

**Elevation™ Bench**

Johnson Chou

Elevation™ Bench

Johnson Chou

A smaller scale of the base design used in Workplaysleep.01™, Chou has created the Elevation™ Bench, part of Nienkämper's Elevation™ Series, a collection of dining, conference, coffee tables and benches.

These contemporary designs are suitable in public and private spaces and are available in standard Nienkämper wood veneers and stains and painted. The upholstered cushions on the bench are available in fabric, leather, or vinyl.
