HEWI Surfaces

XA	stainless steel mat		
	brass mat		
	copper mat		
	black chrome mat		

* HEWI Polyamide colours | matt edition

The colour values of LRV, RAL design, RAL standard and NCS colour sample refer to surfaces made of polished polyamide. For matt surfaces (matt edition) there may be deviations.

HEWI Colours compared with RAL and NCS

HEWI Colours have been classified by RAL and NCS and allocated the nearest possible colour classification. Identical colours do not exist in the RAL and NCS systems. In cases where HEWI colours and the colour classification differ too greatly, no classification appears in the table. **Personal colour comparison should still be performed.** Due to printing process colours shown may differ slightly from the product.

Surfaces and material combinations

System 900

Example	Material and colour coding Explanation	Example	Material and colour coding Explanation
Surfaces		... with material combination polyamide/synthetic material	
XA · metal mat	XA 98 or 92 · metal mat · polished polyamide in HEWI colours 98 (signal white) or 92 (anthracite grey)
40 · metal polished	40 98 or 92 · metal polished · polished polyamide in HEWI colours 98 (signal white) or 92 (anthracite grey)
60 DX · metal powder-coated in matt white	60 AS · metal powder-coated in matt white · polyamide/synthetic material in matt white
60 AY · metal powder-coated in matt light grey pearl mica	60 AX · metal powder-coated in matt light grey pearl mica · polyamide/synthetic material in matt white
60 SC · metal powder-coated in dark grey pearl mica	60 CD · metal powder-coated in dark grey pearl mica · polyamide/synthetic material in matt black
60 DC · metal powder-coated in matt black	60 CV · metal powder-coated in matt black · polyamide/synthetic material in matt black
