Shaker Table
Nienkämper

Shaker was born from the idea of creating a truly utilitarian table with a pure functional form. Available in standing and seated heights, and in a range of finishes and configurations, Shaker's versatility makes it a proven office work horse for creative spaces, meeting rooms and breakout areas alike.

Shaker's solid wood legs convey a sense of simplicity, all the while blending durability and stability with a robust sense of style. Without unnecessary details, Shaker table's natural finishes bring a sense of warmth and informality to any office environment. But don't be fooled by its simplicity. Shaker tables are available with the same flexible power data connectivity that has become a hallmark of Nienkämper conference tables.

Top Finish: all Standard Nienkämper veneer or laminate

Surface Shapes
All standard Nienkämper veneers and laminates
