How to Use this Price List

Kimball has made every effort to make this price list accurate and complete with all of the information you need to specify our products.

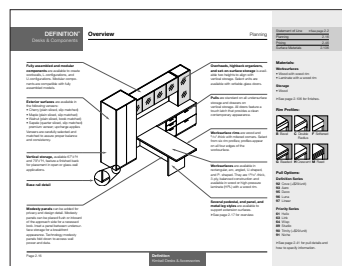

We suggest that you become familiar with the format of this price list. You'll find information about the product line, planning guidelines, pricing, and how to specify the product.

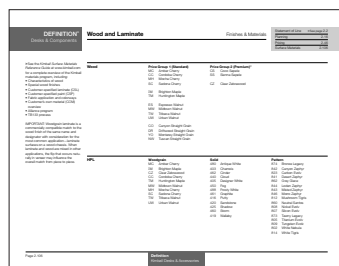

Statement of Line pages provide a snapshot of the entire product line. We've included illustrations, tables showing available sizes, and page cross references to the applicable pricing pages.

Pricing pages list each model individually along with its list prices. How to Specify steps instruct you how to build a complete model that includes all of its options and materials.

Planning pages provide a general overview as well as detailed information about the product, connections that can be made with other models, planning factors, and application guidelines.

Surface material pages within each chapter show the selections available for that series. If applicable, COM/COL yardage information can be found here.

► **See the Kimball Surface Materials Reference Guide** at www.kimball.com for a complete overview of the Kimball materials program, including:

- Characteristics of wood
- Special wood finishes
- Customer-specified laminate (CSL)
- Customer-specified paint (CSP)
- Fabric application and colorways
- Customer's own material (COM) overview
- Alliance program
- TB133 process

Terms & Conditions	► See page 1.4
Product Warranty	1.6
Sustainability	1.7
ANSI/BIFMA	1.8

Dimensions provided in this price list are nominal. Products are manufactured to meet standard industry tolerances.

Illustrations and specifications contained in this price list are based on the latest product information at time of publication. Kimball reserves the right to make changes at any time without notice.

Standard product modifications are available on select products.

► See the *Product Modification Solutions Price List* at www.kimball.com

Items listed herein are considered by Kimball as portable furniture and as such are subject to local fire, electrical, and building codes applicable to portable furniture.

Only Underwriters' Laboratory (U.L.) or Canadian Standards Association (C.S.A.) listed electrical components are used in electrical devices and are so labeled.

The customer is responsible for the proper application of products to the local codes under which installation must be made. Further specifications are available on request.

Complete specifications are built by following a set of steps. These “How to Specify” steps are located in the far right column of each pricing page and are specific to the models found on that page. These steps will guide you in the proper order to specify the base model, materials, finishes, options, etc.

Base model numbers may be comprised of two or more steps. For concise presentation, some model numbers have been truncated within the pricing table.

- The steps numbered using a solid circle with a white number inside (e.g., ①, ②, or ③) make up of the base model number.
- Steps numbered using an outlined circle with black number inside (e.g., ④, ⑤, or ⑥) are required to complete the specification.

Standard Includes

- Two pedestals, 18" wide with 50% leg width on 60" and 27 1/2"
- One top per pedestal
- Black vinyl urethane tray in top box drawer

How to Specify

- Worksurface material:
 - LW = Laminate with wood em
 - W = Wood
- Posterior option

- 1 = BEFF5FF 8 = BEFF5F
- 2 = BEFF 9 = FT-BEFF

- ③ Rim profile:
 - B = Bevel
 - C = Chisel
 - D = Flat
 - E = Flared
 - F = Flared
 - G = Flared
 - H = Flared
- ④ Pull option: 4342

- ⑤ Size panel for 4342 for designers.

- ⑥ Lock option:

- KRB = Key random, black case

- KRB = Key random, silver case

- KRC = Key random, chrome case

- KS = Key specific (K&S), sturdy

- Two lock case separately

- ⑦ Size panel for 4342 for designers.

- ⑧ Grammet-out-out option:

- ⑨ Size panel for 4342-2-14.

- ⑩ Grammet-out-out option:

- ⑪ Size panel for 4342-2-14.

- ⑫ No gramm-out or out-out

- ⑬ First price group 1

- ⑭ STD = Group 1

- ⑮ Price: 144444

- ⑯ First price group (unit for wood workstation)

- ⑰ STD = Group 1

- ⑱ Price: 144444

- ⑲ First price group (unit for wood workstation)

Pricing Table Abbreviations:

D = Depth

W = Width

H = Height

T = Thickness

AO = Approach Overhang

ED = End Depth

KW = Kneespace Width

KH = Kneespace Height

WC = Worksurface Clearance

Sample Specification:

The example below shows a complete model number for a **Definition arc-top double-pedestal desk**. The first three steps in this example comprise the base model number; the rest of the steps complete the specification.

Electronic Catalog and Specification Software:

Kimball promotes the use of electronic drawing and specification tools to automate the furniture sales, design, and specification process. We provide our symbol and product information to industry leading design and specification software companies. We work closely with Configura to develop additional intelligent programming for our products in CET Designer. As noted in our Terms and Conditions, the customer bears the responsibility for order correctness.

Terms & Conditions

Ordering Procedures:

Purchase orders must be received with complete information, which includes the following:

- Complete/valid model numbers
- All textiles, finish, and material specifications for each line item.
- "Ship to" address and contact
- Special shipping instructions (tagging, requested dates, etc.)
- Billing address
- Net prices

Submit orders electronically via EDI or OrderXchange.

To order literature or check order status on-line, please visit us at www.kimball.com.

The customer bears sole responsibility for order correctness. Orders are accepted only by issuance of Kimball's formal order confirmation and are subject to the terms and conditions set forth herein, notwithstanding any variance in terms and conditions set forth on buyer's order forms.

The order confirmation is the final agreement between the customer and Kimball and supersedes all prior oral, written or electronically transmitted statements regarding the order. Kimball will attempt to meet all requested ship or delivery dates. If no specific date is requested, we will assign the best possible ship date available.

Changes and Cancellations:

A confirmed order may not be changed or cancelled, in whole or in part, without prior written consent of Kimball. Expenses incurred because of the changes shall be charged to the Purchaser. In the event of cancellations, Purchaser will be liable for reasonable cancellation charges established by Kimball. Changes may affect delivery dates.

No changes or cancellations will be accepted after order entry for non-standard lead time products including:

- Kwik Office offerings
- Engineer-to-Order (modified or non-standard products)
- Alliance program upholstery
- Customer's Own Material (COM)
- Customer's Own Leather (COL)
- Customer Specified Laminate (CSL)
- Customer Specified Paint (CSP)
- Mock Ups
- Service Parts/Replacements

Modified Product:

Our manufacturing flexibility allows us to accommodate requests for non-cataloged product. We are happy to discuss your unique product requirements and determine feasibility and pricing.

➤Contact **By Design** for assistance at 800.482.1616 extension 6002.

Finishes and Materials:

Wood Finish Color Matching

Each piece of natural veneer offers unique texture and grain. Minor variations in finish color and value may occur due to the natural characteristics of wood. Kimball carefully selects all materials used in every product ensuring a commercially acceptable color and finish. Factors such as aging and exposure to light alter finishes.

Fabric Color Matching

Kimball will always ship a satisfactory commercial match on fabric. Because of industry dye-lot variation, colors may not match exactly.

Terms and Pricing:

Net 30 days. If the invoice amount is not paid in full within the terms of the invoice, the invoice may be subject to a monthly finance charge equal to the lesser of 1.5% or the highest amount permitted by law. List prices include freight charges; however, they do not include:

- Storage and insurance charges
- Sales and other taxes
- Local delivery, unloading, or installation

These items will be invoiced as separate line items.

All prices herein are delivered list price, unless noted, effective **March 1, 2022**, and supersede all other published prices. Prices shown cover standard product only, additional charges will be applied for changes to standard product. Kimball reserves the right to change prices without prior notice. Prices herein are only for shipment within the continental United States or Canada.

Selling Information

Distribution of this price list does not in itself constitute an offer to sell. Orders can be received only from authorized Kimball customers. Kimball price lists and catalogs are not available to the general public.

Product Design:

Kimball reserves the right to make changes in design, specifications, and construction or discontinue products without prior notice.

Shipping/Freight:

Products are priced and will be delivered C.P.T. one contiguous U.S. destination, one Canadian destination or one port of exit, freight prepaid (Incoterms 2010). Title shall transfer with risk of loss.

Kimball reserves the right to select the most appropriate shipping terms.

Delivery:

Normal delivery hours are 8:00 a.m. to 5:00 p.m. Monday through Thursday and 8:00 a.m. to 3:00 p.m. on Friday. Any delivery arrangements made outside of normal delivery times are subject to additional charges.
➤ See below.

Any charges incurred because of failure to receive a shipment or offload a shipment in a timely manner (maximum time allowed to offload trailer: 3 hours), will be billed to the sold-to customer.

Any charges as a result of rerouting a shipment while in transit will be billed to the sold-to customer.

Any order requiring **Special Delivery Service** will incur additional charges. All such requirements must be noted on the purchase order. These are services that are not included in the standard price of the product or require the usage of specialized carriers. These services include:

- Weekend delivery (after 3:00 p.m. Friday through Sunday evening)—minimum \$500 charge.
- Inside delivery—minimum \$50 charge.
Note: Must be approved and coordinated 10 days prior to shipment.
- Non-dock delivery—minimum \$50 charge.
- JIT delivery (specific day and/or time)—Orders under \$25,000 list will incur a \$125 charge.

- Rush delivery (1-3 days from ship date)—Contact Customer Service for charges.

Carrier Selection

Kimball reserves the right to select the most appropriate mode of shipment. Kimball relinquishes all responsibility for goods shipped upon a clean receipt from the carrier. Customer bears the risk of loss or damage during shipment.

Packaging

Kimball's standard method of shipping is to carton all items. Certain full truck load shipments may qualify for special consideration. Contact Kimball for guidelines. International shipments can be crated at the customer's request. The expense of crating will be the responsibility of the customer.

Palletizing

Kimball may elect to palletize key products on projects when it effectively reduces carton waste and improves stability within the shipment.

Loss, Damage, or Delay

Kimball shall not be liable for loss, damage, detention or delay resulting from causes beyond its reasonable control including but not limited to fire, strike, weather, wreck or delay in transportation. In the event of delay due to any such cause, the delivery date will be postponed by such length of time as may be reasonably necessary to compensate for the delay.

Storage

If the customer requests a change of ship date and the product is in production, Kimball reserves the right to transfer the product to storage at the customer's risk and expense. All requests to store product must be approved by Kimball Customer Service and may be subject to storage fees. Such transfer to storage will be deemed delivery to the customer for all purposes including insurance, liabilities, invoicing, and payment.

Returned Merchandise

Merchandise will only be accepted for return under the following conditions:

- ① The product is a "made to stock" item; and
- ② Return Goods Authorization (RGA) is given to you by your Customer Service Team.

All returns are subject to a 50% restocking fee. All freight charges for returned product are the responsibility of the customer. Unauthorized returns will not be accepted and will be returned freight collect. All merchandise being returned must be properly packed and protected in the original cartons. Upon receipt, all returned merchandise will be thoroughly inspected. Any discrepancies, such as additional damage, signs of usage, missing parts, etc., will result in an adjustment to the amount of credit issued.

Claim Process:

All products produced by Kimball are carefully inspected and properly cartoned prior to shipment. All shipments are delivered to the transportation company in good condition. Kimball customer service will file the freight claims for you. Follow these easy steps:

- ① Before signing for the merchandise, make notation of all visible damage, shortages and/or time of truck arrival on the bill of lading.
- ② Contact Customer Service within 15 calendar days of delivery receipt to report issue. We will advise whether a freight claim will need to be filed based on mode of transportation.
- ③ If claim must be filed, carrier must be contacted within 15 calendar days of delivery. Retain all shipping cartons for inspection by the carrier agent.
- ④ A copy of the Carrier Disposition Letter must be sent to Customer Service to receive additional credit on concealed damage issues via Redistribution/ LTL carrier shipments.

For Concealed Damage, follow steps 2 through 4.

Product Warranty

Lifetime Assurance of Quality

Our Pledge:

Kimball stands behind the craftsmanship of our products. When brought to our attention, we will address warranty issues quickly and effectively.

Recommendations:

Facilities managers and users are urged to make periodic inspections to look for signs of structural fatigue, damage or potential failure that may occur as a result of daily handling and use. Inspections should include the structural joints, corner blocks, screws or fasteners, welds, and any other points of stress. If any problems are found, the product should be taken out of service and Kimball Customer Service should be contacted promptly at 800-482-1818.

Limited Product Warranty:

Kimball warrants that its products are free from defects in materials and workmanship given normal use and care for a lifetime of single-shift service. Normal use is defined as the equivalent of a single shift, 40-hour work week and for seating up to 275 lbs. user weight.

Exception: Some products and parts have limited warranty periods.

➤ See *Warranty Periods at right.*

The following products are warranted for 3-shift 24/7 service:

- Joya™ three-shift pre-configured task
- Joya heavy-duty task (up to 400 lbs. user weight)
- Wish™, excluding Wish Classic, (up to 300 lbs. user weight)

At its option, Kimball will repair or replace with comparable product, free of charge to the customer, any product, part or component manufactured and/or sold by Kimball in North America after November 6, 2000, which fails under normal use as a result of such defect.

In the event that use of a product exceeds normal use as defined above, the warranty period for such product will be reduced to 12 years from date of manufacture, and the warranty for the product's components that fall under different warranty limitations, as listed at right, will be reduced to one-third of the original warranty.

This warranty is made by Kimball to the original customer for as long as the original customer owns and uses the product.

This warranty is only valid if the products are given normal and proper use, and installed or used in accordance with Kimball installation and/or application guidelines, and installed by an authorized Kimball dealer or agent. Kimball assumes no responsibility for repairs to products sustaining damages resulting from user modification, attachments to a product, misuse, abuse, alteration, or negligent use of our products.

EXCEPT AS EXPRESSLY SET FORTH ABOVE, THERE ARE NO OTHER WARRANTIES EITHER EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE. WE

EXCLUDE AND WILL NOT PAY CONSEQUENTIAL, PUNITIVE, OR INCIDENTAL DAMAGES UNDER THIS WARRANTY.

All warranties run from date of manufacture.

Warranty Periods:

Warranty periods are limited for certain products and/or component parts as follows:

10-Year Warranty

- Bingo® side chairs and stools
- Pep™ seating
- Poly™ seating
- Seating mechanisms and controls
- Veneers
- Laminate
- Pneumatic lifts (cylinder assembly)
- Lusso™
- Portata™

5-Year Warranty

- High-wear parts (such as casters, glides, drawer slides, moving chair arms)
- Xsede® and Priority™ height-adjust base mechanism and electrical control box
- Electrical/power products
- Inflatable lumbar supports
- Lighting
- Desk sets
- Monitor arms
- Keyboard kits
- Covering materials (such as foam, most textiles, 3D laminate, and decorative trim)
- Markerboards

3-Year Warranty

- Wool felt
- Custom products

- Carnegie fabrics
- Helio™ mesh
- Joya™ mesh
- Wish™ mesh

1-Year Warranty

- Jolt™

Warranty Exclusions:

This warranty does not cover:

- The substitution of non-Kimball components for use in place of Kimball components
- Naturally occurring variations and differences in grain character and color between and within wood species
- Natural variations in marble and leather
- Damage caused by a freight carrier
- Normal wear and tear arising from product use
- Damage resulting from improper use or storage of the product
- C.O.M. (Customer's Own Material) or any other non-standard material specified by the customer, including attributes such as appearance, durability, quality, performance, colorfastness, etc.
- Alliance program fabrics
- Fabric, leather, and felt fading and wear, discoloration from contact with liquids or change in color or texture caused by application of finishes (flame proofing, stain resistance)
- Alterations to the product not expressly authorized by Kimball
- Products considered to be of consumable nature (such as bulbs, light ballast, and certain electronic products)

Terms & Conditions	➤ See page 1.4
Sustainability	1.7
ANSI/BIFMA	1.8

Process for Warranty Issues:

- ① A customer should contact his or her dealer, who will contact Customer Service at 800-482-1818. The purchase order or acknowledgement number, model number, and a detailed description of the warranty issue should be provided. **Serial numbers may be required** before the claim can be processed.
- ② Customer Service will determine and pre-approve all resolutions to the claim, such as replacement units, service parts, and labor charges related to repair or redelivery of damaged or defective product.
- ③ Upon approval, a Case Number and resolution will be assigned to an authorized dealer, and all parts and components necessary for the repair/replace will be sent to the authorized dealer, which will carry out the resolution. The dealer should include the Case Number on all invoices for reimbursement once the warranty repair/replace has been completed. Kimball shall not be responsible for any unauthorized expenses. Kimball will only accept dealer invoices submitted within 90 days of the final approval by Customer Service; invoices received after 90 days will not be approved for dealer credit or payment. All warranty information should be sent to:

Kimball

Sustainability

Enhancing the Home We All Share

At Kimball, we are proud of our environmental stewardship. We are committed to sustainable business practices and continuous improvement. It's part of our heritage to take initiative, to reduce waste, to conserve energy, to commit fully, and to lead by example.

Throughout our more than 40 years of documented environmental actions, we have been a responsible steward of resources and have acted as an agent of sustainable change in our industry.

Design for the Environment is our approach to product development, providing lasting product solutions that benefit people through sustainable business practices.

Ultimately, the more we do in the area of sustainability, the more it helps you to achieve your environmental aims. Let us show you just how easy it is with Kimball.

ANSI/BIFMA LEVEL™

We offer one of the most sustainable portfolios in the industry, which includes systems, casegoods, tables, and seating.

LEED® Certification

Kimball offers furniture solutions which may contribute toward LEED® certification. The LEED Green Building Rating System™ is the nationally accepted benchmark for design, construction, and operation of high performance green buildings. Kimball has sought and received certification for the following facilities:

LEED-CI Silver:

- Chicago, IL showroom
- Washington, DC showroom

Indoor Air Quality

One of the largest contributions office furniture can make to a building's LEED certification is indoor air quality via low-emitting products. Kimball tests and certifies many of our products to the ANSI/BIFMA e3 2014 standard credits (7.6.1, 7.6.2, 7.6.3).

Wood Finishes

Our proprietary wood finish system utilizes a combination of topcoats engineered for the various applications found in the furniture industry. It is exceptionally clear and durable, and allows the beauty of wood to show through. The durability, depth, clarity, and beauty of our wood finishes meet the high expectations customers have of Interwoven finishes, and meet or exceed indoor air quality (IAQ) standards.

➤ Find more specific details regarding the environmental aspects of our product offerings at:
www.kimball.com

The operating load capacities for various Kimball products shown in the table at right represent the BIFMA functional loads which are equivalent to loads that can be expected in normal use of the component.

All components meet or exceed the appropriate ANSI/BIFMA Functional and Proof Loading requirement tests:

- X5.6 2016 Panel Systems Test
- X5.5 2014 Desk/Table Products Test
- X5.9 2019 Storage Units Test

Square inches should be calculated using this formula: Surface depth x surface width of available storage. Cubic inches should be calculated using this formula: Surface length x surface depth x height of available storage above the surface (limited to 12 inches above the surface).

ANSI/BIFMA

Operating Load Capacities

Component	Operating Load Capacity (Functional Loads)
Adjustable keyboard support <36"W	66 lbs., distributive loading
Center/pencil drawers	5 lbs., distributive loading
Center-mount cabinet	.017 lb. per cubic inch above surface (not to exceed 12"H), distributive loading
Desk/table <45"W	200 lbs. over 12" diameter area, concentrated loading
Desk/table 45"W–72"W	200 lbs. over 12" diameter area, concentrated loading 1.5 lbs. per inch of perimeter, distributive loading
Desk/table >72"W	Two 200 lb. loads over two 12" diameter areas, concentrated loading 1.5 lbs. per inch of perimeter, distributive loading
Extendable elements (drawers, shelves, etc.)	.017 lb. per cubic inch of drawer interior filing space, distributive loading (not to exceed 12"H)
Flipper-door cabinet	Top shelf—NO load Bottom shelf—.017 lb. per cubic inch above surface (not to exceed 12"H), distributive loading*
Keyboard tray, keyboard drawer	10 lb. evenly distributed cycling load
Metal shelves (work tools)	.017 lb. per cubic inch of available space, but not to exceed 12 inches in height
Metal work tools	Single side tray: 40 lbs. t.w. Double side tray: 47 lbs. t.w. Pocket organizer: 4 lbs. t.w. Slant Sorter: 19 lbs. t.w. Binder shelf: 10 lbs. t.w. CD holder: 10 lbs. t.w. Hanging file folder: 5 lbs. t.w. Memo box: 10 lbs. t.w. Pencil tray: 5 lbs. t.w.
Monitor arms, manual and intuitive adjustment	20 lbs. (see pricing page for application restrictions)

ANSI/BIFMA

General Purpose Office Chair Tests (X5.1–2017)

The tests at right were developed by the Business and Institutional Furniture Manufacturer's Association (BIFMA) and approved by the American National Standards Institute (ANSI).

These performance tests determine the stamina of seating in its day to day use. Individual tests are described at right.

Generally, Kimball seating products within this price list meet or exceed the applicable ANSI/BIFMA standards:

ANSI/BIFMA chair testing does not serve as a warranty or guarantee.

Backrest Strength Test: Type **I**—back tilt chair, 150 lb. force applied, 225 lb. proof load. Type **II** & **III**—back tilt chair, 150 lb. force applied, 225 lb. proof load.

Drop Test: Using 225 lb. weight, 300 lb. proof load with 6" drop.

Swivel Cycle Test: 270 lb. on seat rotating base, 60,000 cycles at mid point and 60,000 lowest position.

Tilt Mechanism Test: 300,000 tilts with 240 lb. in seat.

Seat Durability Test: 125 lb. weight dropped onto seat 100,000 cycles.

Front Load Ease: 200 lb. alternating for 40,000 cycles.

Front Stability Test: Apply 135 lb. on front edge of seat while applying horizontal 4.5 lb. force at top of seat.

Arm Strength Test—Downward

Application: 169 lb. force applied downward at arm's weakest point, 253 lb. proof load.

Arm Strength Test—Outward

Application: 100 lb. force applied outward at arm's weakest point, 150 lb. proof load.

Chair/Chair Base Durability Test:

2,000 cycles over obstruction, 98,000 over smooth along a 30" distance with a 270 lb. load.

Backrest Durability Test:

Type **I**—with 240 lb. on seat with chair fully reclined with 100 lb. force, 80,000 cycles. Type **II** & **III**—with 240 lb. on seat and tilting with 75 lbs. force, 80,000 cycles. After 80,000 are complete, 40,000 will be off center testing.

Leg Strength Test—Front

Application: 75 lb. force applied, 113 lb. proof load.

Leg Strength Test—Side

Application: 75 lb. force applied, 113 lb. proof load.

Footrest Durability Test:

200 lb. weight applied along a 4" length of the footrest, 50,000 cycles.

Footrest Vertical Static Load Test:

200 lb. functional load, 300 lb. proof load.

Arm Durability Test: Apply 90 lb. force at 10° angle for 60,000 cycles.

Out Stop Test for Chairs with Manually Adjustable Seat Depth:

163 lb. forward force with 55 lb. downward force for 25 cycles.

Tablet Arm Test—Static: 150 lb. load level for 1 minute.

Tablet Arm Load Ease Test—

Cyclic: 55 lb. dropped onto tablet center surface for 100,000 cycles.

ANSI/BIFMA

Public and Lounge Seating Tests (X5.4–2020)

The tests at right were developed by the Business and Institutional Furniture Manufacturer's Association (BIFMA) and approved by the American National Standards Institute (ANSI):

- X5.4–2020 Public and Lounge Seating Tests

These performance tests determine the stamina of seating in its day to day use. Individual tests are described at right.

Generally, Kimball seating products within this price list meet or exceed the applicable ANSI/BIFMA standards:

ANSI/BIFMA chair testing does not serve as a warranty or guarantee.

X5.4.5 Backrest Strength Test (Horizontal):

Functional Load—A force of 667 N (150 lbf.) per seating position shall be applied simultaneously for one (1) minute.

5.4.2 Proof Load—A force of 1112 N (250 lbf.) per seating position shall be applied simultaneously for 10 seconds.

X5.4.6 Backrest Strength Test (Vertical):

Functional Load—A force of 890 N (200 lbf.) shall be applied simultaneously to each backrest position (as determined by the number of seating positions for one (1) minute.

6.4.2 Proof Load—A force of 1334 N (300 lbf.) shall be applied simultaneously to each backrest position for 10 seconds.

X5.4.7 Backrest Durability Test (Horizontal):

The loading device shall be adjusted to apply a 334 N (75 lbf.) force to the backrest of each seating positions. When testing multiple-seating units, the forces shall be applied simultaneously. A weight of 108 kg (240 lb.) shall be secured in the center of each seating position. The loading device shall be cycled for 120,000 cycles.

X5.4.8 Backrest Durability Test (Vertical):

The loading device(s) shall be attached to apply an initially vertical downward force, centered on the apparent weakest point at the top of the backrest(s). Apply a 890 N (200 lbf.) force uniformly through an area 406 mm ± 13 mm (16 in. ± 0.5 in.) long by not less than the thickness of the backrest. The loading device shall be cycled for 10,000 cycles.

X5.4.9 Arm Strength Test (Horizontal):

A loading device or strap, not greater than 25 mm (1 in.) in horizontal width, shall be attached to the arm so that the load is initially applied horizontally to the armrest structure. The load shall be applied at the apparent weakest point of the armrest structure forward of the unit backrest, but not closer than 25 mm (1 in.) from an unsupported edge.

Functional Load—For units with a distance between the arms less than 889 mm (35 in.), a force of 445 N (100 lbf.) shall be applied for one (1) minute in the inward direction. For units with distance between the arms greater than or equal to 889 mm (35 in.), a force of 592 N (133 lbf.) shall be applied for one (1) minute in the inward direction.

Proof Load—For units with a distance between the arms less than 889 mm (35 in.), a force of 667 N (150 lbf.) shall be applied for 10 seconds in the inward direction. For units with distance between the arms greater than 889 mm (35 in.), a force of 890 N (200 lbf.) shall be applied for 10 seconds in the inward direction.

X5.4.10 Arm Strength Test (Vertical):

A loading adapter that is 127 mm (5 in.) long and at least as wide as the width of the arm shall be attached to the top of the arm rest such that the load will be applied at the apparent weakest point of the armrest structure that is forward of the backrest.

Functional Load—For units with armrest width of greater than 75 mm (3 in.) a force of 890 N (200 lbf.) shall be applied for one (1) minute. Remove the force. For units with an armrest width of less than or equal to 75 mm (3 in.), a force of 750 N (169 lbf.) shall be applied for one (1) minute. Remove the force.

10.4.2 Proof Load—For units with armrest width of greater than 75 mm (3 in.) a force of 1335 N (300 lbf.) shall be applied for 10 seconds. For units with an armrest width of less than or equal to 75 mm (3 in.), a force of 1125 N (253 lbf.) shall be applied for 10 seconds.

X5.4.11 Arm Durability Test (Horizontal):

A loading device or strap, not greater than 25 mm (1 in.) in horizontal width, shall be attached to the arm so that the load is initially applied horizontally in the outward direction to the armrest structure. The load shall be applied at the apparent weakest point of the armrest structure forward of the unit backrest, but not closer than 25 mm (1 in.) from an unsupported edge. Apply a 445 N (100 lbf.) force at an appropriate rate between 10 and 30 cycles per minute for 50,000 cycles.

ANSI/BIFMA

Public and Lounge Seating Tests (X5.4–2020)

X5.4.12 Arm Durability Test for Multiple Seating Units: The loading device shall be placed as close to the apparent weakest point of the armrest as possible, without extending beyond the front or rear of the arm. For arms less than 406 mm (16 in.) in length: The loading device shall apply a downward force, initially vertical, centered on the arm. Apply the force uniformly across a distance equal to the length of the arm. Apply a 667 N (150 lbf.) force at an appropriate rate between 10 and 30 cycles per minute. Apply and remove the force for 10,000 cycles.

X5.4.13 Arm Durability Test for Single Seat Units Angular: Simultaneously apply a force of 400 N (90 lbf.) to each arm initially at a $10^\circ \pm 1^\circ$ angle as shown in Figure 13b. The arm loading device must follow the arm as it deflects or pivots. The fixture linking the arm loading device to the armrest pad shall stay in contact with the arm pad throughout the loading cycle. If using a test device similar to that shown in Figure 13a, the load application distance must initially be the length specified in the figure. Other methods of applying the load are acceptable if the force and angle applications are equivalent. The force shall be applied and removed for 60,000 cycles.

X5.4.14. Seating Durability Test: A 406 mm (16 inch) diameter test bag weighing 57 kg (125 lb.) shall be attached to a cycling device, permitting a free fall to the seat as shown in Figure 14. The free fall shall begin

after lifting the test bag 97 mm (3.8 in.) above its “at rest” position but not to exceed 36 mm (1.4 in.) above the uncompressed surface on the seat (as measured at the center of the seat). All seats not being cycled shall be loaded with 109 kg (240 lb.) of weight per seat. Each seating position shall be tested to 100,000 cycles.

X5.4.15 Drop Test (225/300 lb. 6 in.):

Functional Load—

- The test bag shall be raised 152 mm (6 in.) above the uncompressed seat and released one (1) time. See Figures 15a and 15b.
- Remove the bag and repeat setup and functional procedures for each remaining seating position.

Proof Load—

- Repeat the setup and increase the weight of the test bag to a proof load of 136 kg (300 lb.).
- The test bag shall be raised 152 mm (6 in.) above the uncompressed seating position and released one (1) time.
- Remove the bag and repeat setup and proof procedures for each remaining seating position.

X5.4.16 Leg Strength Tests:

Functional Load—A force of 334 N (75 lbf.) shall be applied once to each front leg individually for one (1) minute.

Proof Load—A force of 503 N (113 lbf.) or a force equal to the weight of the entire unit, whichever is greater. Peak of 150 lb.

5.4.17 Unit Drop Test: Lift one end of the unit to the specified height per Table 2 or to the balance point whichever comes first and allow it to drop freely so it lands squarely.

Drop Height for Lounge Seating (Unit Weight Drop Height)—

- <45 kg (100 lbs.) 180 mm (7.1 in.)
- 45–90 kg (100–200 lbs.) 120 mm (4.7 in.)
- >90 - 136 kg (200 - 300 lbs.) 60 mm (2.4 in.)
- >136 kg (300 lbs.) n/a

X5.4.18 Caster/Unit Base

Durability Test: Place a 125 kg (275 lb.) load on the seat of the unit. The unit or unit base shall be cycled 500 cycles over the obstacles and then 25,000 cycles on a smooth, hard surface without obstacles. At the conclusion of cycling, a 22 N (5 lbf.) pull force shall be applied to each caster in line with the caster stem centerline.

X5.4.19 Swivel Test: A 125 kg (275 lb.) load shall be placed on the seat such that the center of gravity of the load is 51 mm, +13 mm, -0 mm (2 in., +0.5 in., -0 in.) forward or rearward of the center line of the spindle. The seat or platform shall rotate for 120,000 cycles.

X5.4.20 Tilt Mechanism Test:

A test load of 125 kg (275 lb.) shall be secured on the center of the seat. The unit shall be cycled for 200,000 cycles at an appropriate rate between 10 and 30 cycles per minute. The tilt mechanism should be checked and readjusted as needed to maintain the original conditions.

X5.4.21 Stability Test:

The same as X5.1.11

X5.4.22 Tablet Arm Load Ease

Test: A 245 N (55 lb.) force applied through a 203 mm ± 13 mm (8.0 in. ± 0.51 in.) diameter area centered on the writing area of the tablet for a total of 100,000 cycles.

X5.4.23 Tablet Arm Load Test:

Apply the load through a 203 mm ± 13 mm (8.0 in. ± 0.51 in.) diameter area 25 mm (1 in.) from the edge of the surface at its apparent weakest point. Apply a load of 68 kg. (150 lb.) at the location described in 23.3 b) for one (1) minute and remove the load.

Chairs are available with a maple hardwood veneer wrap.

Wood legs are beech hardwood and available in a variety of wood finishes.

Details

Anora seating is offered in chair, loveseat, and sofa sizes.

Contrasting upholstery may be specified on four areas:

- = Inside back
- = Seat
- = Boxing (front)
- = Outside back

Chairs with wood wrap feature a section of accent upholstery on the back of the chair that may be specified in a contrasting color:

- = Accent upholstery
- = Wood wrap

Seat height	16¾"–20¼"
Seat width	21¼"
Seat depth	18"
Arm height	24½"–28"

Arms are polyurethane.

Knee-tilt control with two-position back lock and tension control is standard.

Five-star base with polished aluminum finish features black, dual-wheel casters.

Adjustability Features

	High Back	Mid- Back
Knee tilt	•	•
Swivel	•	•
Pneu. height	•	•
Tension control	•	•
2-position back lock	•	•

• standard

Knee tilt control provides minimal rise of the front seat edge when reclining, allowing the user's feet to remain firmly on the floor. Back may be locked in a full upright position by pushing in tilt lever. Recommended for users weighing 275 lbs. or less.

Pneumatic height adjustment allows user to raise or lower the seat height with a control lever while seated. Upward movement of lever located beneath the seat activates a gas cylinder to quickly adjust the chair.

Details

Entourage is a modular system featuring multiple pieces and offering a variety of configurations.

➤ See page 6.3 for typical configurations.

Contrasting upholstery may be specified on the back and seat.

■ = Back

■ = Seat

Upholstery is applied to Entourage railroad style.

Units can be ganged together utilizing optional ganging brackets; there is no upcharge. Ganging brackets, if specified, will ship attached to the unit; they cannot be field installed. Ganging is achieved by simply lifting and joining the mating brackets.

Base extends the complete perimeter of each lounge model and features a chrome finish.

Outside arm panels feature wood veneer with polished nickel detail under the seat rail. Inside arm panels are upholstered.

Frame and legs are made of solid maple hardwood.

Backs of all LSM seating features a semi-attached cushion back.

Seat on lounges features a loose seat cushion.

Rail trim features a polished nickel finish.

Details

LSM seating is offered in lounge chair, loveseat, and sofa models, as well as a side chair.

Contrasting upholstery may be specified:

- = Inside back
- = Seat
- = Arms and front rail
- = Outer back

LSM occasional tables are available in coffee and end table sizes to complement LSM lounge and side seating. Tables feature solid hardwood rails and legs and veneer top.

Shell on all models is rigid polyurethane. Available in:

- Anthracite
- Bi-color (Warm white on the exterior; taupe on the interior)
- Warm White

Metal legs and sled bases are available in:

- Anthracite
- Chrome
- Warm White

Spider base is available in:

- Anthracite
- Polished Aluminum/Black
- Warm White

Non-skid, nylon glides are standard on all models, except model with casters.

5-star base gives 5" of height adjustment and swivels 360° (no tilt). Base is polished aluminum with black polyurethane, anti-stain, non-marking halo casters.

Details

Portata models ship ready to assemble.

Shell attaches to legs or base with four screws.

Wood-leg side chair features beech legs with a natural finish. Metal frame under the shell will match the exterior shell color.

Swivel chair with 5-star base and casters features a cylinder that inserts into the base and seat.

Portata chairs ship ready to assemble. Shell and base ship in separate cartons.

Superkool™

Overview

Planning

Statement of Line	➤ See page 14.1
Planning	14.3
Pricing	14.4
Surface Materials	16.1

Superkool is an extensive line offering low- and high-back seating in lounge and side models. Lounge chairs and ottomans are offered with three base options:

- Metal sled base
- Maple wood four-leg base
- Four-star base (swivels on chairs)

Superkool side chairs are a smaller scale chair than lounges; they are available in four base options:

- Metal sled base
- Beech wood four-leg base
- Four-star swivel base
- Five-star adjustable-height base with casters

Four-star base swivels 360° and features a chrome finish.

Plastic glides are standard on four-star swivel base and sled bases.

Seat and back are fully upholstered.

Four-leg base is solid hardwood and available in a variety of wood finishes.

Superkool side chairs are offered in five-star adjustable-height, swivel-tilt base with casters, along with the other bases shown.

Details

Contrasting upholstery may be specified on high-back models:

■ = Upper back

■ = Lower back, arms, and seat

Superkool ottomans feature a "roundish," upholstered cushion to complement lounge chairs. Offered in sled, four-leg, and four-star base models.

Superkool round tables are available in three heights and feature a chrome, four-star base. Tops are solid maple hardwood and available in Frosty White paint or wood finishes.

TB133

Models that meet TB133 requirements are available in select upholstery.

➤ Contact **By Design**.

How to Specify

① Model

Back:

- ② Upholstery grade
- ③ Upholstery number

Seat:

- ④ Upholstery grade
- ⑤ Upholstery number

Frame:

- ⑥ Wood finish price group (include for beech frames only):
STD = Group 1
- ⑦ Wood finish designator for beech frames or
CR = Clear for walnut frames

Decorative Stitching:

- ⑧ Thread color:
➤ See page 16.3

Note: When specifying walnut frame model with a clear finish, the natural wood characteristics of walnut veneer are visible. These characteristics include, but are not limited to, color and woodgrain variation.

TB133

Models that meet TB133 requirements are available in select upholstery.

▶ Contact **By Design**.

How to Specify

For each upholstery grade step in the model specification, combine the Alliance partner designator and fabric grade as follows:

ARC[grade] = Arc Com
CAR[grade] = Carnegie
CFS[grade] = CF Stinson
MHM[grade] = Maharam
MAF[grade] = Mayer Fabrics
MOM[grade] = Momentum
ULT[grade] = Ultrafabrics

▶ See the corresponding Kimball upholstery pricing page for complete "How to Specify" steps.

IMPORTANT: Orders cannot be cancelled for chairs specified with Alliance Program upholstery.

COM/COL Yardage Requirements

Surface Materials

At-a-Glance	▶ See page 2.1
Products	3.1
Surface Materials	16.1

Kimball has analyzed each model to most accurately reflect the COM/COL yardage requirements shown at right. The yardage requirement for each model is based on 54"W fabric and cutting the fabric up the roll, except for Entourage which is cut railroaded.

For widths other than 54", increase the yardage requirement by the factors below:

<i>Fabric width</i>	<i>Increase yardage</i>
50"–53"	15%
48"–49"	30%
45"–47"	45%

If repeat is larger than 18", contact Customer Service to confirm the correct amount of yardage required.

When ordering 10 or more chairs in the same COM, yardage requirements may be reduced.

▶ Contact Customer Service.
