Comfort + Style

Outlook Nikko™ combines a clean style statement with unique upholstered arm panels to provide a welcome sense of comfort and security. Flat reverse bevel arms create an intentional overhang that is easy to grip while entering or exiting the chair.

Nikko offers attractive, comfortable seating for waiting areas and in the patient room. It is available in single, two-seat, three-seat and bariatric models, with high-back options. Stand-alone arm chairs have an optional glider.

INSIGHT

Patient and guest seating must work hard to serve many people with differing needs. Aesthetics also count. Spaces with a sense of warmth and welcome can help put patients and families at ease.

Made for Healthcare

Nikko is designed to withstand nonstop use in demanding healthcare spaces. Steel construction and webbed seat suspension provide comfort and durability. Cleaning is simplified through choice of surface materials as well as generous clean-out space between seats and backs.
