Steelcase®

To Achieve a Tight Fit of Hanging Folder Bar

*Bend tabs so they
protrude in opposite
directions.*
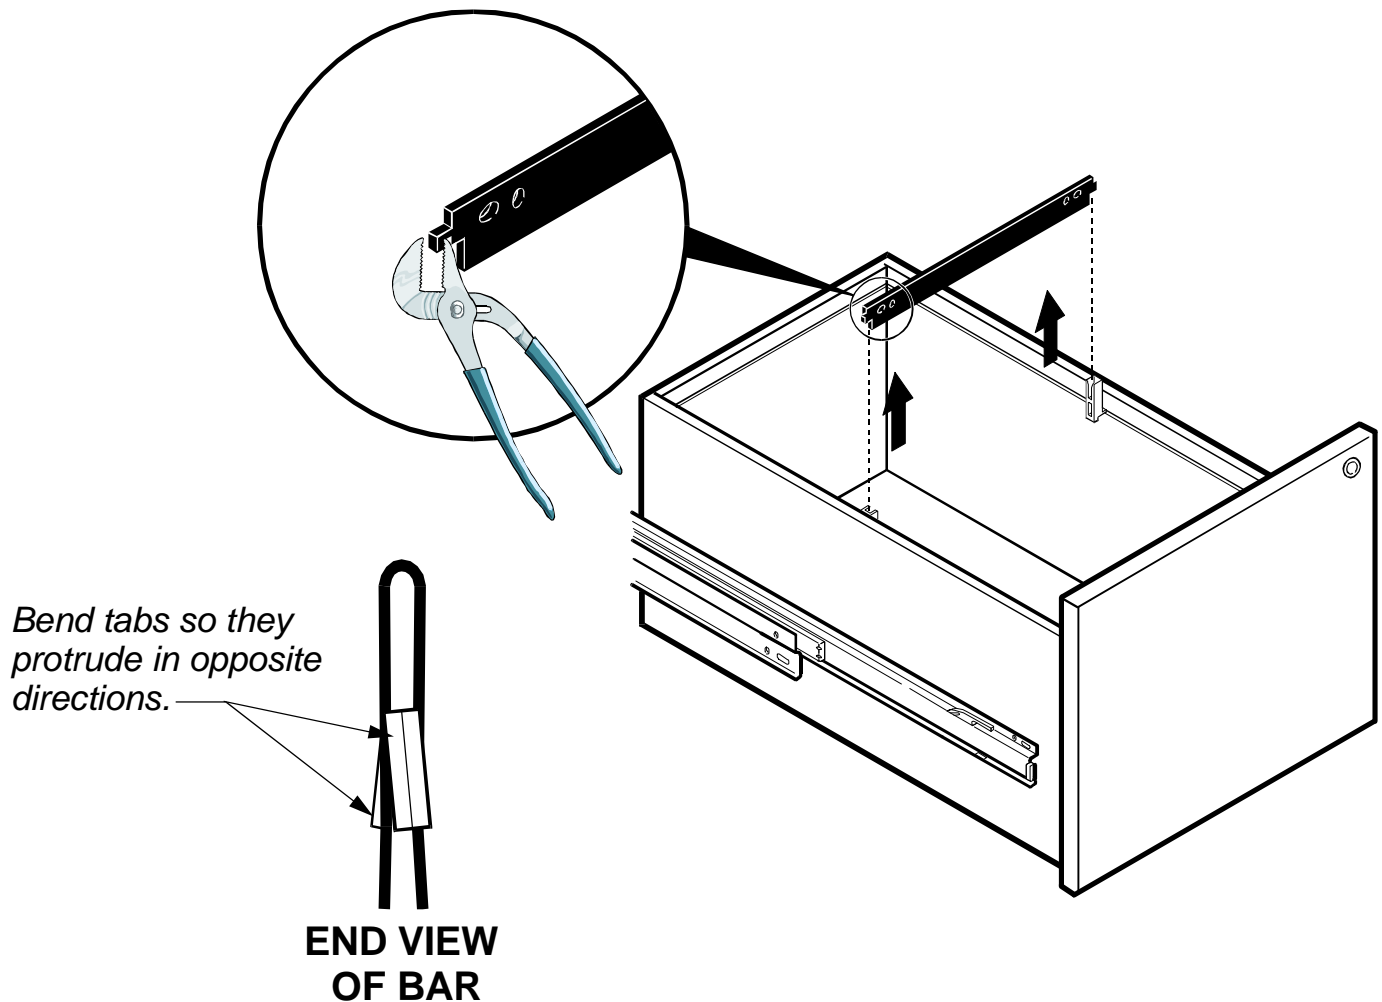

**END VIEW
OF BAR**

1. Remove Hanging Folder Bar from clips.

2. Using pliers, bend tab on end of bar *slightly* toward you.

3. Bend tab at the other end so it is in the opposite orientation
as shown in end view.

4. Replace bar in clips and check to be certain it is securely
seated. If not some adjustment of tabs may be necessary.
