on 60"W or wider) on the top edge. This allows a light cord to be routed to the cavity behind. Daisy chain option is not recommended on T2 fluorescent light. Daisy chaining may be used on LED lights. For complete information, please consult the *Worktools Specification Guide*.

**Work surface scallop** will be covered by the tackboard or wood panel with slatwall on 36<sup>5</sup>/<sub>8</sub>", 43<sup>1</sup>/<sub>2</sub>", and 48<sup>9</sup>/<sub>16</sub>"H service modules. Cords or cables should be routed before the tackboard or wood panel with slatwall is installed. No additional cables will be able to be routed once the panel is in place.

## Surface Materials

### Tackboard

- Vertical surface fabric

*Tip: Because tackboard is one-piece design, fabric will be railroaded for consistent application.*

### Wood panel

- Wood
- Customiz stain (option on wood)

### Slatwall section on tackboards and wood panels

- 0835 Black paint
- 8043 Clear Anodized Aluminum

### End cover

- 0835 Black paint
- 8043 Clear Anodized Aluminum

### Attachment hardware

- Black paint only

# Magnetic Back Painted Glass

For Use with Service Modules, Blade Accessory Shelves, Organizers, Single- and Double-High Overheads

**Magnetic back painted glass** finishes the space between a service module or overhead storage unit and a work-surface. They can also be attached to a wall without any Elective Elements storage when installation instructions are followed.

► Specifying, pages 612–615

*Tip: Use only rare earth magnets with this product to allow items to adhere through glass.*

*Tip: Magnetic back painted glass cannot be used with a hutch kit.*

*Tip: Unlike tackboards or wood panels, no end cover is required.*

## Actual Dimensions

### Magnetic Back Painted Glass for Use with Single-High Overhead

|        |                                                            |
|--------|------------------------------------------------------------|
| Depth  | 1/2"                                                       |
| Width  | 30", 36", 42", 48", 54", 60", 66", 72", 78", 84", 90", 96" |
| Height | 21 1/2"                                                    |

### Magnetic Back Painted Glass for Use with Single-High Overheads with Blade Accessory Shelf

|        |                         |
|--------|-------------------------|
| Depth  | 1/2"                    |
| Width  | 48", 60", 72", 84", 96" |
| Height | 18 3/8"                 |

### Magnetic Back Painted Glass for Use with Organizer

|        |                                                               |
|--------|---------------------------------------------------------------|
| Depth  | 1/2"                                                          |
| Width  | 58 1/2", 64 1/2", 70 1/2", 76 1/2", 82 1/2", 88 1/2", 94 1/2" |
| Height | 13 5/16"                                                      |

### Magnetic Back Painted Glass for Use with Organizer and Blade Accessory Shelf

|        |                                    |
|--------|------------------------------------|
| Depth  | 1/2"                               |
| Width  | 58 1/2", 70 1/2", 82 1/2", 94 1/2" |
| Height | 10 7/8"                            |

### Magnetic Back Painted Glass for Use with Single-High 32 1/4"H Service Modules and Blade Accessory Shelf

|        |                                    |
|--------|------------------------------------|
| Depth  | 1/2"                               |
| Width  | 58 1/2", 70 1/2", 82 1/2", 94 1/2" |
| Height | 13 5/8"                            |

### Magnetic Back Painted Glass for Use with Single-High 32 1/4"H Service Modules

|        |                                                               |
|--------|---------------------------------------------------------------|
| Depth  | 1/2"                                                          |
| Width  | 58 1/2", 64 1/2", 70 1/2", 76 1/2", 82 1/2", 88 1/2", 94 1/2" |
| Height | 16 3/4"                                                       |

### Magnetic Back Painted Glass for Use with 36 5/8"H or 43 1/2"H Service Modules

|        |                                                               |
|--------|---------------------------------------------------------------|
| Depth  | 1/2"                                                          |
| Width  | 58 1/2", 64 1/2", 70 1/2", 76 1/2", 82 1/2", 88 1/2", 94 1/2" |
| Height | 21 1/16"                                                      |

### Magnetic Back Painted Glass for Use with 36 5/8"H or 43 1/2"H Service Modules and Blade Accessory Shelf

|        |                                                               |
|--------|---------------------------------------------------------------|
| Depth  | 1/2"                                                          |
| Width  | 58 1/2", 64 1/2", 70 1/2", 76 1/2", 82 1/2", 88 1/2", 94 1/2" |
| Height | 18"                                                           |

### Magnetic Back Painted Glass for Use with Double-High Service Module and Blade Accessory Shelf

|        |                                    |
|--------|------------------------------------|
| Depth  | 1/2"                               |
| Width  | 57 1/2", 69 1/2", 81 1/2", 93 1/2" |
| Height | 14 7/8"                            |

### Magnetic Back Painted Glass for Use with Double-High Overheads with Blade Accessory Shelf

|        |                    |
|--------|--------------------|
| Depth  | 1/2"               |
| Width  | 60", 72", 84", 96" |
| Height | 15 3/16"           |

### Magnetic Back Painted Glass for Use with Double-High Overheads

|        |                                   |
|--------|-----------------------------------|
| Depth  | 1/2"                              |
| Width  | 60", 66", 72", 78", 84", 90", 96" |
| Height | 18 3/8"                           |

### Magnetic Back Painted Glass for Use with Double-High Service Module

|        |                                                               |
|--------|---------------------------------------------------------------|
| Depth  | 1/2"                                                          |
| Width  | 57 1/2", 63 1/5", 69 1/2", 75 1/2", 81 1/2", 87 1/2", 93 1/2" |
| Height | 18"                                                           |

### Magnetic Back Painted Glass for Use with Single-High Overheads and Cord Management

|        |                                                            |
|--------|------------------------------------------------------------|
| Depth  | 1/2"                                                       |
| Width  | 30", 36", 42", 48", 54", 60", 66", 72", 78", 84", 90", 96" |
| Height | 20 1/8"                                                    |

### Magnetic Back Painted Glass for Use with Single-High Overheads, Blade Accessory Shelf and Cord Management

|        |                         |
|--------|-------------------------|

| Depth  | 1/2"               |
| Width  | 60", 72", 84", 96" |
| Height | 14 7/8"            |

## Product Details

**Magnetic back painted glass** provides an upscale alternative to fabric tackboards and slatwall for displaying data or personal effects.

*Tip: Only rare earth magnets may be used with magnetic back painted glass. Such items can be purchased at most office supply outlets online or in-store.*

## Connections

**When used with a service module or a structural wall,** magnetic back painted glass is mounted with a Z-bracket. All hardware required for attachment is included as standard.

*Tip: Check with local building code official for proper application.*

*Tip: For installation of the magnetic back painted glass beneath an overhead or other like product, 1/2" space is required to insert the glass, and have it engage with the bracket.*

*Tip: For installation of the magnetic back painted glass beneath an overhead or other like product, 1/2" space is required to insert the glass, and have it engage with the bracket.*

## Wiring & Cabling

### Only low-voltage wiring

can be used to run behind magnetic back painted glass to meet safety requirements.

When specified with cable management, there is a 1/2" space behind the glass where low-voltage wires can fit. Additionally, there is a 3/8" gap at the top of the glass to accommodate low-voltage wires. Daisy chain option is not recommended on T2 fluorescent light. Daisy chaining may be used on LED lights. For complete information, please consult the *Worktools Specification Guide*.

*Tip: Spacers are provided to allow low-voltage cords to pass behind the glass.*

*Tip: Spacers for cord management can also be used to align depth of magnetic back painted glass with depth of fabric tackboard. Spacers are always included with the mounting hardware.*

### Worksurface scallop

will be covered by the magnetic back painted glass on 32 1/4"H, 36 5/8"H, and 43 1/2"H service modules. Cords or cables should be routed before the magnetic back painted glass is installed. No additional cables will be able to be routed once the magnetic back painted glass is in place.

**\*Hinged glass doors** — when selected on bookcases, towers, vertical cabinets, and wardrobes — are equipped with magnetic touch latches and do not have pulls. Glass doors on overhead cabinets and service modules have self-close hinges. Glass doors do not lock.

*Note: A 7<sup>3</sup>/<sub>4</sub>" Nile pull and a 6<sup>3</sup>/<sub>8</sub>" inset pull are standard on all 15"W and 18"W under worksurface storage, as well as all vertical storage — plinth base and leg base. A 14" Nile pull and a 9<sup>3</sup>/<sub>8</sub>" inset pull are standard on all 30"W and 36"W under worksurface storage — plinth base and leg base.*

# Storage Wood Grain Directions

Storage Wood Grain  
Directions

**Wood grain direction** will alter the color and appearance of any surface. Two surfaces with grain directions that are at different angles to each other may look different even when they are identical. This natural phenomenon is called polarization, and it can be seen on natural veneer, and to a lesser extent on composite veneer.

*Tip: Wood integral pulls are not available with composite veneer.*

**Please refer to the illustrations at right** for an understanding of grain direction on your installation.

# Wiring Schematics

## Details for the Electrician

**Elective Elements** offers three different wiring schematics to allow you to match your specific wiring strategy to any typical building wiring plan.

*Tip: All the components in an electrical system must use the same wiring schematic. The components are keyed and color coded to make it impossible to connect mismatched parts.*

Black = Four-circuit, 3+1

Brown = Four-circuit, 2+2

Rust = Three-circuit, separate neutrals (3SN)

Shared neutrals = 10 gauge

Non-shared neutrals = 12 gauge

Hot wires = 12 gauge

### Four-Circuit, 3+1

Circuit Panel 1

Circuit Panel 2

**In the four-circuit 3+1 schematic,** circuits 1, 2, and 3 are distributed from the first circuit panel and are supported with one shared neutral and one shared ground. Circuit 4 is distributed from a second circuit panel and is supported with a separate neutral and ground.

Single 3-Phase  
Circuit Panel

**On a single 3-phase circuit panel,** all four circuits are distributed as shown.

### Four-Circuit, 2+2

Circuit Panel 1

Circuit Panel 2

**In the four-circuit 2+2 schematic,** circuits 1 and 2 are distributed from two different phases from the first circuit panel and are supported with one shared neutral and one shared ground. Circuits 3 and 4 are distributed from a second circuit panel and supported by their own shared neutral and ground.

Single 3-Phase  
Circuit Panel

**On a single 3-phase circuit panel,** all four circuits are distributed as shown.

Split-Phase  
Circuit Panel

**On a split-phase circuit panel,** all four circuits are distributed as shown.

### Three-Circuit, Separate Neutrals

Circuit Panel 1

Circuit Panel 2

**In the three-circuit, separate neutral schematic,** circuits 1 and 2 are distributed from two different phases from the first circuit panel. Each circuit is supported with its own neutral and a common ground. Circuit 3 is distributed from the second circuit panel and is supported by its own neutral and ground.

Single 3-Phase  
Circuit Panel

**On a single 3-phase circuit panel,** three circuits are distributed as shown.

Split-Phase  
Circuit Panel

**On a split-phase circuit panel,** three circuits are distributed as shown.

# How to Calculate Power Needs

Use This to Determine How Many Power-Ins You'll Need

How to Calculate  
Power Needs

## When planning a power network, you must calculate the amperage requirements of all your electrical components so you can provide sufficient electricity to power them.

## If your usage is not known in advance:

The National Electrical Code (NEC) allows a maximum of 13 receptacles on each 20-amp circuit. This provides up to 30 receptacles for each 3-circuit power-in and 40 receptacles for each 4-circuit power-in.

## If your usage is known in advance:

Add up the amperage used by each piece of equipment in the workstation. Whenever you reach 60 amps (20 amps times 3 circuits) or 80 amps (20 amps times 4 circuits) from items that are likely to be used at the same time, you have reached the limit for a single power-in. Specify another power-in and continue until all equipment is powered.

If the circuits will normally be subject to a continuous load (three or more hours of continuous use, such as lights or computers), the NEC requires that circuit capacity be "de-rated" by 20 percent. Therefore, treat circuits used for continuous loads as if they were rated at 16 amps instead of the regular 20 amps.

Try to anticipate future increases in power requirements and build some excess capacity into your plan.

► See table at right for typical and actual amperage usages for components.

To calculate amperage when the wattage of a device is known, divide watts by 120.

Some appliances, such as large copiers, coffee makers, or space heaters require most of the current available on a 20-amp circuit. It is recommended that such devices be supplied with their own receptacle/circuit, directly from the building. This leaves the capacity of the furniture circuits available for the more dynamic requirements of the office equipment.

Local electrical codes vary. Consult a qualified electrical contractor or engineer for the proper planning of electrical circuits in your locale.

## Approximate power consumption for common devices

| • Device                             | • Wattage | • Amperage | • Voltage | • Number of Devices Supported on Single 20 Amp Circuit* |
|--------------------------------------|-----------|------------|-----------|---------------------------------------------------------|
| Laptop                               | 90        | 0.8        | 110       | 20                                                      |
| CPU/Desktop Computer                 | 120       | 1.1        | 110       | 15                                                      |
| Monitor                              | 60        | 0.5        | 110       | 29                                                      |
| Phone                                | 5         | 0.0        | 110       | 352                                                     |
| High Power Tablet (e.g. Surface Pro) | 40        | 0.4        | 110       | 44                                                      |
| Low Power Tablet (e.g. iPad Air)     | 15        | 0.1        | 110       | 117                                                     |
| Desktop Printer                      | 40        | 0.4        | 110       | 44                                                      |
| 42" LCD Screen                       | 210       | 1.9        | 110       | 8                                                       |
| DVD Player                           | 25        | 0.2        | 110       | 70                                                      |
| Projector                            | 175       | 1.6        | 110       | 10                                                      |
| Desktop Lamp                         | 19        | 0.2        | 110       | 93                                                      |
| Large Printer/Copier (high)          | 1900      | 17.3       | 110       | 1                                                       |
| Large Printer/Copier (low)           | 850       | 7.7        | 110       | 2                                                       |
| Paper Shredder                       | 360       | 3.3        | 110       | 5                                                       |
| Desktop Fan                          | 20        | 0.2        | 110       | 88                                                      |
| Standing Fan                         | 180       | 1.6        | 110       | 10                                                      |
| Coffee Maker (high)                  | 1200      | 10.9       | 110       | 1                                                       |
| Coffee Maker (low)                   | 600       | 5.5        | 110       | 3                                                       |
| Microwave (high)                     | 400       | 13.6       | 110       | 1                                                       |
| Microwave (low)                      | 150       | 5.5        | 110       | 3                                                       |
| Refrigerator (high)                  | 1500      | 3.6        | 110       | 4                                                       |
| Refrigerator (low)                   | 200       | 1.4        | 110       | 12                                                      |
| Vacuum (high)                        | 1500      | 13.6       | 110       | 1                                                       |
| Vacuum (low)                         | 200       | 1.8        | 110       | 9                                                       |
| Space Heater (high)                  | 1500      | 13.6       | 110       | 1                                                       |
| Space Heater (low)                   | 750       | 6.8        | 110       | 2                                                       |

*Tip: These calculations are estimations and are meant solely for informational purposes. It is important to conduct proper power planning for each installation to prevent overloading a circuit.*

# Technology Zones

For Use with Plinth Base and Leg Base Storage

**Technology zones** are available corded. Modular and hardwire versions are also available.

## Product Details

**All technology zones** have 6 simplex outlets and are PVC free.

**All technology zones** have a 180° hinged lid with a slot that allows cords to pass through when the lid is closed. Technology zones have space to conceal chargers, adapters, and excess cords.

**All technology zones** have a pass through that allows standard size grounded plug to pass through from the technology trough in storage.

**Technology zones** utilize Extron Electronics' Architectural Adapter Plates (AAPs) to provide access to data, audio, video, telephone, and other technologies inside the technology zone.

**Each technology zone can** accommodate up to two customer provided single space AAPs. Technology zones ship with blank cover plates.

**AAPs** are available from Extron Electronics. For information on AAPs and to find an Extron Electronics dealer, contact Extron at 800.633.9876 or online at [www.extron.com](http://www.extron.com).

**Corded technology zones** have a 9 foot power cord with a grounded plug. *Tip: Multiple corded technology zones cannot be daisy chained together.*

**Hardwire technology zones** have a 6 foot flexible metal conduit.

**Modular technology zones** are available in 3 schematics: 3+1, 2+2, and 3SN. They include a 42" flexible conduit with modular end connector.

**24" modular technology zone harness** can extend as far as 30" to the right or 18" to the left.

**24" corded technology zone cord** can extend 8' to the right or 7' to the left.

## Actual Dimensions

|               |                                 |
|---------------|---------------------------------|
| <b>Depth</b>  | 4 <sup>3</sup> / <sub>4</sub> " |
| <b>Width</b>  | 24"                             |
| <b>Height</b> | 5 <sup>1</sup> / <sub>2</sub> " |

**24" hardwire technology zone conduit** can extend 5' to the right or 4' to the left.

**Modular technology zones** can be specified for different lines to distribute load across the system. One outlet is always dedicated to line 1.

**Technology zones** drop in to technology zone cut-outs in most worksurfaces.

**Technology zones** are used in technology straight worksurfaces over 1.5 high storage or in open kneewell spaces. They are also used in technology desk worksurfaces. Technology zones extend below the worksurface and cannot be placed over plinth base one-high and full-height pedestals or leg base 21 1/2"H storage.

## Connections

**Modular harnesses and harness-to-harness connectors** are used to distribute power through storage.

**Harness-to-harness connectors** are also used to branch power to technology zones in storage.

**Modular harnesses** are available in lengths that equal storage widths.

**Harness-to-harness connectors** may be used to connect up to 3 other modular harnesses and technology zones.

**Harness-to-harness connectors** have four places where modular harnesses or modular technology zones can connect.

**Building power** can be accessed from the floor, or a wall or column.

**Hardwire-to-modular infeed** is available in 12 foot length.

**The hardwired end** is connected by an electrician to a junction box wherever it is located in the building. The harness is routed into storage and connected to a harness-to-harness connector.

**Modular-to-modular power infeed** is available in 12 foot length.

**A straight/flush modular junction box faceplate cover** is standard and is wired to a 4 1/16" square junction box located in the building.

**A 90 degree junction box faceplate** can be optioned and is recommended for use at a wall or column.

**Power** can be brought in through the cut-out in 1.5 plinth base 1.5 high storage or leg base 27 1/2"H storage from a panel by field cutting the panel skin.

*Tip: Use a harness-to-harness connector to connect to a modular harness in the panel.*

*Tip: Consultation with a building inspector is recommended to ensure these applications are acceptable.*

## Wiring and Cabling

**Three wiring schematics** are available—3+1, 2+2, and three circuits with separate neutrals (3SN). All the components in an electrical distribution system must use the same wiring schematic. For safety, the components are keyed, labeled, and color-coded to make it impossible to connect mismatched parts.

**All electrical components** are cULus listed to the appropriate industry standards in accordance with the National and Canadian Electrical code.

**Local electrical codes vary**, so consult with your local authority having jurisdiction as they have final say if the products as installed are compliant with local code.

**Hardwire power** is also available for cities where codes require.

# Electrical and Cable Management

## Power Units with Cord Pass-Through

► Specifying, page 621

### Product Details

**Power unit with cord pass-through** provides two or four electrical outlets. Faceplates are provided for two simplex customer supplied voice/data jacks or two customer provided single space Extron Electronics Architectural Adapter Plates (AAPs) when the two electrical outlets are selected. Extron AAPs provide access to data, video, audio, telephone, and other technologies.

**Power units with cord pass-throughs** have a 6' power cord with grounded plug or a 6' conduit for hardwire applications.

**Installs** below a square grommet location. When installed, the power unit will hang below the worksurface.

**Power units** cannot be used over 15"W and 18"W underworksurface storage, but can be used over 30"W and 36"W lateral files that are 30"D.

### Wiring & Cabling

**Power units** have an opening for data that can be filled. The first method is two simplex voice/data jacks (customer supplied).

The second method is two single space Extron Electronics Architectural Adapter Plates (AAPs) for data solutions. These are supplied by the customer and can be used in any combination.

### Surface Materials

**Power units**

- Black textured paint only

### Power cord with grounded plug

- Black plastic only

*Tip: Power unit cannot be used with gate leg, adjustable height leg, or glass modesty panel due to bracket interference.*  
*Tip: Power units cannot be installed over 1.5 high storage.*

### Actual Dimensions

|                             |                                   |
|-----------------------------|-----------------------------------|
| <b>Depth</b>                | 6 <sup>57</sup> / <sub>64</sub> " |
| <b>Width</b>                | 6 <sup>3</sup> / <sub>32</sub> "  |
| <b>Height</b>               | 4 <sup>1</sup> / <sub>4</sub> "   |
| <b>Power cord length 6'</b> |                                   |

## Flip Up Power Unit

► Specifying, page 621

### Product Details

**Flip up power unit** provides two electrical outlets at worksurface height. Power unit is flush with worksurface when not in use. It has a 6' power cord with grounded plug.

**Flip up power unit** is field-installed.  
*Tip: For installation purposes, actual hole size is 3<sup>3</sup>/<sub>4</sub>" x 5".*

### Surface Materials

**Power unit**

- 0835 Black paint
- 4799 Platinum Metallic paint

**Outlet**

- Black plastic only

**Power Cord**

- Black plastic only

### Actual Dimensions

|                             |                                 |
|-----------------------------|---------------------------------|
| <b>Depth</b>                | 4 <sup>1</sup> / <sub>4</sub> " |
| <b>Width</b>                | 5 <sup>1</sup> / <sub>2</sub> " |
| <b>Height</b>               | 2"                              |
| <b>Power cord length 6'</b> |                                 |

## Power/Data Boxes

► Specifying, page 622

### Product Details

**Power/data boxes**, ordered separately, provide additional electrical outlets and voice and data receptacles where needed. Power/power, power/data, and data/data versions are available. Boxes are field-installed and can be mounted to the underside of worksurface anywhere access to power and data is needed.

### Surface Materials

**Box**

- 0835 Black paint only

### Actual Dimensions

|               |    |
|---------------|----|
| <b>Depth</b>  | 3" |
| <b>Width</b>  | 3" |
| <b>Height</b> | 1" |

**Convenience  
Tri-Receptacle with  
Power Cord and Plug**

► Specifying, page 622

**Product Details**

**Convenience Trig-receptacle with power cord and plug** houses three receptacles. It is designed to sit on or attach beneath the worksurface. It has an 8' cord to draw power. Order suspension/ganging hardware separately.

**Surface Materials****Convenience Trig-receptacle**

- Plastic

**Power cord with grounded plug**

- Black only

**Actual Dimensions**

|                             |     |
|-----------------------------|-----|
| <b>Depth</b>                | 2¾" |
| <b>Width</b>                | 5¼" |
| <b>Height</b>               | 2½" |
| <b>Power cord length 8'</b> |     |

**Convenience  
Communication Outlet  
Housing**

► Specifying, page 623

**Product Details**

**Convenience communication outlet housing** will support customer-supplied modular furniture faceplates. It is designed to sit on a worksurface using the above-worksurface clamp kit (accessory rail pins) or attach beneath the worksurface using the below-worksurface mounting bracket. Order suspension/ganging hardware separately.

**Surface Materials****Convenience communication outlet housing**

- Plastic

**Actual Dimensions**

|               |     |
|---------------|-----|
| <b>Depth</b>  | 2¾" |
| <b>Width</b>  | 5¼" |
| <b>Height</b> | 2½" |

**Above-Worksurface  
Clamp Kit**

► Specifying, page 623

**Product Details**

**Above-worksurface clamp kit** is used to support a convenience Trig-receptacle or a convenience communication outlet housing on the worksurface.

**Surface Materials****Mounting clamp**

- 6653 Solar Black only

**Below-Worksurface  
Mounting Bracket**

► Specifying, page 624

**Product Details**

**Below-worksurface mounting bracket** is used to support a convenience Trig-receptacle or a convenience communication outlet housing beneath the worksurface. Each Trig-receptacle, whether power or communication, should have its own mounting bracket for below-worksurface mounting applications.

**Surface Materials****Mounting bracket**

- 4793 Solar Black only

**Cable Tray**

► Specifying, page 624

**Product Details**

**Cable storage trays**, field installed under the worksurface, hold cables out of the way.

**Surface Materials****Cable tray**

- Black paint only

**Actual Dimensions**

|               |                                  |
|---------------|----------------------------------|
| <b>Depth</b>  | 3"                               |
| <b>Width</b>  | 32"                              |
| <b>Height</b> | 5 <sup>5</sup> / <sub>16</sub> " |

### 2½" Round Grommet

► Specifying, page 624

#### Product Details

**2½" round grommet**, ordered separately, provides wire and cable management for worksurfaces.

#### Surface Materials

##### Round grommet

- 0835 Black
- 4799 Platinum Metallic
- 7241 Arctic White
- 7278 Dark Bronze
- 9201 Polished Chrome
- 9211 Nickel

#### Actual Dimensions

|              |     |
|--------------|-----|
| <b>Depth</b> | 2½" |
| <b>Width</b> | 2½" |

### Wire Guide Clips and Wire Clips

► Specifying, page 625

► Specifying, page 625

#### Product Details

**Wire guide clips and wire clips** have an adhesive back to allow them to stick under a worksurface for routing and managing cords.

**Double clip** can be screwed to the underside of a worksurface.

#### Surface Materials

##### Wire guide clips and wire clips

- Black plastic only

### Velcro Wire Clips

► Specifying, page 625

#### Product Details

**Velcro wire clip**, ordered separately, attaches with a screw to underside of worksurface to bundle wires horizontally.

#### Surface Materials

##### Velcro wire clips

- Black plastic only

#### Actual Dimensions

|               |     |
|---------------|-----|
| <b>Depth</b>  | 1½" |
| <b>Width</b>  | 8"  |
| <b>Height</b> | ½"  |

### Wire Manager

► Specifying, page 626

#### Product Details

**Wire manager**, ordered separately, organizes cables routed vertically or horizontally beneath the worksurface. It can be cut on site as needed.

#### Surface Materials

##### Wire manager

- Black plastic only

#### Actual Dimensions

|               |     |
|---------------|-----|
| <b>Depth</b>  | 1"  |
| <b>Width</b>  | ¾"  |
| <b>Height</b> | 25" |

### Cord Reels

► Specifying, page 626

#### Product Details

**Cord reels**, field installed under the worksurface, take up excess cord or cable.

#### Surface Materials

##### Cord reels

- Black paint only

Vertebral Cable Riser and Extension

► Specifying, page 626

Product Details

**Vertebral cable riser**, ordered separately, attaches to underside of worksurface to accommodate wires vertically. Extension can be added for increased wire management. Extension does not include attachment hardware or floor plate.

Surface Materials

- Riser**
- Black plastic only
- Floor plate**
- Metallic aluminum only

Actual Dimensions

|                  |         |
|------------------|---------|
| Length           | 31 1/2" |
| Extension length | 15 3/4" |

Skeleton Bone Wire Manager and Extension

► Specifying, page 627

Product Details

**Skeleton bone wire manager**, ordered separately, attaches to underside of worksurface to accommodate wires vertically. Extension can be added for increased wire management.

Surface Materials

- Wire manager**
- Black plastic only

Actual Dimensions

|        |            |
|--------|------------|
| Depth  | 1 1/2"     |
| Width  | 1 3/8"     |
| Height | 36" or 38" |

## Cable and Fiber Reels

**Cable and fiber reels** are available to store excess fiber-optic cable lengths. They are also suitable for storing power cables.  
► Specifying, page 627

**Key-shaped mounting hole** allows quick installation and removal of reel mounted horizontally to underside of worksurface.

**Mounting slots** allow installation of reel vertically beneath worksurface.

**Inner reel** accommodates copper wire and other cables that can be wound tightly.

**Outer reel** accommodates the preferred bend radius of fiber-optic cables.

**Tabs** prevent cables from slipping off reel.

### Product Details

**Capacity of reel** is approximately 12' of standard power or communication cable on outer reel and 18' of telephone-type cord on inner reel depending on the specific cable used. Neatness of installation can affect capacities. In critical situations, you should conduct a test using the specific cable types your installation requires.

### Connections

**Reel** can be field installed vertically or horizontally in the kneespace of free-standing desks or panel-supported worksurfaces.

### Wiring & Cabling

**Chicago, New York City, and Los Angeles** have special requirements.

**Local electrical codes vary.** Consult a qualified electrician or electrical engineer for the proper installation of electrical equipment.

### Surface Materials

#### Reels

- Black plastic only

### Actual Dimensions

|        |                                  |
|--------|----------------------------------|
| Depth  | 1¼"                              |
| Width  | 8"                               |
| Height | 8 <sup>5</sup> / <sub>16</sub> " |

## Termination Plate

**Termination plate** is available for field installation to accommodate junction boxes for connections of fiber-optic cables and other cable types.  
► Specifying, page 627

**Bracket** allows termination plate to be connected to worksurface.

**NEMA standard hole pattern** allows virtually all conventional boxes and termination devices to be connected.

**Opening** provides access to a termination device.

### Product Details

**Faceplates and junction boxes** can be added to support fiber-optic or ordinary voice/data networks.

### Connections

**Termination plate** is field installed beneath the worksurface in any position needed. Usually, it is located at the back of the worksurface so it doesn't obstruct kneespace.

### Wiring & Cabling

**Chicago, New York City, and Los Angeles** have special requirements.

**Local electrical codes vary.** Consult a qualified electrician or electrical engineer for the proper installation of electrical equipment.

### Surface Materials

#### Termination plate

- Black paint only

# Power Shroud

For Use with Leg Base Storage Only

Power Shroud

**Power shroud** attaches with screws to the underside of a 27<sup>1</sup>/<sub>2</sub>"H leg base credenza. ► Specifying, page 628

**Power shroud** is made of painted steel.

**Power shroud** conceals two standard power whips underneath an 27<sup>1</sup>/<sub>2</sub>"H leg base storage unit.

## Product Details

**Power shroud** is for use under a leg base storage unit.

**Power shroud** conceals two standard power whips.

**Attachment hardware** is included.

## Wiring and Cabling

**Power shroud** is intended for wire and cable management. Its height is designed to work under a leg base storage unit with a technology zone or other worksurface height power.

## Surface Materials

### Shroud

- 4799 Platinum Metallic
- 7243 Seagull
- 7360 Merle

## Actual Dimensions

|        |                                 |
|--------|---------------------------------|
| Depth  | 2"                              |
| Width  | 3"                              |
| Height | 8 <sup>3</sup> / <sub>4</sub> " |

# Metal Light Housing

**Metal light housing** is available in three lengths to accommodate 1, 2, or 3 LED shelf lights. The housing is painted steel.

**Metal light housing** attaches to the bottom of a blade accessory shelf, overhead cabinet, organizer shelf, or service module.

*Tip: LED shelf light ordered separately.*

## Actual Dimensions

|               |                 |
|---------------|-----------------|
| <b>Depth</b>  | 3¾"             |
| <b>Width</b>  | 19", 43" or 68" |
| <b>Height</b> | ¾"              |

## Product Details

**Metal light housing** is designed specifically for the LED shelf light. It is available in three lengths to accommodate 1, 2, or 3 lights.

**Attachment hardware** is included with the light housing.

## Connections

**Overheads** can support a metal light housing up to 68" wide.

**Blade accessory shelf** attaches to the underside of an overhead cabinet, organizer, or service module and is able to support the metal light housing. The housing attaches using VHB tape. Screw mounting is also possible.

*Tip: Consultation with a building inspector is recommended to ensure these applications are acceptable.*

## LED shelf lights

► Specifying, page 629

## Product Details

**Shelf light** includes the lamp and power supply with cord set. Daisy chain primary light includes lamp and larger power supply to support up to three lights. Daisy chain secondary light includes lamp and daisy chain cord set.

**An 18 watt power supply** is used on the LED standard light; it is 9" long with a two prong driver plug. *Tip: Energy saving mini-LEDs greatly reduce power use.*

**Power supply for LED daisy chain starter light** uses an 11' 60 watt modular cord with standard two prong plug, an integrated low voltage cord, and a connector to attach to light.

## Connections

**Shelf light** mounts recessed or flush depending on design of overhead storage bin or shelf. Installation is done in the field.

## Magnetic mounting

allows shelf light to be installed without tools under most metal overhead storage bins. Use with metal light housing to conceal lights under a blade accessory shelf or overhead cabinet with VHB tape.

*Tip: If the blade accessory shelf is used, the metal light housing is required to mount the LED shelf light.*

## Optional fastener kit

allows shelf light to be mounted to wood shelves.

*Tip: The LED shelf light mounting kit will not work with the blade accessory shelf. The metal light housing is required.*

**Specify** LED shelf light or LED linear shelf light for use under 24" wide bins. Standard, Utility2, and Bottomline 24" wide lights do not fit under 24" wide bins.

## Wiring and Cabling

**LED shelf light** is hardwired.

**LED shelf light** can have up to 3 lights daisy chained together, not exceeding 68" wide.

## Cords for the LED shelf light

can be routed behind a tackboard, tackboards with slatwall, or wood panels with slatwall in an overhead or service module application.

*Tip: More information regarding the LED shelf light can be found in the Steelcase Worktools Specification Guide.*

*Tip: Daisy chain starter light comes with a 60 watt power supply to support up to three lights. Daisy chain secondary lights do not come with a power supply, but instead come with a daisy chain cord set.*

## Surface Materials

### Light

- 6000 Black
- 6009 Arctic White

### Reflector

- Clear anodized aluminum only

### Cord

- Black plastic only

## Actual Dimensions

**Depth** 2<sup>5</sup>/<sub>8</sub>"

**Width** 18<sup>1</sup>/<sub>8</sub>"

**Height** 1/2"

- Power Supply 18 Watt Cord
- 9' with two prong driver plug
- Power Supply 60 Watt Cord Set (11')
- Line voltage cord: 6'
- Low voltage cord: 5'

## ► Options, continued on next page

Tip: Option prices for wood veneer or laminate are per shroud or pedestal case. Each solution will have two charges, one for each side. Shroud and/or pedestal cases can only come in either wood veneer or laminate, not both.

Tip: Pedestal top or shroud top will match case finish.

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

Tip: Wood top must select wood square profile. Laminate top has the option of either a plastic square or wood square profile.

Tip: To see all possible storage configurations, see page 31.

|                              | • Vertical grain                            | No cost         | Specify with vertical grain.                   |

Tip: To see all possible floor and hanging modesty panel combinations, see page 32.

Tip: Shroud top surface follows worksurface grain direction.

Tip: Short grain on laminate tops is only available on 60"W.

Tip: All modesty panels, with the exception of full-width hanging, are available on both 30"D and 36"D worksurfaces.

Tip: If a floor modesty panel is selected, then the grain direction of the storage and modesty panel must match. In the case of a laminate modesty panel greater than 60"W, then the grain direction on all pieces will be horizontal.

► For all available modesty panel configurations, see page 32.

#### For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

# Height-Adjustable Desks

## Partial-Width Top

► Need help?  
Product details,  
page 24

### Standard Includes

- Top: wood group 1 veneer
- Base: paint
- Pedestal/pedestal or shroud/pedestal: wood group 1 veneer
- Edge: 3 mm wood square edge to match top
- Three-preset controller
- Standard close drawer slides
- Lock, keyed random, if pedestal storage selected

### Required to Specify

- 1 Style number
  - 2 Depth (see below under Required Selections)
  - 3 Width (see below under Required Selections)
  - 4 Wood veneer color number for top
  - 5 Paint color number for base
  - 6 Wood veneer color number for pedestal/pedestal or shroud/pedestal
  - 7 Pull shape (see below under Required Selections)
  - 8 Options, if selected (see below)
- See *Surface Materials*, page 632.

Tip: 96" width is only available with pedestal/pedestal configuration. 60", 66", and 72" widths are only available with shroud/pedestal configuration.

Tip: With pedestal/pedestal configuration, 24" would be subtracted from the top width. With shroud/pedestal configuration, 12" would be subtracted from the top width.

Tip: For ease of specification, full-fill finish codes can be selected on other veneer components being used in settings with full-fill veneer top surfaces. The other components will not have the final fill coat applied, but the finish color will be consistent with the full-fill top surfaces.

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

**For Canadian Pricing**  
Multiply U.S. Price by the Canadian price factor.  
► See page 1 for details.

► Options, continued on next page

**For laminate price group 2 pricing, please refer to the electronic catalog or SmartTools.**  
Tip: Refer to page 64 for grommet and scallop locations.

Tip: Specify a scallop when a service module or hutch kit is used with a task light.

Tip: Refer to the selected panel specification guide to order supports for panel applications.

► Page 54

**For Canadian Pricing**  
Multiply U.S. Price by the Canadian price factor.  
► See page 1 for details.

# Desk Worksurfaces—Straight and Bow Fronts

Wood Veneer or Laminate

Tip: Grommets on desks with inset modesty panels should only be ordered in right or left position.

Tip: Refer to page 64 for grommet locations.

Tip: Recommended column and leg supports vary based on worksurface length and support conditions on the other end. Refer to Worksurface Support Guidelines, page 103.

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

Tip: Any bow-front desk worksurface with an overhang must use a plinth base J-shape end panel and plinth base pedestal combination. The exception is when a return worksurface is attached to a straight or bow-front desk worksurface, then an overhang of no greater than 12" is allowed.

► Page 54

**For Canadian Pricing**  
Multiply U.S. Price by the Canadian price factor.  
► See page 1 for details.

Tip: 36"/42" bow-front desk worksurfaces must be supported by 30"D pedestals or end panels.

Tip: When used in a single pedestal desk configuration, specify pedestal and end panel 6" less than the depth of the desk worksurface. This will create an overhang condition.

*Tip: No factory-installed grommets are available on technology worksurfaces. 2½" round grommets are recommended.*

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: Recommended column and leg supports vary based on worksurface length and support conditions on the other end. Refer to Worksurface Support Guidelines, page 103.*

*Tip: Only one technology zone cut-out location per worksurface can be specified.*

*Tip: Technology zone cut-outs are unfinished.*

# Return Worksurfaces

Wood Veneer or Laminate

► Need help?  
Product details,  
page 38

## Standard Includes

- Worksurface: wood group 1 veneer or laminate price group 1
- Wood worksurface with wood edge:
  - Solid wood edge on user's side
  - Veneer edge on other sides (unless coped)
- Laminate worksurface with plastic edge:
  - 3 mm plastic edge on user's side
  - 1 mm plastic edge on other sides, plastic default to match user's side
- Laminate worksurface with wood edge:
  - Solid wood edge on user's side
  - 1 mm plastic edge on other sides (unless coped), color default to match worksurface
- One end of the return worksurface is coped to fit into adjoining worksurface when specified with bullnose or blade edge profile
- Attachment hardware: black paint only
- End panel to modesty panel attachment bracket: black paint only

## Required to Specify

- 1 Style number
  - 2 Wood or laminate color number for worksurface
  - 3 Wood or plastic edge color number for all sides on laminate worksurface, if selected
  - 4 Worksurface profile (see below under Required Selections)
  - 5 Options, if selected (see below)
- See *Surface Materials*, page 632.

# Desk Return Worksurfaces

Wood Veneer or Laminate

► Need help?  
Product details,  
page 38

## Standard Includes

- Worksurface: wood group 1 veneer or laminate price group 1
- Wood worksurface with wood edge:
  - Solid wood edge on user's side
  - Veneer edge on other sides (unless coped)
- Laminate worksurface with plastic edge:
  - 3 mm plastic edge on user's side
  - 1 mm plastic edge on other sides, plastic default to match user's side
- Laminate worksurface with wood edge:
  - Solid wood edge on user's side
  - 1 mm plastic edge on other sides (unless coped), color default to match worksurface
- One end of the desk return worksurface is coped to fit into adjoining worksurface when specified with bullnose or blade edge profile
- Attachment hardware: black paint only

## Required to Specify

- 1 Style number
  - 2 Wood or laminate color number for worksurface
  - 3 Wood or plastic edge color number for all sides on laminate worksurface, if selected
  - 4 Worksurface profile (see below under Required Selections)
  - 5 Options, if selected (see below)
- See *Surface Materials*, page 632.

Tip: Desk returns always have a 6" overhang when modesty panels are specified. Order 24"D end panels or pedestals for 30"D desk returns, and 30"D components for 36"D desk returns.

## For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

# Bridge Worksurfaces

Wood Veneer or Laminate

*Tip: For bridge worksurfaces with a blade edge, subtract 2 1/8" from each side (4 1/4" total) for precise dimensions. This same rule applies to a bullet or P-top in a U-shape setting.*

*Tip: The nominal width of a bridge coped with blade edge worksurface is approximately 4 1/4" less than a square edge.*

Product details,  
page 38

## Standard Includes

- Worksurface: wood group 1 veneer or laminate price group 1
- Wood worksurface with wood edge:
  - Solid wood edge on user's side
  - Veneer edge on other sides (unless coped)
- Laminate worksurface with plastic edge:
  - 3 mm plastic edge on user's side
  - 1 mm plastic edge on other sides, plastic default to match user's side
- Laminate worksurface with wood edge:
  - Solid wood edge on user's side
  - 1 mm plastic edge on other sides (unless coped), color default to match worksurface
- Both ends are coped to fit into adjoining worksurface when specified with bullnose or blade edge profiles
- Attachment hardware: black paint only

## Required to Specify

- 1 Style number
  - 2 Wood or laminate color number for worksurface
  - 3 Wood or plastic edge color number for all sides on laminate worksurface, if selected
  - 4 Worksurface profile (see below under Required Selections)
  - 5 Options, if selected (see below)
- See *Surface Materials*, page 632.

# Single Tapered Worksurfaces

Wood Veneer or Laminate

► Need help?  
Product details,  
page 42

## Standard Includes

- Worksurface: wood group 1 veneer or laminate price group 1
- Wood worksurface with wood edge:
  - Solid wood edge on user's side
  - Veneer edge on other sides
- Laminate worksurface with plastic edge:
  - 3 mm plastic edge on user's side
  - 1 mm plastic edge on other sides, plastic default to match user's side
- Laminate worksurface with wood edge:
  - Solid wood edge on user's side
  - 1 mm plastic edge on other sides, color default to match worksurface

## Required to Specify

- 1 Style number
  - 2 Wood or laminate color number for worksurface
  - 3 Wood or plastic edge color number for all sides on laminate worksurface, if selected
  - 4 Worksurface profile (see below under Required Selections)
  - 5 Options, if selected (see below)
- See *Surface Materials*, page 632.

# Bullet Worksurfaces—Run-Off and Freestanding

Wood Veneer or Laminate

► Need help?  
Product details,  
page 42

## Standard Includes

- Worksurface: wood group 1 veneer or laminate price group 1
- Wood worksurface with wood edge:
  - Solid wood edge on three sides
  - Veneer edge on other sides (unless coped)
- Laminate worksurface with plastic edge:
  - 3 mm plastic edge on three sides
  - 1 mm plastic edge on other sides, plastic default to match user's side
- Laminate worksurface with wood edge:
  - Solid wood edge on three sides
  - 1 mm plastic edge on other sides, color default to match worksurface
- Run-offs are coped on the end to fit into adjoining worksurface when specified with bullnose or blade profiles
- Run-offs include attachment hardware: black paint only

## Required to Specify

- 1 Style number
  - 2 Wood or laminate color number for worksurface
  - 3 Wood or plastic edge color number for all sides on laminate worksurface, if selected
  - 4 Worksurface profile (see below under Required Selections)
  - 5 Options, if selected (see below)
- See *Surface Materials*, page 632.

## Required Selections (Prices at Right)

Profile

Tip: Refer to page 64 for  
grommet locations.

Tip: For proper stability,  
T-shape end panel must  
be connected to a perpen-  
dicular worksurface  
forming an L- or U-shape  
configuration.

**For laminate price  
group 2 pricing, please  
refer to the electronic cata-  
log or SmartTools.**

Tip: Recommended column  
and leg supports vary based  
on worksurface length  
and support conditions  
on the other end. Refer  
to Worksurface Support  
Guidelines, page 103.

# P-Top Worksurfaces—Run-Off and Freestanding

Wood Veneer or Laminate

User side

Right-hand Unit

Tip: Refer to page 64 for grommet locations.

Tip: Recommended column and leg supports vary based on worksurface length and support conditions on the other end. Refer to Worksurface Support Guidelines, page 103.

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

P-Top worksurface with coped edge

P-Top worksurface without coped edge

► Page 54

Tip: For proper stability, T-shape end panel must be connected to a perpendicular worksurface forming an L- or U-shape configuration.

## Standard Includes

► Need help? Product details, page 42

- Worksurface: wood group 1 veneer or laminate price group 1
- Wood worksurface with wood edge:
  - Solid wood edge on three sides
  - Veneer edge on other side (unless coped)
- Laminate worksurface with plastic edge:
  - 3 mm plastic edge on three sides
  - 1 mm plastic edge on other sides, plastic default to match other sides
- Laminate worksurface with wood edge:
  - Solid wood edge on three sides
  - 1 mm plastic edge on other sides, color default to match worksurface
- Run-offs are coped on the end to fit into adjoining worksurface when specified with bullnose or blade profiles
- Run-offs include attachment hardware: black paint only

## Required to Specify

- 1 Style number
  - 2 Wood or laminate color number for worksurface
  - 3 Wood or plastic edge color number for all sides on laminate worksurface, if selected
  - 4 Worksurface profile (see below under Required Selections)
  - 5 Options, if selected (see below)
- See *Surface Materials*, page 632.

Tip: Refer to Modesty Panel Selection Guide (for run-off worksurfaces) or Extended T-Shape End Panel Selection Guide (for freestanding worksurfaces) when specifying modesty panels or extended T-shape end panels.

► Pages 108 and 110

# Meeting Worksurfaces

Wood Veneer or Laminate

Right-hand shown

Tip: 60"W top will attach to an 18"D work surface and 78"W top will attach to a 24"W work surface.

Tip: Meeting worksurfaces can only attach to a return work surface if a square edge is used.

Tip: Meeting worksurfaces can be supported in one of the following ways on the outer edge: a pedestal with or without a slip fit bracket, a rectangular column leg with or without base, adjustable height legs, disk column or column leg, gate leg, free support end panel, L-shape end panel, or T-shape end panel.

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

Tip: Meeting worksurfaces must be attached to another work surface. They are never freestanding.

Tip: Specify a 12"H or 2/3-height modesty panel with optional hanging brackets, if desired. Refer to Modesty Panel Selection Guide, page 108.

Product details,  
page 42

- Worksurface: wood group 1 veneer or laminate price group 1
- Wood work surface with wood edge:
  - Solid wood edge on user and visitor's side
  - Veneer edge on other sides
- Laminate work surface with plastic edge:
  - 3 mm plastic edge on user and visitor's side
  - 1 mm plastic edge on other sides, plastic default to match user and visitor's side
- Laminate work surface with wood edge:
  - Solid wood edge on user and visitor's side
  - 1 mm plastic edge on other sides, color default to match work surface

### Required to Specify

- 1 Style number
  - 2 Wood or laminate color number for work surface
  - 3 Wood or plastic edge color number for all sides on laminate work surface, if selected
  - 4 Work surface profile (see below under Required Selections)
  - 5 Options, if selected (see below)
- See *Surface Materials*, page 632.

# Extended Corner Worksurfaces

Wood Veneer or Laminate

Right-hand

Left-hand

► Need help?  
Product details,  
page 46

## Standard Includes

- Worksurface: wood group 1 veneer or laminate price group 1
- Wood worksurface with wood edge:
  - Solid wood edge on user's side
  - Veneer edge on other sides
- Laminate worksurface with plastic edge:
  - 3 mm plastic edge on user's side
  - 1 mm plastic edge on other sides, plastic default to match user's side
- Laminate worksurface with wood edge:
  - Solid wood edge on user's side
  - 1 mm plastic edge on other sides, color default to match worksurface

## Required to Specify

- 1 Style number
  - 2 Wood or laminate color number for worksurface
  - 3 Wood or plastic edge color number for all sides on laminate worksurface, if selected
  - 4 Worksurface profile (see below under Required Selections)
  - 5 Options, if selected (see below)
- See *Surface Materials*, page 632.

Worksurfaces

#### For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

# Cushion Tops

*Tip: Cushion top is not designed to be used on open one-high bookcase units. If that application is desired, specify a worksurface to be mounted on the bookcase and attach the cushion top to the worksurface. This will raise the overall height of the unit by an additional 1½".*

*Tip: Cushion top ships separately from storage.*

*Tip: Cushion top attaches to one high plinth base and 21½"H leg base pedestals, two-high lateral files, and plinth base 1.5 high storage units. 42"W cushion tops are not available.*

*Tip: A back panel is required when using a cushion top. Note: Leg base credenzas and pedestals come with an unfinished back panel. Order separately in plinth base storage.*

*Tip: Seam pattern is determined by upholstery selected.*

► See page 137.

*Tip: In leg base applications, storage legs are required at the seam of a cushion top and storage.*

| Standard Includes                                                                                                                                      | Required to Specify                                                                                                                                                                            |

**For Canadian Pricing**  
Multiply U.S. Price by the Canadian price factor.  
► See page 1 for details.

## SOTO Shelves

Tip: All SOTO shelves allow for 27/8" or 6" between work-surface and bottom of shelf.

Tip: The colors for plastic spacers are defaulted by stanchion color.

► See *Worktools Specification Guide* for default finish matrix.

Tip: The integrated rail in the technology zone accommodates SOTO rail-mounted shelves and lighting.

| Standard Includes                                                                       | Required to Specify                                                                                                                                                                                                                                               |

# Plinth Base Back Panels

Wood Veneer or Laminate

*Tip: Use pedestal back panels when specifying 2/3-height modesty panels and over-hanging worksurfaces in a desk configuration or if you want the back of a single pedestal finished.*

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: Use full-height modesty panels to finish the back of two-high lateral files and other 30"W and 36"W pedestals.*

► Page 338

*Tip: For One-High open pedestals for use with Ology, add a finished back when visible from the rear.*

| Standard Includes                                                                                                                                                                                                  | Required to Specify                                                                                                                                                                                                                               |

# Plinth Base Free Support End Panels

*Tip: Free support end panels are replacements for the former full-height T-shape end panel style numbers.*

*Tip: For proper stability, bullet and P-top worksurfaces supported by 27½"H free support or extended T-shape end panels must be connected to a perpendicular worksurface forming an L- or U-shaped configuration.*

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

# Plinth Base Corner Support Kits and Rear L-Shape

*Tip: When specifying modesty panels for use with corner support kits, order modesty panels that are 12" shorter than the worksurface width where the modesty panel will be located.*

**For laminate price group 2 pricing, please refer to the electronic catalog or SmartTools.**

*Tip: Corner support kits are not available in leg base applications. Plinth base corner support kits are still a feasible option to be used within a leg base application, if needed.*

| Standard Includes                                                                                                                                                                                                                                                                                                                                                 | Required to Specify                                                                                                                                                                                                                                                                                              |

# Plinth Base Center Support Panels

Plinth Base  
Center Support Panels

*Tip: When calculating unsupported spans, the 15" portion of an L-shaped end panel that runs along the back edge should not be considered. Measure from the portion of the end panel that runs front-to-back.*

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: For unsupported spans from 60"W to 90"W, use one worksurface brace or a center support panel. For spans greater than 90"W, a center support panel must be used.*

*Tip: 8"D center support panels are used with 18"D worksurfaces. 24"D and 30"D worksurfaces must use the 11"D center support panel.*

| Standard Includes                                                                                                                                                                                                 | Required to Specify                                                                                                                                                                                                                                                               |

| 3/4" | 90" | 12" | <b>E6NM9012</b> | \$ 892 | \$704 | +\$ 74 | +\$260 |

Tip: To determine the width of 12"H modesty panel to use with plinth base 1.5 high storage and cable shroud support, refer to the Cable Shroud Support and Modesty Panel Selection Guide, page 108.

Tip: 2/3-Height modesty panels can be used in conjunction with either plinth base or leg base storage.

Tip: 2/3-Height desk modesty panels must attach to pedestal or leg support.

Tip: 2/3-Height desk modesty panels should be used only with overhanging desk worksurfaces when a pedestal is used.

**For Canadian Pricing**  
Multiply U.S. Price by the Canadian price factor.

★ To determine the width of the 2/3-height modesty panel needed, refer to *Modesty Panel Selection Guide for Run-Off Worksurfaces*, page 108.

**For Canadian Pricing**  
Multiply U.S. Price by the Canadian price factor.  
► See page 1 for details.

## Universal Privacy/Modesty Screens

**Parametric sizes will be available Summer 2020.**

**Tip:** Universal privacy/modesty screens can be attached to 3/4"–1½" thick worksurface, including height adjustable work-surfaces, universal work-surfaces, and Elective Elements worksurfaces.

**Tip:** The screens weigh between 9.79 lb and 11.89 lb. Take this into consideration when planning for use on height-adjustable workspaces.

*Tip: The universal privacy/modesty screen is intended for use on the back of a worksurface.*

*Tip: Fabric is applied horizontally on the screen.*

*Tip: Screen allows for 1 1/8" cord drop or no cord drop. See understanding pages for product specific application guidelines.*

### Standard Includes

- Need help?  
Product details,  
page 82
- Screen: fabric price group 1
  - Edge: PET
  - Brackets: 7360 Merle

## Required to Specify

- 1 Style number
  - 2 Screen size type (see below under Required Sections)
  - 3 Width (see below under Required Sections)
  - 4 Mount location (see below under Required Sections)
  - 5 Fabric color number for screen
  - 6 Edge color:
    - P630 Medium Heather Grey PET
    - P631 Dark Heather Grey PET
  - 7 Options, if selected (see below)
- See *Surface Materials*, page 632.

# Sarto Privacy/Modesty Screens

Tip: Sarto privacy/modesty screens can be attached to 3/4"-1 1/2" thick worksurface, including Ology, Migration, Series 5 worksurfaces, Elective Elements, universal tables, and universal panel-mount worksurfaces.

Tip: The screens weigh between 4.86 and 7.59 lb. Take this into consideration when planning for use on height-adjustable worksurfaces.

Tip: The sarto privacy/modesty screen is intended for use on the back of a worksurface.

Tip: Fabric is applied horizontally on the screen.

Tip: Screen allows for 1 1/8" cord drop or no cord drop. See understanding pages for product specific application guidelines.

| Standard Includes                                                                                                                                              | Required to Specify                                                                                                                                                                                                                                    |

# Glass Modesty Panels

Tip: Glass modesty panels offer no structural support.

Tip: Glass modesty panel cannot mount in front of a power unit with cord pass-through due to bracket interference.

Tip: The glass modesty is available in two versions – end panel application and storage application. The storage application is 7/8" larger to fill the absence of headset on open storage in an L-shape application where the lack of open storage headset would adjoin against the modesty.

Tip: Use the glass modesty panels ending in "E" for any application with an end panel on both ends, end panel and storage on either end, or storage on both ends for tightest flush fit. This applies to both plinth and leg base applications.

Tip: When using the column leg application, specify separately rectangular column, column, or disk column leg for spacer.

Tip: Glass modesty panel cannot attach flush to same end of worksurface that has a pedestal as a support.

| Standard Includes                                                                                                                                                                       | Required to Specify                                                                                                                                                                                                                                                |

# Perpendicular Tether Support

Perpendicular Tether Support

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: Depth of the perpendicular tether support is determined by the depth of the worksurface supported. Use a 19 $\frac{5}{8}$ "D support for a 24"D worksurface. Use a 25 $\frac{5}{8}$ "D support for a 30"D worksurface. Use a 31 $\frac{5}{8}$ "D support for a 36"D worksurface.*

*Tip: Width of the perpendicular tether support is determined by the depth of the worksurface above the 1.5 high storage units. Use a 13 $\frac{5}{8}$ "W support when the worksurface is 18"D. Use a 19 $\frac{5}{8}$ "W support when the worksurface is 24"D.*

*Tip: Perpendicular tether supports are designed to work with desk worksurfaces. Any other worksurface will require holes to be drilled by installers.*

*Tip: The perpendicular support is not handed.*

| Standard Includes                                                                                                                                                                                                         | Required to Specify                                                                                                                                                                                                                |

# Cable Shroud Support

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: Width of cable shroud support is determined by the width of the technology desk worksurface with technology zone. 48"W cable shroud supports are used with 60"W desks. 54"W cable shroud supports are used with 66" and 72"W desks. Use 60"W cable shroud supports with 78" and 84"W desks and 66"W cable shroud supports with 90"W desks.*

| Standard Includes                                                                                                                                                                                                       | Required to Specify                                                                                                                                                                                                                                                                 |

Worksurface  
Supports

#### For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

# Braces

## Worksurface Braces

► See page 99 for worksurface brace rules.

*Tip: When calculating unsupported spans, the 15" portion of an L-shaped end panel that runs along the back edge should not be considered. Measure from the portion of the end panel that runs front-to-back.*

*Tip: When using a blade edge profile on a worksurface, the rules are slightly more stringent, due to the construction of the top. See Understanding, page 99.*

| Standard Includes                                                                                                                       | Required to Specify |

▶ See page 1 for details.

# Legs and Supports

*Tip: Worksurfaces other than blade edge supported by legs or tethered brackets that have unsupported spans less than or equal to 24"D x 84"W, use one worksurface brace. For unsupported spans greater than 24"D x 84"W two worksurface braces are required for support.*

*Tip: When specifying a rectangular column leg for use with a worksurface 78"W or larger, the rectangular column leg with base must be used.*

*Tip: Rectangular column legs with bases, columns, disk columns, and gate leg should not be used to support freestanding tables. They are used to support the end of run-off worksurfaces.*

*Tip: The gate leg cannot be used with the Universal top or blade edge profile.*

*Tip: When using a blade edge profile, rules are slightly more stringent due to construction.*  
► See Understanding, page 99.

## End Panel to Modesty Panel Attachment Bracket

**AWQB** \$25

: :

*Tip: End panel to modesty panel attachment bracket is shipped with corner support kits, rear L-shape corner supports, and return work-surfaces. These brackets are used to secure end panels to modesty panels at the base.*

## Felt Tape—100' Roll

**AWAF100** \$79

: :

*Tip: Felt tape can be used to create consistent reveals between components and can be used to seal light leaks in back-to-back installations.*

## Flush-Mount Brackets

**AWQF** \$29

: :

*Tip: Flush-mount brackets are shipped with run-off, bridge, and return work-surfaces. Additional brackets may be ordered to align work-surfaces if needed.*

# Plinth Base Pedestals

Wood Veneer or Laminate

Tip: Glide hole covers are black and are visible in underwork surface bookcases.

Tip: When integral pull is specified with a 9250 Ember Chrome lock, the lock housing is black. When 9201 Polished Chrome lock is specified, the lock housing is nickel.

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

Tip: Locks are not available on pedestals with a single-door specified with integral or beam pulls. Units with double doors and an integral or beam pull do lock.

Tip: Metal shelves only available on hinged door and open units.

Tip: When selected, miter fold box drawers include one black plastic pencil tray. Plastic pencil tray is designed to fit 15"W box drawer, but ships with both 15"W and 18"W. In the miter fold drawer in the 18"W pedestal, the pencil tray rests on the bottom of the drawer.

Tip: For counterweight rules see application topics on page 134.

Tip: Order finished back panels or modesty panels when units will be exposed.

Tip: When applying a cushion top to a freestanding 27½"H two-high lateral file or an open/file 1.5 high, a finished back panel must be used.

Tip: File capacities vary.

# One-High Open Plinth Base Pedestals for Ology Application

One-High Open Plinth  
Base Pedestals for Ology  
Application

*Tip: Ships without top. Picture shows fully assembled product. To specify a top option, see style number E6WSHAD*  
▶ page 366.

*Tip: Leveling glides adjust up to 3/4".*

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: If back panel eliminated, use Elective Elements' filler panel when against wall or back-to-back, if desired.*

*Tip: Modesty panels and screens must be undersized and justified to the outside of the straight work surface when used.*

*Tip: Select a common top to create a one-high credenza.*

*Tip: To help avoid pinch point, the pedestal for Ology application extends 1" past the back of the Elective Elements common top.*

## Standard Includes

- ▶ Need help? Product details, page 154
- Case with back panel: wood group 1 veneer or laminate price group 1
- Grommet in top of case
- Removable interior cover
- Skeleton bone wire manager

## Required to Specify

- 1 Style number
  - 2 Width (see below under Required Selections)
  - 3 Wood or laminate color number for case
  - 4 Options, if selected (see below)
- ▶ See *Surface Materials*, page 632.

# Common Top for Ology Application

► Need help?  
Product details,  
page 154

## Standard Includes

- Common top: wood group 1 veneer or laminate price group 1
- Wood common top with wood edge:
  - 3 mm wood square profile on user side
  - 0.5 mm veneer on other sides
- Laminate common top with plastic edge:
  - 3 mm plastic edge on user's side
  - 1 mm plastic edge on other sides, plastic default to match user's side
- Laminate common top with wood edge:
  - Solid wood edge on user's side
  - 1 mm plastic edge on other sides, color default to match worksurface

## Required to Specify

- 1 Style number
  - 2 Width (see below under Required Selections)
  - 3 Wood or laminate color number
  - 4 Wood edge color number for all sides on wood worksurface, if selected
  - 5 Plastic edge color number for all sides on laminate worksurface, if selected
  - 6 Common top profile (see below under Required Selections)
  - 7 Application (see below under Required Selections)
  - 8 Options, if selected (see below)
- See *Surface Materials*, page 632.

|              | Required Selections                                                                                                                                                                                                                                                                                                          | U.S. Price                                                                                                                                                                                                                                                                                                                      | Required to Specify                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

Tip: Soft close drawer slides only apply to storage that has 15"W and 18"W drawers.

Tip: When integral pull is specified with a 9250 Ember Chrome lock, the lock housing is black. When 9201 Polished Chrome lock is specified, the lock housing is nickel.

Tip: Soft close slides are available for both dovetail and miter fold construction.

Tip: When selected, miter fold box drawers include one black plastic pencil tray and drawer divider.

Tip: For counterweight rules see application topics on page 134.

# Plinth Base One-High Pedestals (15½"H)

Wood Veneer or Laminate

► Need help?  
Product details,  
page 136

## Standard Includes

- Lateral file:
  - Wood group 1 case with wood front
  - Laminate price group 1 case with same or contrasting laminate front
  - Laminate price group 1 case with wood front
- Bookcase:
  - Wood case
  - Laminate price group 1 case
- Unfinished back
- Unfinished open top
- Dovetail drawer construction
- One fastened metal filing system per filing drawer: black only
- Lock, keyed random
- Counterweight package
- Standard close drawer

## Required to Specify

- 1 Style number
  - 2 Wood veneer or laminate color number for lateral file or bookcase
  - 3 Laminate color number for laminate fronts on laminate case, if selected
  - 4 Wood color number for wood fronts on laminate cases, if selected
  - 5 Pull shape (see below under Required Selections)
  - 6 Finish color number for pull
  - 7 Finish color number for lock
  - 8 Options, if selected (see below)
- See *Surface Materials*, page 632.

## Required Selections

### Pull Shape

Contemporary

No cost

Jazz

+\$20 each

Bar

+\$27 each

Nile

+\$27 each

Integral\*

+\$27 each

Transitional

+\$27 each

Inset

+\$27 each

Beam

+\$38 each

\*Not available on laminate or composite fronts.

Tip: Glide hole covers are black and are visible in underworksurface bookcases.

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

Tip: When integral pull is specified with a 9250 Ember Chrome lock, the lock housing is black. When 9201 Polished Chrome lock is specified, the lock housing is nickel.

Tip: Finish tops of one-high storage units with cushions or worksurfaces.

Tip: Multiple units can be ganged together under a single worksurface with a suspension/ganging hardware kit.

Tip: Counterweights are included and are always required in one-highs with file drawers. Counterweights are field-installed.

Tip: File capacities vary.

## For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

# Plinth Base 1.5 High Storage (21½"H)

Wood Veneer or Laminate

Tip: Glide hole covers are black and are visible in open units.

Tip: Multiple units can be ganged together under a single worksurface. Use the suspension/ganging hardware kit results in damage to both exterior cases.

Tip: The space at the back of the units with technology troughs accommodates wires.

| Standard Includes                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Required to Specify                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

# Plinth Base Mobile Pedestal

Wood Veneer or Laminate

*Tip: When specifying an all laminate case, if the fronts have a contrasting laminate the laminate top will match the case.*

| Standard Includes                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | Required to Specify                                                                                                                                                                                                                                                                                                                                                                                                                    |

# Plinth Base Lateral Files—Freestanding 2-High

Wood Veneer or Laminate

*Tip: When specifying an all laminate case, if the fronts have a contrasting laminate the laminate top will match the case.*

*Tip: The two-high freestanding lateral file is not available in leg base storage.*

| Standard Includes                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Required to Specify                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

# Plinth Base Lateral Files—Freestanding 3-High and 4-High

Wood Veneer or Laminate

*Tip: When specifying an all laminate case, if the fronts have a contrasting laminate the laminate top will match the case.*

*Tip: The four-high freestanding lateral file is not available in leg base storage.*

| Standard Includes                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Required to Specify                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

# Plinth Base Freestanding Bookcases—Open

Wood Veneer or Laminate

*Tip: Freestanding bookcases that are 72½" or 77½"H have an unfinished back and must be placed up against a wall or back-to-back.*

*Tip: Shelves with less than 12" of clearance height will not hold some binders in the vertical orientation.*

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: Specify optional 1½" thick heavy load shelves for heavy load conditions. Heavy load conditions are defined as loads of 100 lbs or greater. Heavy load shelves should be specified on wider units (30"W or 36"W) loaded with books or other heavy objects. Metal shelves also support heavy loads.*

*Tip: Glide hole covers are black and are visible in bookcases.*

| Standard Includes                            |                                                                                                                                                                                                                      | Required to Specify                                                                                                                                |                                                                                                          |

# Stacking Bookcases—Open

Wood Veneer or Laminate

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: Specify optional 1½" thick heavy load shelves for heavy load conditions. Heavy load conditions are defined as loads of 100 lbs or greater. Heavy load shelves should be specified on wider units (30"W or 36"W) loaded with books or other heavy objects. Metal shelves also support heavy loads.*

*Tip: 71½"H shelves and single-high overhead cabinets can be suspended between stacking bookcases. Specify suspension hardware kit separately.*

*Tip: 36⅝"H stacking bookcases align with 65⅝"H freestanding storage when mounted at standard work surfaces height of 29". 43½"H stacking bookcases align with 72½"H freestanding storage when mounted at standard work surfaces height of 29". 48⅞" aligns with 77½"H.*

*Tip: Shelves with less than 12" of clearance height will not hold some binders in the vertical orientation.*

Tip: Specify optional 1<sup>1</sup>/<sub>8</sub>" thick heavy load or metal shelves for heavy load conditions. Heavy load conditions are defined as loads of 100 lbs or greater. Heavy load shelves should be specified on wider units (30"W or 36"W) loaded with books or other heavy objects.

Tip: 7<sup>1</sup>/<sub>2</sub>"H shelves and single-high overhead cabinets can be suspended between stacking bookcases. Specify suspension/ganging hardware kit separately.

Tip: Shelves with less than 12" of clearance height will not hold some binders in the vertical orientation.

| *Not available on laminate or composite fronts. |            |            |            |            |              |            |            |

Tip: On units with two doors, only the wardrobe door locks.

Tip: Locks are not available on doors with integral pulls.

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

Tip: On 24"W towers specified with a glass door, only the 15"W door will be glass. The wardrobe door will be wood or laminate.

Tip: Glass doors have a magnetic touch latch. They do not have pulls. Glass doors are not available with locks.

Tip: 7½"H shelves and overhead cabinets can be suspended between towers. Specify suspension/ganging hardware kit separately.

**For Canadian Pricing**  
Multiply U.S. Price by the Canadian price factor.

Tip: Specify a left-hand (hinged left) unit if the user is sitting to the right of the unit and a right-hand (hinged right) unit if the user is sitting to the left of the unit.  
F=Fixed shelf

# Plinth Base Towers with Doors and Drawers

Wood Veneer or Laminate

*Tip: Organizer and open shelves and overhead cabinets can be suspended between 65 $\frac{5}{8}$ "H, 72 $\frac{1}{2}$ "H, and 77 $\frac{1}{2}$ "H towers. Specify suspension/ganging hardware kit separately.*

*Tip: Open/shelves are not recommended as bookshelves.*

*Tip: When specifying glass doors and beam pulls, the frame finish must match the pull.*

*Tip: Locks are not available on doors with integral pulls. Drawers with integral pulls always lock.*

**For laminate price group 2 pricing, please refer to the electronic catalog or SmartTools.**

*Tip: When integral pull is specified with a 9250 Ember Chrome lock, the lock housing is black. When 9201 Polished Chrome lock is specified, the lock housing is nickel.*

*Tip: Soft close drawer slides only apply to storage that have 15 $\frac{1}{2}$ "W drawers.*

*Tip: On units with two doors, only the wardrobe door locks. Drawers always lock.*

## For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

| Standard Includes                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Required to Specify                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

Tip: On 24"W towers specified with a glass door, only the 15"W door will be glass. The wardrobe door will be wood or laminate.

Tip: Glass doors have a magnetic touch latch. They do not have pulls. Glass doors are not available with locks.

Tip: Soft close slides are available for both dovetail and miter fold construction.

# Plinth Base Towers with Open Shelves and Drawers

Wood Veneer or Laminate

► Need help?  
Product details,  
page 178

## Standard Includes

- Tower:
  - Wood group 1 case with wood front
  - Laminate price group 1 case with same or contrasting laminate front
  - Laminate price group 1 case with wood front
- Wardrobe on 24"W units:
  - Right-hand units: wardrobe on right, doors hinged right
  - Left-hand units: wardrobe on left, doors hinged left
- Finished inset back on 45", 55 1/4", 65 5/8", and 72 1/2"H towers
- Unfinished inset back on 77 1/2"H towers
- Dovetail drawer construction
- Shelves: wood or laminate to match case
- Brackets for adjustable shelves: black only
- Two coat hooks in wardrobe: brushed nickel only
- One fastened metal filing system per file drawer: black only
- Lock, keyed random
- Standard close drawer slides

## Required to Specify

- 1 Style number
  - 2 Wood or laminate color number for tower
  - 3 Laminate color number for laminate fronts on laminate case, if selected
  - 4 Wood color number for wood fronts on laminate cases, if selected
  - 5 Pull shape (see below under Required Selections)
  - 6 Finish color number for pull
  - 7 Finish color number for lock
  - 8 Options, if selected (see below)
- See *Surface Materials*, page 632.

## Required Selections

### Pull Shape

Contemporary

No cost

Jazz

+\$20 each

Bar

+\$27 each

Nile

+\$27 each

Integral\*

+\$27 each

\*Not available on laminate or composite fronts.

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

*Tip:* Soft close drawer slides only apply to storage that have 15 1/2"W drawers.

*Tip:* Locks are not available on doors with integral pulls. Drawers with integral pulls always lock.

*Tip:* Organizer and open shelves and overhead cabinets can be suspended between towers. Specify suspension/ganging hardware kit separately.

*Tip:* Soft close slides are available for both dovetail and miter fold construction.

Plinth Base Towers with  
Open Shelves and Drawers

# Plinth Base Vertical Cabinets

Wood Veneer or Laminate

F=Fixed shelf

► Need help?  
Product details,  
page 178

## Standard Includes

- Vertical cabinet:
  - Wood group 1 case with wood front
  - Laminate price group 1 case with same or contrasting laminate front
  - Laminate price group 1 case with wood front
- Shelves: wood or laminate to match case
- Finished inset back on 45", 65 $\frac{5}{8}$ ", and 72 $\frac{1}{2}$ "H vertical cabinets
- Unfinished inset back on 77 $\frac{1}{2}$ "H vertical cabinets
- Dovetail drawer construction
- Brackets for adjustable shelves: black only
- One fastened metal filing system per file drawer: black only
- Lock, keyed random
- Standard close drawers

## Required to Specify

- 1 Style number
  - 2 Wood or laminate color number for vertical cabinet
  - 3 Laminate color number for laminate fronts on laminate case, if selected
  - 4 Wood color number for wood fronts on laminate cases, if selected
  - 5 Pull shape (see below under Required Selections)
  - 6 Finish color number for pull
  - 7 Finish color number for lock
  - 8 Options, if selected (see below)
- See *Surface Materials*, page 632.

Tip: When specifying glass doors and beam pulls, the frame finish must match the pull.

## Required Selections

### Pull Shape

Contemporary

No cost

Jazz

+\$20 each

Bar

+\$27 each

Nile

+\$27 each

Integral\*

+\$27 each

Transitional

+\$27 each

Inset

+\$27 each

Beam

+\$38 each

\*Not available on laminate or composite fronts.

Tip: Locks are not available on doors with integral pulls. Hinged doors over four drawers are an exception to this rule.

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

Tip: When integral pull is specified with a 9250 Ember Chrome lock, the lock housing is black. When 9201 Polished Chrome lock is specified, the lock housing is nickel.

Tip: Doors open from the center out (one door hinged right, one door hinged left).

Tip: Glass doors have a magnetic touch latch. They do not have pulls. Glass doors are not available with locks.

Tip: Double-door units with integral or beam pulls will have a single pull on the right-hand door.

**For Canadian Pricing**  
Multiply U.S. Price by the Canadian price factor.

# Plinth Base Wardrobes

Wood Veneer or Laminate

► Need help?  
Product details,  
page 178

## Standard Includes

- Wardrobes:
  - Wood group 1 case with wood front
  - Laminate price group 1 case with same or contrasting laminate front
  - Laminate price group 1 case with wood front
- Finished inset back on 45"H, 55¼"H, 65⅝"H, and 72½"H wardrobes
- Unfinished inset back on 77½"H wardrobes
- Full coat rod on 65⅝"H, 72½"H, and 77½"H (wider than 12"W) wardrobes only
- Two hooks on 12"W wardrobes
- Lock, keyed random

## Required to Specify

- 1 Style number
  - 2 Wood or laminate color number for wardrobe
  - 3 Laminate color number for laminate fronts on laminate case, if selected
  - 4 Wood color number for wood fronts on laminate cases, if selected
  - 5 Pull shape (see below under Required Selections)
  - 6 Finish color number for pull
  - 7 Finish color number for lock
  - 8 Options, if selected (see below)
- See *Surface Materials*, page 632.

## Required Selections

### Pull Shape

Contemporary

No cost

Jazz

+\$20 each

Bar

+\$27 each

Nile

+\$27 each

Integral\*

+\$27 each

Transitional

+\$27 each

Inset

+\$27 each

Beam

+\$38 each

\*Not available on laminate or composite fronts.

*Tip: To ensure stability, 12"W wardrobe must be attached to a building wall or to adjacent furniture.*

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: Locks are not available on doors with integral pulls.*

*Tip: Doors open from the center out (one door hinged right, one door hinged left).*

*Tip: Glass doors have a magnetic touch latch. They do not have pulls. Glass doors are not available with locks.*

*Tip: Double-door units with integral or beam pulls will have a single pull on the right-hand door.*

Tip: Storage with open components have a 23 in the depth location of the style number instead of a 24 due to the dimensional change with the lack of a headset.

## For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

# 18"D Leg Base 27½"H Storage

Wood Veneer or Laminate

Tip: When ordering single 27½"H storage units through SmartTools, see leg base credenzas.

Tip: When storage legs are shared between two units, the extra legs should be saved for later use, such as reconfiguration.

For laminate price group 2 pricing, please refer to the electronic catalog or SmartTools.

Tip: Metal shelves only available in open or hinged door components.

Tip: Back panel is inset and spans entire width of credenza.

Tip: Technology trough is only available in open/file for 18"D.

# 24"D Leg Base 27½"H Storage

Wood Veneer or Laminate

Tip: When ordering single 27½"H storage units through SmartTools, see leg base credenzas.

Tip: When storage legs are shared between two units, the extra legs should be saved for later use, such as reconfiguration.

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

Tip: Soft close drawer slides only apply to storage that has 15"W and 18"W drawers.

Tip: Metal shelves only available in open or hinged door components.

Tip: Back panel is inset and spans entire width of credenza.

 **For Canadian Pricing**  
Multiply U.S. Price by the Canadian price factor.  
► See page 1 for details.

| Standard Includes                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Required to Specify                                                                                                                                                                                                                                                                                                                           |                                                                                                  |

Tip: Single 15"W or 18"W leg base storage cannot accept technology zone.  
If ganged with another unit technology is specifiable, order the suspension/ganging hardware kit separately.

# 60"W Leg Base 21½"H Credenzas

Wood Veneer or Laminate

Tip: Storage legs may be shared with another leg base storage unit of the same depth.

Tip: When storage legs are shared between two units, the extra legs should be saved for later use, such as reconfiguration.

## Standard Includes

- ▶ Need help?  
Product details,  
page 164
- Underworksurface storage:
  - Wood group 1 case with wood front
  - Laminate price group 1 case with same or contrasting laminate front
  - Laminate price group 1 case with wood front
- Unfinished, inset back panel spanning full credenza
- Unfinished open top
- Storage leg; paint or metal
- Dovetail drawer construction
- Lock, keyed random
- Counterweight package
- Storage brace
- Standard close drawers

## Required to Specify

- 1 Style number with appropriate suffix to indicate location of storage units
  - 2 Wood or laminate color number for underworksurface storage
  - 3 Laminate color number for laminate fronts on laminate case, if selected
  - 4 Wood color number for wood fronts on laminate cases, if selected
  - 5 Pull shape (see below under Required Selections)
  - 6 Paint or metal color number for storage leg
  - 7 Finish color number for pull
  - 8 Finish color number for lock
  - 9 Options, if selected (see below)
- ▶ See *Surface Materials*, page 632.

For laminate price group 2 pricing, please refer to the electronic catalog or SmartTools.

Tip: Back panel is inset and spans entire width of credenza.

**For Canadian Pricing**  
 Multiply U.S. Price by the Canadian price factor.  
 ► See page 1 for details.

66"W Leg Base  
21 1/2"H Credenzas

*Tip: The location of the suffix within the style number determines the location of the storage unit within the credenza.*

*Tip: Credenzas with all open components have a 23 in the depth location of the style number instead of a 24 due to the dimensional change with the lack of a headset.*

# 72"W Leg Base 21½"H Credenzas

Wood Veneer or Laminate

Tip: Storage legs may be shared with another leg base storage unit of the same depth.

Tip: When storage legs are shared between two units, the extra legs should be saved for later use, such as reconfiguration.

| Standard Includes                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Required to Specify                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

|                       | • Wood full length back panel               | +\$384                                          | Specify <i>with wood finished back panel</i> .     |

For laminate price group 2 pricing, please refer to the electronic catalog or SmartTools.

Tip: Back panel is inset and spans entire width of credenza.

**For Canadian Pricing**  
 Multiply U.S. Price by the Canadian price factor.  
 ► See page 1 for details.

*Tip: The location of the suffix within the style number determines the location of the storage unit within the credenza.*

*Tip: Credenzas with all open components have a 23 in the depth location of the style number instead of a 24 due to the dimensional change with the lack of a headset.*

Tip: Back panel is inset and spans entire width of credenza.

### For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

96"W Leg Base  
21 1/2"H Credenzas

Tip: The location of the suffix within the style number determines the location of the storage unit within the credenza.

Tip: Credenzas with all open components have a 23 in the depth location of the style number instead of a 24 due to the dimensional change with the lack of a headset.

# 18"D x 60"W Leg Base 27½"H Credenzas

Wood Veneer or Laminate

Tip: Storage legs may be shared with another leg base storage unit of the same depth.

Tip: When storage legs are shared between two units, the extra legs should be saved for later use, such as reconfiguration.

For laminate price group 2 pricing, please refer to the electronic catalog or SmartTools.

Tip: Metal shelves only available in open or hinged door components.

Tip: Back panel is inset and spans entire width of credenza.

Tip: Technology trough is only available in open/file for 18"D.

Tip: Center or inside panels are always cut out if technology trough is specified to allow cords to pass between components.

## Standard Includes

- ▶ Need help? Product details, page 168
- Underworksurface storage:
  - Wood group 1 case with wood front
  - Laminate price group 1 case with same or contrasting laminate front
  - Laminate price group 1 case with wood front
- Unfinished, inset back panel spanning full credenza
- Unfinished open top
- Storage leg; paint or metal
- Dovetail drawer construction
- Lock, keyed random
- Counterweight package
- Storage brace
- Standard close drawers

## Required to Specify

- 1 Style number with appropriate suffix to indicate location of storage units
  - 2 Wood or laminate color number for underworksurface storage
  - 3 Laminate color number for laminate fronts on laminate case, if selected
  - 4 Wood color number for wood fronts on laminate cases, if selected
  - 5 Pull shape (see below under Required Selections)
  - 6 Paint or metal color number for storage leg
  - 7 Finish color number for pull
  - 8 Finish color number for lock
  - 9 Options, if selected (see below)
- ▶ See *Surface Materials*, page 632.

# 18"D x 90"W Leg Base 27½"H Credenzas

Wood Veneer or Laminate

Tip: Storage legs may be shared with another leg base storage unit of the same depth.

Tip: When storage legs are shared between two units, the extra legs should be saved for later use, such as reconfiguration.

For laminate price group 2 pricing, please refer to the electronic catalog or SmartTools.

Tip: Metal shelves only available in open or hinged door components.

Tip: Back panel is inset and spans entire width of credenza.

Tip: Technology trough is only available in open/file for 18"D.

Tip: Center or inside panels are always cut out if technology trough is specified to allow cords to pass between components.

## Standard Includes

- ▶ Need help? Product details, page 168
- Underworksurface storage:
  - Wood group 1 case with wood front
  - Laminate price group 1 case with same or contrasting laminate front
  - Laminate price group 1 case with wood front
- Unfinished, inset back panel spanning full credenza
- Unfinished open top
- Storage leg; paint or metal
- Dovetail drawer construction
- Lock, keyed random
- Counterweight package
- Storage brace
- Standard close drawers

## Required to Specify

- 1 Style number with appropriate suffix to indicate location of storage units
  - 2 Wood or laminate color number for underworksurface storage
  - 3 Laminate color number for laminate fronts on laminate case, if selected
  - 4 Wood color number for wood fronts on laminate cases, if selected
  - 5 Pull shape (see below under Required Selections)
  - 6 Paint or metal color number for storage leg
  - 7 Finish color number for pull
  - 8 Finish color number for lock
  - 9 Options, if selected (see below)
- ▶ See *Surface Materials*, page 632.

# 18"D x 96"W Leg Base 27½"H Credenzas

Wood Veneer or Laminate

Tip: Storage legs may be shared with another leg base storage unit of the same depth.

Tip: When storage legs are shared between two units, the extra legs should be saved for later use, such as reconfiguration.

| Standard Includes                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Required to Specify                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

Tip: Metal shelves only available in open or hinged door components.

Tip: Back panel is inset and spans entire width of credenza.

Tip: Technology trough is only available in open/file for 18"D.

Tip: Center or inside panels are always cut out if technology trough is specified to allow cords to pass between components.

18"D x 96"W Leg Base  
27½"H Credenzas

*Tip: The location of the suffix within the style number determines the location of the storage unit within the credenza.*

**For Canadian Pricing**  
Multiply U.S. Price by the Canadian price factor.  
► See page 1 for details.

# 24"D x 45"W Leg Base 27½"H Credenzas

Wood Veneer or Laminate

Tip: For 15"W to 36"W single leg base units, see page 426.

Tip: A 45"W credenza can only be used in an open kneewell setting (without a back panel). Order a leg base L-shape end panel separately. If a kneewell with a back panel is needed, order a built up credenza.

Tip: Storage legs may be shared with another leg base storage unit of the same depth.

Tip: When storage legs are shared between two units, the extra legs should be saved for later use, such as reconfiguration.

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

Tip: Soft close drawer slides only apply to storage that has 15"W drawers.

Tip: Metal shelves only available in open or hinged door components.

Tip: Back panel is inset and spans entire width of credenza.

## Standard Includes

- ▶ Need help? Product details, page 168
- Underworksurface storage:
  - Wood group 1 case with wood front
  - Laminate price group 1 case with same or contrasting laminate front
  - Laminate price group 1 case with wood front
- Unfinished, inset back panel spanning full credenza
- Unfinished open top
- Storage leg; paint or metal
- Dovetail drawer construction
- Lock, keyed random
- Counterweight package
- Storage brace
- Standard close drawer slides

## Required to Specify

- 1 Style number with appropriate suffix to indicate location of storage units
  - 2 Wood or laminate color number for underworksurface storage
  - 3 Laminate color number for laminate fronts on laminate case, if selected
  - 4 Wood color number for wood fronts on laminate cases, if selected
  - 5 Pull shape (see below under Required Selections)
  - 6 Paint or metal color number for storage leg
  - 7 Finish color number for pull
  - 8 Finish color number for lock
  - 9 Options, if selected (see below)
- ▶ See *Surface Materials*, page 632.

Tip: Technology trough is not available in hinged door components.

Tip: Center or inside panels are always cut out if technology trough is specified to allow cords to pass between components.

Tip: The location of the suffix within the style number determines the location of the storage unit within the credenza.

# 24"D x 48"W Leg Base 27½"H Credenzas

Wood Veneer or Laminate

Tip: Storage legs may be shared with another leg base storage unit of the same depth.

Tip: When storage legs are shared between two units, the extra legs should be saved for later use, such as reconfiguration.

## Standard Includes

- ▶ Need help?  
Product details,  
page 168
- Underworksurface storage:
  - Wood group 1 case with wood front
  - Laminate price group 1 case with same or contrasting laminate front
  - Laminate price group 1 case with wood front
- Unfinished, inset back panel spanning full credenza
- Unfinished open top
- Storage leg; paint or metal
- Dovetail drawer construction
- Lock, keyed random
- Counterweight package
- Storage brace
- Standard close drawer slides

## Required to Specify

- 1 Style number with appropriate suffix to indicate location of storage units
  - 2 Wood or laminate color number for underworksurface storage
  - 3 Laminate color number for laminate fronts on laminate case, if selected
  - 4 Wood color number for wood fronts on laminate cases, if selected
  - 5 Pull shape (see below under Required Selections)
  - 6 Paint or metal color number for storage leg
  - 7 Finish color number for pull
  - 8 Finish color number for lock
  - 9 Options, if selected (see below)
- ▶ See *Surface Materials*, page 632.

# 24"D x 54"W Leg Base 27½"H Credenzas

Wood Veneer or Laminate

Tip: Storage legs may be shared with another leg base storage unit of the same depth.

Tip: When storage legs are shared between two units, the extra legs should be saved for later use, such as reconfiguration.

## Standard Includes

- ▶ Need help?  
Product details,  
page 168
- Underworksurface storage:
  - Wood group 1 case with wood front
  - Laminate price group 1 case with same or contrasting laminate front
  - Laminate price group 1 case with wood front
- Unfinished, inset back panel spanning full credenza
- Unfinished open top
- Storage leg; paint or metal
- Dovetail drawer construction
- Lock, keyed random
- Counterweight package
- Storage brace
- Standard close drawer slides

## Required to Specify

- 1 Style number with appropriate suffix to indicate location of storage units
  - 2 Wood or laminate color number for underworksurface storage
  - 3 Laminate color number for laminate fronts on laminate case, if selected
  - 4 Wood color number for wood fronts on laminate cases, if selected
  - 5 Pull shape (see below under Required Selections)
  - 6 Paint or metal color number for storage leg
  - 7 Finish color number for pull
  - 8 Finish color number for lock
  - 9 Options, if selected (see below)
- ▶ See *Surface Materials*, page 632.

# 24"D x 60"W Leg Base 27½"H Credenzas

Wood Veneer or Laminate

Tip: Storage legs may be shared with another leg base storage unit of the same depth.

Tip: When storage legs are shared between two units, the extra legs should be saved for later use, such as reconfiguration.

Tip: All credenzas with a kneewell ship knockdown.

Tip: Information on cutout locations in credenzas with kneewell can be found in the Leg Base Storage—Leg Logic.  
► Page 158

**For laminate price group 2 pricing, please refer to the electronic catalog or SmartTools.**

Tip: Soft close drawer slides only apply to storage that has 15"W drawers.

Tip: Metal shelves only available in open or hinged door components.

Tip: Back panel is inset and spans entire width of credenza.

## Standard Includes

- Need help?  
Product details, page 168
- Underworksurface storage:
  - Wood group 1 case with wood front
  - Laminate price group 1 case with same or contrasting laminate front
  - Laminate price group 1 case with wood front
- Unfinished, inset back panel spanning full credenza
- Unfinished open top
- Storage leg; paint or metal
- Dovetail drawer construction
- Lock, keyed random
- Counterweight package
- Storage brace
- Standard close drawer slides

## Required to Specify

- 1 Style number with appropriate suffix to indicate location of storage units
  - 2 Wood or laminate color number for underworksurface storage
  - 3 Laminate color number for laminate fronts on laminate case, if selected
  - 4 Wood color number for wood fronts on laminate cases, if selected
  - 5 Pull shape (see below under Required Selections)
  - 6 Paint or metal color number for storage leg
  - 7 Finish color number for pull
  - 8 Finish color number for lock
  - 9 Options, if selected (see below)
- See *Surface Materials*, page 632.

## For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

# 24"D x 66"W Leg Base 27½"H Credenzas

Wood Veneer or Laminate

24"D x 66"W Leg Base  
27½"H Credenzas

Tip: Storage legs may be shared with another leg base storage unit of the same depth.

Tip: When storage legs are shared between two units, the extra legs should be saved for later use, such as reconfiguration.

Tip: All credenzas with a kneewell ship knockdown.

Tip: Information on cutout locations in credenzas with kneewell can be found in the Leg Base Storage—Leg Logic.  
► Page 158

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

Tip: Soft close drawer slides only apply to storage that has 15"W and 18"W drawers.

Tip: Metal shelves only available in open or hinged door components.

Tip: Back panel is inset and spans entire width of credenza.

## Standard Includes

- Need help?  
Product details, page 168
- Underworksurface storage:
  - Wood group 1 case with wood front
  - Laminate price group 1 case with same or contrasting laminate front
  - Laminate price group 1 case with wood front
- Unfinished, inset back panel spanning full credenza
- Unfinished open top
- Storage leg: paint or metal
- Dovetail drawer construction
- Lock, keyed random
- Counterweight package
- Storage brace
- Standard close drawer slides

## Required to Specify

- 1 Style number with appropriate suffix to indicate location of storage units
  - 2 Wood or laminate color number for underworksurface storage
  - 3 Laminate color number for laminate fronts on laminate case, if selected
  - 4 Wood color number for wood fronts on laminate cases, if selected
  - 5 Pull shape (see below under Required Selections)
  - 6 Paint or metal color number for storage leg
  - 7 Finish color number for pull
  - 8 Finish color number for lock
  - 9 Options, if selected (see below)
- See *Surface Materials*, page 632.

# 24"D x 72"W Leg Base 27½"H Credenzas

Wood Veneer or Laminate

Tip: Storage legs may be shared with another leg base storage unit of the same depth.

Tip: When storage legs are shared between two units, the extra legs should be saved for later use, such as reconfiguration.

Tip: All credenzas with a kneewell ship knockdown.

Tip: Information on cutout locations in credenzas with kneewell can be found in the Leg Base Storage—Leg Logic.  
► Page 158

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

Tip: Soft close drawer slides only apply to storage that has 15"W and 18"W drawers.

Tip: Metal shelves only available in open or hinged door components.

Tip: Back panel is inset and spans entire width of credenza.

**For Canadian Pricing**

# 24"D x 78"W Leg Base 27½"H Credenzas

Wood Veneer or Laminate

Tip: Storage legs may be shared with another leg base storage unit of the same depth.

Tip: When storage legs are shared between two units, the extra legs should be saved for later use, such as reconfiguration.

Tip: All credenzas with a kneewell ship knockdown.

Tip: Information on cutout locations in credenzas with kneewell can be found in the Leg Base Storage—Leg Logic.

► Page 158

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

Tip: Soft close drawer slides only apply to storage that has 15"W and 18"W drawers.

Tip: Metal shelves only available in open or hinged door components.

Tip: Back panel is inset and spans entire width of credenza.

Tip: Technology trough is not available in hinged door components.

Tip: Center or inside panels are always cut out if technology trough is specified to allow cords to pass between components.

## Standard Includes

- Need help? Product details, page 168
- Underworksurface storage:
  - Wood group 1 case with wood front
  - Laminate price group 1 case with same or contrasting laminate front
  - Laminate price group 1 case with wood front
- Unfinished, inset back panel spanning full credenza
- Unfinished open top
- Storage leg; paint or metal
- Dovetail drawer construction
- Lock, keyed random
- Counterweight package
- Storage brace
- Standard close drawer slides

## Required to Specify

- 1 Style number with appropriate suffix to indicate location of storage units
  - 2 Wood or laminate color number for underworksurface storage
  - 3 Laminate color number for laminate fronts on laminate case, if selected
  - 4 Wood color number for wood fronts on laminate cases, if selected
  - 5 Pull shape (see below under Required Selections)
  - 6 Paint or metal color number for storage leg
  - 7 Finish color number for pull
  - 8 Finish color number for lock
  - 9 Options, if selected (see below)
- See *Surface Materials*, page 632.

**For Canadian Pricing**

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

# 24"D x 84"W Leg Base 27½"H Credenzas

Wood Veneer or Laminate

Tip: Storage legs may be shared with another leg base storage unit of the same depth.

Tip: When storage legs are shared between two units, the extra legs should be saved for later use, such as reconfiguration.

Tip: All credenzas with a kneewell ship knockdown.

Tip: Information on cutout locations in credenzas with kneewell can be found in the Leg Base Storage—Leg Logic.  
► Page 158

**For laminate price group 2 pricing, please refer to the electronic catalog or SmartTools.**

Tip: Soft close drawer slides only apply to storage that has 15"W and 18"W drawers.

Tip: Metal shelves only available in open or hinged door components.

Tip: Back panel is inset and spans entire width of credenza.

Tip: Technology trough is not available in hinged door components.

Tip: Center or inside panels are always cut out if technology trough is specified to allow cords to pass between components.

## Standard Includes

- Need help?  
Product details,  
page 168
- Underworksurface storage:
  - Wood group 1 case with wood front
  - Laminate price group 1 case with same or contrasting laminate front
  - Laminate price group 1 case with wood front
- Unfinished, inset back panel spanning full credenza
- Unfinished open top
- Storage leg; paint or metal
- Dovetail drawer construction
- Lock, keyed random
- Counterweight package
- Storage brace
- Standard close drawer slides

## Required to Specify

- 1 Style number with appropriate suffix to indicate location of storage units
  - 2 Wood or laminate color number for underworksurface storage
  - 3 Laminate color number for laminate fronts on laminate case, if selected
  - 4 Wood color number for wood fronts on laminate cases, if selected
  - 5 Pull shape (see below under Required Selections)
  - 6 Paint or metal color number for storage leg
  - 7 Finish color number for pull
  - 8 Finish color number for lock
  - 9 Options, if selected (see below)
- See *Surface Materials*, page 632.

# 24"D x 90"W Leg Base 27½"H Credenzas

Wood Veneer or Laminate

Tip: Storage legs may be shared with another leg base storage unit of the same depth.

Tip: When storage legs are shared between two units, the extra legs should be saved for later use, such as reconfiguration.

Tip: All credenzas with a kneewell ship knockdown.

Tip: Information on cutout locations in credenzas with kneewell can be found in the Leg Base Storage—Leg Logic.  
▶ Page 158

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

Tip: Soft close drawer slides only apply to storage that has 15"W and 18"W drawers.

Tip: Metal shelves only available in open or hinged door components.

Tip: Back panel is inset and spans entire width of credenza.

Tip: Technology trough is not available in hinged door components.

Tip: Center or inside panels are always cut out if technology trough is specified to allow cords to pass between components.

## Standard Includes

- ▶ Need help? Product details, page 168
- Underworksurface storage:
  - Wood group 1 case with wood front
  - Laminate price group 1 case with same or contrasting laminate front
  - Laminate price group 1 case with wood front
- Unfinished, inset back panel spanning full credenza
- Unfinished open top
- Storage leg; paint or metal
- Dovetail drawer construction
- Lock, keyed random
- Counterweight package
- Storage brace
- Standard close drawer slides

## Required to Specify

- 1 Style number with appropriate suffix to indicate location of storage units
  - 2 Wood or laminate color number for underworksurface storage
  - 3 Laminate color number for laminate fronts on laminate case, if selected
  - 4 Wood color number for wood fronts on laminate cases, if selected
  - 5 Pull shape (see below under Required Selections)
  - 6 Paint or metal color number for storage leg
  - 7 Finish color number for pull
  - 8 Finish color number for lock
  - 9 Options, if selected (see below)
- ▶ See *Surface Materials*, page 632.

# 24"D x 96"W Leg Base 27½"H Credenzas

Wood Veneer or Laminate

Tip: Storage legs may be shared with another leg base storage unit of the same depth.

Tip: When storage legs are shared between two units, the extra legs should be saved for later use, such as reconfiguration.

Tip: All credenzas with a kneewell ship knockdown.

Tip: Information on cutout locations in credenzas with kneewell can be found in the Leg Base Storage—Leg Logic.  
▶ Page 158

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

Tip: Soft close drawer slides only apply to storage that has 15"W and 18"W drawers.

Tip: Metal shelves only available in open or hinged door components.

Tip: Back panel is inset and spans entire width of credenza.

Tip: Technology trough is not available in hinged door components.

Tip: Center or inside panels are always cut out if technology trough is specified to allow cords to pass between components.

## Standard Includes

- ▶ Need help?  
Product details,  
page 168
- Underworksurface storage:
  - Wood group 1 case with wood front
  - Laminate price group 1 case with same or contrasting laminate front
  - Laminate price group 1 case with wood front
- Unfinished, inset back panel spanning full credenza
- Unfinished open top
- Storage leg; paint or metal
- Dovetail drawer construction
- Lock, keyed random
- Counterweight package
- Storage brace
- Standard close drawer slides

## Required to Specify

- 1 Style number with appropriate suffix to indicate location of storage units
  - 2 Wood or laminate color number for underworksurface storage
  - 3 Laminate color number for laminate fronts on laminate case, if selected
  - 4 Wood color number for wood fronts on laminate cases, if selected
  - 5 Pull shape (see below under Required Selections)
  - 6 Paint or metal color number for storage leg
  - 7 Finish color number for pull
  - 8 Finish color number for lock
  - 9 Options, if selected (see below)
- ▶ See *Surface Materials*, page 632.

# 24"D x 102"W Leg Base 27½"H Credenzas

Wood Veneer or Laminate

24"D x 102"W Leg Base  
27½"H Credenzas

*Tip: 102"W credenzas are only available with a kneewell and a combination of one or two storage components.*

*Tip: Storage legs may be shared with another leg base storage unit of the same depth.*

*Tip: When storage legs are shared between two units, the extra legs should be saved for later use, such as reconfiguration.*

*Tip: All credenzas with a kneewell ship knockdown.*

*Tip: Any credenza 102" or 108"W ships knockdown.*

*Tip: Information on cutout locations in credenzas with kneewell can be found in the Leg Base Storage—Leg Logic.*  
▶ Page 158

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: Soft close drawer slides only apply to storage that has 15"W and 18"W drawers.*

*Tip: Metal shelves only available in open or hinged door components.*

*Tip: Back panel is inset and spans entire width of credenza.*

## Standard Includes

▶ Need help?  
Product details,  
page 168

- Underworksurface storage:
  - Wood group 1 case with wood front
  - Laminate price group 1 case with same or contrasting laminate front
  - Laminate price group 1 case with wood front
- Unfinished, inset back panel spanning full credenza
- Unfinished open top
- Storage leg: paint or metal
- Dovetail drawer construction
- Lock, keyed random
- Counterweight package
- Storage brace
- Standard close drawer slides

## Requires to Specify

- 1 Style number with appropriate suffix to indicate location of storage units
  - 2 Wood or laminate color number for underworksurface storage
  - 3 Laminate color number for laminate fronts on laminate case, if selected
  - 4 Wood color number for wood fronts on laminate cases, if selected
  - 5 Pull shape (see below under Required Selections)
  - 6 Paint or metal color number for storage leg
  - 7 Finish color number for pull
  - 8 Finish color number for lock
  - 9 Options, if selected (see below)
- ▶ See *Surface Materials*, page 632.

# 24"D x 108"W Leg Base 27½"H Credenzas

Wood Veneer or Laminate

► Need help?  
Product details,  
page 168

## Standard Includes

- Underworksurface storage:
  - Wood group 1 case with wood front
  - Laminate price group 1 case with same or contrasting laminate front
  - Laminate price group 1 case with wood front
- Unfinished, inset back panel spanning full credenza
- Unfinished open top
- Storage leg; paint or metal
- Dovetail drawer construction
- Lock, keyed random
- Counterweight package
- Storage brace
- Standard close drawer slides

## Required to Specify

- 1 Style number with appropriate suffix to indicate location of storage units
  - 2 Wood or laminate color number for underworksurface storage
  - 3 Laminate color number for laminate fronts on laminate case, if selected
  - 4 Wood color number for wood fronts on laminate cases, if selected
  - 5 Pull shape (see below under Required Selections)
  - 6 Paint or metal color number for storage leg
  - 7 Finish color number for pull
  - 8 Finish color number for lock
  - 9 Options, if selected (see below)
- See *Surface Materials*, page 632.

Tip: 108"W credenzas are only available with a kneewell and a combination of one or two storage components.

Tip: Storage legs may be shared with another leg base storage unit of the same depth.

Tip: When storage legs are shared between two units, the extra legs should be saved for later use, such as reconfiguration.

Tip: All credenzas with a kneewell ship knockdown.

Tip: Any credenza 102" or 108"W ships knockdown.

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

Tip: Soft close drawer slides only apply to storage that has 18"W drawers.

Tip: Information on cutout locations in credenzas with kneewell can be found in the Leg Base Storage—Leg Logic.  
► Page 158

Tip: Metal shelves only available in open or hinged door components.

# Kneewells

Wood Veneer or Laminate

Tip: Worksurface not included in kneewell style number, order separately.

Tip: A single kneewell ships knocked down.

Tip: A kneewell cannot share its storage legs with other leg base units as its storage legs have a different plate.

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

Tip: Back panel is inset and spans entire width of kneewell.

| Standard Includes                      |                                                                                                                                                                                                                                                                                                                    | Required to Specify                                                                                                                                                                                 |  |

# Leg Base Freestanding Bookcases—Open

Wood Veneer or Laminate

*Tip: Freestanding bookcases that are 65 $\frac{5}{8}$ " or 72 $\frac{1}{2}$ "H have an unfinished back and must be placed up against a wall or back-to-back.*

*Tip: Leg base freestanding bookcases may be ganged when a suspension/ganging hardware kit is used, and share legs at the seam. Note: The exteriors of each will be defaced.*

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: When storage legs are shared between two units, the extra legs should be saved for later use, such as reconfiguration.*

*Tip: Shelves with less than 12" of clearance height will not hold some binders in the vertical orientation.*

*Tip: Specify optional 1 $\frac{1}{8}$ " thick heavy load shelves for heavy load conditions. Heavy load conditions are defined as loads of 100 lbs or greater. Heavy load shelves should be specified on wider units (30"W or 36"W) loaded with books or other heavy objects. Metal shelves also support heavy loads.*

| Standard Includes                                                                                                                                                                                                                                                                                      | Required to Specify                                                                                                                                                                                                                                                |

# Leg Base Freestanding Bookcases with Doors

Wood Veneer or Laminate

Tip: Freestanding bookcases that are 65 $\frac{5}{8}$ " or 72 $\frac{1}{2}$ "H have an unfinished back and must be placed up against a wall or back-to-back.

Tip: Hinged-door units with integral or beam pulls will have a single pull on the right-hand door.

Tip: When storage legs are shared between two units, be sure to keep the extras for later use, such as reconfiguration.

For laminate price group 2 pricing, please refer to the electronic catalog or SmartTools.

Tip: Glass doors have a magnetic touch latch. They do not have pulls. Glass doors are not available with locks.

Tip: Specify optional 1 $\frac{1}{8}$ " thick heavy load shelves for heavy load conditions. Heavy load conditions are defined as loads of 100 lbs or greater. Heavy load shelves should be specified on wider units (30"W or 36"W) loaded with books or other heavy objects. Metal shelves also support heavy loads.

**For Canadian Pricing**  
Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

| Standard Includes                                                                                                                                                                                                                                                                                                                                                                                                                         | Required to Specify                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

F=Fixed Shelf

# Stacking Bookcases—Open

Wood Veneer or Laminate

*Tip: Shelves with less than 12" of clearance height will not hold some binders in the vertical orientation.*

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: Specify optional 1 1/8" thick heavy load shelves for heavy load conditions. Heavy load conditions are defined as loads of 100 lbs or greater. Heavy load shelves should be specified on wider units (30"W or 36"W) loaded with books or other heavy objects. Metal shelves also support heavy loads.*

*Tip: 7 1/2"H shelves and single- or double-high overhead cabinets can be suspended between stacking bookcases. Specify suspension/ganging hardware kit separately.*

*Tip: 36 5/8"H stacking bookcases align with 65 5/8"H freestanding storage when mounted at standard work-surfaces height of 29". 43 1/2"H stacking bookcases align with 72 1/2"H freestanding storage when mounted at standard work-surfaces height of 29". 48 9/16"H align with 77 1/2"H storage.*

## ► Options, continued from previous page

Tip: Specify optional 1 1/8" thick heavy load shelves for heavy load conditions. Heavy load conditions are defined as loads of 100 lbs or greater. Heavy load shelves should be specified on wider units (30"W or 36"W) loaded with books or other heavy objects. Metal shelves also support heavy loads.

Tip: 7 1/2"H shelves and single- and double-high overhead cabinets can be suspended between stacking bookcases. Specify suspension/ganging hardware kit separately.

Tip: Shelves with less than 12" of clearance height will not hold some binders in the vertical orientation.

Leg Base Storage

### For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

▶ See page 1 for details.

# Leg Base Towers with Full-Height Doors

Wood Veneer or Laminate

*Tip: When storage legs are shared between two units, the extra legs should be saved for later use, such as reconfiguration.*

*Tip: Two 15"W towers can share four legs at the corners if a tower brace is used. Specify the tower brace separately as well as the suspension/ganging hardware kit.*

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: On units with two doors, only the wardrobe door locks.*

*Tip: Locks are not available on doors with integral pulls.*

*Tip: On 24"W towers specified with a glass door, only the 15"W door will be glass. The wardrobe door will be wood or laminate.*

*Tip: Glass doors have a magnetic touch latch. They do not have pulls. Glass doors are not available with locks.*

*Tip: 7 1/2"H shelves and overhead cabinets can be suspended between towers. Specify suspension/ganging hardware kit separately.*

| Standard Includes                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Required to Specify                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

## For Canadian Pricing

Multiply U.S. Price by the  
Canadian price factor.

► See page 1 for details.

# Leg Base Towers with Doors and Drawers

Wood Veneer or Laminate

*Tip: Organizer and open shelves and overhead cabinets can be suspended between 65 $\frac{5}{8}$ "H and 72 $\frac{1}{2}$ "H. Specify suspension/ganging hardware kit separately.*

*Tip: When storage legs are shared between two units, the extra legs should be saved for later use, such as reconfiguration.*

*Tip: When specifying glass doors and beam pulls, the frame finish must match the pull.*

*Tip: Locks are not available on doors with integral pulls. Drawers with integral pulls always lock.*

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: When integral pull is specified with a 9250 Ember Chrome lock, the lock housing is black. When 9201 Polished Chrome lock is specified, the lock housing is nickel.*

*Tip: Soft close drawer slides only apply to storage that have 15"W drawers.*

*Tip: On units with two doors, only the wardrobe door locks. Drawers always lock.*

*Tip: On 24"W towers specified with a glass door, only the 15"W door will be glass. The wardrobe door will be wood or laminate.*

*Tip: Glass doors have a magnetic touch latch. They do not have pulls. Glass doors are not available with locks.*

| Standard Includes                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | Required to Specify                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

# Leg Base Wardrobes

Wood Veneer or Laminate

*Tip: To ensure proper stability, 12"W wardrobes must attach to building wall or to adjacent furniture.*

*Tip: When storage legs are shared between two units, the extra legs should be saved for later use, such as reconfiguration.*

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: Locks are not available on doors with integral pulls.*

*Tip: Doors open from the center out (one door hinged right, one door hinged left).*

*Tip: Glass doors have a magnetic touch latch. They do not have pulls. Glass doors are not available with locks.*

*Tip: Hinged door units with integral or beam pulls will have a single pull on the right-hand door.*

*Tip: Organizer and open shelves and overhead cabinets can be suspended between 65<sup>5</sup>/<sub>8</sub>"H, 72<sup>1</sup>/<sub>2</sub>"H, wardrobes. Specify suspension/ganging hardware kit separately.*

| Standard Includes                                                                                                                                                                                                                                                                                                                                                                                                                                                     | Required to Specify                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

## ► Options, continued from previous page

*Tip: Cabinet-to-cabinet attachment kits are used to provide rigidity between cabinets mounted side by side in a panel- or wall-mounted application.*

*Tip: Suspension/ganging hardware to suspend overhead cabinets between towers and stacking bookcases is ordered separately.*

► Page 585

*Tip: Single-high overhead cabinets cannot be mounted on drywall, Montage, Answer, Privacy Walls, or V.I.A. walls lower than 38"H. They are not designed to function as a seat.*

*Tip: Wood and laminate hinged doors feature soft-close hinges and are also available in ADA open/close hinges. Glass doors feature self-close hinges and are also available in ADA open/close hinges.*

*Tip: ADA opening/closing option features a magnetic touch latch and neutral hinge.*

*Tip: When mounted on V.I.A., a single cabinet cannot span more than one skin.*

*Tip: When stacking single-high overhead cabinets with hinged doors, the ADA option should be selected.*

*Tip: Finished proud back panels or inserts can be specified separately if the back of the cabinet is visible.*

► Page 576

*Tip: Suspension/ganging hardware to attach overhead cabinets to hutch is included with the hutch kit.*

# 22"H Single-High Overhead Cabinets

Wood Veneer or Laminate

22"H Single-High  
Overhead Cabinets

*Tip: 22"H single-high overhead cabinets align with 72 1/2"H plinth and leg base storage.*

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: Glass doors are not available with locks.*

*Tip: Painted metal frame for hinged glass doors is only available on cabinets 60" or wider.*

*Tip: Cabinet-to-cabinet attachment kits are used to provide rigidity between cabinets mounted side by side in a panel- or wall-mounted application.*

*Tip: Wood and laminate hinged doors feature soft-close hinges and are also available in ADA open/close hinges. Glass doors feature self-close hinges and are also available in ADA open/close hinges.*

*Tip: ADA opening/closing option features a magnetic touch latch and neutral hinge.*

*Tip: When stacking single-high overhead cabinets with hinged doors, the ADA option should be selected.*

**For Canadian Pricing**

# Double-High Overhead Cabinets

Wood Veneer or Laminate

Left-Hand Unit

**For laminate price group 2 pricing, please refer to the electronic catalog or SmartTools.**

*Tip: Glass doors are not available with locks.*

*Tip: Double-high units cannot be mounted on panels or suspended between freestanding bookcases or supported by open hutch kits.*

*Tip: Wood and laminate hinged doors feature soft-close hinges and are also available in ADA open/close hinges. Glass doors feature self-close hinges and are also available in ADA open/close hinges.*

*Tip: ADA opening/closing option features a magnetic touch latch and neutral hinge.*

*Tip: The interior shelf behind the tall (large) door is fixed.*

*Tip: Only the tall (large) door(s) will lock if locking is specified on the combination units.*

*Tip: Suspension/ganging hardware to suspend overhead cabinets between towers is ordered separately.*  
▶ Page 585

*Tip: Suspension/ganging hardware to attach overhead cabinets to hutch is included with the hutch kit.*

*Tip: Double-high overheads line up with 77½"H towers and bookcases when mounted on 18⅞"H hutch kits.*

| Standard Includes                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Required to Specify                                                                                                                                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                          |

# Organizer, Open, and Accessory Shelves

Wood Veneer or Laminate

*Tip: When back mounting 7½"H shelves on Montage panels, approximately 4" of the mounting bracket will be visible above the shelf.*

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: Open and organizer shelves can attach to Enhanced Montage off-mod panels using end-mount brackets.*

*Tip: Open shelves and organizer shelves should not be wall-mounted on drywall, Montage, Answer, Privacy Walls, or V.I.A.—mounted below 38". They are not designed to function as a seat, or for heavy, bulk storage such as books.*

*Tip: Open shelves are not recommended for use as bookshelves.*

*Tip: When mounted on V.I.A., a single cabinet cannot span more than one skin.*

| Standard Includes                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | Required to Specify                                                                                                                                                                |                                                                                                                                                                                                                                                                                                                                              |

# Desktop Organizers

Wood Veneer or Laminate

**Caution:** Vertical organizer must be used against a wall with a service module or a hutch kit with a full back. A hutch kit with a partial back can be used if the vertical organizer is placed in the corner of the hutch kit.

**Tip:** If there is a need to support an overhead, use a stacking paper organizer rather than a vertical organizer. The vertical organizer fits under an overhead but does not attach.  
▶ See *Stacking Paper Organizer*, page 585.

**For laminate price group 2 pricing, please refer to the electronic catalog or SmartTools.**

**Tip:** When a vertical desktop organizer is used, there is not enough depth for both a tackboard and a standard light valance. Consider an LED shelf light with or without a metal light housing.

**Tip:** The vertical desktop organizer must be used under a shelf, service module, or overhead, even though it does not attach, to limit the weight placed on its shelves.

| Standard Includes                      |                                                                                                                                                                | Required to Specify                                                                                                                                 |                                                                                                  |

# Hutch Kits with Tackboard

*Tip: Because tackboard is one-piece design, fabric will be railroaded for consistent application.*

*Tip: Overhead cabinets mounted on one-sided hutch kits attach to a tower or stacking bookcase on the other side. Specify suspension/ganging hardware kit separately.*

*Tip: Backs of hutch kit tackboards are unfinished.*

*Tip: When specifying a single-high overhead cabinet supported by a hutch kit adjacent to a stacking bookcase, use a one support hutch kit and suspend the other end of the overhead from the bookcase. This will allow for precise alignment.*

*Tip: Tackboards are 3" shorter when used in conjunction with a blade accessory shelf.*

*Tip: When tackboards are used with a blade accessory shelf, the side supports are unchanged. The tackboard is reduced approximately 3" in height to accommodate the blade accessory shelf.*

| Standard Includes                                     |                                                                                                                                                                                                                                                                                                       | Required to Specify                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                                                                   |

## For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

*Tip: Open hutch kits support single-high cabinets, open and organizer shelves. They do not support double-high overhead cabinets.*

*Tip: Open hutch kits are not an appropriate application with the blade accessory shelf.*

## Standard Includes

- ▶ Need help? Product details, page 193
- Two side supports, non-handed: paint
- Attachment hardware: black paint only

## Required to Specify

- 1 Style number
- 2 Color number for side supports
- ▶ See *Surface Materials*, page 632.

Tip: Cabinet-to-cabinet attachment kit is used to provide rigidity between cabinets mounted side by side in a panel- or wall-mounted application. Fasteners may be used to attach 1/2"-1" thick panels together.

# Floating Back Panel

Tip: Refer to SmartTools for parametric pricing upcharges and sizes, available in 1/16" increments.

Tip: Not all modular sizes are represented here. Please refer to SmartTools for all available sizes.

For laminate price group 2 pricing, please refer to the electronic catalog or SmartTools.

Tip: Vertical grain direction is only allowed on widths of 60" or less.

| Standard Includes                                                                                                                                                                                | Required to Specify                                                                                                                                                                                                                                                                                                                                                           |

Tip: 3" clearance is required from the ceiling to the top of the back panel.

# Wall-Mounted Tackboards, Tackboards with Slatwall, Wood Panels with Slatwall, and End Covers

► Need help?  
Product details,  
page 200

## Standard Includes

- Tackboard, if selected: vertical surface fabric price group 1
- Wood group 1 panel, if selected: wood
- Slatwall on wood panel, if selected: 0835 Black paint or 8043 Clear Anodized Aluminum
- Cable routing scallop(s) on top edge
- Attachment support: fastener, spacer, and velcro strip
- End cover, if selected: 0835 Black paint or 8043 Clear Anodized Aluminum

## Required to Specify

- 1 Style number
  - 2 Fabric color number for tackboard, if selected
  - 3 Wood color number and slatwall color number for wood panel, if selected
  - 4 Color number for end cover, if selected
  - 5 Options, if selected (see below)
- See *Surface Materials*, page 632.

*Tip: One scallop centered comes standard on 30"W–54"W tackboards and wood panels. Two scallops come standard left and right on tackboards and wood panels 60"W and wider.*

*Tip: When wall-mounted, cords and cables can be routed behind the tackboards or wood panels. Daisy chain option is not recommended.*

*Tip: Check with local building code official for proper application.*

## For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

# 36<sup>5</sup>/<sub>8</sub>"H Single-High Service Modules

Wood Veneer or Laminate

► Need help?  
Product details,  
page 196

## Standard Includes

- Service module:
  - Wood group 1 case with wood front
  - Laminate price group 1 case with same or contrasting laminate front
  - Laminate price group 1 case with wood front
- Unfinished back
- Hinged doors have soft-close hinges
- Cable pass-through on bottom edge of back panel
- Attachment hardware: black paint only

## Required to Specify

- 1 Style number
  - 2 Wood or laminate color number for service module
  - 3 Laminate color number for laminate fronts on laminate case, if selected
  - 4 Wood color number for wood fronts on laminate cases, if selected
  - 5 Options, if selected (see below)
- See *Surface Materials*, page 632.

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: 36<sup>5</sup>/<sub>8</sub>"H single-high service modules align with the top of 65<sup>5</sup>/<sub>8</sub>"H towers and bookcases when mounted at 29"H.*

*Tip: Glass doors feature self-close hinges and are not available with soft-close hinges. Glass doors are not available with locks.*

*Tip: ADA opening/closing option features a magnetic touch latch and neutral hinge.*  
*Tip: If using a modesty panel on a worksurface below a service module, order a cable pass-through in the modesty panel to facilitate cable routing.*

*Tip: Specify an optional tack-board or wood panel with slatwall to cover unfinished cable pass-through if desired.*

# 43½"H Single-High Service Modules

Wood Veneer or Laminate

► Need help?  
Product details,  
page 196

## Standard Includes

- Service module:
  - Wood group 1 case with wood front
  - Laminate price group 1 case with same or contrasting laminate front
  - Laminate price group 1 case with wood front
- Unfinished back
- Hinged doors have soft-close hinges
- Cable pass-through on bottom edge of back panel
- Attachment hardware: black paint only

## Required to Specify

- 1 Style number
  - 2 Wood or laminate color number for service module
  - 3 Laminate color number for laminate fronts on laminate case, if selected
  - 4 Wood color number for wood fronts on laminate cases, if selected
  - 5 Options, if selected (see below)
- See *Surface Materials*, page 632.

**For laminate price group 2 pricing,** please refer to the electronic catalog or SmartTools.

*Tip:* 43½"H single-high service modules align with the top of 72½"H towers and bookcases when mounted at 29"H.

*Tip:* Glass doors feature self-close hinges and are not available with soft-close hinges. Glass doors are not available with locks.

*Tip:* ADA opening/closing option features a magnetic touch latch and neutral hinge.

*Tip:* If using a modesty panel on a worksurface below a service module, order a cable pass-through in the modesty panel to facilitate cable routing.

*Tip:* Specify an optional tackboard or wood panel with slatwall to cover unfinished cable pass-through if desired.

# Double-High Service Modules

Wood Veneer or Laminate

Left-Hand Unit

**For laminate price group 2 pricing, please refer to the electronic catalog or SmartTools.**

*Tip: Double-high service modules align with the top of 77½"H towers and bookcases when mounted at 29" high.*

*Tip: Shelves are not adjustable.*

*Tip: Glass doors feature self-close hinges and are not available with soft-close hinges. Glass doors are not available with locks.*

*Tip: ADA opening/closing option features a magnetic touch latch and neutral hinge.*

*Tip: Only the tall door will lock if locking is specified on the combination units.*

*Tip: If using a modesty panel on worksurface below a service module, order a cable pass-through in the modesty panel to facilitate cable routing.*

*Tip: Specify an optional tack-board or wood panel with slat-wall to cover unfinished cable pass-through if desired.*

**For Canadian Pricing**

# Tackboards and Wood Panels with Slatwall

For Use with Service Modules

Tackboards and Wood  
Panels with Slatwall

*Tip: Tackboards and wood panels with slatwall feature two scallops along the top edge to facilitate task light cord routing.*

*Tip: Because tackboard is one-piece design, fabric will be railroaded for consistent application.*

| Standard Includes                            |                                                                                                                                                                                                                                                                                                                                                            | Required to Specify                                                                                                                                                                                                                 |                                                                                                                                                                                                                   |

# Magnetic Back Painted Glass

*Tip: Modular selections account for the height needed to install, and offer a way to run low-voltage wires along the top.*

*Tip: Application only applies when modular size option is selected.*

*Tip: Only rare earth magnets may be used with magnetic back painted glass. Such items can be purchased at most office supply outlets online or in-store.*

*Tip: Spacers for cord management can also be used to align depth of magnetic back painted glass with depth of fabric tackboard. Spacers are always included with the mounting hardware.*

*Tip: Mirrored bronze is not offered in magnetic back painted glass, due to the extreme difficulty in completely erasing any writing.*

*Tip: Specifying with cord management makes the glass panel  $\frac{3}{8}$ " shorter to allow room for cords. Cord management may only be selected when an overhead application is specified and may be chosen with all overhead options.*

| Standard Includes                            |                                     | Required to Specify                                                                            |

### Modular Sizes

#### For Use with Single-High Overhead

|              |      |        |        |        |        |        |        |        |        |        |        |        |        |
|--------------|------|--------|--------|--------|--------|--------|--------|--------|--------|--------|--------|--------|--------|
| <b>E6GBP</b> | 21½" | \$1413 | \$1658 | \$1865 | \$2146 | \$2391 | \$2636 | \$2879 | \$3124 | \$3369 | \$3613 | \$3858 | \$4102 |
|--------------|------|--------|--------|--------|--------|--------|--------|--------|--------|--------|--------|--------|--------|

#### For Use with Single-High Overhead with Blade Accessory Shelf

|              |      |      |      |      |        |      |        |      |        |      |        |      |        |
|--------------|------|------|------|------|--------|------|--------|------|--------|------|--------|------|--------|
| <b>E6GBP</b> | 18¾" | N.A. | N.A. | N.A. | \$1887 | N.A. | \$2314 | N.A. | \$2742 | N.A. | \$3170 | N.A. | \$3598 |
|--------------|------|------|------|------|--------|------|--------|------|--------|------|--------|------|--------|

#### For Use with Single-High Service Module with Organizer

|              |      |      |      |      |      |      |        |        |        |        |        |        |        |
|--------------|------|------|------|------|------|------|--------|--------|--------|--------|--------|--------|--------|
| <b>E6GBP</b> | 13½" | N.A. | N.A. | N.A. | N.A. | N.A. | \$1679 | \$1831 | \$1985 | \$2138 | \$2291 | \$2445 | \$2597 |
|--------------|------|------|------|------|------|------|--------|--------|--------|--------|--------|--------|--------|

#### For Use with Single-High Service Module with Organizer and Blade Accessory Shelf

|              |      |      |      |      |      |      |        |      |        |      |        |      |        |
|--------------|------|------|------|------|------|------|--------|------|--------|------|--------|------|--------|
| <b>E6GBP</b> | 10⅞" | N.A. | N.A. | N.A. | N.A. | N.A. | \$1679 | N.A. | \$1985 | N.A. | \$2291 | N.A. | \$2597 |
|--------------|------|------|------|------|------|------|--------|------|--------|------|--------|------|--------|

#### For Use with Single-High 32¼"H Service Module and Blade Accessory Shelf

|              |      |      |      |      |      |      |        |      |        |      |        |      |        |
|--------------|------|------|------|------|------|------|--------|------|--------|------|--------|------|--------|
| <b>E6GBP</b> | 13⅝" | N.A. | N.A. | N.A. | N.A. | N.A. | \$1679 | N.A. | \$1985 | N.A. | \$2291 | N.A. | \$2597 |
|--------------|------|------|------|------|------|------|--------|------|--------|------|--------|------|--------|

#### For Use with Single-High 32¼"H Service Module

|              |      |      |      |      |      |      |        |        |        |        |        |        |        |
|--------------|------|------|------|------|------|------|--------|--------|--------|--------|--------|--------|--------|
| <b>E6GBP</b> | 16¾" | N.A. | N.A. | N.A. | N.A. | N.A. | \$1993 | \$2176 | \$2359 | \$2543 | \$2725 | \$2909 | \$3092 |
|--------------|------|------|------|------|------|------|--------|--------|--------|--------|--------|--------|--------|

#### For Use with Single-High 36⅝"H and 43½"H Service Module

|              |      |      |      |      |      |      |        |        |        |        |        |        |        |
|--------------|------|------|------|------|------|------|--------|--------|--------|--------|--------|--------|--------|
| <b>E6GBP</b> | 21¼" | N.A. | N.A. | N.A. | N.A. | N.A. | \$2636 | \$2879 | \$3124 | \$3369 | \$3613 | \$3858 | \$4102 |
|--------------|------|------|------|------|------|------|--------|--------|--------|--------|--------|--------|--------|

#### For Use with Single-High 36⅝"H and 43½"H Service Module and Blade Accessory Shelf

|              |     |      |      |      |      |      |        |        |        |        |        |        |        |
|--------------|-----|------|------|------|------|------|--------|--------|--------|--------|--------|--------|--------|
| <b>E6GBP</b> | 18" | N.A. | N.A. | N.A. | N.A. | N.A. | \$2314 | \$2528 | \$2742 | \$2955 | \$3170 | \$3383 | \$3598 |
|--------------|-----|------|------|------|------|------|--------|--------|--------|--------|--------|--------|--------|

#### For Use with Double-High Service Module and Blade Accessory Shelf

|              |      |      |      |      |      |      |        |      |        |      |        |      |        |
|--------------|------|------|------|------|------|------|--------|------|--------|------|--------|------|--------|
| <b>E6GBP</b> | 14⅞" | N.A. | N.A. | N.A. | N.A. | N.A. | \$1679 | N.A. | \$1985 | N.A. | \$2291 | N.A. | \$2597 |
|--------------|------|------|------|------|------|------|--------|------|--------|------|--------|------|--------|

#### For Use with Double-High Overhead with Blade Accessory Shelf

|              |      |      |      |      |      |      |        |      |        |      |        |      |        |
|--------------|------|------|------|------|------|------|--------|------|--------|------|--------|------|--------|
| <b>E6GBP</b> | 15¾" | N.A. | N.A. | N.A. | N.A. | N.A. | \$1993 | N.A. | \$2359 | N.A. | \$2725 | N.A. | \$3092 |

## Power Units with Cord Pass-Through

Tip: Power units are installed in locations below square grommets and extend below the worksurface.

Tip: Power units cannot be used over 15"W or 18"W underworksurface storage, but can be used over 30"W and 36"W 2-high lateral files that are 30"D.

Tip: Power units cannot be used over 1.5 high storage.

Tip: Power unit with cord pass through cannot be used next to glass modesty panel, adjustable height leg, or gate leg.

| Standard Includes                                                                                                                                                                                                                                    | Required to Specify |

## Below-Worksurface Mounting Bracket

*Tip: Mounting bracket supports convenience tri-receptacles and convenience communication outlet housing below the worksurface.*

*Tip: Each tri-receptacle, whether power or communications, should have its own mounting bracket for below-worksurface mounting applications.*

| Standard Includes                            |                                                       | Required to Specify |

# Elective Elements Surface Materials

This listing includes all the surface material choices that are available for the Elective Elements products in this specification guide.

## Resources

For more information about surface materials, refer to the following resources:

**Additional surface materials specification tools** are available to assist you in the specification process—the Surface Materials Binders.

**The global surface materials palette** is a core collection of finishes that is available across multiple geographies (Americas/EMEA – Europe, Middle East, and Africa/APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the Surface Materials Reference Manual. Additional details, like product approvals by geography and finish number conversions, can also be found in the Surface Materials Reference Manual or see [steelcase.com/surface-materials](http://steelcase.com/surface-materials).

**Surface Materials Binders** include:

- Surface Materials Reference Manual
- A complete set of swatch cards for hard surfaces, vertical surface fabrics, and seating upholstery

## Wood

Steelcase carefully selects veneer and solid wood for consistent color and grain structure. Wood is a natural material and variations will occur in color, grain and texture. These variations are part of the inherent natural beauty of wood and are not considered defects.

Forest Stewardship Council (FSC) certified wood (veneer and core) is available on most Steelcase wood products through the Specials RFQ process.

All wood products will darken with age and exposure to ultraviolet light. This is especially apparent with cherry and maple veneer. We recommend that desk accessories be rearranged periodically to ensure even aging of wood surfaces.

When storing your wood furniture, please follow the following guidelines:

- Do not store products in trailers
- Store products in areas that simulate office temperatures (60°F to 90°F)
- Store products in areas that maintain constant, office-like humidity levels
- Keep product away from light. Cover products to make sure they are not exposed to light.

## Steelcase Surfaces

### Veneer

Veneers are matched for proper balance and consistency. Veneers are available flat cut or quarter cut, except for Oak, which is rift cut.

► Refer to the *Veneer Cut Guidelines* on page 638 for descriptions of each cut.

**Open-pore finish** is a medium gloss finish that leaves the wood grain texture visible to the eye and distinguishable to the touch.

*Tip: Make sure to check the cut selection across the entire order. There is no prevention to mixing cuts on a product or an order.*

### Flat-cut open-pore finish choices

#### Wood Group 1

- 3062 FC/OP Graphite Walnut
- 3402 FC/OP Clear Cherry (Aged)
- 3412 FC/OP Natural Cherry Ⓔ
- 3422 FC/OP Medium Cherry
- 3522 FC/OP Clear Maple\*
- 3572 FC/OP Amber on Maple Ⓔ
- 3592 FC/OP Blonde on Maple
- 3702 FC/OP Clear Walnut
- 3712 FC/OP Natural Walnut
- 3722 FC/OP Dark Mahogany on Walnut
- 3752 FC/OP Medium Walnut
- 3762 FC/OP Dark Walnut
- 3772 FC/OP Medium Mahogany on Walnut

### Quarter-cut open-pore finish choices

#### Wood Group 1

- 3042 QC/OP Ash\*
- 3222 QC/OP Clear Maple\*
- 3272 QC/OP Amber on Maple Ⓔ
- 3292 QC/OP Blonde on Maple
- 3302 QC/OP Clear Walnut
- 3312 QC/OP Natural Walnut
- 3322 QC/OP Dark Mahogany on Walnut
- 3352 QC/OP Medium Walnut
- 3362 QC/OP Dark Walnut
- 3372 QC/OP Medium Mahogany on Walnut
- 3382 QC/OP Graphite Walnut

### Rift-cut open-pore finish choices

#### Wood Group 1

- 3602 RC/OP Desert Oak
- 3612 RC/OP Warm Oak Ⓔ
- 3692 RC/OP Espresso Oak

**Full-fill finish** is a medium-gloss finish that completely fills the grain texture, yet allows the grain pattern to be seen. The wood has a lustrous, satiny look, and it is smooth to the touch. This finish is available on the wood worksurface or top only.

*Tip: For ease of specification, full-fill finish codes can be selected on other veneer components being used in settings with full-fill veneer worksurfaces. The other components will not have the final fill coat applied, but the finish color will be consistent with the full-fill worksurfaces.*

## Flat-cut full-fill finish choices

### Wood Group 1

- 3064 FC/FF Graphite Walnut
- 3404 FC/FF Clear Cherry (Aged)
- 3414 FC/FF Natural Cherry Ⓔ
- 3424 FC/FF Medium Cherry
- 3524 FC/FF Clear Maple\*
- 3544 FC/FF Blonde on Maple
- 3574 FC/FF Amber on Maple Ⓔ
- 3704 FC/FF Clear Walnut
- 3714 FC/FF Natural Walnut
- 3724 FC/FF Dark Mahogany on Walnut
- 3754 FC/FF Medium Walnut
- 3764 FC/FF Dark Walnut
- 3774 FC/FF Medium Mahogany on Walnut

### Quarter-cut full-fill finish choices

#### Wood Group 1

- 3224 QC/FF Clear Maple\*
- 3274 QC/FF Amber on Maple Ⓔ
- 3294 QC/FF Blonde on Maple
- 3304 QC/FF Clear Walnut
- 3314 QC/FF Natural Walnut
- 3324 QC/FF Dark Mahogany on Walnut
- 3354 QC/FF Medium Walnut
- 3364 QC/FF Dark Walnut
- 3374 QC/FF Medium Mahogany on Walnut
- 3384 QC/FF Graphite Walnut

### Rift-cut full-fill finish choices

#### Wood Group 1

- 3604 RC/FF Desert Oak
- 3614 RC/FF Warm Oak Ⓔ
- 3694 RC/FF Espresso Oak

*\*To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clear-coat finish. The sign-off sheet is available through Steelcase advertising stock. Please use form 09-0000756 for 3042, form number 05-0001370 for 3222 and 3224.*

**Steelcase Surfaces****Premium Veneers**

A selection of Premium veneers in this collection are available on most Steelcase brand products. The collection will be available as close to standard leadtimes as possible. However, because adequate supplies of veneer and solids must be secured, all orders will be scheduled individually. Leadtimes will vary based on Premium veneer and Premium solids availability at the time the order is placed. The collection is Graded-In as Wood Group 2 and Wood Group 3, and supported like standard veneers to make ordering easy. Please see the Steelcase surface materials section on [village.steelcase.com](http://village.steelcase.com) for sample information and product line availability. All premium veneers are in clear-coat.

**Quarter-cut open-pore finish choices****Wood Group 2**

- 3032 QC/OP Dark Thin Line Bamboo  
3052 QC/OP Ribbon Sapele

**Wood Group 3**

- 3832 QC/OP Figured Anegre  
3842 QC/OP Figured Makore

*Tip: Full-fill finish is not available on Premium veneers as a standard.*

To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clear-coat finish. The sign-off sheet is available through Steelcase advertising stock. Please use form number 09-0000755 for 3032, form number 09-0000757 for 3052, form number 09-0000758 for 3832, and form number 09-0000759 for 3842.

*Tip: 3032 Dark Thin Line Bamboo is only available with a square worksurface profile.*

**Select Surfaces**

For information on products within Select Surfaces, including accent paints and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit [steelcase.com/surface-materials](http://steelcase.com/surface-materials) under the Select Surfaces section.

**Composite Veneer**

Composite veneers are an engineered wood intended to create specific grain patterns and characteristics. They are pre-stained and finished with Steelcase's Clarity water-borne UV topcoat, which protects the environment while providing durability and clarity. Only open-pore finishes are available on composite wood. Composite veneer and matching edge bands are available on most Steelcase brand products. Composites, for use as a solid nosing substitute, are not available. Steelcase does not recommend mixing composite veneers with natural solid nosings because composite and natural wood grain and color matching are rarely compatible. Composite veneers are Graded-In as Wood Group 1 pricing.

**Flat-cut open-pore finish choices****Wood Group 1**

- 3JDX FC/OP Oak Composite  
3JFX FC/OP Maple Composite  
3JHX FC/OP Cherry Composite  
3JJX FC/OP Walnut Composite

Ⓔ = Established

**Quarter-cut open-pore finish choices****Wood Group 1**

- 3F8X QC/OP European Walnut Composite  
3GAX QC/OP Gold Teak Composite  
3GFX QC/OP Rosewood Composite  
3GGX QC/OP Zebrano Composite  
3HGX QC/OP Oak Composite  
3HVX QC/OP Walnut Composite  
3JEX QC/OP Maple Composite  
3JGX QC/OP Cherry Composite  
3ZNX QC/OP Night Cerused Oak Composite

*Tip: Known for their color consistency, composite veneers feature a clear coat finish. Because the veneers are sourced in large lots, overall color within a specific purchase order should have minimal color inconsistency. However, composite customers should know that colors may vary slightly from dye lot to dye lot. This inconsistency may be noticed when replacement pieces are ordered that may be from different dye lots, or when a new project phase is installed. Also note that composite veneers tend to fade and lighten over time, especially with sun exposure.*

*Tip: Composite veneers are only available with a square worksurface profile, and wood integral pulls are not available.*

*Tip: Be conscious if mixing the flat cut and the quarter cut in composites, there may be large variation in color.*

**Natural Veneer**

Natural veneer is available in the Select Surfaces offering. Natural veneer may have extended leadtimes. Place your order as you normally would for any other finish, calling out the appropriate finish code.

The following finishes are available through the natural veneer offering:

**Flat-cut open-pore finish choices****Wood Group 1**

- 3342 FC/OP Black Walnut  
35A2 FC/OP Blanch Maple  
37A2 FC/OP Thunder Walnut

**Wood Group 3**

- 3082 FC/OP Washed Walnut

**Flat-cut full-fill finish choices****Wood Group 1**

- 3734 FC/FF Black Walnut

**Wood Group 3**

- 3084 FC/FF Washed Walnut

**Quarter-cut open-pore finish choices****Wood Group 1**

- 32A2 QC/OP Blanch Maple  
33A2 QC/OP Thunder Walnut  
3392 QC/OP Black Walnut

**Quarter-cut full-fill finish choices****Wood Group 1**

- 3394 QC/FF Black Walnut

**Rift-cut open-pore finish choices****Wood Group 1**

- 36A2 RC/OP Volcanic Oak

**Planked Veneer**

Planked veneer is available in the Select Surfaces offering. Planked veneer may have extended leadtimes. Place your order as you normally would for any other finish, calling out the appropriate finish code.

The following finishes are available through the planked veneer offering:

**Wood Group 1**

- 3P41 OP Planked Cherry  
3P51 OP Planked Maple  
3P61 OP Planked Oak  
3P71 OP Planked Walnut

*Tip: Known for its uniqueness, planked veneer has intentional and natural variations that include, but are not limited to: character marks, grain pattern, color, and natural color aging.*

**Custom Surfaces**

**Customiz stain** is a service that allows you to create your own stain colors and finishes on standard veneer. Customiz stain color is available on all product lines that offer wood veneer.

A \$500 stain-matching fee applies on CUSTOMIZ requests (Exception: The \$500 fee does not apply on matches to Coalesce standard finishes or for a low-gloss finish request on a standard color). The \$500 fee covers the cost of formulating the Customiz color finish and applies regardless of whether or not an order for product is placed.

In addition, an approval form must be signed to indicate customer acceptance of Customiz match. A \$1,500 initiation fee will be charged prior to first order entry. This initiation fee activates the finish for unlimited use on any Steelcase product for an 18 month time period. After the 18 month time period has lapsed, the Customiz finish may be reactivated for another 18 months for a \$1,000 fee at any point within five years after the \$1,500 initiation fee was paid. If the finish is not reactivated within five years after the \$1,500 initiation fee was paid, the finish will be culled and the customer will need to pay the \$1,500 initiation fee again. All style number related Customiz charges products are no cost as of April 2014. The matching and initiation fees are not discountable.

Customiz stain takes 10 days to formulate. Consult the *Surface Materials Reference Manual* for more information. Custom veneers are also available and must be quoted by Steelcase specials group. Customiz stain on custom veneers takes 2 to 4 weeks to formulate.

Requirements and information on ordering a Customiz stain color are found in the *Surface Materials Reference Manual*.

Low sheen wood finish topcoat, approximately 15 gloss level instead of standard 35 gloss level, is available through Specials at no additional cost.

**Laminate****Steelcase Surfaces****High-Pressure Laminate****Price Group 1****Fiber Laminate**

|      |                      |
|------|----------------------|
| 2850 | Vanadium Fiber       |
| 2851 | Rhyme Fiber <b>E</b> |
| 2852 | Tungsten Fiber       |
| 2854 | Vellum Fiber         |
| 2859 | Novell Fiber         |
| 2860 | Granite Fiber        |
| 2861 | Coconut Fiber        |
| 2862 | Stucco Fiber         |

| 2885 | Dune                |
| 2HMG | Merle               |

**Speckle Laminate**

|      |                           |
|------|---------------------------|
| 2820 | Coffee Speckle <b>E</b>   |
| 2822 | Woodrose Speckle <b>E</b> |
| 2823 | Driftwood Speckle         |
| 2824 | Smoke Speckle             |
| 2825 | Vanadium Speckle          |

*Tip: Some wood veneer finishes and woodgrain laminates share the same name. Because of the difference in materials, veneers and laminates of the same name are not an exact match but do coordinate with each other.*

**Woodgrain Laminate**

|      |                                    |
|------|------------------------------------|
| 2406 | Clear Cherry                       |
| 2409 | Clear Maple                        |
| 2410 | Graphite Walnut                    |
| 2412 | Natural Cherry                     |
| 2422 | Medium Cherry                      |
| 2511 | Winter on Maple                    |
| 2536 | Blackwood                          |
| 2538 | Clear Walnut                       |
| 2539 | Warm Oak <b>E</b>                  |
| 2592 | Blonde on Maple                    |
| 2714 | Natural Walnut                     |
| 2772 | Medium Mahogany on Walnut <b>E</b> |
| 2HAK | Clear Oak                          |
| 2HAN | Ash Noce                           |
| 2HAT | Acacia                             |
| 2HAW | Ash Wenge                          |
| 2HBN | Bisque Noce                        |
| 2HBW | Bisque Wenge                       |
| 2HCN | Clay Noce                          |
| 2HCW | Clay Wenge                         |
| 2HSN | Storm Noce                         |
| 2HSW | Storm Wenge                        |

**turnstone Laminate Collection**

|      |                  |
|------|------------------|
| 2535 | Virginia Walnut  |
| 2614 | Chocolate Walnut |

*Tip: When specifying a blade edge worksurface with a laminate, the underside of the blade edge will have an unstained surface. This is predominantly noticeable with darker laminates. In this case, a square worksurface is recommended. When specifying with a veneer, the underside is stained the same color as the worksurface.*

**Select Surfaces****High-Pressure Laminate****Price Group 2****Textured Woodgrain Laminate**

|      |                |
|------|----------------|
| 2TH2 | Fawn Cypress   |
| 2TH3 | Weathered Char |
| 2TH4 | Saddle Oak     |
| 2TH5 | Veranda Teak   |
| 2TH6 | Persian Cherry |
| 2TH7 | Walnut Heights |

**Textured Industrial Laminate**

|      |                     |
|------|---------------------|
| 2UH1 | Reclaimed Aggregate |
| 2UH2 | Reclaimed Gravel    |
| 2UH4 | Cement              |
| 2UH6 | Sheetrock           |

**Custom Surfaces****Open Line Laminate (OLL)**

This service allows you to order non-standard laminate at an additional processing fee of \$74 U.S. per unit, plus the cost of the laminate.

High-Pressure Laminate pricing does not include premium or digitally printed patterns from any suppliers. Laminate cost may also vary for basic or standard laminates from other suppliers. Please contact the OLL consultant at 616.475.2426 for pricing. The cost of the laminate will be added to your invoice as a separate line on the acknowledgement.

**Laminate Approval and Material Requirements**

To confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements:

- Visit [www.steelcase.com](http://www.steelcase.com)

**How to Order**

Once you have confirmed that the laminate you've selected has been tested and approved, you are ready to place your order.

**To order an Open Line laminate:**

- Mark the purchase order with the laminate manufacturer, laminate number, and laminate description.
- Use the appropriate Open Line laminate number, 2900.
- Use the appropriate "2K" number to indicate the edge color requirements.

*Tip: Refer to the OLL coordination matrix on page 640 to determine the correct finish.*

**For additional information,** refer to the *Steelcase Surface Materials Reference Manual*.

**Paint**

*Tip: Not every paint color is available on every painted component.*

# Veneer Cut Guidelines and Wood Touch-Up Kits

## Veneer Cut Guidelines

### Flat Cut

Veneer is cut parallel to the flat side of the cant at a tangent to the growth rings of the tree. This produces a cathedral or oval pattern. On average, there is a 6-8" wide leaf width. On an 18" wide surface, there will likely be three leaves showing a repeated pattern.

### Quarter Cut

Veneer is cut from quarter sections of the log which are produced by cutting each cant in half. Cutting lines are at an angle of approximately 90 degrees to the growth rings at the center of the quarter. This produces a straight grain or ribbon pattern. On average, leaves are 2½-4" wide.

### Rift Cut

This veneer cut is specifically for oak. Cutting lines are an arc approximately perpendicular to the growth rings. This produces a comb-like straight grain or ribbon pattern. On average, leaves are 2½-4" wide.

## Wood Touch-Up Kits

### How to Order Wood Touch-Up Kits

Order wood finish touch-up kits from J. Kaltz Co. Specify the desired Steelcase finish code (i.e. 3422). Each kit, priced at \$9.98, contains one brush tip marker and one fil-stick. A minimum order of \$15 is required. Shipping, estimated at approximately \$5 per kit, is extra. Dealer will be charged directly. No additional discounts apply.

Place orders as follows:

- Phone: 616.942.6070
- Web: <http://www.jkaltzco.com>
- Email: [susan.bothwell@jkaltzco.com](mailto:susan.bothwell@jkaltzco.com)

Orders placed before noon Eastern Standard Time will ship the same day via standard ground shipping and will arrive in three to five days. Express shipment is not available due to the combustible nature of the materials.

# Elective Elements Open Line Laminate Edge Coordination Matrix

For Plastic Edges

The colors of the plastic edges are determined by the 2K finish number selected.

| 2K Number Selection | Plastic Edge Color                      | 2K Number Selection                                                                                                                                                                                                         | Plastic Edge Color           |

# Elective Elements Specification Guidelines for Vertical Fabric Applications

Elective Elements  
Specification Guidelines for  
Vertical Fabric Applications

**Warp horizontal** means the height dimension of the tackboard is perpendicular to the warp of the fabric.

## Application Topics

*Tip: Fabric warp direction cannot be altered from standard on tackboards.*

### Customer's Own Material Yardage Requirements

Pre-approved fabrics are available. To determine if the fabric you want is on the pre-approved list, call a COM Consultant at 616.246.9822.

### Surface Materials

**Representatives** are also available to answer your questions and to provide clarification. They can also help with situations where you are using fabrics under 66"W. Call 616.246.9822.

**For further information regarding COM fabrics,** refer to the *Steelcase Surface Materials Reference Manual*.

**Additional fabric** is required to accommodate flaws, wrinkles, and other imperfections.

## Standard Warp Directions for Elective Elements Tackboards

| Fabric                          | Standard | Tackboards |
|---------------------------------|----------|------------|
| Abacus                          | D        | H          |
| Alloy                           | D        | H          |
| Bariolage                       | D        | H          |
| Billiard Multi-Use by Designtex | D        | H          |
| Boccie                          | D        | H          |
| Bouquet                         | D        | H          |
| Buzz2                           | D        | H          |
| Code                            | D        | H          |
| Charm*                          | D        | H          |
| Flip: Orbit                     | D        | HO         |
| Flip: TexHex                    | D        | HO         |
| Fresco                          | D        | H          |
| Lapel                           | D        | H          |
| Latch                           | D        | H          |
| Milano <sup>E</sup>             | D        | H          |
| Optic                           | D        | H          |
| Pianista                        | D        | HO         |
| Rhythm                          | D        | H          |
| Tinsel*                         | D        | H          |

D = Directional  
H = Warp horizontal  
HO = Horizontal only  
ND = Non-directional

**For Designtex Graded-In** Cutting Direction, see *Surface Materials Reference Manual*.

\*These fabrics have some color restrictions. Check the *Surface Materials Reference Manual* for color availability.

# Elective Elements Color Coordination Matrix

**1 mm plastic edge trim color** is defaulted and is determined by the laminate color you select for the worksurface. The edge trim color cannot be specified.

**3 mm plastic edge trim color** is specifiable. Refer to *Plastic* on page 634.

**All laminates**, except woodgrain laminates, will have solid color plastic edging.

**Woodgrain laminates** will have woodgrain plastic edges and the grain of the edges will be horizontal.

| Laminate Color                             | Default 1 mm Plastic Color          |
|--------------------------------------------|-------------------------------------|

# Lock and Keying

**All locking products** are standard with factory-installed, keyed-random locks. Consecutive, specific, and random keying are available as field-installed options.

**Locks** consist of a factory- or field-installed lock cylinder and a factory-installed lock face ring.

**Two types of locks** are available — the standard keying system (FR series) and the master keying system (XF series). All the locks in the XF series can be opened with a single master key.

## Factory-Installed Keying

**Factory-installed locks** are always key random (standard) or master key random (option). Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR454 (Master keying numbers: XF1001 to XF1150). All locks within a unit will be keyed alike.

*Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify field-installed, key specific or key consecutive lock cylinders.*  
 ▶ See below.

### Key Random

### Required to Specify

|                          |       |                                 |
|--------------------------|-------|---------------------------------|
| <b>Master key random</b> | +\$27 | Specify with master key random. |
|--------------------------|-------|---------------------------------|

## Field-Installed Keying

**Field-installed locks** are only available on products that include factory-installed lock mechanisms.

**Specify "plug"** when specifying furniture, and the product will ship with a plastic plug in place of the lock cylinder.

**Front-removable lock cylinders** must be specified separately. You must also order a special lock tool to install or remove lock cylinders in the field.

*Tip: Lock tools are reusable. You do not need to order additional lock tools with every furniture order.*

**Lock cylinders** will be shipped separately so that you can install the locks when you are ready.

**Three keying choices** are available for field installation—random (standard), specific, and consecutive. All three are also available with master keying, which means that all locks can be opened with a single master key.

**Key random** means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR454 (Master keying numbers: XF1001 to XF1150).

*Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify key specific or key consecutive lock cylinders.*

### Key Random

**Key specific** means that you can specify any key number from FR305 to FR454 (Master keying numbers: XF1001 to XF1150). This option can be used to key all the furniture units in a workstation or department the same.

*Tip: Designate the quantity per key number in your specification.*  
 ▶ See example at right.

### Key Specific

**Key consecutive** means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the key sequence repeats. You must select a beginning key number from FR305 to FR454 (Master keying numbers: XF1001 to XF1150).

### Key Consecutive

**Example** of a typical lock cylinder specification is shown below:

|    |                                |
|----|--------------------------------|
| 10 | LOCK9201FR FR320               |
| 5  | LOCK9201FR FR350               |
| 15 | LOCK9201XF XF1100              |
| 30 | Total                          |
| 1  | 877102003SR standard lock tool |
| 1  | 877102002SR master lock tool   |

**For Canadian Pricing**  
 Multiply U.S. Price by the Canadian price factor.  
 ▶ See page 1 for details.

## Field-Installed Lock Cylinders

*Tip: Lock price is included in price of furniture with locks.*

*Tip: For replacement lock cylinders, refer to Service Parts.*

| Standard Includes | Required to Specify |
