

USG ENSEMBLE™ ACOUSTICAL DRYWALL CEILING

A breakthrough ceiling solution combining
the best in seamless design and
acoustical performance

HOW DOES IT WORK?

The base is a standard
**USG drywall
suspension system.**

Sound-absorbing
**USG Ensemble™
High-NRC Backer
Panels** are laid into
the tees.

Perforated
**USG Sheetrock® Brand
Ensemble™ Panels** are
screw-attached.

The joints are finished
using **USG Sheetrock®
Brand Ensemble™
Ceiling Compound.**

Acoustically transparent
**USG Ensemble™
Spray-Applied Finish** is
applied as the final step.
