VOX® Monogram Table
Mark Müller

Libraries, learning centers and home offices aren't static environments; they require technologically advanced, computer-compatible furniture that can easily be reconfigured, added to, and set at just the right height for people – whatever their age and level of mobility. These venues also need to make efficient use of all the available floor space, even awkwardly shaped spaces.

In response to the real furniture needs, Nienkämper is proud to offer Vox® Monogram Tables™ and Vox® Core Towers™. For maximum flexibility, each Vox® Core Tower™ can supply power and data connections to up to five Vox® Monogram Tables™, which can be grouped in a multitude of space-efficient configurations.
