VOX® VISTA™ SHAPE TABLES (CLOSED) – OVERVIEW

Note: Bases drawn represent all base styles.

MODESTY PANEL OPTIONS

FOR OPEN VISTA™, ARENA™ AND CONGRESS™ SHAPED CONFERENCE TABLES

Vox Open Vista, Arena and Congress shaped tables are standard with Duo, Taper or T-Bases, but are also available with Access or Tower bases (Contact Customer Service Department at 1800 668 9318 for prices).

No Modesty Panel is required when ordering conference tables with Duo, Access, Tower or T-bases. However, it is strongly recommended that modesty panels be included if Vox Forums are specified, so that wire management and cabling will be completely concealed.

Taper bases are not available without a modesty panel.

Full Wood Modesty Panels can be specified on both straight and curved tops and are available with Duo bases. The panel is $\frac{3}{4}$ " thick and is attached to the vertical aluminum leg section of the base. The veneer and finish match the top with the grain running vertically, Wire management is standard and attaches to the underside of the top.

Partial Wood Modesty Panels can be specified on both straight and curved tops, and represent the most economical choice for concealment of cabling.

The panel is positioned in front of the bases and forms a continuous $\frac{3}{4}$ " thick by 6" high skirt on the interior edge of the table.

A $\frac{3}{4}$ " gap at the top of the panel provides wire access anywhere along the edge of the top. The gap is concealed from the back with a flexible black rubber strip.

Wire management is standard and attaches to the underside of the top.

Aluminum Modesty Panels can be specified on straight-sided tops. The 6" high clear aluminum modesty panel is hinged and can be opened by simply pulling outwards from the top edge.

In its closed position a $\frac{3}{4}$ " gap between the top of the panel and the underside of the top provides an area for wires to pass and a finger hold for opening.

The opening of the panel is advantageous when managing wiring that may change regularly.

Wire management is standard and attaches to the underside of the top.

Description

The combination of height-adjustable project table and independent wing elements provides a highly flexible conferencing solution.

The project table (56"L x 30"D x 26 1/2" - 44"H) provides users with the option of addressing or presenting to the meeting while seated or standing.

By rotating the individual exterior wing elements, the layout of the meeting can be completely altered to suit the intent.

The optional aluminum pencil stop adds a subtle detail along the length of the wing elements.

The Vox® Glass Conference Table combines superb connectivity with light looking aesthetics. All connectivity is elegantly revealed. The design is appealing from every angle.

- Three main elements of the glass-topped tables are clearly visible:
1. The Vox Forum® (connectivity module) is embedded in the table top for easy plug in.
 2. The support rail that runs beneath the glass top provides structural support, serves as a wire-routing system, and is a continuous attachment point for clip-on wire managers.
 3. The slim, graceful Taper™ base complements and completes the elegant design.

Available with or without Vox Forums® these glass conference tables create a dramatic centerpiece for any boardroom.

Wire Management Details:

Users have a clear view of the physical connection of their equipment to the cable-channeling conduit. The conduit makes its way to the floor like an umbilical cord, providing a flow of information between the conference room and the outside world. Wiring runs from the floor monument to the table's underside via an Expandable Cable Conduit or a Linked Cable Conduit. Either style of conduit eliminates the need for wire concealment in the base allowing the table's legs to assume a slender profile. Refer to page 251 for Cable Conduit details and list prices.

Vox Forum® Details:

Vox® Glass Tables are available with M-series Forums, which have 3 pre-wired modular plates that can be replaced should the client's power/data requirements change at a later date. Forum details and plate options are described on pages 205-213, and can be viewed on the Vox Forum Configurator on our website: www.nienkamper.com

Each M Forum on Vox Glass Tables requires and includes a 6" collar - Trim Kit Model # TKM. Add \$680 to table price, for each Forum collar.

Vox Forums® and collars are available in 5 anodized aluminum finishes. Refer to page 13 for finish options.

Glass Top Details:

Rectangular shaped glass tops are available in three sizes only, as listed above. The clear glass is 1/2" thick and tempered. All glass tops are manufactured with a polished edge.

Table Base Details:

Taper™ bases are made of cast aluminum and available in a Mirror-Polished or Silver Metallic Paint finish.
