Stay the Night

In any patient room, the smart use of space is a priority – and products that can do double-duty are a necessity. Attractive and practical, Mitra™ sleeper chair cleverly converts to a sleeper, allowing a family member to remain nearby around the clock.

As part of the Mitra family of seating for patients and guests, the Mitra sleeper can help provide a consistent aesthetic throughout the healthcare experience.

INSIGHT

Having supportive family or friends nearby can reduce anxiety for patients and help them receive important care information from clinicians. To suit a variety of users and spaces, overnight accommodations should be easy to use and flexible in configuration.

Simple Conversion

The Mitra sleeper provides a comfortable seat and converts with ease into a sleeping position.

Made to Last

With its wood frame and steel mechanism, the Mitra sleeper is built to withstand rigorous use. Options including a moisture barrier seat and plastisol arm caps make cleaning easy.
