

HAWORTH

Training & Multipurpose Tables

Jive Swivel

Designed for today's active, multipurpose spaces, Jive® Swivel tables are easy to group, move, and reconfigure without tools. A magnetized swivel mechanism on every table lets you quickly align and attach multiple tables with a click—then move them apart again just as easily.

Statement of Line

*Left and right options available.

Features

- Six top shapes available in high-pressure laminate or premium veneer
- MagneLine™ swivel magnet mechanism in leg assembly precisely attaches tables to easily create clean, aligned configurations without tools
- Casters allow for easy movement, even when tables are attached in formation
- Extruded aluminum base is available in 10 paint colors

Certifications/Accolades
