width 14.2, depth 0.5, height 31.5"

DESCRIPTION	ORDER CODE
Felt Panel	BAM.FP.2/GY

# bamboo®

## environmentally conscious

Our Bamboo range has been created by our environmentally conscious in-house design team. Where possible, we have opted to use the most eco-friendly and low impact materials. This year, we've taken further steps towards a more sustainable future. It starts with the launch of our Bamboo collection, a range that uses environmentally conscious materials and processes. All our shelves, cupboards, storage boxes and tabletops in the range are made from bamboo. This material is widely known for being extremely sustainable hard wood alternative - it has a negative carbon footprint!

**bamboo uses  
1/3 the water  
consumption  
of oak**

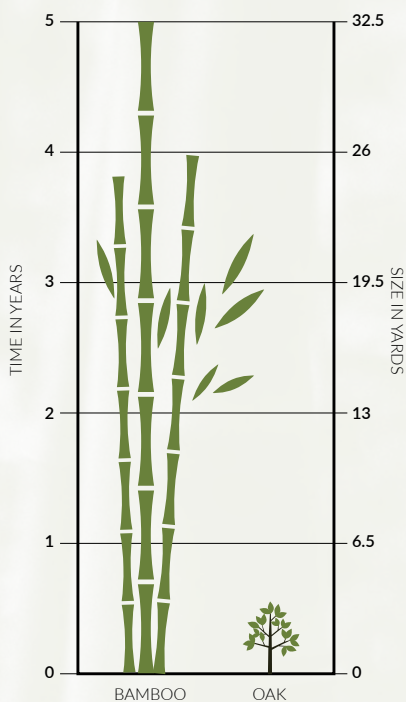

### sustainable buildings

The use of bamboo products can help achieve a higher certification level for LEED and BREEAM. It can also help achieve more points towards the building becoming WELL-aligned.

### one of the fastest growing plants

It only takes a year to grow back after it's been harvested. Some species grow more than 3 feet (1 metre) each day.

**bamboo uses  
no pesticides  
or chemical  
fertilizers**

### clean air

Bamboo releases 30% more oxygen than hardwoods and it absorbs 5 times more carbon dioxide than standard trees.

### low energy powder coating

Our specially designed powder coatings are cured at lower oven temperatures, which reduces energy usage and waste generation, lowering our overall carbon footprint.

### anti-bacterial

Bamboo has the ability to withstand and kill bacteria. It is also very easy to clean.
