## Work Chairs

**Highly adjustable task seating** offers maximum personalization for fit and comfort for a range of duration and use. By making a series of simple adjustments, you can customize the chair to your body, preferences, and tasks. These chairs provide continuous, stable, comfort, and can be quickly adjusted to support you in upright, and reclining work postures.

# Think 465 Series

**Think** is for performance based customers who are seeking a progressive aesthetic, intuitive ease of use, and the strongest environmental attributes.

**Back frame and seat shell** are plastic.

**Lumbar height** adjusts over 4 1/4" to provide additional lower back support and is available as an option.

**Arm caps** can pivot independently 30° in and 30° out to accommodate individual user preferences.

**Comfort dial back control** provides four settings for the user's personal preference and work style.

**Seat height** adjusts within a 5" range with a pneumatic adjustment mechanism. A 3" or 7" range is available as an option. Stools have a 10" range.

**Casters** have hard, dual-wheels that roll smoothly on carpets. They are 2 1/2" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Glides are also available as an option.  
*Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

**Arm width** adjusts 4 1/2" overall to support forearms in neutral position.

**Arm height** can adjust independently within a 4" range to help relieve upper back and shoulder fatigue.

**Arm depth** can retract 3" to allow user to get closer to the worksurface and into tight corners.

**Passive seat edge angle** allows the front edge of the seat to flex 1 1/2" to relieve pressure under the user's thighs.

**Seat depth** adjusts within a 2 1/2" range to accommodate users of varying leg lengths.

**Five-arm base** is available in plastic or polished aluminum.

## Product Details

**Integrated LiveBack System** dynamically supports and follows the movements of the user.

**Advanced weight-activated mechanism with a natural fluid motion** keeps users oriented to their work.

**Comfort dial** has four settings that allow for the user's personal preference and work style.

**Rectilinear arms with soft caps** are standard.

**Cartoned** request on your dealer purchase order means Think chairs will ship knocked down with the chair base and pneumatic cylinder separated from the rest of the chair. This allows for shipment in a smaller carton. Assembly by a qualified dealer installer is required. *Tip: Assembly instructions are included.*

**Uncartoned** request on your dealer purchase order means Think chairs will ship fully assembled.

## Adjustment Features

**Adjustability instructions** are included with every chair.

### Seat Adjustments

**Seat height** adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Standard range of adjustability is 5" from 16½"H to 21½"H. A 3" range of adjustability (15"H to 18"H), and a 7" range of adjustability (18"H to 25"H) is available as an option. A 10" range of adjustability (22½"H to 32½"H) is available on stools.

**Passive seat edge angle** relieves pressure under the user's thighs. The passive front seat edge helps properly support the angle of the user's leg and thigh without compromising pelvic support. The front seat edge angle flexes 1½".

**Seat depth** adjusts 2½" (15½"–18") by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock.

### Back Adjustments

**Lumbar height** adjusts 4¼" (6" to 10¼" from seat) by grabbing exposed tabs and sliding the lumbar support up or down. Fixed lumbar height is available as an option on work chairs and stools. The fixed lumbar is positioned 8" from the seat. The adjustment handles are replaced with inserts that fill the lumbar slot in the back frame.

Weight-activated setting      Boosted setting

Mid-stop recline setting      Upright setting

**Comfort dial** has four settings: (1) weight-activated setting; (2) boosted setting that has approximately 20% more resistance than your body is providing; (3) mid-stop recline setting; and (4) an upright setting.

**Headrest (option)** adjusts 4" vertically and 2½" horizontally (front-to-back) to support the head and neck of the user in both upright and recline postures. The plastic stalk and underside of the headrest will coordinate to match the frame color specified: black, platinum, or seagull. The foam pad of the headrest will always be black. Headrest is not available on stools. Whether ordered initially or at a later date, the headrest ships in its own carton and must be field installed.

### Arm Adjustments

**Rectilinear height-, width-, pivot-, and depth-adjustable arms** come standard on all arm models of chairs and stools.

**Arm height** adjusts independently within a range of 4" (7"–11" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

**Arm width** can be adjusted 2¼" each, 4½" overall. Grasp arm cap and move in or out.

**Arms** pivot independently, 30° inward and outward. Grasp arm and push front to left or right.

**Arm depth** adjusts by sliding arm caps back 3". Friction-fit mechanism keeps arms in position.

## Think 465 Series, continued

## Other Features

**Height-only adjustable arm** is also available and adjusts 4".

**Armless models** are also available.

**Coat hanger** (option) is field installed. The color will coordinate with the frame of the chair, but will not match the frame exactly. The coat hanger supports up to 10 pounds and is not intended to hold bags or backpacks. This option is not available on stools.

**Foot ring height on stools** adjusts by rotating it counterclockwise to unlock. Then raise or lower ring to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

**Soft dual-wheel roll-control casters** feature an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

## Surface Materials

► See surface materials on page 638 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

## Upholstery

- Fabric
- Fabric with soil-retardant treatment (option)
- 3D Knit (back only)
- Elmosoft leather
- Select Surfaces leather
- Leather
- Vinyl

## Hard components

- All models (back frame, arm retainer, and base)
- 4799 Platinum Metallic
  - 6205 Black
  - 7243 Seagull

Pneumatic cylinders and stool ring finishes are determined by the frame finish.

- 4799 Platinum Metallic (Platinum and Seagull frame)
- 6205 Black (Black frame)

- All Models (adjustment handles, arm pads, arm stalk, casters, glides)
- 6205 Black

Flexors and lumbar finishes are determined by the frame finish.

- 6205 Black (Black Frame)
- 6527 Merle (Platinum and Seagull Frames)

Outer seat shell is determined by the frame finish.

- 6205 Black (Black Frame)
- 6249 Platinum Solid (Platinum and Seagull Frames)

- Inner seat shell
- 6205 Black

**All seat cushions** have a unique sewn construction that is included in the price of the chair.

**Stitch detail** across the lumbar region of the back cushion will be required on some models with an upholstered backrest. To ensure optimum performance of the Integrated LiveBack System, all Steelcase Select Surfaces, COMs, Leathers, Vinyls, and some standard fabrics will require this sewn detail. The stitch detail is included in the price of the chair.

**All Steelcase seating with standard upholstery fabrics** complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

## Programs &amp; Services

► See *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

## The Customer's Own Material (COM)

**Program** offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most seating lines, visit the COM website. To locate the COM website:

- Visit [www.steelcase.com](http://www.steelcase.com)

**Soil retardants** are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to [line-one@steelcase.com](mailto:line-one@steelcase.com).

## Fire Codes

► See page 658 for upholstery fabrics available for use with FCS modification.

**Steelcase** offers Fire Code Seating modification (FCS) on some seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet the State of California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin 133 (Cal TB 133). Boston adopted the California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin TB 133 test standard in 1992.

**Local codes** may have special requirements for upholstery.

## Dimensions

► Page 76

# Think Upholstery

## What Is It?

Fabric, leather, or vinyl-covered back and seat, 3D Knit back.

### Fabric

### Leather, Vinyl, and Select Other Fabrics

### 3D Knit on Back only

**Stitched seams** are included on the back cushion and seat cushion of the following:

- Leather
- Vinyl
- Some upholstery
- Customer's Own Leather (COL)
- Vinyl
- Select Customer's Own Material/Vinyl (COM)

**Pattern alignment at the lumbar seam** cannot be guaranteed.

**3D Knit back with Fire Code option** is made up of three layers: the 3D Knit, a fire code barrier, and a solid fabric that matches the 3D Knit color (which will be visible through the back flexors). The 3D Knit fire code back rest is not transparent.

**Back flexors** are fully exposed.

**Seat and back assemblies** can be removed and replaced if damaged.
