TESTED & APPROVED

We put ourselves through the ringer (so you don't have to). Rest assured that our products have been tested for quality control, strength and durability.

ANSI/BIFMA CERTIFIED

Bariatric models are available in 30" and 42" widths with additional seat foam, steel reinforcement and extra large casters with 25% more weight capacity. SitOnIt Seating club chairs, settees and sofas are rated to 250, 500 and 750 lbs. respectively.

BUILT TO LAST
The unique SitOnIt Seating steel rail system* creates a robust, durable understructure that withstands even the toughest environments. The arms are anchored by a high performance molded joint system that provides long-lasting stability. The modular assembly of rails and components makes field replacement of our components simple, ultimately extending the life of the product.
