AVA® RYME™

Béton Iron

Featuring 16 popular colors to complement other AVA® collections, AVA® RYME™ offers large 9" x 48" loose-lay planks in contemporary and rustic classic oak designs, plus four unique concrete designs in 39.37" x 39.37" tiles. Quick and easy to install with less floor prep, RYME and RYME+ hide flooring imperfections better than standard glue down LVT.

An IXPE backing on RYME+ delivers natural acoustical properties, while both constructions feature a 22 mil wear layer with our patented AMP Advantage Finish.

EIR Embossing

The RYME Alpine and Tuscany palettes have an EIR embossing which stands for Embossed in Register.

EIR is a manufacturing method that creates a grain appearance consistent with the look of a real hardwood grain. This process aligns the embossing on the sheet with the printed wood grain design and intensifies the visual impact of the depth, texture and appearance of the floor while still providing durability and ease of maintenance.
