

The OFS table program consists of 8 styles of tops in various top surfaces. The various top surfaces include High Pressure Laminate (HPL), veneer, TFL, artificial stone material, solid surface material, and glass. Please contact customer service for assistance with these materials.

VENEER

OFS uses select hardwood veneers in the production of tops. Veneers are thermally pressed onto the core material and sanded prior to the finishing process. Flat cut standard veneer on all tops. Several "sketch-face" patterns are also available as standard options.
