# HOW TO ORDER VOX® MEETING TABLES

IMPORTANT!

Vox Meeting Room Tables have been specifically designed to address the need for reconfiguration in demanding spaces, and include flexible connections for power, voice and data. Meeting room tables come in a variety of shapes and sizes for applications that require smaller scale tables. Meeting Room table tops are 1" thick and a finished table height is 28½".

## SELECT A SHAPE

Use the index or simply flip through this section of the planning guide to select a table shape that is suitable. A small drawing of each shape is provided in the upper corner of each page.

## SELECT A BASE OPTION

Vox Meeting Tables have anodized aluminum legs available on casters or glides. Be sure to select the model number that apply to the base option you want. Each leg has two distinct channels – one for a data cable and one for a power cable to easily manage wires from the table top to the connection point. Meeting Table legs are available in 5 anodized colors. Refer to page 263 for a listing.

## SELECT SIZE, TOP STYLE, AND MODEL NUMBER

L" x D" Number	Sugg Seat Capacity*	Top Finish	Model
60 x 24	2	P-lam self edge	24403/5LE
		P-lam wood edge	24403/5WE
		Wood self edge	24403/2SE
		Wood beveled edge	24403/2BE

Each Meeting table shape is available in a variety of sizes. Select the size that is appropriate and then select the top style – wood top or laminate with a choice of edge profiles for both.

If a veneer top has been selected by model number the standard veneer lay-up is flat-cut book matched. The sample order below describes how to add a veneer/stain code to your model number.

If an alternate veneer pattern is required, an additional veneer pattern code can be added.

If a laminate top has been selected, two options are available for edge profiles: Laminate edging and Wood edging. Selecting the correct model number that defines your choice, Page 251 describes how to add the laminate color code to the model number.

Vox Meeting Forums can be added to your Meeting tables. By specifying one of the options available on pages 282-283, voice, data, power connections can be provided in the table top. Meeting Table Forums are unique as they allow cables to be detached at the table, allowing tables to be easily reconfigured without cabling. Once a configuration is complete, connections can be made to those tables that require them.

## SELECT VOX MEETINGS FORUMS

### SAMPLE ORDER

Model number for 60" x 30" table with wood top, Self Edge	Add a Species/Finish Code	Add a Veneer Pattern Code	Add an anodized Finish Code

## **VENEERS**

All wood surfaces are protected with a durable polyurethane clear laquer with UV inhibitor. This finish is known for its exceptional durability, as well as abrasion, chemical, impact and scratch resistance. Standard sheen level is 45 degrees. Optional 10 and 35 degree sheen levels are available on request at no additional cost.

### **VENEER GRAIN OPTIONS**

Nienkamper products utilize the best quality veneers available, and, combined with Nienkämper's patented veneering systems, create work environments of incredible quality and beauty.

All veneer furniture comes standard with flat cut book-match veneer; flat cut slip-match veneer can also be specified. Quarter cut slip-match and quarter cut book-match veneers are available at a 5% upcharge. Figured Anagre and Figured Sycamore veneers are Quarter cut book-matched. Bird's Eye Maple and Curly Maple are rotary cut.

Facet Edge, Taper edge and Flowform edge tops with veneer are manufactured with a solid wood edge. All edges are then veneer wrapped to create a seamless profile top.

Add 5% V4

## Wood grain plastic laminate surfaces are available on table tops with Facet and Taper edges.

These tops are manufactured with a solid wood edge that is applied prior to the laminate top surface. This method conceals the thickness of the wood edge, while providing the durability required. Wood edges are selected that most closely resemble both the species and the color of the laminate chosen

Nienkämper has pre-selected a number of standard wood grain plastic laminates that represent a cross section of both color and species. Simply include the order code with the model number to make these selections. Alternatively wood grain plastic laminates selected outside of Nienkämper's standard selection can be made by specifying the manufacturer as well as the description and model number of the laminate at the time of order. Note: for Facet edge tops the laminate must be a post-forming grade.

Wood Grain Plastic Laminate Surfaces	Order Code	Manufacturer #	Finish
Champagne Sagawood	WL1	Nevamar WM8349T	Textured
Hardrock Maple	WL2	Pionite WM791-SD	Textured/Suede
Amber Curly Maple	WL3	Pionite WM221-SD	Textured/Suede

Skyline Walnut	WL26	Wilsonart 7964K-12	Soft Grain
Sterling Ash	WL27	Wilsonart 7995-78	Fine Grain

To specify the wood grain laminate required simply add the Order Code WL\_ to the model number of the product.

Wood grain laminate samples are available from your local sales representative or by calling Nienkämper's customer service department at 1-800-668-9318.

# COLORED PLASTIC LAMINATE - VOX® MEETING TABLES

## COLORED LAMINATE

Both Taper and Facet edge profiles are available with a colored laminate top.

**Laminate edging** on Taper tops. Edging will match the top surface and is applied prior to the surface laminate. By applying the laminate in this way the seam is positioned horizontally, is much less conspicuous as well as more durable.

**Wood edging** on Facet and Taper Edge tops is applied prior to the laminate. By applying the wood edge in this way the thickness of the wood edge is concealed, while providing the durability required. Wood species and finishes for edging, can be selected from page 10.

For laminates specified outside of Nienkämper's standard selection, specify the manufacturer as well as the description and model number of the laminate selected at time of order. For Facet edge tops, the laminate must be a post-forming grade.

Colored Plastic Laminate samples are available from your local sales representative, or by calling Nienkamper customer service at 1800 668 9318

Coloured Plastic Laminate Surface	Order Code	Manufacturer #	Finish
Grey (Nienkamper - Light Grey/Putty)	CL-01	Wilsonart 1500-60	Matte
Plantinum Grey (Nienkamper - Medium Grey/Clay)	CL-02	Nevamar S6023T	Textured
Slate Grey (Nienkamper - Dark Grey)	CL-03	Wilsonart D91-60	Matte
Black	CL-04	Wilsonart 1595-60	Matte
Angel White	CL-05	Pionite SW-826SD	Suede/Textured
Frosty White	CL-06	Wilsonart 1573-60	Matte
White (for writable surface)	CL-07	Formica	Gloss

Add the order code behind the edge profile when specifying.

## NIENKAMPER COLORED "FINGERPRINT RESISTANCE" PLASTIC LAMINATE

Fingerprint Resistance Plastic Laminate is an innovative material created for interior design applications and is suitable for both vertical and horizontal interior applications on our nienkamper furniture.

The external surface of Fingerprint Resistance Plastic Laminate involves the use of nanotechnology made possible by next generation acrylic resins.

The unique composition offers extraordinary features and an exceptional user experience. These include an ultra matte surface (eliminating glare), an ultra soft feel, an anti-fingerprint surface, thermal healing of micro-scratches, increased durability as well as anti-bacterial and mold-resistant properties.

**Edgeband** with matching color to the Fingerprint Resistance Plastic Laminate is only available on tops with a taper edge. For a 1" or 1-1/4" thick top with self edge, either the same Fingerprint Resistance Plastic Laminate can be specified, or a clear or silver translucent edge.

There is a 10% upcharge on our standard plastic laminate table pricing for Fingerprint Resistance Plastic Laminate.

Colored "Fingerprint Resistance" Plastic Laminate Surface	Order Code	Finish
Black	RL-01	Matte
Gray	RL-02	Matte
Pure White	RL-03	Matte
Sand	RL-04	Matte
Bronze	RL-05	Matte

Edgeband to Match with Colored "Fingerprint Resistance" Plastic Laminate	Order Code
Black	RE-01
Gray	RE-02

## ALUMINUM FINISHES

<b>Anodized Aluminum Finishes</b>	<b>Order Code</b>
Silver	AL-01
Champagne	AL-02
Light Bronze	AL-03
Bronze	AL-04
Black	AL-05

Simply specify the finish of choice when placing your order. Note upcharges may apply for non-standard finishes. Anodized aluminum and paint finish samples are available from your local sales representative or from Nienkämper's Customer Service department, call **1.800.668.9318**.

## PAINT FINISHES

Some Vox components are painted.

Paint finishes are generally used when anodizing is not an option, (i.e. castings). While color matching is close it is impossible to match exactly the qualities of anodizing with paint finishes.

<b>Standard Paint</b>	<b>Order Code</b>

Champagne	SP-02
Light Bronze	SP-03
Angel White	SP-04
Frosty White	SP-05
Black	SP-05

<b>Metallic Paint</b>	<b>Order Code</b>
Silver Metallic	MP-01
Champagne Metallic	MP-02
Light Bronze Metallic	MP-03

# EDGE DETAILS – VOX® MEETING TABLES – LAMINATE TOPS

**Laminate edging “LE”** Laminate edging is applied prior to the surface laminate. By applying the laminate in this way the seam is positioned horizontally, which is much less conspicuous as well as more durable. Corners on laminate edged tops are 90 degrees with the edge slightly eased.

**Wood edging “WE” on laminate tops** - A  $\frac{3}{16}$ " thick wood edge is applied on top of the laminate exposing the wood edge on the surface of the table. The edge is slightly radiused and mitred at the corners. Corners on these tops are slightly rounded to match the top edge. Wood species for edging as well as finishes for it, can be selected from page 216.

# EDGE DETAILS - VOX® MEETING TABLES – WOOD TOPS

**Wood Tops** – the model number selects meeting tables with wood tops after the size has been selected. Two standard edge profiles are available.

**“Self Edged” “SE”** – 1” plywood core with a 1/16” veneer edging, all corners are eased slightly, referred to as “self edged”.

Wood top with Self Edge “SE”

Self Edge “SE”

**“Beveled Edge” – “BE”** - Vox meeting tables with a beveled edge have a 3/8” solid wood edge, applied to a 1” plywood core that is veneer wrapped to create a seamless profile top.

Wood top with Beveled Edge “BE”

Beveled Edge “BE”

# MODESTY PANEL & WIRE MANAGEMENT - VOX® MEETING TABLES

---

Vox Meeting table modesty panels can be incorporated on any Basic Element, flat sides of the Half Circle Element, flat sides on the Angle Element, and on the straight sides of Boat and Wave shape tables. The aluminum modesty panels on Meeting tables do not curve and are mounted on the flat or straight sides only.

The 6" high aluminum modesty panel is hinged and mounted to the underside of the top with a pair of integral hinges that allow all panels to flip open for managing wiring and accessing connections below the table. Simply pulling outwards from the top edge opens the panel. All aluminum modesty panels come with a plastic wire management trough that attaches to the hinge on the panel. The modesty panel is closed by pivoting the panel back into position and pressing to secure it in place. In its closed position a  $\frac{3}{4}$ " gap between the top of the panel and the underside of the top provides an area for wires to pass and a finger hold for opening.

Modesty panels are mounted in front of the vertical table legs allowing a  $\frac{1}{2}$ " gap between panels as tables are pushed together.

Two Basic Element tops ganged together with closed modesty panels.

Open modesty panel showing wire management trough.

When the boardroom is not being used for large meetings, it can be reconfigured for a training session. The Vox Boat-shape meeting table is composed of 4 smaller tables and is designed specifically for this purpose. These tables can be specified with one Vox Meeting Forum per table, and with an aluminum modesty panel. Simply ungang the tables for four individual tables.

4 Vox Meeting tables ganged together to create one large Boat Shape Meeting table.

# VOX® MEETING TABLE PHOTOGRAPHS

---

**VOX® MEETING TABLES**  
Four 90 degree Elements can be brought together to form a round conference table.

**VOX® MEETING TABLES**  
When two Basic Elements are added to four Round Angle Elements, a large racetrack table is created for larger meetings.

**VOX® MEETING TABLES**  
Basic Elements can be ganged together in rows, or pulled apart and used separately as training tables. Power and data connectivity can be specified for each user.

**VOX® MEETING TABLES**  
Two Half Circle Elements combined with two Basic Elements come together to create a racetrack shape boardroom table with additional wire access through the centre.

**VOX® MEETING TABLES**  
The two Half Circle Elements, with Beveled Edge, can be ganged together to make a round table for use in a smaller room.

VOX® MEETING FORUMS & GROMMETS

**STANDARD FEATURES**

All Vox® Grommets and accessories that are integrated directly into table tops are manufactured from high quality aluminum. These components are standard with a clear anodized finish and are site installed to prevent damage while shipping. Suitable holes are provided for installation.

Note: Grommets are supplied with a spacer ring for mounting into the 1" thick meeting table tops.
