

Protect your computer

Adapt CPU holders lift your PC from the floor, reducing the risk of damage, static and dust build-up, saving valuable desk space.

CPU Holders

Optima, Elevator, Linear and Shuttle

The Optima, Elevator, Linear and Shuttle are secured to the underside of your work surface. This provides safe, secure and tidy cable management, whether you're sitting or standing, and frees up space under the desk.

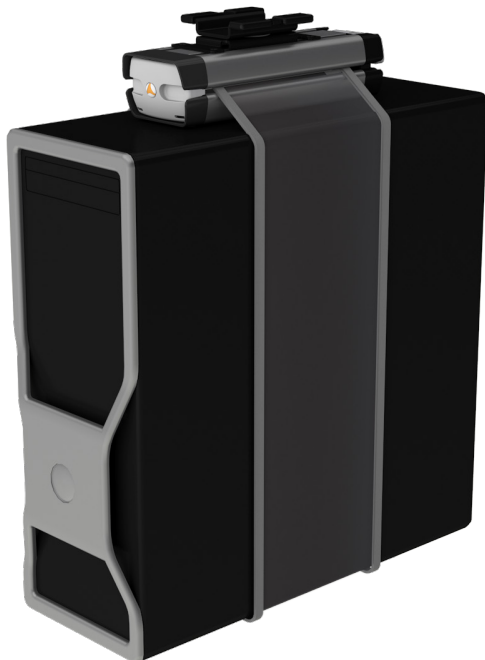

Optima

Key features:

- Compact and unobtrusive
- Strong, stable and secure
- Optional locking kit for added security
- Rotating mounting plate
- Wide range of bespoke mounting options

Key benefits:

- Increases the life of your computer
- PC is raised from the floor for maximum protection
- Meets stringent security protocols
- Saves valuable desk space and increases floor space
- Rotating mounting plate allows easy access to the front and back of the PC

Elevator

Key features:

- Compact and unobtrusive
- Ratchet winding system raises PC from the floor
- Strong, stable and secure breathable mesh fabric sling
- PC secured in the sling by soft holding feet at the base of the Elevator
- Rotating mounting plate
- Wide range of bespoke mounting options

Key benefits:

- Increases the life of your computer
- PC is raised from the floor for maximum protection
- Breathable mesh fabric sling prevents the PC from damage and overheating
- Soft holding feet give excellent grip on all shaped PCs
- Saves valuable desk space and increases floor space
- Rotating mounting plate allows easy access to the front and back of the PC

Linear

Key features:

- Compact and unobtrusive
- PC secured to the underside of your desk
- Optional rotating mounting plate provides fixture to the Standard or Telescopic Track (see page 5)

Key benefits:

- Increases the life of your computer
- PC is raised from the floor for maximum protection
- Saves valuable desk space and increases floor space
- Optional rotating mounting plate allows easy access to the front and back of your PC

Shuttle

Key features:

- Mounted to the underside of a work surface
- Quick connect mechanism
- Soft moulded feet provide a secure grip to your PC
- Additional straps provide extra security to the PC

Key benefits:

- Saves valuable desk space
- PC is raised from the floor for maximum protection
- Safe cable management
- Increases the life of your computer
- PC is secure and safe

Traveller

The Traveller gives you the benefit of lifting your PC from the floor, preventing static and dust build-up. The castors remove the need to fit brackets to the underside of your work surface.

Key features:

- Adjustable side brackets allow use with most PCs
- Offers complete PC mobility on four casters, two of which have brakes
- No brackets are required to the underside of your work surface

Key benefits:

- Securely holds most PCs
- Freedom to move your PC to any location
- Allows easy access for maintenance purposes
- Saves valuable desk space

Thin Client Holder

The Thin Client Holder is an ideal option for offices where space is at a premium. It lifts the PC from the desk, freeing up valuable work surface space and helping to keep the office tidy. It is available with two mount options, the VESA Mount and the Base Mount.

VESA Mount Thin Client Holder

Key features:

- Fixes between a monitor arm VESA plate and the back of a monitor
- Cables pass freely through the VESA mounted holder and monitor arm
- CPU holder is adjustable
- CPU holder is fixed in one secure position
- Extremely lightweight

Key benefits:

- Saves valuable desk space
- PC is raised from the floor for maximum protection
- Safe cable management
- Does not restrict monitor arm movement

Base Mount Thin Client Holder

Key features:

- Lifts the PC up from your desk
- Allows easy access to a PC
- Flexibility to rotate CPU Holder around the monitor arm
- Straps can be looped around the CPU aiding extra stability

Key benefits:

- Saves valuable desk space
- Allows easy access to the PC
- Does not restrict monitor arm movement
- Optional security straps reduce the risk of damage to your PC

The Optima, Elevator and Linear are available with a choice of two tracks:

Standard Track

The Standard Track system enables a CPU holder to slide back and forth under your desk, allowing easy access for servicing etc. The Standard Track system is fitted with:

- Track ends to keep the CPU holder secure
- Adjustable track stops to prevent the CPU holder from clashing with cable management etc.
- Mounting brackets (bespoke brackets are available)

Telescopic Track

The Telescopic Track benefits from the Standard Track features above. It also allows the PC to be extended out from under your desk, creating easy access for maintenance.

Environmental design

At Adapt we carefully consider environmental factors in every stage of our product cycle. This includes selecting environmentally friendly materials during design, manufacturing, packaging and shipping.

Adapt aftercare

Research shows that to achieve the full benefits from ergonomic products, employees should be trained to use them properly. As part of our service, training is available to ensure you make the most of your furniture and accessories.

Superior products

Every Adapt product is made from the highest quality materials and goes through rigorous testing before it becomes available on the market. That's why all Adapt manufactured products come with a lifetime guarantee, giving you peace of mind.
